[In the case of the Rate of Interest linked to a CMS rate the following may be inserted:]

["**Rate of Interest**"] means in respect of the Interest Payment Date:

[●].

Where

The "[●] **CMS**" means, the annual swap rate for [●] denominated Swap transactions with a maturity of [●] years, expressed as a percentage, which appears on the Reuters Page at or around 11:00 a.m. Frankfurt time on the relevant Valuation Date, as determined by the Calculation Agent.

Falls dieser Satz am *Bewertungstag* nicht auf der *Reuters Bildschirmseite* um oder gegen 11:00 Uhr Frankfurter Zeit erscheint, berechnet die *Berechnungsstelle* den [●] CMS auf der Grundlage der mid-market jährlichen Swap-Satz-Quotierung, wie sie von den *Referenzbanken* um oder gegen 11:00 Uhr (Frankfurter Zeit) an diesem *Bewertungstag* zur Verfügung gestellt wird.

Hierbei steht die mid-market jährliche Swap-Satz-Quotierung für das arithmetische Mittel der Geld- und Briefkurse für den jährlichen Festzinsteil (annual fixed leg), berechnet auf der Grundlage des 30/360 Zinstagequotienten, einer fest-für-variabel Euro Zinssatz Swap Transaktion in Höhe des *Repräsentativbetrages*, mit einer Laufzeit von [●] Jahren, die am betreffenden *Bewertungstag* beginnt, vereinbart mit einem Händler mit guter Reputation auf dem Swapmarkt, wobei der variable Zinsteil (floating leg), jeweils berechnet auf der Grundlage des *Actual/360* Zinstage-Quotienten, der *EUR-EURIBOR-Reuters-Rate* mit einer vorgesehenen Fälligkeit von [6 Monaten] entspricht.

Die *Berechnungsstelle* wird die Hauptniederlassung jeder *Referenzbank* auffordern, eine entsprechende Quotierung abzugeben. Der Satz in Bezug auf die betreffende *Zinsperiode* beträgt das arithmetische Mittel aller so erhaltenen Quotierungen.

"Reuters Bildschirmseite" steht in Bezug auf den [●] CMS für die Reuters Seite [●] oder für eine andere Seite, die diese bei diesem Informationsdienst oder einem anderen Informationsdienst ersetzt, in jedem Fall wie von der *Berechnungsstelle* bzw. derjenigen Person oder Organisation angegeben, welche die an der entsprechenden Stelle erscheinenden Informationen zur Anzeige von Sätzen oder Preisen, die mit dem [●] CMS vergleichbar sind, zur Verfügung stellt oder vertreibt.

"Referenzbanken" steht (i) in Bezug auf den [●] CMS für [fünf] [●] führende Swap Händler im *Euro-Raum* Interbanken Markt und in Bezug auf *EUR-EURIBOR-Reuters-Rate* (ii) für [vier][●] von der *Berechnungsstelle* im Euro-Raum Interbanken Markt ausgewählte Großbanken.

"Repräsentativbetrag" steht, in Bezug auf den [●] CMS und einen *Bewertungstag*, für einen Betrag, der für eine einzelne Transaktion am maßgeblichen Markt zur entsprechenden Zeit repräsentativ ist.

"EUR-EURIBOR-Reuters-Rate" bedeutet, dass der Satz für einen *Bewertungstag* der Satz für Einlagen in Euro für den Zeitraum von

If such rate does not appear on the Reuters Page at or around 11:00 a.m. Frankfurt time on a Valuation Date, the [●] CMS will be a percentage determined by the Calculation Agent on the basis of the mid-market annual swap rate quotations provided by the Reference Banks at approximately 11:00 a.m. Frankfurt time on that Valuation Date.

For this purpose the mid-market annual swap rate means the arithmetic mean of the bid and offered rates for the annual fixed leg, calculated on a 30/360 day count basis, for a fixed-for-floating euro interest rate swap transaction with a [●]-year term commencing on such Valuation Date and in a Representative Amount with an acknowledged dealer of good credit in the swap market, where the floating leg, calculated on an Actual/360 day count basis, is equivalent to EUR-EURIBOR-Reuters-Rate with a designated maturity of [six months].

The Calculation Agent will request the principal office of each of the Reference Banks to provide a quotation of its rate. The Rate of Interest for the relevant Interest Period will be the arithmetic mean of the quotations so provided.

"Reuters Page" means with respect to the [●] CMS, Reuters page [●] or such other page as may replace it on that information service or on such other information service, in each case as nominated by the Calculation Agent or as may be nominated by the person or organisation providing or sponsoring the information appearing there for the purpose of displaying rates or prices comparable to [●] CMS.

"Reference Banks" means (i) with respect to the [●] CMS [five][●] leading swap dealers in the Euro-zone interbank market, and (ii) with respect to EUR-EURIBOR-Reuters-Rate, [four][●] major banks selected by the Calculation Agent in the Euro-zone interbank market.

"Representative Amount" means, with respect to the [●] CMS and a Valuation Date, an amount that is representative for a single transaction in the relevant market at the relevant time.

"EUR-EURIBOR-Reuters-Rate" means that the rate for a Valuation Date will be the rate for deposits in euro for a period of [six months] which

[6 Monaten] ist, der um 11:00 Uhr Brüsseler Zeit auf der *Reuters Seite* [●] an dem *Bewertungstag* erscheint. Falls der Satz auf der *Reuters Seite* [●] nicht erscheint, wird der Satz für den entsprechenden *Bewertungstag* so bestimmt, als hätten die Parteien "*EUR-EURIBOR-Referenzbanken*" als anwendbaren Zinssatz vereinbart.

"EUR-EURIBOR-Referenzbanken" bedeutet, dass der Zinssatz für einen *Bewertungstag* auf der Grundlage des Zinssatzes bestimmt wird, zu dem *Referenzbanken* um 11:00 vormittags, Brüsseler Zeit an dem *Bewertungstag*, erstklassigen Banken im Eurozonen Interbankenmarkt Einlagen in Euro für den Zeitraum von [6 Monaten], beginnend mit dem *Bewertungstag* und in Höhe des *Repräsentativen Betrages*, anbieten, ausgehend von einer Zinsberechnung auf Basis eines Quotienten von *Actual/360*. Die *Berechnungsstelle* wird von jeder *Referenzbank* bei deren Hauptsitz in der *Eurozone* die entsprechenden Quotierungen ihres jeweiligen Zinssatzes einholen. Sofern mindestens zwei Quotierungen zur Verfügung stehen, ist der Zinssatz für den *Bewertungstag* das arithmetische Mittel der beiden Quotierungen. "EUR-EURIBOR-Reference Banks" means that the rate for a Valuation Date will be determined on the basis of the rates at which deposits in euros are offered by the Reference Banks at approximately 11:00 a.m., Brussels time, on the Valuation Date to prime banks in the Euro-zone interbank market for a period of [six months] commencing on that Valuation Date and in a Representative Amount, assuming an Actual/360 day count basis. The Calculation Agent will request the principal Euro-zone office of each of the Reference Banks to provide a quotation of its rate. If at least two quotations are provided, the rate for that Valuation Date will be the arithmetic mean of the quotations. If fewer than two quotations are provided as requested, the rate for that Valuation Date will be the arithmetic mean of the rates quoted by major banks in the Euro-zone, selected by the Calculation Agent, at approximately 11:00 a.m., Brussels time, on that Valuation Date for loans in euros to leading European banks for a period of [six months] commencing on that Valuation Date and in a Representative Amount.

"Euro-zone" means the region comprised of member states of the European Union that adopt the euro as single currency in accordance with the Treaty establishing the European Community, as amended.

"Actual/360" means the actual number of days in the relevant Interest Period divided by 360.]

Anleihegläubiger sollten beachten, dass der Termin, zu dem sie tatsächlich Inhaber der *Aktien* werden, aus denen ihr *Aktienbetrag* besteht, u.a. von den Verfahren der maßgeblichen Clearingsysteme und etwaigen Aktienregisterstellen und den Auswirkungen etwaiger *Abrechnungsstörungen* abhängt.

Die *Emittentin* ist zu keiner Zeit einem *Anleihegläubiger* gegenüber verpflichtet, Rechenschaft in Bezug auf Beträge oder Ansprüche, die sie im Wege einer Dividende oder sonstigen Ausschüttung in Bezug auf *Aktien* erhält, abzulegen. Dividenden und Ausschüttungen in Bezug auf die *Aktien*, die einen *Potentiellen Anpassungsgrund* darstellen, können jedoch dazu führen, dass eine Anpassung gemäß § 5[(n)] der *Bedingungen* vorgenommen wird.

Noteholders should note that the actual date on which they become holders of the Shares comprising their Share Amount will depend, among other factors, on the procedures of the relevant clearing systems and any share registrar and the effect of any Settlement Disruption Events.

The Issuer shall not at any time be obliged to account to a Noteholder for any amount or entitlement that it receives by way of a dividend or other distribution in respect of any of the Shares. Dividends and distributions in respect of the Shares which constitute a Potential Adjustment Event may however result in an adjustment being made pursuant to Condition 5[(n)] of Conditions.

Neither the Issuer nor any other person shall (a) be under any obligation to deliver (or procure any other person to deliver) to the Noteholders or any other person any letter, certificate, notice, circular or any other document received by that person in its capacity as the holder of the Shares, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to the Shares or (c) be under any liability to the Noteholders or any subsequent beneficial owners of the Shares in respect of any loss or damage which any Noteholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person registered at any time as the legal owner of the Shares.

In diesem Fall ist der *Aktienliefertag* derjenige Tag, den *Emittentin* im Zusammenhang mit der Lieferung des *Aktienbetrags* in der jeweiligen kaufmännisch vernünftigen Weise für geeignet hält. Kein *Anleihegläubiger* hat Anspruch auf etwaige Zahlungen, seien es Zins- oder sonstige Zahlungen, auf die jeweilige *Schuldverschreibung* in Zusammenhang mit der Verzögerung der Lieferung des entsprechenden *Aktienbetrages* gemäß diesem Abschnitt, wobei jedwede diesbezügliche Haftung der *Emittentin* ausgeschlossen ist.

Soweit eine *Abrechnungsstörung* nicht alle *Aktien* betrifft, aus denen der *Aktienbetrag* besteht, sondern nur einige davon, ist der *Aktienliefertag* für diejenigen *Aktien*, aus denen der *Aktienbetrag* besteht und die nicht von der *Abrechnungsstörung* betroffen sind, der ursprünglich benannte *Aktienliefertag*.

No Noteholder shall be entitled to any payment whether of interest or otherwise on such Note in the event of any delay in the delivery of the Share Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Shares comprising the Share Amount, the Share Delivery Date for the Shares comprising such Share Amount which are not affected by the Settlement Disruption Event will be the originally designated Share Delivery Date.

For so long as delivery of the Share Amount in respect of any Note is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 10 of the Conditions. (ii) Settlement Disruption

If the Issuer determines that delivery of any Share Amount (or part thereof) in respect of any Note by the Issuer in accordance with the terms and conditions of the Notes is not practicable or permitted by reason of a Settlement Disruption Event subsisting, then the Share Delivery Date in respect of such Share Amount (or part thereof) shall be postponed to the first following Delivery Day in respect of which no such Settlement Disruption

Soweit eine *Abrechnungsstörung* nicht alle *Aktien* betrifft, aus denen der *Aktienbetrag* besteht, sondern nur einige davon, ist der *Aktienliefertag* für diejenigen *Aktien*, aus denen der *Aktienbetrag* besteht, die nicht von der *Abrechnungsstörung* betroffen sind, der ursprünglich benannte *Aktienliefertag*.

Solange die Lieferung des *Aktienbetrages* (oder eines Teils davon) in Bezug auf eine *Schuldverschreibung* wegen einer *Abrechnungsstörung* nicht durchführbar oder zulässig ist, kann die *Emittentin* anstelle einer physischen Lieferung und unbeschadet sonstiger Bestimmungen dieser Bedingungen ihre Verpflichtungen in Bezug auf die betreffende *Schuldverschreibung* nach billigem Ermessen durch Zahlung des *Barausgleichspreises bei Störung* an den betreffenden *Anleihegläubiger* am dritten *Geschäftstag* nach dem Tag, an dem diese Entscheidung den *Anleihegläubigern* gemäß § 10 der *Bedingungen* mitgeteilt wird, erfüllen. Die Zahlung des *Barausgleichspreises bei Störung* erfolgt in der den *Anleihegläubigern* entsprechend § 10 der *Bedingungen* mitgeteilten Art und Weise.

No Noteholder shall be entitled to any payment whether of interest or otherwise on such Note in the event of any delay in the delivery of the Share Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Shares comprising the Share Amount, the Share Delivery Date for the Shares comprising such Share Amount which are not affected by the Settlement Disruption Event will be the originally designated Share Delivery Date:

For so long as delivery of the Share Amount (or part thereof) in respect of any Note is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its reasonable discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 10 of the Conditions. (ii) Nicht-Vorhergesehener Feiertag

Stellt die *Emittentin* fest, dass an einem *Vorgesehenen Bewertungstag* oder einem anderen Tag, an dem ein Betrag unter Bezug auf den *Primären Devisenkurs* zu bestimmen ist, ein *Nicht-Vorhergesehener Feiertag* eingetreten ist oder andauert, so wird die Berechnung des *Maßgeblichen FX-Betrags* auf den nächsten *Geschäftstag* verschoben, der kein *Nicht-Vorhergesehener Feiertag* ist; eine derartige Verschiebung erfolgt jedoch nicht über einen Zeitraum von mehr als [30 Kalendertagen] **[anderen Zeitraum angeben]** nach diesem *Vorgesehenen Bewertungstag* bzw. anderen Tag.

Allerdings wird keine Gewähr dafür übernommen, dass die Kursstabilisierende Stelle (oder eine Person, die im Namen der Kursstabilisierenden Stelle handeln) tatsächlich derartige Stabilisierungsmaßnahmen vornehmen wird. Stabilisierungsmaßnahmen können an oder nach dem Tag beginnen, an dem die Endgültigen Bedingungen für das Angebot der betreffenden Schuldverschreibungen in angemessener Weise (falls es sich um Wandelanleihen (convertible bonds) oder Umtauschanleihen (exchangeable bonds) oder um andere Schuldverschreibungen handelt, die in aktienähnliche Wertpapiere getauscht werden können) oder an dem Bedingungen (in allen übrigen Fällen) für das Angebot der Tranche der Schuldverschreibungen öffentlich bekannt gemacht werden und dürfen jederzeit beendet werden, müssen jedoch spätestens 30 Kalendertage nach dem Tag der Ausgabe der betreffenden Tranche der Schuldverschreibungen oder, sollte dieser Zeitpunkt vor dem vorgenannten Zeitpunkt eintreten, 60 Kalendertage nach der Zuteilung der betreffenden Schuldverschreibungen beendet*

Stabilisierungsmaßnahmen können an oder nach dem Tag beginnen, an dem die Endgültigen Bedingungen für das Angebot der betreffenden Schuldverschreibungen in angemessener Weise (falls es sich um Wandelanleihen (convertible bonds) oder Umtauschanleihen (exchangeable bonds) oder um andere Schuldverschreibungen handelt, die in Aktien oder aktienähnliche Wertpapiere getauscht werden können) oder an dem Bedingungen (in allen übrigen Fällen) für das Angebot der Tranche der Schuldverschreibungen öffentlich bekannt gemacht werden, und dürfen jederzeit beendet werden, müssen jedoch spätestens 30 Kalendertage nach dem Tag der Ausgabe der betreffenden Tranche der Schuldverschreibungen oder, sollte dieser Zeitpunkt vor dem vorgenannten Zeitpunkt eintreten, 60 Kalendertage nach der Zuteilung der betreffenden Schuldverschreibungen beendet sein. Die Schuldverschreibungen werden nur dann als Sicherheiten akzeptiert, wenn sie die die

(the “Issuer”), The Bank of New York Mellon, London Branch, in alliance with ING Bank N.V. acting through its subdivision ING Wholesale Banking Securities Services, as principal warrant agent (the “Principal Warrant Agent”, which expression shall include any additional or successor principal warrant agent) and the other warrant agents named therein (together with the Principal Warrant Agent, the “Warrant Agents”, which expression shall include any additional or successor warrant agents). References herein to “Norwegian Warrants” shall be references to any issue of Warrants designated by the Global Issuer as “Norwegian Warrants” in item 39 (“Any other special conditions and any modification to the Conditions of the Warrants”) of the relevant Final Terms. The Issuer shall undertake the duties of calculation agent (the “Calculation Agent”) in respect of the Warrants as set out below and in the applicable Final Terms unless another entity is so specified as calculation agent in the applicable Final Terms. The expression Calculation Agent shall, in relation to the relevant Warrants, include such other specified calculation agent.

No Warrants in definitive form will be issued. The Global Warrant has been deposited with a depositary (the “Common Depositary”) common to Clearstream Banking, société anonyme (“Clearstream, Luxembourg”) and Euroclear Bank S.A./N.V. The Swedish Warrants will be registered in uncertificated book entry form with a Swedish Central Securities Depository which is expected to be Euroclear Sweden AB, Regeringsgatan 65, Box 7822, SE-103 97 Stockholm, Sweden (“Euroclear Sweden”). The applicable Final Terms for the Warrants are attached to the Global Warrant and supplement these Terms and Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, supplement, replace or modify these Terms and Conditions for the purposes of the Warrants.

References herein to the “applicable Final Terms” are to the Final Terms attached to the Global Warrant.

Copies of the Warrant Agreement and the applicable Final Terms may be obtained during normal office hours from the specified office of the Issuer.

Words and expressions defined in the Warrant Agreement or used in the applicable Final Terms shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated.

The Warrantholders (as defined in Condition 1(B)) are entitled to the benefit of and are deemed to have notice of and are bound by all the provisions of the Warrant Agreement (insofar as they relate to the Warrants) and the applicable Final Terms, which are binding on them.

1 Type, Title and Transfer

(A) Type

The Warrants are Index Warrants, Share Warrants, Debt Warrants, Currency Warrants, Commodity Warrants or any other or further type of warrants as is specified in the applicable Final Terms. Certain terms which will, unless otherwise varied in the applicable Final Terms, apply to Index Warrants, Share Warrants, Debt Warrants, Commodity Warrants and Currency Warrants are set out in Condition 15.

The applicable Final Terms will indicate whether the Warrants are American style Warrants (“American Style Warrants”) or European style Warrants (“European Style Warrants”) or such other type as may be specified in the applicable Final Terms, whether settlement shall be by way of cash payment (“Cash Settled Warrants”) or physical delivery (“Physical Delivery Warrants”), whether the Warrants are call Warrants (“Call Warrants”) or put Warrants (“Put Warrants”), or such other type as may be specified in the applicable Final Terms, whether the Warrants may only be exercised in Units and whether Averaging (“Averaging”) will apply to the Warrants. If Units are specified in the applicable Final Terms, Warrants must be exercised in Units and any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect. If Averaging is specified as applying in the applicable Final Terms, the applicable Final Terms will state the relevant Averaging Dates.

References in these Terms and Conditions, unless the context otherwise requires, to Cash Settled Warrants shall be deemed to include references to Physical Delivery Warrants which include an option (as set out in the applicable Final Terms) at the Issuer’s election to request cash settlement of such Warrants and where settlement is to be by way of cash payment, and references in these Terms and Conditions, unless the context otherwise requires, to Physical Delivery Warrants shall be deemed to include references to Cash Settled Warrants which include an option (as set out in the applicable Final Terms) at the Issuer’s election to request physical delivery of the relevant underlying asset in settlement of such Warrants and where settlement is to be by way of physical delivery.

Warrants may allow holders to elect for settlement by way of cash payment or by way of physical delivery or by such other method of settlement as is specified in the applicable Final Terms. Those Warrants where the holder has elected for cash payment will be Cash Settled Warrants and those Warrants where the holder has elected for physical delivery will be Physical Delivery Warrants. The rights of a holder as described in this paragraph may be subject to the Issuer’s right to vary settlement as indicated in the applicable Final Terms.

(B) Title to Warrants

Each person who is for the time being shown in the records of Clearstream, Luxembourg or of Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms as the holder of a particular amount of Warrants (in which regard any certificate or other document issued by Clearstream, Luxembourg or Euroclear or such other clearing system(s) as to the amount of Warrants standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and the Warrant Agents as the holder of such amount of Warrants for all purposes (and the expressions “Warrantholder” and “holder of Warrants” and related expressions shall be construed accordingly).

(C) Transfers of Warrants

All transactions (including transfers of Warrants) in the open market or otherwise must be effected through an account at Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms subject to and in accordance with the rules and procedures for the time being of Clearstream, Luxembourg and/or of Euroclear and/or such other clearing system(s), as the case may be. Title will pass upon registration of the transfer in the books of Clearstream, Luxembourg and/or Euroclear and/or such other clearing system(s), as the case may be. Transfers of Warrants may not be effected after the exercise of such Warrants pursuant to Condition 5.

Any reference herein to Clearstream, Luxembourg and/or Euroclear and/or any other clearing system(s) specified in the applicable Final Terms shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Principal Warrant Agent from time to time and notified to the Warrantholders in accordance with Condition 10.

Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined above) of any Norwegian Warrant shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the holder. The Issuer shall be entitled to obtain information from the Register in accordance with Norwegian laws and regulations, and the Norwegian CSD Rules.

The Swedish Warrants are issued in uncertificated and dematerialised book-entry form in accordance with the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av*

The Swedish Warrants shall be regarded as other Warrants for the purposes of these Conditions save to the extent the Conditions are inconsistent with Swedish laws, regulations and operating procedures applicable to and/or issued by the Swedish central securities depository from time to time (the “Swedish CSD Rules”) designated as registrar (*Sw.: central värdepappersförvarare*) for the Swedish Warrants in the relevant Final Terms (which is expected to be Euroclear Sweden AB) (the “Registrar”). No physical global or definitive warrants or certificates will be issued in respect of Swedish Warrants and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply. In respect of Swedish Warrants, “Warrantholder” and “holder of Warrants” means the person in whose name a Swedish Warrant is registered in the Register and the reference to a person in whose name a Swedish Warrant is registered shall include also any person duly authorised to act as a nominee (*Sw. förvaltare*) and registered for the Warrants. Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined above) of any Swedish Warrant shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the holder. The Issuer shall be entitled to obtain information from the Register in accordance with the Swedish CSD Rules.

2 Status of the Warrants

The Warrants constitute direct, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

In that case (A) that eighth Scheduled Trading Day shall be deemed the Averaging Date for that Index or Share notwithstanding the fact that such day is a Disrupted Day in relation to such Index or Share and (B) the Calculation Agent shall determine the relevant level or amount for that Averaging Date in accordance with sub-paragraph (b) of the definition of “Valuation Date” below; and

- (x) in the case of Index Warrants, by determining the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange-traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of a relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day); or
 - (y) in the case of Share Warrants, in accordance with its good faith estimate of the Settlement Price that would have prevailed, but for the occurrence of the Disrupted Day, at the Valuation Time on that eighth Scheduled Trading Day; or
- (b) where the Warrants are Index Warrants relating to a Basket of Indices or Share Warrants relating to a Basket of Shares, the Valuation Date for each Index or Share, as the case may be, not affected by a Disrupted Day shall be the originally designated Valuation Date and the Valuation Date for each Index or Share, as the case may be, affected (each an “Affected Item”) by a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of the Affected Item, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the determination by the Calculation Agent of the occurrence of a Disrupted Day, would have been the Valuation Date is a Disrupted Day. In that case, (i) that eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the Affected Item notwithstanding the fact that such day is a Disrupted Day and (ii) the Calculation Agent shall determine the Settlement Price using, in relation to the Affected Item, in the case of an Index, the level of that Index determined in the manner set out in the applicable Final Terms, and, in the case of a Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using:
- (x) in the case of an Index, the level of that Index as of the Valuation Time on that eighth Scheduled Trading Day determined by the Calculation Agent by reference to the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange-traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of a relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day); or
 - (y) in the case of a Share, its good faith estimate of the price for the Affected Item that would have prevailed, but for the occurrence of the Disrupted Day, at the Valuation Time on that eighth Scheduled Trading Day

and otherwise in accordance with the above provisions.

American Style Warrants are exercisable on any Business Day during the Exercise Period.

Any American Style Warrant with respect to which no Exercise Notice (as defined below) has been delivered in the manner set out in Condition 5, at or prior to 10.00 a.m., Luxembourg or

Brussels time, as the case may be, on the last Business Day of the Exercise Period (the “Expiration Date”), shall become void, unless such American Style Warrant is a Cash Settled Warrant in which case (unless specified otherwise in the Final Terms) it shall be deemed to have been automatically exercised on the Expiration Date (subject to prior cancellation of the Warrants in accordance with Conditions 7 and 8 or in any Final Terms), and the Exercise Date for such Warrant shall be the Expiration Date.

The Business Day during the Exercise Period on which an Exercise Notice is delivered prior to 10.00 a.m. CET (or such other time as may be specified in the Final Terms) to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the Final Terms, as the case may be, and the copy thereof is received by the Warrant Agent, is referred to herein as the “Actual Exercise Date”. If any Exercise Notice is received by Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the Final Terms, as the case may be, or if the copy thereof is received by the Warrant Agent, in each case, after 10.00 a.m. CET (or such other time as may be specified in the Final Terms) on any Business Day during the Exercise Period, such Exercise Notice will be deemed to have been delivered on the next Business Day, which Business Day shall be deemed to be the Actual Exercise Date, provided that any such Warrant in respect of which no Exercise Notice has been delivered in the manner set out in Condition 5 at or prior to 10.00 a.m. CET (or such other time as may be specified in the Final Terms) on the Expiration Date shall become void (unless deemed to have been automatically exercised as provided above).

(ii) **European Style Warrants**

European Style Warrants are only exercisable on the Exercise Date.

Any European Style Warrant with respect to which no Exercise Notice has been delivered in the manner set out in Condition 5, at or prior to 10.00 a.m. CET (or such other time as may be specified in the Final Terms) on the Exercise Date, shall become void, unless such European Style Warrant is a Cash Settled Warrant in which case (unless provided otherwise in the Final Terms) it shall be deemed to have been automatically exercised on the Exercise Date (subject to prior cancellation of the Warrants in accordance with Conditions 7 and 8 or in any Final Terms), and the Exercise Date for such Warrants shall be the Exercise Date.

(B) **Cash Settlement**

If the Warrants are Cash Settled Warrants, each such Warrant or, if Units are specified in the applicable Final Terms, each Unit entitles its holder, upon due exercise (or upon automatic exercise as provided above), to receive from the Issuer on the Settlement Date a Cash Settlement Amount calculated by the Calculation Agent (which shall not be less than zero) equal to:

- (i) where Averaging is not specified in the applicable Final Terms:
 - (a) if such Warrants are Call Warrants, (Settlement Price less Exercise Price) multiplied by, in the case of Debt Warrants only, the Nominal Amount;
 - (b) if such Warrants are Put Warrants, (Exercise Price less Settlement Price) multiplied by, in the case of Debt Warrants only, the Nominal Amount; and
 - (c) (c) if such Warrants are neither Call Warrants nor Put Warrants, settlement will be as specified in the applicable Final Terms;
- (ii) where Averaging is specified in the applicable Final Terms:

- (a) if such Warrants are Call Warrants,

- (b) if such Warrants are Put Warrants,
(Exercise Price less the arithmetic mean of the Settlement Prices for all the Averaging Dates) multiplied by, in the case of Debt Warrants only, the Nominal Amount; and
- (c) if such Warrants are neither Call Warrants nor Put Warrants, settlement will be as specified in the applicable Final Terms.

The Cash Settlement Amount will be subject to deduction of Exercise Expenses, as provided in Condition 5(C)(i).

Any amount determined pursuant to the above, if not an amount in the Settlement Currency, will be converted into the Settlement Currency at the Exchange Rate specified in the applicable Final Terms for the purposes of determining the Cash Settlement Amount. The Cash Settlement Amount will be rounded to the nearest two decimal places (or, in the case of Japanese Yen, the nearest whole unit) in the relevant Settlement Currency, 0.005 (or, in the case of Japanese Yen, half a unit) being rounded upwards, with Warrants exercised at the same time by the same Warrantholder being aggregated for the purpose of determining the aggregate Cash Settlement Amount payable in respect of such Warrants or Units, as the case may be.

(C) *Physical Settlement*

(i) Exercise Rights in relation to Physical Delivery Warrants

If the Warrants are Physical Delivery Warrants, each such Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, entitles its holder, upon due exercise and subject to certification as to non-U.S. beneficial ownership, to receive from the Issuer on the Settlement Date the Entitlement subject to payment of the relevant Exercise Price and any other sums payable. The method of delivery of the Entitlement is set out in the applicable Final Terms.

Warrants or Units, as the case may be, exercised at the same time by the same Warrantholder will be aggregated for the purpose of determining the aggregate Entitlement in respect of such Warrants or Units, as the case may be, provided that the aggregate Entitlement in respect of the same Warrantholder will be rounded down to the nearest transferable unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and no cash adjustment will be made in respect thereof.

Following exercise of a Share Warrant which is a Physical Delivery Warrant, all dividends on the relevant Shares to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares executed on the relevant Actual Exercise Date and to be delivered in the same manner as such relevant Shares. Any such dividends to be paid to a Warrantholder will be paid to the account specified by the Warrantholder in the relevant Exercise Notice as referred to in Condition 5(A)(2)(vi).

(ii) Settlement Disruption

If, following the exercise of Physical Delivery Warrants, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Settlement Date, then such Settlement Date for such Warrants shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Warrant or Unit, as the case may be, by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Settlement Date for the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Settlement Date. In the event that a Settlement Disruption Event will result in the delivery on a Settlement Date of some but not all of the Relevant Assets comprising the Entitlement, the Calculation Agent shall determine the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Warrantholder in respect of that partial settlement. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Warrant or Unit, as the case may be, by payment to the relevant Warrantholder of the Disruption Cash Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Warrantholders in accordance with Condition 10. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10. The Calculation Agent shall give notice as soon as practicable to the Warrantholders in accordance with Condition 10 that a Settlement Disruption Event has occurred. No Warrantholder shall be entitled to any payment in respect of the relevant Warrant or Unit, as the case may be, in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer.

For the purposes hereof:

“Disruption Cash Settlement Price” in respect of any relevant Warrant or Unit, as the case may be, shall be the fair market value of such Warrant or Unit, as the case may be (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such Relevant Assets), less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant or Unit, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions, all as determined by the Calculation Agent, plus, if already paid, the Exercise Price (or, where as provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion); and

“Settlement Disruption Event” means, in the opinion of the Calculation Agent, an event beyond the control of the Issuer as a result of which the Issuer cannot reasonably make delivery of the Relevant Asset(s) using the method specified in the applicable Final Terms.

(D) Issuer's Option to Vary Settlement

If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the Warrants, upon a valid exercise of Warrants in accordance with these Terms and Conditions, the Issuer may in respect of each such Warrant or, if Units are specified in the applicable Final Terms, each Unit, elect not to pay the relevant Warrantholders the Cash Settlement Amount or to deliver or procure delivery of the Entitlement to the relevant Warrantholders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Entitlement or make payment of the Cash Settlement Amount on the Settlement Date to the relevant Warrantholders, as the case may be. Notification of such election will be given to Warrantholders no later than 10.00 a.m. (London time) on the second Business Day following the Actual Exercise Date.

(E) General

The Calculation Agent shall give notice to the holders of the Warrants, in accordance with Condition 10, of the occurrence of a Disrupted Day if it results in the postponement of any payment or delivery in respect of the Warrants.

The purchase of Warrants does not confer on any holder of such Warrants any rights (whether in respect of voting, distributions or otherwise) attaching to any Relevant Asset.

All references in this Condition to "CET" shall, where Warrants are cleared through an additional or alternative clearing system, be deemed to refer as appropriate to the time in the city where the relevant clearing system is located.

5 Exercise Procedure

(A) Exercise Notice

Unless deemed to be automatically exercised, Warrants may only be exercised by the delivery, or the sending by tested telex (confirmed in writing), of a duly completed exercise notice (an "Exercise Notice") in the form set out in the Warrant Agreement (copies of which form may be obtained from Clearstream, Luxembourg, Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms and the Warrant Agents during normal office hours) to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, with a copy to the Principal Warrant Agent in accordance with the provisions set out in Condition 4 and this Condition.

(1) In the case of Cash Settled Warrants, the Exercise Notice shall (among other things):

- (v) include an undertaking to pay all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising in connection with the exercise of such Warrants ("Exercise Expenses") and an authority to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms to deduct an amount in respect thereof from any Cash Settlement Amount due to such Warrantholder and/or to debit a specified account of the Warrantholder at Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, in respect thereof and to pay such Exercise Expenses; and
- (vi) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Warrant Agreement.

- (2) In the case of Physical Delivery Warrants, the Exercise Notice shall:
 - (i) specify the series number of the Warrants and the number of Warrants being exercised and, if Units are specified in the applicable Final Terms, the number of Units being exercised;
 - (ii) specify the number of the Warrantholder's account at Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to be debited with the Warrants being exercised;
 - (iii) irrevocably instruct Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to debit on or before the Settlement Date the Warrantholder's account with the Warrants being exercised;
 - (iv) irrevocably instruct Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to debit on the Actual Exercise Date a specified account of the Warrantholder with Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, with the aggregate Exercise Price in respect of such Warrants or Units, as the case may be (together with any other amounts payable);
 - (v) include an undertaking to pay all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising in connection with the exercise of such Warrants and/or the delivery or transfer of the Entitlement pursuant to the terms of such Warrants ("Exercise Expenses") and an authority to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms to debit a specified account of the Warrantholder at Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be

specified in the applicable Final Terms, as the case may be, in respect thereof and to pay such Exercise Expenses;

- (vi) include such details as are required by the applicable Final Terms for delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered and specify the name and the number of the Warrantholder's account with Euroclear or Clearstream, Luxembourg or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, to be credited with any cash payable by the Issuer, either in respect of any cash amount constituting the Entitlement or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event and the Issuer electing to pay the Disruption Cash Settlement Price;
- (vii) certify, *inter alia*, that the beneficial owner of each Warrant being exercised is not a U.S. person or exercising such Warrant on behalf of a U.S. person (as defined in the Exercise Notice); and
- (viii) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Warrant Agreement.

- (3) If Condition 4(D) applies, the form of Exercise Notice required to be delivered will be different from that set out above. Copies of such Exercise Notice may be obtained from Clearstream, Luxembourg, Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms and the Warrant Agents during normal office hours.

(B) *Verification of the Warrantholder*

Upon receipt of an Exercise Notice, Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, shall verify that the person exercising the Warrants is the holder thereof according to the books of Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be. Subject thereto, Clearstream, Luxembourg or Euroclear, as the case may be, will confirm to the Principal Warrant Agent the series number and number of Warrants being exercised and the account details, if applicable, for the payment of the Cash Settlement Amount or, as the case may be, the details for the delivery of the Entitlement of each Warrant or Unit, as the case may be, being exercised. Upon receipt of such confirmation, the Principal Warrant Agent will inform the Issuer thereof. Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, will on or before the Settlement Date debit the account of the relevant Warrantholder with the Warrants being exercised. If the Warrants are American Style Warrants, upon exercise of less than all the Warrants constituted by the Global Warrant, a depositary or common depositary for the relevant clearing system(s) will, on the instructions of, and on behalf of, the Principal Warrant Agent, note such exercise on the Schedule to the Global Warrant and the number of Warrants so constituted shall be reduced by the cancellation *pro tanto* of the Warrants so exercised.

(C) *Settlement*

- (i) Cash Settled Warrants

The Issuer shall on the Settlement Date pay or cause to be paid the Cash Settlement Amount (if any) for each duly exercised (or automatically exercised) Warrant or Unit, as the case may be,

to the Warrantholder's account specified in the relevant Exercise Notice for value on the Settlement Date less any Exercise Expenses.

(ii) **Physical Delivery Warrants**

Subject to payment of the aggregate Exercise Price and payment of any Exercise Expenses with regard to the relevant Warrants or Units, as the case may be, the Issuer shall on the Settlement Date deliver, or procure the delivery of, the Entitlement for each duly exercised Warrant or Unit, as the case may be, pursuant to the details specified in the Exercise Notice. Subject as provided in Condition 4(C), the Entitlement shall be delivered and evidenced in such manner as set out in the applicable Final Terms.

(D) *Determinations*

Any determination as to whether an Exercise Notice is duly completed and in proper form shall be made by Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, in consultation with the Principal Warrant Agent, and shall be conclusive and binding on the Issuer, the Warrant Agents and the relevant Warrantholder.

Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Warrant Agent immediately after being delivered or sent to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, as provided in paragraph (A) above, shall be null and void.

If such Exercise Notice is subsequently corrected to the satisfaction of Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, in consultation with the Principal Warrant Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction was delivered to Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms, as the case may be, and the Principal Warrant Agent.

Any Warrant with respect to which the Exercise Notice has not been duly completed and delivered in the manner set out above by the cut-off time specified in Condition 4(A)(i), in the case of American Style Warrants, or Condition 4(A)(ii), in the case of European Style Warrants, shall become void, unless (in the case of Cash Settled Warrants) deemed to have been automatically exercised (as described above).

Neither the Issuer nor the Warrant Agents shall be liable to any person with respect to any action taken or omitted to be taken by them in connection with any determination as to whether an Exercise Notice is complete or in proper form or the notification of such determination to a Warrantholder.

(E) *Delivery of an Exercise Notice*

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Warrantholder to exercise the Warrants specified. After the delivery of such Exercise Notice, such exercising Warrantholder may not transfer such Warrants.

(F) *Exercise Risk*

Exercise of the Warrants is subject to all applicable laws, regulations and practices in force on the relevant exercise date and none of the Issuer or any Warrant Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer or the Warrant Agents shall under any

circumstances be liable for any acts or defaults of Clearstream, Luxembourg or Euroclear or such other clearing system(s) as may be specified in the applicable Final Terms in relation to the performance of its duties in relation to the Warrants.

(G) *Exercise of Norwegian Warrants*

Notwithstanding any provisions to the contrary in this Condition 5, any Exercise Notice in respect of any Norwegian Warrants may only be exercised by the delivery, or the sending by tested telex (confirmed in writing) or otherwise in accordance with the Norwegian CSD Rules, of a duly completed Exercise Notice to the VPS Manager in respect of the relevant issue of Norwegian Warrants, with a copy to the Principal Warrant Agent in accordance with Conditions 4 and 5. The VPS Manager (or such other person designated by the then applicable Norwegian CSD Rules as responsible for such actions) shall perform the verification and confirmation referred to in Condition 5(B).

(H) *Exercise of Swedish Warrants*

Notwithstanding any provisions to the contrary in this Condition 5, any Exercise Notice in respect of any Swedish Warrants may only be exercised by the delivery, or the sending by tested telex (confirmed in writing) or otherwise in accordance with the Swedish CSD Rules, of a duly completed Exercise Notice to the Issuing Agent in respect of the relevant issue of Swedish Warrants, with a copy to the Principal Warrant Agent in accordance with Conditions 4 and 5. The Issuing Agent (or such other person designated by the then applicable Swedish CSD Rules as responsible for such actions) shall perform the verification and confirmation referred to in Condition 5(B).

6 Minimum and Maximum Number of Warrants Exercisable

(A) *American Style Warrants*

This paragraph (A) applies only to American Style Warrants.

- (i) The number of Warrants exercisable by any Warrantholder on any Actual Exercise Date, as determined by the Issuer, must not be less than the Minimum Exercise Number specified in the applicable Final Terms (if any) and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.
- (ii) If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Warrantholder or a group of Warrantholders (whether or not acting in concert) exceeds the Maximum Exercise Number (if any) (a number equal to the Maximum Exercise Number being the “Quota”), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants is exercised on the same day by Warrantholder(s), the order of settlement in respect of such Warrants shall be at the sole discretion of the Issuer.

(B) *European Style Warrants*

This paragraph (B) applies only to European Style Warrants.

The number of Warrants exercisable by any Warrantholder on the Exercise Date as determined by the Issuer must be not less than the Minimum Exercise Number (if any) specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.

7 Illegality

If the Issuer determines that the performance of its obligations under the Warrants or any arrangement made to hedge its obligations thereunder has become illegal or otherwise prohibited in whole or in part for any reason, the Issuer may cancel the Warrants by giving notice to Warrantholders in accordance with Condition 10.

Should any one or more of the provisions contained in these Terms and Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels the Warrants then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by such holder, which amount shall be the fair market value of a Warrant or Unit, as the case may be, notwithstanding such illegality or prohibition less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant or Unit, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid by or on behalf of the Warrantholder, the Exercise Price, all as determined by the Calculation Agent. Payment will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10.

8 Purchases

The Issuer may, but is not obliged to, at any time purchase Warrants at any price in the open market or by tender or private treaty. Any Warrants so purchased may be held or resold or surrendered for cancellation

9 Agents, Determinations and Modifications

(A) Warrant Agents

The specified offices of the Warrant Agents are as set out at the end of these Terms and Conditions.

The Issuer reserves the right at any time to vary or terminate the appointment of any Warrant Agent and to appoint further or additional Warrant Agents, provided that no termination of appointment of the Principal Warrant Agent shall become effective until a replacement Principal Warrant Agent shall have been appointed and provided that, so long as any of the Warrants are listed or admitted to trading on a stock exchange, there shall be a Warrant Agent having a specified office in each location (if any) required by the rules and regulations of the relevant stock exchange. Notice of any termination of appointment and of any changes in the specified office of any Warrant Agent will be given to Warrantholders in accordance with Condition 10. In acting under the Warrant Agreement, each Warrant Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantholders and any determinations and calculations made in respect of the Warrants by any Warrant Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Warrantholders.

So long as there are any Norwegian Warrants outstanding, there will at all times be a Register operated by a Registrar duly authorised as a central securities depository under the Norwegian Securities Registration Act and an issuing agent duly authorised as such under the Norwegian CSD Rules (the “VPS Manager”) (a VPS Account Manager, in Norwegian: *Kontofører Utsteder*), in respect of the relevant Norwegian Warrants.

So long as there are any Swedish Warrants outstanding, there will at all times be a Registrar duly authorised as a central securities depository under the Swedish Financial Instruments Accounts Act and an issuing agent duly authorised as such under the Swedish CSD Rules (the “Issuing Agent”), in respect of the relevant Swedish Warrants.

(B) Calculation Agent/Issuer

In relation to each issue of Warrants, the Calculation Agent (whether it be the Issuer or another entity) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Warrantholders. For the purposes of the Warrants, any determinations, calculations or other decisions made by the Calculation Agent and/or the Issuer under or pursuant to the terms of the Warrants shall be made in its/their sole and absolute discretion. All such determinations, calculations or other decisions of the Calculation Agent and/or the Issuer shall (save in the case of manifest error) be final, conclusive and binding on all parties, and neither the Calculation Agent nor the Issuer shall have any liability to any person therefor.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

(C) Modifications

The Issuer may modify these Terms and Conditions and/or the Warrant Agreement without the consent of the Warrantholders in any manner which the Issuer may deem necessary or desirable provided that such modification is not materially prejudicial to the interests of the Warrantholders or such modification is of a formal, minor or technical nature or to correct a manifest error or to cure, correct or supplement any defective provision contained herein and/or therein. Notice of any such modification will be given to the Warrantholders in accordance with Condition 10 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

10 Notices

All notices to Warrantholders shall be valid if delivered to Euroclear and Clearstream, Luxembourg or such other clearing system(s) as may be specified in the applicable Final Terms for communication by them to the holders of the Warrants and, in addition, for so long as any Warrants are listed or admitted to trading on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or other relevant authority). Notice shall be deemed to have been given to the holders of the Warrants on the first day after the day on which the said notice was given to Euroclear and Clearstream, Luxembourg or such other clearing system(s) as may be specified in the applicable Final Terms.

11 Expenses and Taxation

- (A) A holder of Warrants must pay all Exercise Expenses relating to such Warrants as provided above.
- (B) The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Warrant

and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

12 Further Issues

The Issuer shall be at liberty from time to time without the consent of Warrantholders to create and issue further Warrants so as to be consolidated with and form a single series with the outstanding Warrants.

13 Substitution of the Issuer

- (A) The Issuer may, without any further consent of the Warrantholders being required, when no payment or delivery obligation on any of the Warrants is in default, be replaced and substituted by any directly or indirectly wholly owned subsidiary of the Issuer (the “Substituted Obligor”) as principal obligor in respect of the Warrants provided that:
- (i) such documents shall be executed by the Substituted Obligor and the Issuer as may be necessary to give full effect to the substitution (together the “Documents”) and (without limiting the generality of the foregoing) pursuant to which the Substituted Obligor shall undertake in favour of each Warrantholder to be bound by the Terms and Conditions of the Warrants and the provisions of the Warrant Agreement as fully as if the Substituted Obligor had been named in the Warrants and the Warrant Agreement as the principal obligor in respect of the Warrants in place of the Issuer and pursuant to which the Issuer shall guarantee, which guarantee shall be unconditional and irrevocable, (the “Guarantee”) in favour of each Warrantholder the performance by the Substituted Obligor of all obligations under the Warrants;
 - (ii) the Documents shall contain a covenant by the Substituted Obligor and the Issuer to indemnify and hold harmless each Warrantholder against all liabilities, costs, charges and expenses (provided that insofar as the liabilities, costs, charges and expenses are taxes or duties, the same arise by reason of a law or regulation having legal effect or being in reasonable contemplation on the date such substitution becomes effective) which may be incurred by or levied against such holder as a result of any substitution pursuant to this Condition and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, such liabilities, costs, charges and expenses shall include any and all taxes or duties which are imposed on any such Warrantholder by any political sub-division or taxing authority of any country in which such Warrantholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);
 - (iii) the Documents shall contain a warranty and representation by the Substituted Obligor and the Issuer (a) that each of the Substituted Obligor and the Issuer has obtained all necessary governmental and regulatory approvals and consents for such substitution and the performance of its obligations under the Documents, and that all such approvals and consents are in full force and effect and (b) that the obligations assumed by each of the Substituted Obligor and the Issuer under the Documents are all valid and binding in accordance with their respective terms and enforceable by each Warrantholder;
 - (iv) each stock exchange which has Warrants listed or admitted to trading thereon shall have confirmed that following the proposed substitution of the Substituted Obligor such Warrants would continue to be listed or admitted to trading (as the case may be) on such stock exchange;
 - (v) the Substituted Obligor shall have delivered to the Principal Warrant Agent or procured the delivery to the Principal Warrant Agent of a legal opinion from a leading firm of local lawyers

acting for the Substituted Obligor to the effect that the Documents constitute legal, valid and binding obligations of the Substituted Obligor, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Obligor for the Issuer and to be available for inspection by Warrantholders at the specified office of the Principal Warrant Agent;

- (vi) the Issuer shall have delivered to the Principal Warrant Agent or procured the delivery to the Principal Warrant Agent of a legal opinion from the internal legal adviser to the Issuer to the effect that the Documents (including the Guarantee) constitute legal, valid and binding obligations of the Issuer, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Obligor for the Issuer and to be available for inspection by Warrantholders at the specified office of the Principal Warrant Agent;
 - (vii) the Issuer shall have delivered to the Principal Warrant Agent or procured the delivery to the Principal Warrant Agent of a legal opinion from a leading firm of English lawyers to the effect that the Documents (including the Guarantee) constitute legal, valid and binding obligations of the Substituted Obligor and the Issuer under English law, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Obligor for the Issuer and to be available for inspection by Warrantholders at the specified office of the Principal Warrant Agent;
 - (viii) the Substituted Obligor (if not incorporated in England) shall have appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Warrants or the Documents;
 - (ix) and further in respect of the Norwegian Warrants, the Registrar has given its consent to the substitution; and
 - (x) and further in respect of the Swedish Warrants, the Registrar has given its consent to the substitution (which consent shall not be unreasonably withheld or delayed).
- (B) In connection with any substitution effected pursuant to this Condition, neither the Issuer nor the Substituted Obligor need have any regard to the consequences of any such substitution for individual Warrantholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Warrantholder, except as provided in Condition 13(A)(ii), shall be entitled to claim from the Issuer or any Substituted Obligor under the Warrants any indemnification or payment in respect of any tax or other consequences arising from such substitution.
- (C) Upon the execution of the Documents as referred to in paragraph (A) above, and subject to the notification as referred to in paragraph (E) below having been given, the Substituted Obligor shall be deemed to be named in the Warrants as the principal obligor in place of the Issuer and the Warrants shall thereupon be deemed to be amended to give effect to the substitution. The execution of the Documents shall operate to release the Issuer as issuer from all of its obligations as principal obligor in respect of the Warrants save that any claims under the Warrants prior to release shall enure for the benefit of Warrantholders.
- (D) The Documents shall be deposited with and held by the Principal Warrant Agent for so long as any Warrants remain outstanding and for so long as any claim made against the Substituted Obligor by any Warrantholder in relation to the Warrants or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Obligor and the Issuer shall acknowledge in the Documents the right of every Warrantholder to the production of the Documents for the enforcement of any of the Warrants or the Documents.

- (E) Not later than 15 business days after the execution of the Documents, the Substituted Obligor shall give notice thereof to the Warrantholders in accordance with Condition 10.

14 Governing Law and Jurisdiction

The Warrants, the Global Warrant and the Warrant Agreement, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, English law.

The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Warrants, the Global Warrant or the Warrant Agreement and accordingly any legal action or proceedings arising out of or in connection with any Warrants, the Global Warrant or the Warrant Agreement (“Proceedings”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the holders of the Warrants and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

The Issuer irrevocably appoints the General Manager for the time being of its London Branch, currently at 60 London Wall, London EC2M 5TQ as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the Issuer). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify Warrantholders of such appointment in accordance with Condition 10. Nothing shall affect the right to serve process in any manner permitted by law.

Notwithstanding the provisions set out in the paragraphs above, the legal effects of registration of Norwegian Warrants in VPS will be regulated by chapter 7 of the Norwegian Securities Registration Act.

(a) Adjustments

If the Calculation Agent determines that a Potential Adjustment Event has occurred in respect of one or more of the Shares specified in the Final Terms or that there has been an adjustment to the settlement terms of listed contracts on one or more of the Shares specified in the Final Terms traded on a Related Exchange, the Calculation Agent will determine whether such Potential Adjustment Event or adjustment has a diluting or concentrative effect on the theoretical value of the relevant Shares and, if so, will (a) request the Issuer to make the corresponding adjustment(s), if any, to any one or more of any Relevant Asset and the Entitlement and/or Exercise Price and/or the Multiplier and/or any of the terms and conditions of the Warrants as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividend, stock loan rate or liquidity) and (b) determine the effective date(s) of the adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on the relevant Shares traded on that options exchange.

(b) Consequences of a Merger Event

If the Calculation Agent determines that a Merger Event has occurred in respect of one or more of the Shares specified in the Final Terms, the Issuer may:

- (i) cancel the Warrants by giving notice to Warrantholders in accordance with Condition 10. If the Warrants are so cancelled the Issuer will pay an amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by it which amount shall be the fair market value of a Warrant or a Unit, as the case may be, taking into account the Merger Event less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant or Unit, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid, the Exercise Price, all as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10;
- (ii) make such adjustment to the exercise, settlement, payment or any other term or condition of the Warrants as the Calculation Agent determines appropriate to account for the economic effect on the Warrants of such Merger Event (provided that no adjustments will be made solely to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the relevant Shares or to the Warrants), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event by an options exchange to options on the relevant Shares traded on such options exchange and determine the effective date of that adjustment; and/or
- (iii) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the

proceeds of any redemption, if applicable), and their issuer (if any) to be the relevant “Shares” and the relevant “Share Issuer”, respectively, and if the Calculation Agent determines to be appropriate, the Issuer will adjust any relevant terms and conditions of the Warrants as it may determine.

The Issuer shall give notice of such cancellation, adjustment or deemed change to Warrantholders in accordance with Condition 10.

(c) *Consequences of a Tender Offer*

If the Calculation Agent determines that a Tender Offer has occurred in respect of one or more of the Shares specified in the Final Terms, then on or after the relevant Tender Offer Date the Issuer may:

- (i) cancel the Warrants by giving notice to Warrantholders in accordance with Condition 10. If the Warrants are so cancelled the Issuer will pay an amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by it which amount shall be the fair market value of a Warrant or a Unit, as the case may be, taking into account the Tender Offer less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant or Unit, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid, the Exercise Price, all as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10; or
- (ii) make such adjustment to the exercise, settlement, payment or any other term or condition of the Warrants as the Calculation Agent determines appropriate to account for the economic effect on the Warrants of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Shares or to the Warrants), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the relevant Shares traded on such options exchange and determine the effective date of that adjustment.

The Calculation Agent shall give notice of such cancellation or adjustment to Warrantholders in accordance with Condition 10.

(d) *Nationalisation, Insolvency or De-listing*

If in respect of one or more of the Shares specified in the Final Terms or a Share Issuer the Calculation Agent determines that there has been a Nationalisation, an Insolvency or a De-listing, the Issuer may (i) request the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of any Relevant Asset and/or the Entitlement and/or the Exercise Price and/or the Multiplier and/or any of the other terms and conditions of the Warrants to account for the Nationalisation, Insolvency or Delisting, as the case may be, and determine the effective date of that adjustment or (ii) cancel the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by it which amount shall be the fair

market value of a Warrant or a Unit, as the case may be, taking into account the Nationalisation, Insolvency or De-listing (as the case may be), less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant or Unit, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid, the Exercise Price, all as determined by the Calculation Agent. Notice of any cancellation of the Warrants or determination pursuant to this paragraph shall be given to Warrantholders in accordance with Condition 10.

(e) *Change of Exchange*

If an Exchange is changed, the Issuer may make such consequential modifications to any Relevant Asset and/or the Entitlement and/or the Multiplier and such other terms and conditions of the Warrants as it may deem necessary.

(f) *Price Correction*

In the event that any price or level published on an Exchange and which is utilised for any calculation or determination made under the Warrants is subsequently corrected and the correction is published by the relevant Exchange within three Business Days (or such other period as may be specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Warrants to account for such correction.

(g) *Currency*

If the Calculation Agent determines that any event occurs affecting a currency (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to any Relevant Asset and/or the Entitlement and/or the Exercise Price and/or the Multiplier and/ or any other relevant terms and conditions of the Warrants, the Issuer may make such adjustment or adjustments to any Relevant Asset and/or the Entitlement and/or the Exercise Price and/or the Multiplier as it deems necessary. The Issuer shall give notice to the Warrantholders of any such adjustment in accordance with Condition 10.

(h) *Additional Disruption Events*

If the Calculation Agent determines that an Additional Disruption Event has occurred in respect of one or more of the Shares specified in the Final Terms, the Issuer may cancel the Warrants. If the Warrants are so cancelled the Issuer will pay an amount to each Warrantholder in respect of each Warrant or, if Units are specified in the applicable Final Terms, each Unit, as the case may be, held by it which amount shall be the fair market value of a Warrant or a Unit, as the case may be, taking into account the Additional Disruption Event, less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Warrant or Unit, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions plus, if already paid, the Exercise Price, all as determined by the Calculation

Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Warrantholders in accordance with Condition 10. Notice of any cancellation of the Warrants or determination pursuant to this paragraph shall be given to Warrantholders in accordance with Condition 10.

(i) *Change in currencies*

If, at any time after the issue date of the Warrants, there is any change in the currency in which the Shares are quoted, listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Warrants as the Calculation Agent determines appropriate to preserve the economic terms of the Warrants. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Warrants.

(C) *Debt Warrants, Commodity Warrants and Currency Warrants*

Any additional provisions relating to Debt Warrants, Commodity Warrants or Currency Warrants shall be set out in the applicable Final Terms.

16 Contracts (Rights of Third Parties) Act 1999

The Warrants do not confer on a third party any right under the Contracts (Rights of Third Parties) Act 1999 (the “Act”) to enforce any term of the Warrants but this does not affect any right or remedy of a third party which exists or is available apart from the Act.

Any reference herein to “Receiptholders” shall mean the holders of the Receipts and any reference herein to “Couponholders” shall mean the holders of the Coupons, and shall, unless the context otherwise requires, include the holders of the Talons. Any holders mentioned above include those having a credit balance in the collective depots held in respect of the Notes by *Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V.* (“Euroclear Netherlands”) or one of its participants.

Interest bearing definitive bearer Notes in K-form will have Coupons and, if indicated in the applicable Final Terms, Talons attached but will not be issued with Receipts attached. Interest bearing definitive bearer Notes in CF-form will have Coupon sheets attached but will not be issued with Talons or Receipts attached. References in these General Conditions to “Coupons” will include reference to such Coupon sheets.

The Final Terms for this Note attached hereto or applicable hereto or incorporated herein (as the case may be) supplement the General Conditions and may specify other conditions which shall, to the extent so specified or to the extent inconsistent with these General Conditions, replace or modify the General

Conditions for the purposes of this Note. References herein to the “applicable Final Terms” are to the Final Terms attached hereto or applicable hereto or incorporated herein (as the case may be).

As used herein, “Tranche” means Notes which are identical in all respects (including as to listing) and “Series” means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (i) expressed to be consolidated and form a single series and (ii) are identical in all respects (including as to listing) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Copies of the Agency Agreement and the Final Terms applicable to this Note may be obtained from and are available for inspection at the specified offices of each of the Agent and the other Paying Agents, ING Bank N.V. (“ING Bank”) and from the Issuer save that Final Terms relating to a Note for which a prospectus is not required to be published in accordance with Directive 2003/71/EC (the “Prospectus Directive”) will only be available for inspection by a Noteholder upon such Noteholder producing evidence as to identity satisfactory to the relevant Paying Agent, ING Bank or the Issuer (as the case may be). Written or oral requests for such documents from the Issuer should be directed to it c/o ING Bank N.V. at Foppingadreef 7, 1102 BD Amsterdam, The Netherlands. The Noteholders, the Receiptholders and the Couponholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement and the applicable Final Terms which are binding on them.

ING Bank N.V. shall undertake the duties of calculation agent (the “Calculation Agent”) in respect of the Notes unless another entity is so specified as calculation agent in the applicable Final Terms. The expression Calculation Agent shall, in relation to the relevant Notes, include such other specified calculation agent.

Words and expressions defined in the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in the General Conditions unless the context otherwise requires or unless otherwise stated.

1 Form, Denomination and Title

The Notes are in bearer form (“Bearer Notes”) and in the currency in which payment in respect of the Notes is to be made (the “Specified Currency”) and in the denomination per Note specified to be applicable to the Notes (the “Specified Denomination”), all as specified in the applicable Final Terms and, in the case of definitive Notes, serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Note bearing interest on a fixed rate basis (“Fixed Rate Note”), a Note bearing interest on a floating rate basis (“Floating Rate Note”), a Note issued on a non-interest bearing basis (“Zero Coupon Note”) or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

This Note may be a Note redeemable in instalments (“Instalment Note”), a Note to be issued on a partly paid basis (“Partly Paid Note”), a Note in respect of which principal is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (a “Dual Currency Redemption Note”) or a Note in respect of which interest is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (“Dual Currency Interest Note”) or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Final Terms.

Definitive Bearer Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in the General Conditions are not applicable.

Subject as set out below, title to the Bearer Notes, Receipts and Coupons will pass by delivery. For Notes held by Euroclear Netherlands deliveries will be made in accordance with the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*). Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the Issuer, the Agent, the Replacement Agent (as defined in the Agency Agreement), and any Paying Agent may deem and treat the bearer of any Bearer Note, Receipt or Coupon as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a global Bearer Note held on behalf of Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, *société anonyme* (“Clearstream, Luxembourg”), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Replacement Agent, the Agent and any Paying Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant global Note shall be treated by the Issuer, the Replacement Agent, the Agent and any Paying Agent as the holder of such Notes in accordance with and subject to the terms of the relevant global Note (and the expressions “Noteholder” and “holder of Notes” and related expressions shall be construed accordingly and such expressions shall include those persons having a credit balance in the collective depots in respect of Notes held by Euroclear Netherlands or one of its participants). Notes which are represented by a global Note held by a common depositary or common safekeeper for Euroclear and/or Clearstream, Luxembourg will be transferable only in accordance with the rules and procedures for the time being of Euroclear or of Clearstream, Luxembourg, as the case may be. Notes which are represented by a global Note held by Euroclear Netherlands will be delivered in accordance with the Dutch Securities Giro Transfer Act.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent but shall not include Euroclear Netherlands.

If the Notes are represented by a permanent global note in bearer form without coupons (the “Permanent Bearer Global Note”) deposited in custody with Euroclear Netherlands, they will be subject to, and rights in respect of them will be exercised in accordance with, the Dutch Securities Giro Transfer Act. Rights in respect of the Notes represented by the Permanent Bearer Global Note take the form of co-ownership rights (*aandelen*) in the collective depots (*verzameldepots* as referred to in the Dutch Securities Giro Transfer Act) of the Notes with participants of Euroclear Netherlands (*aangesloten instellingen* according to the Dutch Securities Giro Transfer Act) (“Participants”). The co-ownership rights with respect to the Notes will be credited to the account of the Noteholder with such Participant. A holder of co-ownership rights in respect of the Notes will be referred to hereinafter as a “Noteholder” or a “holder of a Note”.

The applicable Final Terms may specify that the Permanent Bearer Global Note will not be exchangeable for Definitive Notes in bearer form, in which case the right to demand delivery under the Dutch Securities Giro Transfer Act is excluded.

2 Status of the Notes

The Notes and the relative Receipts and Coupons are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required

to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

3 Interest

(a) *Interest on Fixed Rate Notes*

Each Fixed Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest so specified payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the General Conditions, “Fixed Interest Period” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall (subject to the following sentence) be calculated by applying the Rate of Interest to each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then if interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 4(a) of the General Conditions:

- (i) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “Accrual Period”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days

in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and

- (ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (ii) if “30/360” is specified in the applicable Final Terms, the number of days in the relevant Accrual Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Accrual Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Accrual Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Accrual Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Accrual Period falls;

“D₁” is the first calendar day, expressed as a number, of the Accrual Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Accrual Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30.

In the General Conditions:

“**Determination Period**” means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“**sub-unit**” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) *Interest on Floating Rate Notes*

(i) *Interest Payment Dates*

Each Floating Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an “Interest Payment Date”) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an “Interest Payment Date”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the General Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 3(b)(i)(B) of the General Conditions, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention (Adjusted), such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Modified Following Business Day Convention (Unadjusted), (i) for the purpose of calculating the amount of interest payable under the Notes, such Interest Payment Date shall not be adjusted and (ii) for any other purpose, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (5) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the General Conditions, “Business Day” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and Amsterdam and any Additional Business Centre specified in the applicable Final Terms; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London, Amsterdam and any Additional Business Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars, Auckland and Wellington) or (2) in relation to interest payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the “TARGET System”) is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of the Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (iii), “ISDA Rate” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as amended and updated as at the Issue Date of the first Tranche of the Notes) as published by the International Swaps and Derivatives Association, Inc. (the “ISDA Definitions”) under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is the period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate (“LIBOR”) or on the Euro-zone inter-bank offered rate (“EURIBOR”) for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (iii), “Floating Rate”, “Calculation Agent”, “Floating Rate Option”, “Designated Maturity” and “Reset Date” have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate(s) which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

(v) Minimum and/or Maximum Rate of Interest

If the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(vi) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the “Interest Amount”) payable on the Floating Rate Notes in respect of each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms) for the relevant Interest Period. Each Interest Amount or any other amount of interest payable in respect of any Note for any period shall (subject to the following sentence) be calculated by applying the Rate of Interest to the Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then each Interest Amount or any other amount of interest payable in respect of any Note for any period shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes,

and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest on any Floating Rate Note for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period, the “Calculation Period”) in accordance with this Condition 3(b) of the General Conditions:

- (A) if “Actual/Actual” or “Actual/Actual (ISDA)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (F) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D₂ will be 30; and

- (G) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(vii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and notice thereof to be published in accordance with Condition 12 of the General Conditions as soon as possible after their determination but in no event later than the fourth London Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and to the Noteholders in accordance with Condition 12 of the General Conditions. For the purposes of Condition 3(b)(vii) of the General Conditions, the expression “London Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(viii) Certificates to be Final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this paragraph (b), whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Agent or, if applicable, the Calculation Agent, as the case may be, the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent or, if applicable, the Calculation Agent, the Issuer or that other agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Interest on Dual Currency Interest Notes*

The rate or amount of interest payable shall be determined in the manner specified in the applicable Final Terms.

(d) *Interest on Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(e) *Accrual of Interest*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given in accordance with Condition 12 of the General Conditions or individually.

(f) *Interest Rates Positive*

Unless specified otherwise in the applicable Final Terms, the rate of interest payable in respect of the Notes shall never be less than zero. If the formula or other method for determining a rate of interest applicable to the Notes would result in a negative figure, the applicable rate of interest will be deemed to be zero.

4 Payments(a) *Method of Payment*

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained and specified by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, shall be Melbourne and if New Zealand dollars, Wellington); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment.

(b) *Presentation of Notes, Receipts and Coupons*

Other than in the case of definitive Bearer Notes in CF-form, payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against surrender of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against surrender of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the State and District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of principal in respect of any definitive Bearer Notes in CF-form will be made in the manner provided in paragraph (a) above only against surrender of definitive Notes together with the Coupon sheet attached. Payments of interest in respect of any definitive Bearer Notes in CF-form will be made in conformity with the agreement concluded between the Issuer and *Algemeen Obligatiekantoor van het Centrum voor Fondsenadministratie B.V.* in Amsterdam (the “Obligatiekantoor”), under which agreement the Issuer has accepted the rules and regulations of the Obligatiekantoor.

Payments of instalments of principal in respect of definitive Bearer Notes (if any), other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt. Payment of the final instalment will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any)

relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined below) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 7 of the General Conditions) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter. Upon any such Fixed Rate Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

As used herein, the “Relevant Date” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 12 of the General Conditions.

Upon the date on which any Floating Rate Note, Dual Currency Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “Long Maturity Note” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

Payments of principal and interest (if any) in respect of Notes represented by any global Bearer Note will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant global Bearer Note (in the case of a global Bearer Note not in New Global Note form, against presentation or surrender, as the case may be, of such global Bearer Note at the specified office of any Paying Agent outside the United States, and in the case of a global Bearer Note in New Global Note form, by payment to or to the order of the common safekeeper for such global Bearer Note). A record of each payment made against presentation or surrender of any such global Bearer Note not in New Global Note form, distinguishing between any payment of principal and any payment of interest, will be made on such global Bearer Note by such Paying Agent and such record shall be *prima facie* evidence that the payment in question has been made. If a global Bearer Note is in New Global Note form, the Issuer shall procure that details of each payment of principal and interest (if any) made in respect of Notes represented by the New Global Note shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the global Bearer

Note will be reduced accordingly. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge.

Where a global Bearer Note is an New Global Note, the Issuer shall procure that any exchange, payment, cancellation, exercise of any option or any right under the Notes, as the case may be, shall be entered in the records of the relevant clearing systems and upon any such entry being made, the nominal amount of the Notes represented by such global Bearer Note shall be adjusted accordingly.

The holder of a global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such global Note. No person other than the holder of such global Note shall have any claim against the Issuer in respect of any payments due on that global Note.

In the case of Notes held by Euroclear Netherlands, payment of interest or principal or any other payments on or in respect of the Notes to the Noteholders will be effected through Participants of Euroclear Netherlands. The Issuer shall deposit or cause to be deposited the funds intended for payment on the Notes in an account of Euroclear Netherlands. The Issuer will by such deposit be discharged of its obligations towards the Noteholders. No person other than the holder of the global Note shall have any claim against the Issuer in respect of any payments due on that global Note. Euroclear Netherlands will be discharged of its obligation to pay by paying the relevant funds to the Euroclear Netherlands Participants which according to Euroclear Netherlands' record hold a share in the *girodepot* with respect to such Notes, the relevant payment to be made in proportion to the share in such *girodepot* held by each of such Euroclear Netherlands Participants. Euroclear Netherlands shall not be obliged to make any payment in excess of funds it actually received as funds free of charges of any kind whatsoever.

Notwithstanding the foregoing, U.S. dollar payments of principal and interest in respect of Bearer Notes will be made at the specified office of a Paying Agent in the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)) if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

(c) *Payment Day*

Unless otherwise specified in the applicable Final Terms in relation to a Tranche of Notes, if the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and

shall not be entitled to further interest or other payment in respect of such delay. For these purposes (unless otherwise specified in the applicable Final Terms), “Payment Day” means any day which (subject to Condition 8 of the General Conditions) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) London;
 - (C) Amsterdam; and
 - (D) any Additional Financial Centre specified in the applicable Final Terms;
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, London, Amsterdam or any Additional Financial Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars Auckland and Wellington) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open.

Notwithstanding anything else in these General Conditions, in the event that an Interest Payment Date is brought forward under Condition 3(b) of the General Conditions through the operation of a Business Day Convention in circumstances which were not reasonably foreseeable by the Issuer, the relevant Payment Day shall be the first Payment Day after the Interest Payment Date as so brought forward.

(d) *Interpretation of Principal*

Any reference in the General Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) the amount at which each Note will be redeemed on the Maturity Date of the Notes (“Final Redemption Amount”);
- (ii) the redemption amount in respect of Notes payable on redemption for taxation reasons or following an Event of Default (“Early Redemption Amount”);
- (iii) the Optional Redemption Amount(s) (if any) of the Notes;
- (iv) in relation to Instalment Notes, the Instalment Amounts;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 5(f)(iii)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

5 Redemption and Purchase

(a) *At Maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount

specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) *Redemption for Tax Reasons*

If the Issuer, on the occasion of the next payment due in respect of the Notes, would be required to withhold or account for tax in respect of the Notes, then the Issuer shall forthwith give notice of such circumstance to Noteholders. In such event, the Issuer may, but shall not be obliged to, on giving not more than 30 nor less than 15 days' notice to the Noteholders (or such other period of notice as is specified in the applicable Final Terms), and upon expiry of such notice, redeem all but not some of the Notes at their Early Redemption Amount.

Notwithstanding the foregoing, if any of the taxes referred to above arises (i) by reason of any Noteholder's connection with any particular jurisdiction otherwise than by reason only of the holding of any Note or receiving or being entitled to principal or interest in respect thereof; or (ii) by reason of the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax, then to the extent it is able to do so, the Issuer shall deduct such taxes from the amounts payable to such Noteholder and all other Noteholders shall receive the due amounts payable to them.

(c) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' notice (or such other period of notice as is specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12 of the General Conditions; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(both of which notices shall be irrevocable) redeem all or some only of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date(s).

Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount (if any) or not more than the Maximum Redemption Amount (if any), in each case as specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and/or Euroclear Netherlands, as the case may be, in the case of Redeemed Notes represented by a global Note, not more than 30 days prior to the date fixed for redemption (or such other period as is specified in the applicable Final Terms) (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 12 of the General Conditions not less than 15 days (or such other period as is specified in the applicable Final Terms) prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal

amount of Redeemed Notes represented by a global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant global Note will be permitted during the period from and including the Selection Date to and including the date fixed for redemption pursuant to this subparagraph (c) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 12 of the General Conditions at least 5 days prior to the Selection Date.

(d) *Redemption at the Option of the Noteholders (Noteholder Put)*

If Noteholder Put is specified in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 12 of the General Conditions not less than 15 nor more than 30 days' notice or such other period of notice as is specified in the applicable Final Terms (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, deliver at the specified office of any Paying Agent at any time during normal business hours of such Paying Agent falling within the notice period, a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent (a "Put Notice") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 5 of the General Conditions accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a global Bearer Note or is in definitive form and held through Euroclear, Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period concerned, give notice of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary for them or, if applicable, Euroclear Netherlands to the Agent by electronic means), in a form acceptable to Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands from time to time and, at the same time, present or procure the presentation of the relevant Global Bearer Note to the Agent for notation accordingly.

Any Put Notice given by a holder of any Note pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 8 of the General Conditions.

(e) *Early Redemption Amounts*

For the purpose of paragraph (b) above and Condition 8 of the General Conditions, each Note will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to its nominal amount, at the Final Redemption Amount thereof, together with interest (if any) accrued to (but excluding) the date of redemption; or

- (ii) in the case of a Note (other than a Zero Coupon Note or a Note to which paragraph (iv) below applies but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than its nominal amount or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at its nominal amount, together in each case with interest (if any) accrued to (but excluding) the date of redemption; or
- (iii) in the case of a Zero Coupon Note (other than a Zero Coupon Note to which paragraph (iv) below applies), at an amount (the “Amortised Face Amount”) equal to the sum of:
 - (A) the Reference Price; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (A) in the case of a Zero Coupon Note other than a Zero Coupon Note payable in euro, on the basis of a 360-day year consisting of 12 months of 30 days each or (B) in the case of a Zero Coupon Note payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non-leap year divided by 365) or (in either case) on such other calculation basis as may be specified in the applicable Final Terms; or

- (iv) in the case of a Note for which the applicable Final Terms provide for the Early Redemption Amount to be equal to the Fair Market Value of the Note, the Calculation Agent shall calculate the Early Redemption Amount in its sole discretion, acting reasonably, by determining the fair market value of the Note two Business Days (or such other period as is specified in the applicable Final Terms) prior to (x) the date fixed for redemption or (y) (as the case may be) the date upon which such Note becomes due and payable (unless specified otherwise in the Final Terms, taking into account the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions).

(f) *Instalments*

Instalment Notes will be repaid in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(g) *Partly Paid Notes*

If the Notes are Partly Paid Notes, they will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition of the General Conditions and the applicable Final Terms.

(h) *Purchases*

The Issuer or any of its subsidiaries may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased

therewith) at any price in the open market or otherwise. Such Notes may be held, re-issued, resold or, at the option of the Issuer, surrendered to any Paying Agent for cancellation.

(i) *Cancellation*

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to paragraph (h) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be re-issued or resold.

(j) *Late Payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b), (c) or (d) above or upon its becoming due and repayable as provided in Condition 8 of the General Conditions is improperly withheld or refused, the amount due and payable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iii) above (if such Condition is stated to be applicable to the Note in the applicable Final Terms) as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 12 of the General Conditions.

(k) *Redemption – Other*

The Issuer may at any time, on giving not less than 15 nor more than 30 days' notice to the Noteholders in accordance with Condition 12 of the General Conditions, redeem all but not some only of the Notes for the time being outstanding at their Early Redemption Amount if, prior to the date of such notice, 90 per cent. or more in nominal amount of the Notes hitherto issued have been redeemed.

In addition, the Issuer may (i) at any time, on giving not less than 15 nor more than 30 days' notice (or such other period of notice as specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12 of the General Conditions, redeem the Notes for the time being outstanding on such other terms as may be specified in the applicable Final Terms and (ii) issue Notes which may be redeemed in other circumstances specified in the applicable Final Terms.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall never be less than zero. If the formula or other method for determining the Final Redemption Amount or the Early Redemption Amount (as the case may be) applicable to the Notes would result in a negative figure, the Final Redemption Amount or the Early Redemption Amount (as the case may be) will be deemed to be zero.

6 Taxation

The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation or surrender for payment or enforcement of any Note and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

7 Prescription

The Notes, Receipts and Coupons will become void unless presented for payment within a period of five years after the date on which such payment first becomes due.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 7 of the General Conditions or Condition 4(b) of the General Conditions or any Talon which would be void pursuant to Condition 4(b) of the General Conditions.

8 Events of Default

If any one or more of the following events (each an “Event of Default”) shall have occurred and be continuing:

- (i) default is made for more than 30 days in the payment of interest or principal in respect of the Notes; or
- (ii) the Issuer fails to perform or observe any of its other obligations under the Notes and such failure has continued for the period of 60 days next following the service on the Issuer of notice requiring the same to be remedied; or
- (iii) the Issuer is declared bankrupt (*failliet verklaard*), the Issuer is granted a moratorium (*surseance van betaling*) or a declaration in respect of the Issuer is made to apply the emergency regulation (*noodregeling*) under Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*); or
- (iv) an order is made or an effective resolution is passed for the winding up or liquidation of the Issuer unless this is done in connection with a merger, consolidation or other form of combination with another company, the terms of which merger, consolidation or combination (A) have the effect of the emerging or such other surviving company assuming all obligations contracted for by the Issuer in connection with the Notes or (B) have previously been approved by an Extraordinary Resolution of the Noteholders,

then any Noteholder may, by written notice to the Issuer at the specified office of the Agent, effective upon the date of receipt thereof by the Agent, declare the Note held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount (as described in Condition 5(e) of the General Conditions), without presentment, demand, protest or other notice of any kind, provided that such right to declare Notes due and payable shall terminate if the situation giving rise to it has been cured before the relevant notice has become effective.

9 Replacement of Notes and Coupons

If any Note (including a global Note) or Coupon is mutilated, defaced, stolen, destroyed or lost it may be replaced at the specified office of the Paying Agent in Luxembourg on payment by the claimant of such

costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

10 Agent and Paying Agents

The names of the initial Agent and the other initial Paying Agents, and their initial specified offices are set out below.

The Issuer is entitled to vary or terminate the appointment of the Agent, or any Paying Agent and/or appoint additional or other Paying Agents and/or approve any change in the specified office through which the Agent, any Paying Agent acts, provided that:

- (i) so long as the Notes are admitted to trading or listed on any stock exchange or admitted to trading or listed by any other relevant authority, there will at all times be a Paying Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange;
- (ii) there will at all times be a Paying Agent with a specified office in a city in continental Europe;
- (iii) there will at all times be an Agent;
- (iv) there will at all times be a Paying Agent with a specified office situated outside The Netherlands; and
- (v) there will at all times be a Paying Agent with a specified office in a European Union member state that will not be obliged to withhold or deduct tax pursuant to any law implementing European Council Directive 2003/48/EC or any other European Union Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000.

In addition, the Issuer shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the final paragraph of Condition 4(b) of the General Conditions. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 nor more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 12 of the General Conditions.

11 Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 7 of the General Conditions. Each Talon shall, for the purposes of the General Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

12 Notices

All notices regarding the Bearer Notes shall be published in at least one daily newspaper of wide circulation in The Netherlands, which is expected to be *Het Financieel Dagblad*. Any such notice will be deemed to have been given on the date of the first publication in a newspaper in which such publication is required to be made.

Until such time as any definitive Notes are issued, there may, so long as the global Note(s) is or are held in its or their entirety on behalf of Euroclear, Clearstream, Luxembourg and/or Euroclear Netherlands be substituted for such publication in any newspaper the delivery of the relevant notice to Euroclear, Clearstream, Luxembourg and/or Euroclear Netherlands (as the case may be) for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed or admitted to trading on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or such other relevant authority). Any such notice delivered on or prior to 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on such business day. A notice delivered after 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on the next following business day in such city.

Notices to be given by any holder of the Notes shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any holder of a Note to the Agent via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

13 Meetings of Noteholders, Modification and Waiver

The Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or certain provisions of the Agency Agreement. Such a meeting may be convened by the Issuer or Noteholders holding not less than five per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, Receipts or Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereof, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes, Receipts or Coupons), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than 75 per cent., or at any adjourned such meeting not less than a clear majority, in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Receiptholders and Couponholders.

The Agent and the Issuer may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to:

- (i) any modification (except as mentioned above) of the Agency Agreement which is not materially prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Notes, the Receipts, the Coupons or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer is incorporated.

Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 12 of the General Conditions as soon as practicable thereafter.

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

14 Further Issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders, Receiptholders or Couponholders to create and issue further notes having the same terms and conditions as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

15 Substitution of the Issuer

- (a) The Issuer may, without any further consent of the Noteholders or Couponholders being required, when no payment of principal of or interest on any of the Notes is in default, be replaced and substituted by any directly or indirectly wholly owned subsidiary of the Issuer (the “Substituted Debtor”) as principal debtor in respect of the Notes and the relative Receipts and Coupons provided that:
 - (i) such documents shall be executed by the Substituted Debtor and the Issuer as may be necessary to give full effect to the substitution (together the “Documents”) and (without limiting the generality of the foregoing) pursuant to which the Substituted Debtor shall undertake in favour of each Noteholder and Couponholder to be bound by the General Conditions of the Notes and the provisions of the Agency Agreement as fully as if the Substituted Debtor had been named in the Notes and the relative Receipts and Coupons and the Agency Agreement as the principal debtor in respect of the Notes and the relative Receipts and Coupons in place of the Issuer and pursuant to which the Issuer shall guarantee, which guarantee shall be unconditional and irrevocable, (the “Guarantee”) in favour of each Noteholder and each holder of the relative Receipts and Coupons the payment of all sums payable in respect of the Notes and the relative Receipts and Coupons;
 - (ii) the Documents shall contain a covenant by the Substituted Debtor and the Issuer to indemnify and hold harmless each Noteholder and Couponholder against all liabilities, costs, charges and expenses (provided that insofar as the liabilities, costs, charges and expenses are taxes or duties, the same arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective) which may be incurred by or levied against such holder as a result of any substitution pursuant to this Condition of the General Conditions and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, such liabilities, costs, charges and expenses shall include any and all taxes or duties which are imposed on any such Noteholder or Couponholder by any political sub-division or taxing authority of any country in which such Noteholder or Couponholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);
 - (iii) the Documents shall contain a warranty and representation by the Substituted Debtor and the Issuer (a) that each of the Substituted Debtor and the Issuer has obtained all necessary governmental and regulatory approvals and consents for such substitution and the performance

of its obligations under the Documents, and that all such approvals and consents are in full force and effect and (b) that the obligations assumed by each of the Substituted Debtor and the Issuer under the Documents are all valid and binding in accordance with their respective terms and enforceable by each Noteholder;

- (iv) each stock exchange which has Notes listed or admitted to trading thereon shall have confirmed that following the proposed substitution of the Substituted Debtor such Notes would continue to be listed or admitted to trading (as the case may be) on such stock exchange;
 - (v) the Substituted Debtor shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from a leading firm of local lawyers acting for the Substituted Debtor to the effect that the Documents constitute legal, valid and binding obligations of the Substituted Debtor, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent;
 - (vi) the Issuer shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from the internal legal adviser to the Issuer to the effect that the Documents (including the Guarantee and the 403 declaration given by ING Bank N.V. in favour of the Issuer on 14 December 1990 pursuant to article 2:403 and following of the Dutch Civil Code (the “403 Declaration”)) constitute legal, valid and binding obligations of the Issuer, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent;
 - (vii) the Issuer shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from a leading firm of English lawyers to the effect that the Documents (including the Guarantee) constitute legal, valid and binding obligations of the Substituted Debtor and the Issuer under English law, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent; and

- (b) In connection with any substitution effected pursuant to this Condition of the General Conditions, neither the Issuer nor the Substituted Debtor need have any regard to the consequences of any such substitution for individual Noteholders or Couponholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Noteholder or Couponholder, except as provided in Condition 15(a)(ii) of the General Conditions, shall be entitled to claim from the Issuer or any Substituted Debtor under the Notes and the relative Receipts and Coupons any indemnification or payment in respect of any tax or other consequences arising from such substitution.
- (c) Upon the execution of the Documents as referred to in paragraph (i) above, and subject to the notification as referred to in paragraph (e) below having been given, the Substituted Debtor shall be deemed to be named in the Notes and the relative Receipts and Coupons as the principal debtor in place of the Issuer and the Notes and the relative Receipts and Coupons shall thereupon be deemed to be amended to give effect to the substitution. The execution of the Documents shall operate to release the Issuer as issuer from all of its obligations as principal debtor in respect of the Notes and the relative

Receipts and Coupons save that any claims under the Notes and the relative Receipts and Coupons prior to release shall enure for the benefit of Noteholders and Couponholders.

- (d) The Documents shall be deposited with and held by the Agent for so long as any Notes or Coupons remain outstanding and for so long as any claim made against the Substituted Debtor by any Noteholder or Couponholder in relation to the Notes or the relative Receipts and Coupons or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor and the Issuer shall acknowledge in the Documents the right of every Noteholder and Couponholder to the production of the Documents for the enforcement of any of the Notes or the relative Receipts and Coupons or the Documents.
- (e) Not later than 15 business days after the execution of the Documents, the Substituted Debtor shall give notice thereof to the Noteholders in accordance with Condition 12 of the General Conditions.

16 Governing Law and Jurisdiction

The Notes, the Receipts, the Coupons and the Talons, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with English law. The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons ("Proceedings") may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the English courts and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

The issuer irrevocably appoints the General Manager for the time being of the London Branch of ING Bank N.V., currently at 60 London Wall, London EC2M 5TQ as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the Issuer). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify the Noteholders of such appointment in accordance with Condition 12 of the General Conditions. Nothing shall affect the right to serve process in any manner permitted by law.

17 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes, the Receipts, the Coupons or the Talons under the Contracts (Rights of Third Parties) Act 1999.

18 Determinations by the Calculation Agent and/or the Issuer

For the purposes of the Notes, any determinations, calculations or other decisions made by the Calculation Agent and/or the Issuer under or pursuant to the terms of the Notes shall be made in its/their sole and absolute discretion. All such determinations, calculations or other decisions of the Calculation Agent and/or the Issuer shall (save in the case of manifest error) be final, conclusive and binding on all parties, and neither the Calculation Agent nor the Issuer shall have any liability to any person therefor.

19 FX and Benchmark Notes*(a) FX Notes*

The following provisions of this Condition 19(a) of the General Conditions shall apply to the Notes if the FX Provisions are specified to be applicable in the applicable Final Terms.

(i) FX Market Disruption Event

If the Issuer determines that an FX Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of any amount which is to be determined by reference to the Primary FX Rate on such Scheduled Valuation Date or on such other date (for the purposes of this Condition 19(a) of the General Conditions, the “Relevant FX Amount”) shall be postponed until the next Business Day on which there is no FX Market Disruption Event.

If, however, an FX Market Disruption Event is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount is to be determined by reference to the Primary FX Rate, then the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant FX Amount. However, if the Fallback FX Rate is not available on such Business Day, or if no Fallback FX Rate is specified in the applicable Final Terms, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) Unscheduled Holiday

If the Issuer determines that an Unscheduled Holiday has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of the Relevant FX Amount shall be postponed until the next Business Day on which no Unscheduled Holiday occurs, provided that no such postponement shall occur for a period longer than 30 calendar days (or such other period as is specified in the applicable Final Terms) following such Scheduled Valuation Date or such other date.

If, however, an Unscheduled Holiday is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount which is to be determined by reference to the Primary FX Rate, then the Primary FX Rate (if available) or the Fallback FX Rate (if the Primary FX Rate is not available and a Fallback FX Rate is specified in the applicable Final Terms) on the first calendar day following the expiry of that period shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if a Fallback FX Rate is specified in the applicable Final Terms) the Fallback FX Rate is available on such calendar day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) Cumulative Events

Notwithstanding anything herein to the contrary, in no event shall the period during which either (x) a calculation is postponed due to an Unscheduled Holiday or (y) a calculation is postponed due to an FX Market Disruption Event (or any combination of (x) and (y)) exceed the Maximum Period of Postponement. Accordingly, if, upon the lapse of the Maximum Period of Postponement, an Unscheduled Holiday or FX Market Disruption Event shall have occurred or be continuing, then the Primary FX Rate or (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day (including any day which would have been a Business Day but for the occurrence of an Unscheduled Holiday) following the expiry of the Maximum Period of Postponement shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) is available on that Business Day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iv) Relevant FX Rate Inappropriate

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary FX Rate or Fallback FX Rate used to determine the Relevant FX Amount in accordance with Condition 19(a)(i), (ii) or (iii) of the General Conditions above is inappropriate, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(v) Payment

The Relevant FX Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which it is determined by the Calculation Agent in accordance with Condition 19(a)(i), (ii), (iii) of the General Conditions or (iv) above. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 19(a) of the General Conditions.

(b) *Benchmark Notes*

(i) The following provisions of this Condition 19(b) of the General Conditions shall apply to the Notes if the Benchmark Provisions are specified to be applicable in the applicable Final Terms.

If the Issuer determines that a Benchmark Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary Benchmark, then:

- (x) if the Relevant Benchmark Amount Postponement Provisions are specified to be applicable in the Final Terms, the calculation of any amount which is to be determined by reference to the Primary Benchmark on such Scheduled Valuation Date (for the purposes of this Condition 19(b) of the General Conditions, the “Relevant Benchmark Amount”) shall be postponed to the next Business Day on which there is no Benchmark Market Disruption Event, unless on each of the eight Business Days following such Scheduled Valuation Date or such other date (or such other period as may be specified

in the applicable Final Terms) a Benchmark Market Disruption Event occurs. In that case, the Fallback Benchmark (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant Benchmark Amount. However, if the Fallback Benchmark is not available on such Business Day, or if no Fallback Benchmark is specified in the applicable Final Terms, the Relevant Benchmark Amount shall be determined by the Calculation Agent as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice; and

- (y) if the Relevant Benchmark Amount Postponement Provisions are not specified to be applicable in the Final Terms, the Relevant Benchmark Amount shall be determined as soon as reasonably possible by the Calculation Agent in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) **Relevant Benchmark Inappropriate**

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary Benchmark or Fallback Benchmark used to determine the Relevant Benchmark Amount in accordance with Condition 19(b)(i) of the General Conditions above is inappropriate, the Calculation Agent shall determine the Relevant Benchmark Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) **Payment**

The Relevant Benchmark Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which such amount is determined. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment in accordance with this Condition 19(b) of the General Conditions.

(c) ***FX Convertibility Event and FX Transferability Event***

The following provisions of this Condition 19(c) of the General Conditions shall apply to the Notes if the FX Convertibility Event Provisions and/or FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms.

- (i) If (x) the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Convertibility Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction or (y) the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Transferability Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction, then in either such case the Issuer shall use reasonable endeavours to pay such amount in the Relevant Currency to the Noteholder's Relevant Currency account or, in the absence of such account or in the case of the Noteholder's failure to notify the Issuer of the details of such account in a timely manner, to any other account as the Issuer may determine (including, for the avoidance

of doubt, an account which is or may be subject to limitations on conversion and/or repatriation) in which account any such amount shall be held for the benefit of the Noteholder. Payment of any such amount by the Issuer shall discharge the Issuer of its remaining obligations under the Notes in respect of such payment in the Relevant Currency. Should any account be opened by the Issuer for the Noteholder, such account will be opened on the normal terms and conditions of the relevant institution, and in the event any interest accrues on the amounts held in such account, such interest will be for the benefit of the Noteholder.

Any costs incurred by the Issuer in connection with the opening or maintenance of such account will be borne by the Noteholder, and the Issuer reserves the right to use the funds in such account to pay for such costs. The amount payable by the Issuer to the Noteholder in respect of the Notes shall be reduced by the amount of any such costs incurred by the Issuer. Such right of set-off is without prejudice to any additional right to claim such costs. In the event that the costs incurred by the Issuer in connection with the opening and/or maintenance of such account exceed the amount payable by the Issuer to the Noteholder in respect of the Notes or the amount held in such account for the Noteholder, the Issuer reserves the right to forego opening or to close such account.

- (ii) If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms), then such payment shall be postponed until the next Payment Day on which such payment can, in the sole discretion of the Issuer, reasonably be made. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 19(c) of the General Conditions.

If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms) for a period of five years (or such other period as may be specified in the applicable Final Terms) from the date on which payment was originally due to be made but for the FX Convertibility Event or the FX Transferability Event, as the case may be, then the Issuer shall be entitled to all amounts in any account opened by it pursuant to Condition 19(c)(i) of the General Conditions above, including accrued interest, if any, and no additional amounts shall be payable to the relevant Noteholder.

(d) *Tax Event*

If the Tax Event Provisions are specified to be applicable in the applicable Final Terms, all payments made under the Notes will be subject to the deductions of any taxes, fees or costs that may be incurred or arise as a result of any Tax Event in relation to the Notes and any transactions associated with them. The determination of the amount of any such taxes, fees or costs shall be made by the Issuer in its sole discretion.

PART 1: TERMS AND CONDITIONS OF THE AUSTRALIAN NOTES

The following are the Terms and Conditions of Notes to be issued by (i) ING Bank N.V., Sydney Branch and (ii) ING Bank (Australia) Limited and (in the case of Notes issued by ING Bank (Australia) Limited) guaranteed by ING Bank N.V. (the “Conditions”) which will be incorporated by reference into each global Note and which will be incorporated into (or, if permitted by the relevant stock exchange and agreed between the Issuer (which term shall mean, in respect of a Tranche of Notes, the issuer of those Notes), the Guarantor (if the Issuer is ING Bank (Australia) Limited) and the relevant Dealer (if any), incorporated by reference into) each definitive Note. The applicable Final Terms in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Conditions, replace or modify the following Conditions for the purpose of such Tranche of Notes. Except in the case of Australian Domestic Instruments (as defined below), the applicable Final Terms will be incorporated into, or attached to, each global Note and definitive Note in the standard euromarket form and K-form and will be applicable to each definitive Note in CF-form.

This Note is one of a series of Notes issued by the issuer specified in the applicable Final Terms (the “Issuer”) pursuant to the Agency Agreement (as defined below) or, in the case of Australian Domestic Instruments (as defined below), pursuant to the Deed Poll (as defined below). Unless the contrary intention appears, references herein to the “Notes” shall be references to the Notes of this Series (as defined below) and shall mean (i) in relation to any Notes represented by a global Note, units of the lowest Specified Denomination in the Specified Currency, (ii) definitive Notes issued in exchange (or part exchange) for a global Note, (iii) any global Note, and (iv) any Australian Domestic Instrument. References herein to “Norwegian Notes” shall be references to any Tranche of Notes designated by the Issuer as “Norwegian Notes” in item 26 (“Form of Notes”) of the relevant Final Terms. The provisions of these Conditions relating to global Notes, Coupons, Receipts and Talons do not apply to Australian Domestic Instruments.

Notes issued by ING Bank (Australia) Limited will be guaranteed by ING Bank N.V. (the “Guarantor”).

The Notes (other than the Australian Domestic Instruments), the Receipts (as defined below) and the Coupons (as defined below) also have the benefit of an amended and restated agency agreement dated as of 23 February 2010 (as modified, supplemented and/or restated as at the Issue Date, the “Agency Agreement”) and made among ING Bank N.V., ING Groenbank N.V., ING Bank N.V., Sydney Branch, ING Bank (Australia) Limited, ING (US) Issuance LLC, The Bank of New York Mellon, London Branch, in alliance with ING Bank N.V. acting through its subdivision ING Wholesale Banking Securities Services, as issuing and principal paying agent and agent bank (the “Agent”, which expression shall include any successor agent), The Bank of New York Mellon, in alliance with ING Bank N.V. acting through its subdivision ING Wholesale Banking Securities Services, as Registrar (the “Registrar”, which expression shall include any successor Registrar) and the other paying agents named therein (together with the Agent, the “Paying Agents”, which expression shall include any additional or successor paying agents) and the other transfer agents named

Interest bearing definitive Bearer Notes in standard euromarket form (unless otherwise indicated in the applicable Final Terms) have interest coupons (“Coupons”) and, if indicated in the applicable Final Terms, talons for further Coupons (“Talons”) attached on issue. Any reference herein to Coupons or coupons shall, unless the context otherwise requires, be deemed to include a reference to Talons or talons. Definitive Bearer Notes repayable in instalments have receipts (“Receipts”) for the payment of the instalments of principal (other than the final instalment) attached on issue. Any reference herein to “Holders” shall mean the holders of the Notes, and shall, in relation to any Notes represented by a global Note, be construed as provided below. Any reference herein to “Receiptholders” shall mean the holders of the Receipts and any reference herein to “Couponholders” shall mean the holders of the Coupons, and shall, unless the context otherwise requires, include the holders of the Talons. Any holders mentioned above include those having a credit balance in the collective depots held in respect of the Notes by *Nederlands Centraal Instituut voor Giraal Effectenverkeer B.V.* (“Euroclear Netherlands”) or one of its participants.

Interest bearing definitive bearer Notes in K-form will have Coupons and, if indicated in the applicable Final Terms, Talons attached but will not be issued with Receipts attached. The Norwegian Notes will be registered in uncertificated book entry form with a Norwegian Central Securities Depository which is expected to be VPS ASA, Biskop Gunnerus gate 14 a, P.O. Box 4, 0051 Oslo, Norway (“VPS”). Norwegian Notes registered in VPS are negotiable instruments and not subject to any restrictions on free negotiability under Norwegian law.

The Swedish Notes will be registered in uncertificated book entry form with a Swedish Central Securities Depository which is expected to be Euroclear Sweden AB, Regeringsgatan 65, Box 7822, SE-103 97 Stockholm, Sweden (“Euroclear Sweden”). Swedish Notes registered in Euroclear Sweden are negotiable instruments and not subject to any restrictions on free negotiability under Swedish law.

The Final Terms for this Note attached hereto or applicable hereto or incorporated herein (as the case may be) supplement the Conditions and may specify other conditions which shall, to the extent so specified or to the extent inconsistent with these Conditions, replace or modify the Conditions for the purposes of this Note. References herein to the “applicable Final Terms” are to the Final Terms attached hereto or applicable hereto or incorporated herein (as the case may be).

The Australian Domestic Instruments may be either (i) medium term notes (“Australian Domestic Notes”), or (ii) transferable deposits (“Australian Domestic Transferable Deposits”) and will be issued in registered uncertificated (or inscribed) form. Australian Domestic Instruments will be constituted by the Deed Poll and will take the form of entries on a register to be maintained by the Australian Registrar (as defined below) pursuant to the Australian Registry Services Agreement (as defined below). Australian Domestic Transferable Deposits represent a deposit made with, and accepted by, the Issuer on the Issue Date.

As used herein, “Tranche” means Notes which are identical in all respects (including as to listing) and “Series” means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (i) expressed to be consolidated and form a single series and (ii) are identical in all respects (including as to listing) except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Written or oral requests for such documents from the Issuer should be directed to it at Level 14, 140 Sussex Street, Sydney NSW 2000, Australia. Copies of the Deed Poll and the Australian Registry Services Agreement are available for inspection at the principal office of the Australian Registrar in Sydney. The Holders, the Receiptholders and the Couponholder are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the Deed of Guarantee, the applicable Final Terms and (in the case of Holders holding Australian Domestic Instruments) the Deed Poll and the Australian Registry Services Agreement which are binding on them.

The Issuer shall undertake the duties of calculation agent (the “Calculation Agent”) in respect of the Notes unless another entity is so specified as calculation agent in the applicable Final Terms. The expression Calculation Agent shall, in relation to the relevant Notes, include such other specified calculation agent.

Words and expressions defined in the Agency Agreement, the Australian Registry Services Agreement or the Deed Poll or used in the applicable Final Terms shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated.

1 Form, Denomination and Title

The Notes are in bearer form (“Bearer Notes”) or in registered form (“Registered Notes”) or, in respect of Norwegian Notes, in uncertificated and dematerialised book-entry form in accordance with the Norwegian Securities Registration Act (*lov 2002-07-05-64 om registrering av finansielle instrumenter*) (“Norwegian Notes”) or, in respect of Swedish Notes, in uncertificated and dematerialised book-entry form in accordance with the Swedish Financial Instruments Accounts Act (*Sw. lag (1998:1479) om kontoföring av finansiella instrument*) (“Swedish Notes”), in the currency in which payment in respect of the Notes is to be made (the “Specified Currency”) and in the denomination per Note specified to be applicable to the Notes (the “Specified Denomination”), all as specified in the applicable Final Terms and, in the case of definitive Notes, serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Note bearing interest on a fixed rate basis (“Fixed Rate Note”), a Note bearing interest on a floating rate basis (“Floating Rate Note”), a Note issued on a non-interest bearing basis (“Zero Coupon Note”) or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

This Note may be a Note redeemable in instalments (“Instalment Note”), a Note to be issued on a partly paid basis (“Partly Paid Note”), a Note in respect of which principal is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (a “Dual Currency Redemption Note”) or a Note in respect of which interest is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (“Dual Currency Interest Note”) or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Final Terms.

Definitive Bearer Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in the Conditions are not applicable.

Subject as set out below, title to the Bearer Notes, Receipts and Coupons will pass by delivery and title to the Registered Notes will pass upon registration of transfers in accordance with the provisions of the Agency Agreement. For Notes held by Euroclear Netherlands deliveries will be made in accordance with the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*). Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the Issuer, the Guarantor (if applicable), the Agent, the Replacement Agent (as defined in the Agency Agreement), the Registrar, any Transfer Agent and any Paying Agent may deem and treat the bearer of any Bearer Note, Receipt or Coupon and the registered holder of any Registered Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a global Bearer Note held on behalf of Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, *société anonyme* (“Clearstream, Luxembourg”), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor (if applicable), the Replacement Agent, any Transfer Agent, the Registrar, the Agent and any Paying Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant global Note shall be treated by the Issuer, the Replacement Agent, any Transfer Agent, the Registrar, the Agent and any Paying Agent as the holder of such Notes in accordance with and subject to the terms of the relevant global Note (and the expressions “Holder” and “holder of Notes” and related expressions shall be construed accordingly and such expressions shall include those persons having a credit balance in the collective depots in respect of Notes held by Euroclear Netherlands or one of its participants). Notes which are represented by a global Note held by a common depositary or common safekeeper for Euroclear and/or Clearstream, Luxembourg will be transferable only in accordance with the rules and procedures for the time being of Euroclear or of Clearstream, Luxembourg, as the case may be. Notes which are represented by a global Note held by Euroclear Netherlands will be delivered in accordance with the Dutch Securities Giro Transfer Act.

References to Euroclear, Clearstream and/or Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent but shall not include Euroclear Netherlands.

If the Notes are represented by a permanent global note in bearer form without coupons (the “Permanent Bearer Global Note”) deposited in custody with Euroclear Netherlands, they will be subject to, and rights in respect of them will be exercised in accordance with, the Dutch Securities Giro Transfer Act. Rights in respect of the Notes represented by the Permanent Bearer Global Note take the form of co-ownership rights (*aandelen*) in the collective depots (*verzameldepots* as referred to in the Dutch Securities Giro Transfer Act) of the Notes with participants of Euroclear Netherlands (*aangesloten instellingen* according to the Dutch Securities Giro Transfer Act) (“Participants”). The co-ownership rights with respect to the Notes will be credited to the account of the Holder with such Participant. A holder of co-ownership rights in respect of the Notes will be referred to hereinafter as a “Holder” or a “holder of a Note”.

The applicable Final Terms may specify that the Permanent Bearer Global Note will not be exchangeable for Definitive Notes in bearer form, in which case the right to demand delivery under the Dutch Securities Giro Transfer Act is excluded.

The Norwegian Notes shall be regarded as Registered Notes for the purposes of these Conditions save to the extent the Conditions are inconsistent with Norwegian laws, regulations and operating procedures

applicable to and/or issued by the Norwegian central securities depository from time to time (the “Norwegian CSD Rules”) designated as registrar for the Norwegian Notes in the relevant Final Terms (which is expected to be VPS AS) (the “Norwegian Registrar”). No physical notes or certificates will be issued in respect of Norwegian Notes and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply. In respect of Norwegian Notes, “Holder” and “holder” means the person in whose name a Norwegian Note is registered in the Register, and the reference to a person in whose name a Norwegian Note is registered shall include also any person duly authorised to act as a nominee (*Nor: forvalter*) on behalf of the beneficial owner of the Notes. In respect of Norwegian Notes the “Register” means the register maintained by the Norwegian Registrar on behalf of the Issuer in accordance with the Norwegian CSD Rules and title to Norwegian Notes shall pass by registration in the Register. Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined above) of any Norwegian Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the holder. The Issuer shall be entitled to obtain information from the Register in accordance with Norwegian laws and regulations, and the Norwegian CSD Rules.

The Swedish Notes shall be regarded as Registered Notes for the purposes of these Conditions save to the extent the Conditions are inconsistent with Swedish laws, regulations and operating procedures applicable to and/or issued by the Swedish central securities depository from time to time (the “Swedish CSD Rules”) designated as registrar (*Sw: central värdepappersförvarare*) for the Swedish Notes in the relevant Final Terms (which is expected to be Euroclear Sweden AB) (the “Swedish Registrar”). No physical notes or certificates will be issued in respect of Swedish Notes and the provisions relating to presentation, surrender or replacement of such bearer instruments shall not apply. In respect of Swedish Notes, “Holder” and “holder” means the person in whose name a Swedish Note is registered in the Register and the reference to a person in whose name a Swedish Note is registered shall include also any person duly authorised to act as a nominee (*Sw: förvaltare*) and registered for the Notes. In respect of Swedish Notes the “Register” means the register maintained by the Swedish Registrar on behalf of the Issuer in accordance with the Swedish CSD Rules and title to Swedish Notes shall pass by registration in the Register. Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined above) of any Swedish Note shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it and no person shall be liable for so treating the holder. The Issuer shall be entitled to obtain information from the Register in accordance with the Swedish CSD Rules.

In the case of Australian Domestic Instruments, the following provisions shall apply in lieu of any provisions of these Conditions which are inconsistent with the following provisions. Australian Domestic Instruments will be debt obligations of the Issuer owing under the Issuer’s Deed Poll (the “Deed Poll”) and will take the form of entries in a register (the “Australian Register”) to be established and maintained by Austraclear Services Limited (ABN 28 003 284 419) (the “Australian Registrar”) in Sydney unless otherwise agreed with the Australian Registrar. In relation to Australian Domestic Instruments, the expression “Holder” means a person whose name is for the time being entered in the Australian Register as the holder of an Australian Domestic Instrument or, where an Australian Domestic Instrument is owned jointly by one or more persons, the first four persons, but no more than four, whose names appear in the Australian Register as the joint owners of the Australian Domestic Instrument. For the avoidance of doubt, where an Australian Domestic Instrument is entered into the Austraclear System, the expression “Holder” (in respect of that Australian Domestic Instrument) means Austraclear as operator of the Austraclear System.

Australian Domestic Instruments will not be serially numbered. Each entry in the Australian Register constitutes a separate and individual acknowledgement to the relevant Holder of the indebtedness of the Issuer to the relevant Holder. The obligations of the Issuer in respect of each Australian Domestic Instrument constitute separate and independent obligations which the Holder to whom those obligations are owed is

entitled to enforce without having to join any other Holder or any predecessor in title of a Holder. No certificate or other evidence of title will be issued by or on behalf of the Issuer to evidence title to an Australian Domestic Instrument unless the Issuer determines that certificates should be made available or it is required to do so pursuant to any applicable law or regulation.

Entries in the Australian Register in relation to an Australian Domestic Instrument constitute conclusive evidence that the person so entered is the registered owner of the Australian Domestic Instrument, subject to rectification for fraud or error. No Australian Domestic Instrument will be registered in the name of more than four persons. Australian Domestic Instruments registered in the name of more than one person are held by those persons as joint tenants. Australian Domestic Instruments will be registered by name only without reference to any trusteeship. The person registered in the Australian Register as a holder of an Australian Domestic Instrument will be treated by the Issuer and the Australian Registrar as the absolute owner of that Australian Domestic Instrument and neither the Issuer nor the Australian Registrar will, except as ordered by a court of competent jurisdiction or as required by statute, be obliged to take notice of any other claim to an Australian Domestic Instrument.

Upon a person acquiring title to any Australian Domestic Instrument by virtue of becoming registered as the owner of that Australian Domestic Instrument, all rights and entitlements arising by virtue of the Deed Poll in respect of that Australian Domestic Instrument vest absolutely in the registered owner of the Australian Domestic Instrument, such that no person who has previously been registered as the owner of the Australian Domestic Instrument has or is entitled to assert against the Issuer or the Australian Registrar or the registered owner of the Australian Domestic Instrument for the time being and from time to time any rights, benefits or entitlements in respect of the Australian Domestic Instrument.

Australian Domestic Instruments may be transferred in whole but not in part. Australian Domestic Instruments will be transferred by duly completed and (if applicable) stamped transfer and acceptance forms in the form specified by, and obtainable from, the Australian Registrar or by any other manner approved by the Issuer and the Australian Registrar. Australian Domestic Instruments entered in the Austraclear System (as defined below) will be transferable only in accordance with the Austraclear Regulations (as defined below).

Unless the Australian Domestic Instruments are lodged in the Austraclear System, application for the transfer of Australian Domestic Instruments must be made by the lodgment of a transfer and acceptance form with the Australian Registrar. Each transfer and acceptance form must be accompanied by such evidence (if any) as the Australian Registrar may require to prove the title of the transferor or the transferor's right to transfer the Australian Domestic Instruments and must be signed by both the transferor and the transferee.

The transferor of an Australian Domestic Instrument is deemed to remain the Holder of that Australian Domestic Instrument until the name of the transferee is entered in the Australian Register in respect of that Australian Domestic Instrument. Transfers will not be registered later than eight days prior to the Maturity Date of the Australian Domestic Instrument.

Australian Domestic Instruments may only be transferred within, to or from Australia if (a) the aggregate consideration payable by the transferee at the time of transfer is at least A\$500,000 (disregarding moneys lent by the transferor or its associates) or the offer or invitation giving rise to the transfer otherwise does not require disclosure to investors in accordance with Part 6D.2 of the Corporations Act 2001 of the Commonwealth of Australia, (b) the transfer is in compliance with all applicable laws, regulations and directives (including, without limitation, in the case of a transfer to or from Australia, the laws of the jurisdiction in which the transfer takes place), and (c) in the case of a transfer between persons outside Australia, if a transfer and acceptance form is signed outside Australia. A transfer to an unincorporated association is not permitted.

Transfers will be registered without charge provided taxes, duties or other governmental charges (if any) imposed in relation to the transfer have been paid.

A person becoming entitled to an Australian Domestic Instrument as a consequence of the death or bankruptcy of a Holder or of a vesting order or a person administering the estate of a Holder may, upon producing such evidence as to that entitlement or status as the Australian Registrar considers sufficient, transfer the Australian Domestic Instrument or, if so entitled, become registered as the holder of the Australian Domestic Instrument.

Where the transferor executes a transfer of less than all Australian Domestic Instruments registered in its name, and the specific Australian Domestic Instruments to be transferred are not identified, the Australian Registrar may register the transfer in respect of such of the Australian Domestic Instruments registered in the name of the transferor as the Australian Registrar thinks fit, provided the aggregate principal amount of the Australian Domestic Instruments registered as having been transferred equals the aggregate principal amount of the Australian Domestic Instruments expressed to be transferred in the transfer.

If Austraclear Services Limited (ABN 28 003 284 419) is the Australian Registrar and the Australian Domestic Instruments are lodged in the Austraclear System, despite any other provision of these Conditions, the Australian Domestic Instruments are not transferable on the Australian Register, and the Issuer may not, and must procure that the Australian Registrar does not, register any transfer of the Australian Domestic Instruments issued by it and no member of the Austraclear System has the right to request any registration of any transfer of such Australian Domestic Instruments, except:

- (a) in the case of any repurchase, redemption or cancellation (whether on or before the Maturity Date of the Australian Domestic Instruments) of such Australian Domestic Instruments, a transfer of the relevant Australian Domestic Instruments from Austraclear to the Issuer may be entered in the Australian Register; and
- (b) if Austraclear exercises any power it may have under the Austraclear Regulations or these Conditions to require the relevant Australian Domestic Instruments to be transferred on the Australian Register to a member of the Austraclear System, the relevant Australian Domestic Instruments may be transferred on the Australian Register from Austraclear to the member of the Austraclear System.

In either of these cases, the relevant Australian Domestic Instruments will cease to be held in the Austraclear System.

Where Austraclear is recorded in the Australian Register as the holder of an Australian Domestic Instrument, each person in whose Security Record (as defined in the Austraclear Regulations) an Australian Domestic Instrument is recorded is deemed to acknowledge in favour of the Australian Registrar and Austraclear that:

- (a) the Australian Registrar's decision to act as the Australian Registrar of that Australian Domestic Instrument does not constitute a recommendation or endorsement by the Australian Registrar or Austraclear in relation to that Australian Domestic Instrument, but only indicates that the holding of such Australian Domestic Instrument is considered by the Australian Registrar to be compatible with the performance by it of its obligations as Australian Registrar under the Australian Registry Services Agreement; and
- (b) the holder of the Australian Domestic Instrument does not rely on any fact, matter or circumstance contrary to paragraph (a).

In this Condition 1:

“**Austraclear**” means Austraclear Limited (ABN 94 002 060 773).

“**Austraclear Regulations**” means the rules and regulations established by Austraclear (as amended or replaced from time to time) to govern the use of the Austraclear System.

“**Austraclear System**” means the system operated by Austraclear for holding securities and the electronic recording and settling of transactions in those securities between members of that system.

2 Guarantee and Status

The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums expressed to be payable by ING Bank (Australia) Limited under the Notes, Receipts and Coupons. Its obligations in that respect (the “Guarantee”) are contained in the Deed of Guarantee.

The Notes and the relative Receipts and Coupons are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

Section 13A of the Banking Act 1959 of Australia provides that the assets of an authorised deposit-taking institution (“Australian ADI”), which includes ING Bank (Australia) Limited (but not ING Bank N.V., Sydney Branch), in Australia would, in the event of the Australian ADI becoming unable to meet its obligations or suspending payment, be available to meet that Australian ADI’s deposit liabilities in Australia in priority to all other liabilities of that Australian ADI. Under Section 16 of the Banking Act 1959 of Australia, debts due to the Australian Prudential Regulation Authority shall in a winding-up of an Australian ADI have, subject to Section 13A of the Banking Act 1959 of Australia, priority over all other unsecured debts of that Australian ADI. Australian Domestic Instruments issued by ING Bank N.V., Sydney Branch are not covered by the depositor protection provisions contained in Division 2 of the Banking Act 1959 of Australia (including, without limitation, Section 13A). However, claims against ING Bank N.V., Sydney Branch are subject to Section 11F of the Banking Act 1959 of Australia which provides that if ING Bank N.V., Sydney Branch (whether in or outside Australia) suspends payment or is unable to meet its obligations, the assets of ING Bank N.V., Sydney Branch in Australia are to be available to meet ING Bank N.V., Sydney Branch’s liabilities in Australia in priority to all other liabilities of ING Bank N.V., Sydney Branch. Further, under Section 86 of the Reserve Bank Act 1959 of Australia, debts due by a bank to the Reserve Bank of Australia shall in a winding-up of that bank have, subject to Section 13A of the Banking Act 1959, priority over all other debts, other than debts due to the Commonwealth of Australia.

Neither the Issuer, nor the Guarantor (if applicable) makes any representation as to whether the Australian Domestic Transferable Deposits, or any of them, would constitute deposit liabilities in Australia under such statutory provisions.

The payment obligations of the Guarantor under the Guarantee rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Guarantor from time to time outstanding.

3 Interest

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest so specified payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, “Fixed Interest Period” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall (subject to the following sentence) be calculated by applying the Rate of Interest to each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then if interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 3(a):

- (i) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “Accrual Period”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
 - (ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year;
- (ii) if “30/360” is specified in the applicable Final Terms, the number of days in the relevant Accrual Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Accrual Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Accrual Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Accrual Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Accrual Period falls;

“D₁” is the first calendar day, expressed as a number, of the Accrual Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Accrual Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30; and

- (iii) if “RBA Bond Basis” is specified in the applicable Final Terms, the product of (x) one divided by the number of Interest Payment Dates in a year and (y) the actual number of days in the Accrual Period divided by the total number of days in the Interest Period ending on the next (or first) Interest Payment Date.

In the Conditions:

“**Determination Period**” means each period from (and including) a Determination Date to (but excluding) the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“**sub-unit**” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) *Interest on Floating Rate Notes*

(i) **Interest Payment Dates**

Each Floating Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an “Interest Payment Date”) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an “Interest Payment Date”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 3(b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply mutatis mutandis or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention (Adjusted), such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Modified Following Business Day Convention (Unadjusted), (i) for the purpose of calculating the amount of interest payable under the Notes, such Interest Payment Date shall not be adjusted and (ii) for any other purpose, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (5) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, “**Business Day**” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Amsterdam and any Additional Business Centre specified in the applicable Final Terms; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than Amsterdam and any Additional Business Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars, Auckland and Wellington) or (2) in relation to interest payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the “TARGET System”) is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of the Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (iii), “ISDA Rate” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as amended and updated as at the Issue Date of the first Tranche of the Notes) as published by the International Swaps and Derivatives Association, Inc. (the “ISDA Definitions”) under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is the period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate (“LIBOR”) or on the Euro-zone inter-bank offered rate (“EURIBOR”) for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (iii), “Floating Rate”, “Calculation Agent”, “Floating Rate Option”, “Designated Maturity” and “Reset Date” have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such quotation

appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being “BBSW”, the Rate of Interest in respect of such Notes for the relevant Interest Period shall be the average mid rate for Bills (having the meaning that term has in the Bills of Exchange Act 1909 of Australia) having a tenor closest to the relevant Interest Period displayed on the “BBSW” page of the Reuters Monitor System on the first day of that Interest Period, plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Calculation Agent. However, if the average mid rate is not displayed by 10:30 am on that day, or if it is displayed but the Calculation Agent determines that there is an obvious error in that rate, the Rate of Interest in respect of such Notes for the relevant Interest Period shall be determined by the Calculation Agent in good faith at approximately 10:30 am on that day, having regard, to the extent possible, to the mid rate of the rates otherwise bid and offered for bank accepted Bills of that tenor at or around that time.

(v) Minimum and/or Maximum Rate of Interest

If the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(vi) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the “Interest Amount”) payable on the Floating Rate Notes in respect of each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms) for the relevant Interest Period. Each Interest Amount or any other amount of interest payable in respect of any Note for any period shall (subject to the following sentence) be calculated by applying the Rate of Interest to the Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then each Interest Amount or any other amount of interest payable in respect of any Note for any period shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes,

and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest on any Floating Rate Note for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period, the “Calculation Period”) in accordance with this Condition 3(b):

- (A) if “Actual/Actual” or “Actual/Actual (ISDA)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (F) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D₂ will be 30; and

- (G) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

- (vii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and notice thereof to be published in accordance with Condition 12 as soon as possible after their determination but in no event later than the fourth London Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and to the Holders in accordance with Condition 12. For the purposes of this Condition 3(b)(vii), the expression “London Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(viii) *Certificates to be Final*

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this paragraph (b), whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor, the Agent or, if applicable, the Calculation Agent, as the case may be, the other Paying Agents and all Holders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Guarantor (if applicable), the Holders, the Receiptholders or the Couponholders shall attach to the Agent or, if applicable, the Calculation Agent, the Issuer, the Guarantor (if applicable) or that other agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Interest on Dual Currency Interest Notes*

The rate or amount of interest payable shall be determined in the manner specified in the applicable Final Terms.

(d) *Interest on Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(e) *Accrual of Interest*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given in accordance with Condition 12 or individually.

(f) *Interest on Swedish Notes*

For the purposes of calculation of any amount of interest on Swedish Notes, the provisions of this Condition 3 shall be amended so that all periods (including but not limited to in respect of “Fixed Interest Period”, “Accrual Period”, “Calculation Period” and “Determination Period”) shall consist of the period from (but excluding) the first day of the relevant period up to (and including) the last day of the relevant period.

(g) *Interest Rates Positive*

Unless specified otherwise in the applicable Final Terms, the rate of interest payable in respect of the Notes shall never be less than zero. If the formula or other method for determining a rate of interest applicable to the Notes would result in a negative figure, the applicable rate of interest will be deemed to be zero.

4 Payments

(a) *Method of Payment*

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained and specified by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, shall be Sydney and if New Zealand dollars, Wellington); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment.

(b) *Presentation of Notes, Receipts and Coupons*

Other than in the case of definitive Bearer Notes in CF-form, payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against surrender of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against surrender of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the State and District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of principal in respect of any definitive Bearer Notes in CF-form will be made in the manner provided in paragraph (a) above only against surrender of definitive Notes together with the Coupon sheet attached. Payments of interest in respect of any definitive Bearer Notes in CF-form will be made in conformity with the agreement concluded between the Issuer and Algemeen Obligatiekantoor van het Centrum voor Fondsenadministratie B.V. in Amsterdam (the “Obligatiekantoor”), under which agreement the Issuer has accepted the rules and regulations of the Obligatiekantoor.

Payments of instalments of principal in respect of definitive Bearer Notes (if any), other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the

relevant Receipt. Payment of the final instalment will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined below) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 7) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter. Upon any such Fixed Rate Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

As used herein, the “Relevant Date” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Holders in accordance with Condition 12.

Upon the date on which any Floating Rate Note, Dual Currency Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “Long Maturity Note” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

Payments of principal and interest (if any) in respect of Notes represented by any global Bearer Note will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant global Bearer Note (in the case of a global Bearer Note not in New Global Note form, against presentation or surrender, as the case may be, of such global Bearer Note at the specified office of any Paying Agent outside the United States, and in the case of a global Bearer Note in New Global Note form, by payment to or to the order of the common safekeeper for such global Bearer Note). A record of each payment made against presentation or surrender of any such global Bearer Note not in New Global Note form, distinguishing between any payment of principal and any payment of interest, will be made on such global Bearer Note by such

Paying Agent and such record shall be *prima facie* evidence that the payment in question has been made. If a global Bearer Note is in New Global Note form, the Issuer shall procure that details of each payment of principal and interest (if any) made in respect of Notes represented by the New Global Note shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the global Bearer Note will be reduced accordingly. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge.

Where a global Bearer Note is a New Global Note, the Issuer shall procure that any exchange, payment, cancellation, exercise of any option or any right under the Notes, as the case may be, shall be entered in the records of the relevant clearing systems and upon any such entry being made, the nominal amount of the Notes represented by such global Bearer Note shall be adjusted accordingly.

The holder of a global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular nominal amount of Notes represented by such global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such global Note. No person other than the holder of such global Note shall have any claim against the Issuer in respect of any payments due on that global Note.

In the case of Notes held by Euroclear Netherlands, payment of interest or principal or any other payments on or in respect of the Notes to the Holders will be effected through Participants of Euroclear Netherlands. The Issuer shall deposit or cause to be deposited the funds intended for payment on the Notes in an account of Euroclear Netherlands. The Issuer will by such deposit be discharged of its obligations towards the Holders. No person other than the holder of the global Note shall have any claim against the Issuer in respect of any payments due on that global Note. Euroclear Netherlands will be discharged of its obligation to pay by paying the relevant funds to the Euroclear Netherlands Participants which according to Euroclear Netherlands' record hold a share in the *girodepot* with respect to such Notes, the relevant payment to be made in proportion to the share in such *girodepot* held by each of such Euroclear Netherlands Participants. Euroclear Netherlands shall not be obliged to make any payment in excess of funds it actually received as funds free of charges of any kind whatsoever.

Payments of principal, interest and/or any other amount payable under the Conditions in respect of Norwegian Notes shall be made to the Holders recorded as such on the fifth business day before the due date for such payment. As far as Norwegian Notes are concerned, the fifth business day before the date of payment shall be considered the due date in respect of the Norwegian Registration of Financial Instruments Act Section 7-4, and payment by the Issuer to the party who was registered as holder of the Note on the fifth business day before payment is due frees the Issuer from its liability.

Payments of principal, interest and/or any other amount payable under the Conditions in respect of Swedish Notes shall be made to the Holders recorded as such on the fifth business day (as defined by the then applicable Swedish CSD Rules) before the due date for such payment, or such other business day falling closer to the due date as may then be stipulated in said Rules. Such day shall be the Record Date in respect of the Swedish Notes.

U.S. dollar payments of principal and interest in respect of Bearer Notes will be made at the specified office of a Paying Agent in the United States (which expression, as used herein, means the United

States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)) if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Subject as set out below, payments of principal in respect of Registered Notes (whether in definitive or global form) will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due only, endorsement) of such Notes at the specified office of the Registrar or at the specified office of any Paying Agent. Payments of interest due on a Registered Note and payments of instalments (if any) of principal on a Registered Note, other than the final instalment, will be made to the person in whose name such Note is registered at the close of business on the fifteenth day (whether or not such fifteenth day is a business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) (the “Record Date”)) prior to such due date. In the case of payments by cheque, cheques will be mailed to the holder (or the first named of joint holders) at such holder’s registered address on the due date. If payment is required by credit or transfer as referred to in paragraph (a) above, application for such payment must be made by the holder to the Registrar not later than the relevant Record Date.

(c) *Australian Domestic Instruments*

Conditions 4(a) and 4(b) do not apply in respect of Australian Domestic Instruments. The provisions of this Condition 4(c) shall apply in respect of Australian Domestic Instruments only.

The Australian Registrar will act (through its office in Sydney) as paying agent for Australian Domestic Instruments pursuant to an Agency and Registry Services Agreement (such Agency and Registry Services Agreement as amended or supplemented from time to time, the “Australian Registry Services Agreement”) between the Issuer and the Australian Registrar.

For the purposes of this Condition 4(c), in relation to Australian Domestic Instruments, “Business Day” has the meaning given in the Australian Registry Services Agreement.

Payments of principal and interest will be made in Sydney in Australian dollars to the persons who, on the relevant Record Date (as defined below), are registered as the holders of such Australian Domestic Instruments, subject in all cases to normal banking practice and all applicable laws and regulations. Payment will be made either (i) by cheques drawn on the Sydney branch of an Australian bank and dispatched by post on the relevant payment date at the risk of the Holder or, (ii) at the option of the Holder, by the Australian Registrar giving irrevocable instructions for the effecting of a transfer of the relevant funds to an Australian dollar account in Australia specified by the Holder to the Australian Registrar (or in any other manner in Sydney which the Australian Registrar and the Holder agree).

In the case of payments made by electronic transfer, payments will for all purposes be taken to be made when the Australian Registrar gives irrevocable instructions in Sydney for the making of the

relevant payment by electronic transfer, being instructions which would be reasonably expected to result, in the ordinary course of banking business, in the funds transferred reaching the account of the Holder on the same day as the day on which the instructions are given.

If a cheque posted or an electronic transfer for which irrevocable instructions have been given by the Australian Registrar is shown, to the satisfaction of the Australian Registrar, not to have reached the Holder and the Australian Registrar is able to recover the relevant funds, the Australian Registrar may make such other arrangements as it thinks fit for the effecting of the payment in Sydney.

Interest will be calculated in the manner specified in Condition 3 and will be payable to the persons who are registered as Holders on the relevant Record Date and cheques will be made payable to the Holder (or, in the case of joint Holders, to the first-named) and sent to their registered address, unless instructions to the contrary are given by the Holder (or, in the case of joint Holders, by all the Holders) in such form as may be prescribed by the Australian Registrar. Payments of principal will be made to, or to the order of, the persons who are registered as Holders on the relevant Record Date, subject, if so directed by the Australian Registrar, to receipt from them of such instructions as the Australian Registrar may require, and cheques will be made payable to the Holder (or, in the case of joint Holders, to the first-named) and sent to their registered address, unless instructions to the contrary are given by the Holder (or, in the case of joint Holders, by all the Holders) in such form as may be prescribed by the Australian Registrar.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto. Neither the Issuer nor the Australian Registrar shall be liable to any Holder or other person for any commissions, costs, losses or expenses in relation to or resulting from such payments.

In this Condition 4(c) in relation to Australian Domestic Instruments, “Record Date” means, in the case of payments of principal or interest, the close of business in Sydney on the date which is the eighth calendar day before the due date of the relevant payment of principal or interest.

(d) *Payment Day*

Unless otherwise specified in the applicable Final Terms in relation to a Tranche of Notes, if the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes (unless otherwise specified in the applicable Final Terms), “Payment Day” means any day which (subject to Condition 7) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) London;
 - (C) Amsterdam; and
 - (D) any Additional Financial Centre specified in the applicable Final Terms;
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, London, Amsterdam or any Additional Financial Centre and which if the

Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars Auckland and Wellington) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open; and

- (iii) in the case of Australian Domestic Instruments, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Sydney only.

Notwithstanding anything else in these Conditions, in the event that an Interest Payment Date is brought forward under Condition 3(b) through the operation of a Business Day Convention in circumstances which were not reasonably foreseeable by the Issuer, the relevant Payment Day shall be the first Payment Day after the Interest Payment Date as so brought forward.

(e) *Interpretation of Principal*

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) the amount at which each Note will be redeemed on the Maturity Date of the Notes (“Final Redemption Amount”);
- (ii) the redemption amount in respect of Notes payable on redemption for taxation reasons or following an Event of Default (“Early Redemption Amount”);
- (iii) the Optional Redemption Amount(s) (if any) of the Notes;
- (iv) in relation to Instalment Notes, the Instalment Amounts;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 5(e)(iii)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

5 Redemption and Purchase

(a) *At Maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) *Redemption for Tax Reasons*

If the Issuer, or, if the Guarantee were called, the Guarantor, on the occasion of the next payment due in respect of the Notes or the Guarantee, would be required to withhold or account for tax in respect of the Notes, then the Issuer shall forthwith give notice of such circumstance to Holders. In such event, the Issuer may, but shall not be obliged to, on giving not more than 30 nor less than 15 days’ notice to the Holders (or such other period of notice as is specified in the applicable Final Terms), and upon expiry of such notice, redeem all but not some of the Notes at their Early Redemption Amount.

Notwithstanding the foregoing, if any of the taxes referred to above arises (i) by reason of any Holder’s connection with any particular jurisdiction otherwise than by reason only of the holding of any Note or receiving or being entitled to principal or interest in respect thereof; or (ii) by reason of the

failure by the relevant Holder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax, then to the extent it is able to do so, the Issuer shall deduct such taxes from the amounts payable to such Holder and all other Holders shall receive the due amounts payable to them.

(c) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' notice (or such other period of notice as is specified in the applicable Final Terms) to the Holders in accordance with Condition 12; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(both of which notices shall be irrevocable) redeem all or some only of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date(s). In respect of Swedish Notes, the notice shall in each case also specify the closed period for the purposes of the second paragraph of Condition 5(k).

Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount (if any) or not more than the Maximum Redemption Amount (if any), in each case as specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and/or Euroclear Netherlands, as the case may be, in the case of Redeemed Notes represented by a global Note, not more than 30 days prior to the date fixed for redemption (or such other period as is specified in the applicable Final Terms) (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 12 not less than 15 days (or such other period as is specified in the applicable Final Terms) prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant global Note will be permitted during the period from and including the Selection Date to and including the date fixed for redemption pursuant to this sub-paragraph (c) and notice to that effect shall be given by the Issuer to the Holders in accordance with Condition 12 at least 5 days prior to the Selection Date. In respect of a partial redemption of Swedish Notes, the notice shall also specify the Swedish Notes or amounts of the Swedish Notes to be redeemed and the closed period for the purposes of the second paragraph of Condition 5(k) in respect of the relevant Swedish Notes and the procedures for partial redemption laid down in the then applicable Swedish CSD Rules will be observed.

(d) *Redemption at the Option of the Holders (Holder Put)*

If Holder Put is specified in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 12 not less than 15 nor more than 30 days' notice (or such other

period of notice as is specified in the applicable Final Terms) (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, deliver at the specified office of any Paying Agent, any Transfer Agent or, as the case may be, the Registrar at any time during normal business hours of such Paying Agent, Transfer Agent or Registrar falling within the notice period, a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent, any Transfer Agent or the Registrar (a “Put Notice”) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 5 accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a global Bearer Note or is in definitive form and held through Euroclear, Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period concerned, give notice of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary for them or, if applicable, Euroclear Netherlands to the Agent by electronic means), in a form acceptable to Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands from time to time and, at the same time, present or procure the presentation of the relevant Global Bearer Note to the Agent for notation accordingly. In respect of Swedish Notes, the Put Notice shall not take effect against the Issuer before the date on which the relevant Swedish Notes have been transferred to the account designated by the Swedish Issuing Agent and blocked for further transfer by the Swedish Issuing Agent (such date will be the first date of a closed period for the purposes of the second paragraph of Condition 5(k)).

Any Put Notice given by a holder of any Note pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 8.

(e) *Early Redemption Amounts*

For the purpose of paragraph (b) above and Condition 8, each Note will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to its nominal amount, at the Final Redemption Amount thereof, together with interest (if any) accrued to (but excluding) the date of redemption; or
- (ii) in the case of a Note (other than a Zero Coupon Note or a Note to which paragraph (iv) below applies, but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than its nominal amount or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or

manner is so specified in the applicable Final Terms, at its nominal amount, together in each case with interest (if any) accrued to (but excluding) the date of redemption; or

- (iii) in the case of a Zero Coupon Note (other than a Zero Coupon Note to which paragraph (iv) below applies), at an amount (the “Amortised Face Amount”) equal to the sum of:
 - (A) the Reference Price; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (A) in the case of a Zero Coupon Note other than a Zero Coupon Note payable in euro, on the basis of a 360-day year consisting of 12 months of 30 days each or (B) in the case of a Zero Coupon Note payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non-leap year divided by 365) or (in either case) on such other calculation basis as may be specified in the applicable Final Terms; or

- (iv) in the case of a Note for which the applicable Final Terms provide for the Early Redemption Amount to be equal to the Fair Market Value of the Note, the Calculation Agent shall calculate the Early Redemption Amount in its sole discretion, acting reasonably, by determining the fair market value of the Note two Business Days (or such other period as is specified in the applicable Final Terms) prior to (x) the date fixed for redemption or (y) (as the case may be) the date upon which such Note becomes due and payable (unless specified otherwise in the Final Terms, taking into account the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions).

(f) *Instalments*

Instalment Notes will be repaid in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(g) *Partly Paid Notes*

If the Notes are Partly Paid Notes, they will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Final Terms.

(h) *Purchases*

The Issuer, the Guarantor (if applicable) or any of their subsidiaries may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, re-issued, resold or, at the option of the Issuer or the Guarantor (as the case may be), surrendered to any Paying Agent for cancellation.

(i) Cancellation

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to paragraph (h) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be re-issued or resold.

(j) Late Payment on Zero Coupon Notes

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b), (c) or (d) above or upon its becoming due and repayable as provided in Condition 8 is improperly withheld or refused, the amount due and payable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iii) above (if such Condition is stated to be applicable to the Note in the applicable Final Terms) as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Holders in accordance with Condition 12.

(k) Redemption – Other

The Issuer may at any time, on giving not less than 15 nor more than 30 days' notice to the Holders in accordance with Condition 12, redeem all but not some only of the Notes for the time being outstanding at their Early Redemption Amount if, prior to the date of such notice, 90 per cent. or more in nominal amount of the Notes hitherto issued have been redeemed.

No Holder may require the transfer of a Swedish Note to be registered during the period from (and including) the Record Date in respect of the due date for redemption of such Note and through such due date or during a period which is equivalent to such closed period pursuant to the then applicable Swedish CSD Rules.

In addition, the Issuer may (i) at any time, on giving not less than 15 nor more than 30 days' notice (or such other period of notice as specified in the applicable Final Terms) to the Holders in accordance with Condition 12, redeem the Notes for the time being outstanding on such other terms as may be specified in the applicable Final Terms and (ii) issue Notes which may be redeemed in other circumstances specified in the applicable Final Terms.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall never be less than zero. If the formula or other method for determining the Final Redemption Amount or the Early Redemption Amount (as the case may be) applicable to the Notes would result in a negative figure, the Final Redemption Amount or the Early Redemption Amount (as the case may be) will be deemed to be zero.

6 Taxation

Neither the Issuer nor the Guarantor (if applicable) shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation or surrender for payment or enforcement of any Note or the Guarantee and all payments made by the Issuer and the Guarantor (if any) shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

7 Prescription

Claims against the Issuer and/or the Guarantor (if applicable) for payment in respect of the Notes, Receipts and Coupons will become void unless made within a period of five years after the date on which such payment first becomes due.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 7 or Condition 4(b) or any Talon which would be void pursuant to Condition 4(b).

Claims against the Issuer and/or the Guarantor (if applicable) for payment of principal, interest and/or any other amount payable in respect of the Norwegian Notes, the Swedish Notes or the Australian Domestic Instruments shall be prescribed and become void unless made within a period of five years after the date on which such payment first becomes due.

8 Events of Default relating to Notes

If any one or more of the following events (each an “Event of Default”) shall have occurred and be continuing:

- (i) default is made for more than 30 days in the payment of interest or principal in respect of the Notes; or
- (ii) the Issuer or the Guarantor (in the case of Notes issued by ING Bank (Australia) Limited) fails to perform or observe any of its other obligations under the Notes and such failure has continued for the period of 60 days next following the service on the Issuer and the Guarantor (in the case of Notes issued by ING Bank (Australia) Limited) of notice requiring the same to be remedied; or
- (iii) the Issuer becomes insolvent or is unable to pay its debts as they fall due (within the meaning of the Corporations Act 2001 of Australia); or
- (iv) in the case of Notes issued by ING Bank (Australia) Limited only, the Guarantor is declared bankrupt (*failliet verklaard*), the Guarantor is granted a moratorium (*surseance van betaling*) or a declaration in respect of the Guarantor is made to apply the emergency regulation (*noodregeling*) under Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*);
- (v) in the case of Notes issued by ING Bank (Australia) Limited only, an order is made or an effective resolution is passed for the winding up or liquidation of the Guarantor unless this is done in connection with a merger, consolidation or other form of combination with another company, the terms of which merger, consolidation or combination (A) have the effect of the emerging or such other surviving company assuming all obligations contracted for by the Guarantor in connection with the Guarantee or (B) have previously been approved by an Extraordinary Resolution of the Noteholders, or
- (vi) in the case of Notes issued by ING Bank (Australia) Limited only, the Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect,

then any Holder may, by written notice to the Issuer and the Guarantor (in the case of Notes issued by ING Bank (Australia) Limited) at the specified office of the Agent, effective upon the date of receipt thereof by the Agent, declare the Note held by the holder to be forthwith due and payable whereupon the same shall become forthwith (or, in the case of Swedish Notes, on such later date on which the relevant Notes have been transferred to the account designated by the Swedish Issuing Agent and blocked for further transfer by the Swedish Issuing Agent (such date will be the first date of a closed period for the purposes of the second paragraph of Condition 5(k)) due and payable at the Early Redemption Amount (as described in Condition 5(e)), without presentment, demand, protest or other notice of any kind, provided that such right to declare Notes due and payable shall terminate if the situation giving rise to it has been cured before the relevant notice has become effective.

9 Transfer and Exchange of Registered Notes and replacement of Notes and Coupons

For the avoidance of doubt, Condition 9 shall not apply in respect of Australian Domestic Instruments.

Registered Notes of each Tranche will be represented by a permanent global Note in registered form, without interest coupons (the “Registered Global Note”). Registered Notes which are represented by a Registered Global Note will be exchangeable and transferable only in accordance with the rules and operating procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be (the “Applicable Procedures”).

Owners of beneficial interests in the Registered Global Note may transfer such interests, or may exchange such interests for beneficial interests in Registered Notes in definitive form, subject as provided below, to the provisions of the Registered Global Note and to the Applicable Procedures. Registered Notes in definitive form may also be transferred as provided below.

Interests in the Registered Global Note will be exchangeable for Registered Notes in definitive form if (i) Euroclear and/or Clearstream, Luxembourg notifies the Issuer that it is unwilling or unable to continue as depositary for such registered global Note or (ii) either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces its intention permanently to cease business, and a successor depositary or alternative clearing system satisfactory to the Issuer and the Agent is not available, or (iii) an Event of Default (as defined in Condition 8) has occurred and is continuing with respect to such Notes, or (iv) a written request for one or more Registered Notes in definitive form is made by a holder of a beneficial interest in a registered global Note; provided that in the case of (iv) such written notice or request, as the case may be, is submitted to the Registrar by the beneficial owner not later than 60 days prior to the requested date of such exchange and the Applicable Procedures are followed. Upon the occurrence of any of the events described in the preceding sentence, the Issuer will cause the appropriate Registered Notes in definitive form to be delivered.

Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with the Applicable Procedures.

Upon the terms and subject to the conditions set forth in the Agency Agreement, a Registered Note in definitive form may be transferred in whole or in part (in the nominal amounts set out in the applicable Final Terms) by the holder or holders surrendering the Registered Note for registration of the transfer of the Registered Note (or the relevant part of the Registered Note) at the specified office of the Registrar or any Transfer Agent (who will, as soon as practicable, forward such surrendered Registered Note to the Registrar and will give to the Registrar all relevant details to enable it to process the transfer), with the form of transfer thereon duly executed by, or accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Registrar duly executed by, the holder or holders thereof or its or their attorney or attorneys duly authorised in writing and upon the Registrar, after due and careful enquiry, being satisfied with the documents

of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer and the Registrar may prescribe. Subject as provided above, the Registrar will, within three business days of receipt by it (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver at its specified office to the transferee or (at the risk of the transferee) send by mail to such address as the transferee may request a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

Exchanges or transfers by a holder of a Registered Note in definitive form to a transferee who takes delivery of such Note through a Registered Global Note will be made no later than 60 days after the receipt by the Registrar of the Registered Note in definitive form to be so exchanged or transferred and only in accordance with the Applicable Procedures, and, if applicable, upon receipt by the Registrar of a written certification from the transferor.

In the event of a partial redemption of Notes under Condition 5(c) the Issuer shall not be required:

- (a) to register the transfer of Registered Notes (or parts of Registered Notes) during the period beginning on the sixty-fifth day before the date of the partial redemption and ending on the day on which notice is given specifying the serial numbers of Notes called (in whole or in part) for redemption (both inclusive); or
- (b) to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

The costs and expenses of effecting any exchange or registration of transfer pursuant to the foregoing provisions (except for the expenses of delivery by other than regular mail (if any) and, if the Issuer shall so require, for the payment of a sum sufficient to cover any tax or other governmental charge or insurance charges that may be imposed in relation thereto which will be borne by the Holder) will be borne by the Issuer.

If any Note (including a global Note) or Coupon is mutilated, defaced, stolen, destroyed or lost it may be replaced at the specified office of the Paying Agent in Luxembourg, in the case of Bearer Notes, Receipts or Coupons, or the Registrar in New York City, in the case of Registered Notes, on payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

10 Agent and Paying Agents, Transfer Agents and Registrar

For the avoidance of doubt, Condition 10 shall not apply in respect of Australian Domestic Instruments.

The names of the initial Agent and the other initial Paying Agents, the initial Registrar and the initial Transfer Agents and their initial specified offices are set out below.

The Issuer and the Guarantor (if applicable) are entitled to vary or terminate the appointment of the Agent, the Registrar, any Paying Agent or any Transfer Agent and/or appoint additional or other Paying Agents or Transfer Agents and/or approve any change in the specified office through which the Agent, the Registrar, any Paying Agent or any Transfer Agent acts, provided that:

- (i) so long as the Notes are admitted to trading or listed on any stock exchange or admitted to trading or listed by any other relevant authority, there will at all times be a Paying Agent and a Transfer Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange;
- (ii) there will at all times be a Paying Agent with a specified office in a city in continental Europe;
- (iii) there will at all times be an Agent;
- (iv) there will at all times be a Paying Agent with a specified office situated outside The Netherlands;
- (v) there will at all times be a Paying Agent with a specified office in a European Union member state that will not be obliged to withhold or deduct tax pursuant to any law implementing European Council Directive 2003/48/EC or any other European Union Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000;
- (vi) there will at all times be a Transfer Agent having a specified office in a place approved by the Agent;
- (vii) there will at all times be a Registrar with a specified office in New York City and in such place as may be required by the rules and regulations of any relevant stock exchange;
- (viii) so long as there is any Tranche of Norwegian Notes outstanding, there will at all times be a Register operated by a Norwegian Registrar duly authorised as a central securities depository under the Norwegian Securities Registration Act and an issuing agent duly authorised as such under the Norwegian CSD Rules (the “VPS Manager”) (a VPS Account Manager, in Norwegian: *Kontofører Utsteder*), in respect of the relevant Tranche of Norwegian Notes; and
- (ix) so long as there is any Tranche of Swedish Notes outstanding, there will at all times be a Swedish Registrar duly authorised as a central securities depository under the Swedish Financial Instruments Accounts Act and an issuing agent duly authorised as such under the Swedish CSD Rules (the “Swedish Issuing Agent”), in respect of the relevant Tranche of Swedish Notes.

In addition, the Issuer and the Guarantor (if applicable) shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the penultimate paragraph of Condition 4(b). Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days’ prior notice thereof shall have been given to the Holders in accordance with Condition 12.

11 Exchange of Talons

For the avoidance of doubt, this Condition 11 shall not apply in respect of Australian Domestic Instruments.

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 7. Each Talon shall, for the purposes of the Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

12 Notices

All notices regarding the Bearer Notes shall be published (i) in at least one daily newspaper of wide circulation in The Netherlands, (ii) in a leading English language daily newspaper of general circulation in London and (iii) if and for so long as the Bearer Notes are admitted to trading on the market of the Luxembourg Stock Exchange appearing on the list of regulated markets issued by the European Commission and the rules of such exchange so require, in a daily newspaper of general circulation in Luxembourg or on the website of the Luxembourg Stock Exchange (www.bourse.lu). It is expected that such publication will be made in *Het Financieele Dagblad* in The Netherlands, in the *Financial Times* in London and either in *Luxemburger Wort* in Luxembourg or on the website of the Luxembourg Stock Exchange (www.bourse.lu). Any such notice will be deemed to have been given on the date of the first publication in all the newspapers and/or on the website in which such publication is required to be made.

All notices to holders of Registered Notes will be valid if mailed to their registered addresses appearing on the register and published and, for so long as the Notes are admitted to trading on the market of the Luxembourg Stock Exchange appearing on the list of regulated markets issued by the European Commission and the rules of such exchange so require, either in *Luxemburger Wort* in Luxembourg or on www.bourse.lu. Any such notice shall be deemed to have been given on the fourth day after the day on which it is mailed.

Until such time as any definitive Notes are issued, there may, so long as the global Note(s) is or are held in its or their entirety on behalf of Euroclear, Clearstream, Luxembourg and/or Euroclear Netherlands, be substituted for such publication in any newspaper or website the delivery of the relevant notice to Euroclear and Clearstream, Luxembourg and/or Euroclear Netherlands (as the case may be) for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed or admitted to trading on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or such other relevant authority). Any such notice delivered on or prior to 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on such business day. A notice delivered after 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on the next following business day in such city.

Notices to be given by any holder of the Notes shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any holder of a Note to the Agent and/or Registrar via Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Agent and/or Registrar and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

In the case of Australian Domestic Instruments, the following provisions shall apply in lieu of any provisions of Condition 12 which are inconsistent with the following provisions. Notices regarding Australian Domestic Instruments shall be published in a leading daily newspaper of general circulation in Australia. It is expected that such notices will normally be published in *The Australian Financial Review*. Any such notice will be deemed to have been given to the Holders on the date of such publication.

13 Meetings of Holders, Modification and Waiver

The Agency Agreement contains provisions for convening meetings of the Holders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or certain provisions of the Agency Agreement. Such a meeting may be convened by the Issuer, the Guarantor (in respect of Notes issued by ING Bank (Australia) Limited) or Holders holding not less than five per cent. in nominal amount of the Notes for the time being remaining

outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Holders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, Receipts or Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereof, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes, Receipts or Coupons), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than 75 per cent., or at any adjourned such meeting not less than a clear majority, in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Holders shall be binding on all the Holders, whether or not they are present at the meeting, and on all Receiptholders and Couponholders.

The Agent, the Issuer and the Guarantor (in respect of Notes issued by ING Bank (Australia) Limited) may agree, without the consent of the Holders, Receiptholders or Couponholders, to:

- (i) any modification (except as mentioned above) of the Agency Agreement which is not materially prejudicial to the interests of the Holders; or
- (ii) any modification of the Notes, the Receipts, the Coupons, the Agency Agreement or the Guarantee (in respect of Notes issued by ING Bank (Australia) Limited) which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor (in respect of Notes issued by ING Bank (Australia) Limited) (as the case may be) is incorporated.

Any such modification shall be binding on the Holders, the Receiptholders and the Couponholders and any such modification shall be notified to the Holders in accordance with Condition 12 as soon as practicable thereafter.

In the case of Australian Domestic Instruments, the following provisions shall apply in lieu of any provisions of Condition 13 which are inconsistent with the following provisions. Meetings of Holders may be convened in accordance with the meetings provisions set out in the schedule to the Deed Poll ("Meetings Provisions"). Any such meeting may consider any matter affecting the interests of Holders, including, without limitation, the variation of the terms of the Australian Domestic Instruments by the Issuer and the granting of approvals, consents and waivers, and the declaration of an Event of Default.

The Deed Poll may be amended by the parties to it without the consent of any Holder for the purposes of curing any ambiguity or correcting or supplementing any defective or inconsistent provision therein provided that such amendment does not have a materially adverse affect on the interests of the Holders. The Deed Poll may otherwise be varied by the Issuer with the approval of the Holders by Extraordinary Resolution (as defined in the Meetings Provisions).

Other than variations to the Conditions made in accordance with Condition 13, no variation to the Conditions has effect in relation to the Holders who hold Australian Domestic Instruments at the date of any amending deed or agreement unless otherwise agreed in writing by Holders. A variation will take effect in relation to all subsequent Holders.

A resolution passed at a meeting of Holders duly convened and held (or passed by those Holders in writing) pursuant to the Meetings Provisions is binding on all Holders, whether or not present and whether or not voting at the meeting (or signing or not signing the written resolution), and each Holder is bound to give effect to it accordingly. The passing of any such resolution is conclusive evidence that the circumstances of such resolution justify its passing.

The Issuer must give notice to the Holders of the result of the voting on a resolution within 14 days of such result being known but failure to do so will not invalidate the resolution. Such notice to Holders must be given in the manner provided in Condition 12.

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

14 Further Issues

The Issuer shall be at liberty from time to time without the consent of the Holders, Receiptholders or Couponholders to create and issue further notes having the same terms and conditions as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

15 Governing Law and Jurisdiction

The Notes, the Receipts, the Coupons, the Talons, and any non-contractual obligations arising out of or in connection with them, and the Deed of Guarantee are governed by, and shall be construed in accordance with, English law.

The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons or the Deed of Guarantee and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons or the Deed of Guarantee (“Proceedings”) may be brought in such courts. The Issuer and the Guarantor irrevocably submit to the jurisdiction of the courts of England and waive any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

The Issuer and the Guarantor irrevocably appoint the General Manager for the time being of the Issuer’s London Branch, currently at 60 London Wall, London EC2M 5TQ as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the Issuer or the Guarantor, as the case may be). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer and the Guarantor irrevocably agree to appoint a substitute process agent and shall immediately notify Holders of such appointment in accordance with Condition 12. Nothing shall affect the right to serve process in any manner permitted by law.

Notwithstanding the provisions set out in the paragraphs above, the legal effects of registration of Norwegian Notes in VPS will be regulated by chapter 7 of the Norwegian Securities Registration Act.

In the case of Australian Domestic Instruments, the following provisions shall apply in lieu of any provisions of Condition 15 which are inconsistent with the following provisions. The Australian Domestic Instruments are governed by, and shall be construed in accordance with, the law in force in New South Wales, Australia.

In the case of Australian Domestic Instruments, the Issuer has irrevocably agreed for the benefit of Holders that the courts of New South Wales, Australia and courts of appeal from them are to have non-exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Australian Domestic Instruments, the Deed Poll or the Australian Registry Services Agreement and that accordingly any suit, action or proceedings arising out of or in connection with the Australian Domestic Instruments, the Deed Poll or the Australian Registry Services Agreement (together referred to as “Australian Proceedings”) may be brought in such courts.

The Issuer has irrevocably waived any objection which it may have now or hereafter to the laying of the venue of any Australian Proceedings in any such court and any claim that any such Australian Proceedings have been brought in an inconvenient forum and has further irrevocably agreed that a judgment in any such Australian Proceedings brought in the courts of New South Wales and courts of appeal from them shall be conclusive and binding upon it and may be enforced in the courts of any other jurisdiction.

16 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes, the Receipts, the Coupons, the Talons or the Deed of Guarantee under the Contracts (Rights of Third Parties) Act 1999.

17 Determinations by the Calculation Agent, the Issuer and/or the Guarantor

For the purposes of the Notes, any determinations, calculations or other decisions made by the Calculation Agent, the Issuer and/or the Guarantor (if applicable) under or pursuant to the terms of the Notes shall be made in its/ their sole and absolute discretion. All such determinations, calculations or other decisions of the Calculation Agent, the Issuer and/or the Guarantor (if applicable) shall (save in the case of manifest error) be final, conclusive and binding on all parties, and neither the Calculation Agent, the Issuer nor the Guarantor (if applicable) shall have any liability to any person therefore.

18 FX and Benchmark Notes

(a) FX Notes

The following provisions of this Condition 18(a) shall apply to the Notes if the FX Provisions are specified to be applicable in the applicable Final Terms.

(i) FX Market Disruption Event

If the Issuer determines that an FX Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of any amount which is to be determined by reference to the Primary FX Rate on such Scheduled Valuation Date or on such other date (for the purposes of this Condition 18(a), the “Relevant FX Amount”) shall be postponed until the next Business Day on which there is no FX Market Disruption Event.

If, however, an FX Market Disruption Event is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount is to be determined by reference to the Primary FX Rate, then the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant FX Amount. However, if the Fallback FX Rate is not available

on such Business Day, or if no Fallback FX Rate is specified in the applicable Final Terms, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) **Unscheduled Holiday**

If the Issuer determines that an Unscheduled Holiday has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of the Relevant FX Amount shall be postponed until the next Business Day on which no Unscheduled Holiday occurs, provided that no such postponement shall occur for a period longer than 30 calendar days (or such other period as is specified in the applicable Final Terms) following such Scheduled Valuation Date or such other date.

If, however, an Unscheduled Holiday is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount which is to be determined by reference to the Primary FX Rate, then the Primary FX Rate (if available) or the Fallback FX Rate (if the Primary FX Rate is not available and a Fallback FX Rate is specified in the applicable Final Terms) on the first calendar day following the expiry of that period shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if a Fallback FX Rate is specified in the applicable Final Terms) the Fallback FX Rate is available on such calendar day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) **Cumulative Events**

Notwithstanding anything herein to the contrary, in no event shall the period during which either (x) a calculation is postponed due to an Unscheduled Holiday or (y) a calculation is postponed due to an FX Market Disruption Event (or any combination of (x) and (y)) exceed the Maximum Period of Postponement. Accordingly, if, upon the lapse of the Maximum Period of Postponement, an Unscheduled Holiday or FX Market Disruption Event shall have occurred or be continuing, then the Primary FX Rate or (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day (including any day which would have been a Business Day but for the occurrence of an Unscheduled Holiday) following the expiry of the Maximum Period of Postponement shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) is available on that Business Day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iv) **Relevant FX Rate Inappropriate**

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary FX Rate or Fallback FX Rate used to determine the Relevant FX Amount in accordance with Condition 18(a)(i), (ii) or (iii) above is inappropriate, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in

good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(v) **Payment**

The Relevant FX Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which it is determined by the Calculation Agent in accordance with Condition 18(a)(i), (ii), (iii) or (iv) above. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 18(a).

(b) **Benchmark Notes**

- (i) The following provisions of this Condition 18(b) shall apply to the Notes if the Benchmark Provisions are specified to be applicable in the applicable Final Terms.

If the Issuer determines that a Benchmark Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary Benchmark, then:

- (x) if the Relevant Benchmark Amount Postponement Provisions are specified to be applicable in the Final Terms, the calculation of any amount which is to be determined by reference to the Primary Benchmark on such Scheduled Valuation Date (for the purposes of this Condition 18(b), the “Relevant Benchmark Amount”) shall be postponed to the next Business Day on which there is no Benchmark Market Disruption Event, unless on each of the eight Business Days following such Scheduled Valuation Date or such other date (or such other period as may be specified in the applicable Final Terms) a Benchmark Market Disruption Event occurs. In that case, the Fallback Benchmark (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant Benchmark Amount. However, if the Fallback Benchmark is not available on such Business Day, or if no Fallback Benchmark is specified in the applicable Final Terms, the Relevant Benchmark Amount shall be determined by the Calculation Agent as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice; and
- (y) if the Relevant Benchmark Amount Postponement Provisions are not specified to be applicable in the Final Terms, the Relevant Benchmark Amount shall be determined as soon as reasonably possible by the Calculation Agent in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) **Relevant Benchmark Inappropriate**

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary Benchmark or Fallback Benchmark used to determine the Relevant Benchmark Amount in accordance with Condition 18(b)(i) above is inappropriate, the Calculation Agent shall determine the Relevant Benchmark Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) Payment

The Relevant Benchmark Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which such amount is determined. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment in accordance with this Condition 18(b).

(c) *FX Convertibility Event and FX Transferability Event*

The following provisions of this Condition 18(c) shall apply to the Notes if the FX Convertibility Event Provisions and/or FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms.

- (i) If (x) the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Convertibility Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction or (y) the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Transferability Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction, then in either such case the Issuer shall use reasonable endeavours to pay such amount in the Relevant Currency to the Holder's Relevant Currency account or, in the absence of such account or in the case of the Holder's failure to notify the Issuer of the details of such account in a timely manner, to any other account as the Issuer may determine (including, for the avoidance of doubt, an account which is or may be subject to limitations on conversion and/or repatriation) in which account any such amount shall be held for the benefit of the Holder. Payment of any such amount by the Issuer shall discharge the Issuer of its remaining obligations under the Notes in respect of such payment in the Relevant Currency. Should any account be opened by the Issuer for the Holder, such account will be opened on the normal terms and conditions of the relevant institution, and in the event any interest accrues on the amounts held in such account, such interest will be for the benefit of the Holder.

Any costs incurred by the Issuer in connection with the opening or maintenance of such account will be borne by the Holder, and the Issuer reserves the right to use the funds in such account to pay for such costs. The amount payable by the Issuer to the Holder in respect of the Notes shall be reduced by the amount of any such costs incurred by the Issuer. Such right of set-off is without prejudice to any additional right to claim such costs. In the event that the costs incurred by the Issuer in connection with the opening and/or maintenance of such account exceed the amount payable by the Issuer to the Holder in respect of the Notes or the amount held in such account for the Holder, the Issuer reserves the right to forego opening or to close such account.

- (ii) If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms), then such payment shall be postponed until the next Payment Day on which such payment can, in the sole discretion of the Issuer, reasonably be made. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 18(c).

If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms) for a period of five years (or such other period as may be specified in the applicable Final Terms) from the date on which payment was originally due to be made but for the FX Convertibility Event or the FX Transferability Event, as the case may be, then the Issuer shall be entitled to all amounts in any account opened by it pursuant to Condition 18(c)(i) above, including accrued interest, if any, and no additional amounts shall be payable to the relevant Noteholder.

(d) *Tax Event*

If the Tax Event Provisions are specified to be applicable in the applicable Final Terms, all payments made under the Notes will be subject to the deductions of any taxes, fees or costs that may be incurred or arise as a result of any Tax Event in relation to the Notes and any transactions associated with them. The determination of the amount of any such taxes, fees or costs shall be made by the Issuer in its sole discretion.

CHAPTER 15: GUARANTEED CANADIAN NOTES ISSUED BY ING BANK OF CANADA

PART 1: TERMS AND CONDITIONS OF THE GUARANTEED CANADIAN NOTES

The following are the Terms and Conditions of Notes to be issued by ING Bank of Canada and guaranteed by ING Bank N.V., which will be incorporated by reference into each global Note and which will be incorporated into (or if agreed between the Issuer, the Guarantor and the relevant Dealer (if any), incorporated by reference into) each definitive Note. The applicable Final Terms in relation to any Tranche of Notes may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with the following Terms and Conditions, replace or modify the following Terms and Conditions for the purpose of such Tranche of Notes.

This Note is one of a series of Notes issued by ING Bank of Canada (the “Issuer”). If the Notes represented hereby are designated “Deposit Notes” in the applicable Final Terms, all provisions relating to Deposit Notes will apply to such Notes, and if the Notes represented hereby are designated “Subordinated Notes” in the applicable Final Terms, all provisions relating to Subordinated Notes will apply to such Notes.

Deposit Notes will be guaranteed by ING Bank N.V. (the “Guarantor”) pursuant to a guarantee endorsed on such Deposit Notes (the “Deposit Note Guarantee”).

Subordinated Notes will be issued pursuant to and subject to a master trust indenture dated as of 29 September 2006 (as modified, supplemented and/or restated as at the Issue Date) (the “Trust Indenture”) between the Issuer, the Guarantor and BNY Trust Company of Canada, as trustee (the “Trustee”) and will be guaranteed on a subordinated basis by the Guarantor upon and subject to the provisions of the guarantee contained in Article 4 of the Trust Indenture (the “Subordinated Guarantee”).

References herein to the “Notes” shall be references to the Notes of this Series (as defined below) and shall unless the context otherwise requires include Deposit Notes and Subordinated Notes. Any reference herein to “Noteholders” shall mean the registered holders of the Notes and shall, in relation to any Notes represented by a global Note, be construed as provided below.

Notes have the benefit of an agency agreement dated as of the date hereof (as modified, supplemented and/or restated as at the Issue Date, the “Agency Agreement”) and made among the Issuer, the Guarantor, the Trustee, BNY Trust Company of Canada as issuing and principal paying agent (in such capacities, the “Agent”, which expression shall include any successor agent) and as registrar and transfer agent (in such capacities the “Registrar”, which expression shall include any successor Registrar). Under the Agency Agreement the Issuer may appoint other paying agents (together with the Agent, the “Paying Agents”, which expression shall include any successor paying agents) and may appoint other transfer agents (together with the Registrar, the “Transfer Agents”, which expression shall include any successor transfer agents).

The Final Terms for this Note attached hereto or applicable hereto or incorporated herein (as the case may be) supplement the Conditions and may specify other conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, replace or modify the Conditions for the purposes of this Note. References herein to the “applicable Final Terms” are to the Final Terms attached hereto or applicable hereto or incorporated herein (as the case may be).

As used herein, “Tranche” means Notes which are identical in all respects and “Series” means a Tranche of Notes together with any further Tranche or Tranches of Notes which are (i) expressed to be consolidated and form a single series and (ii) are identical in all respects except for their respective Issue Dates, Interest Commencement Dates and/or Issue Prices.

Copies of the Trust Indenture (including the Subordinated Guarantee), if applicable to this Note, the Agency Agreement, the Deposit Note Guarantee, if applicable to this Note, and the applicable Final Terms are available for inspection at the specified offices of each of the Agent and from the Issuer, upon such Noteholder producing evidence as to identity satisfactory to the Agent or the Issuer. Written or oral requests for such documents should be directed to the Issuer at 111 Gordon Baker Road, Suite 900, Toronto, Ontario M2H 3R1, Canada. The Noteholders are deemed to have notice of, and are entitled to the benefit of, all the provisions of the Agency Agreement, the applicable Final Terms, the Trust Indenture, if applicable to this Note, and, if applicable, the Deposit Note Guarantee which are binding on them.

The Issuer shall undertake the duties of calculation agent (the “Calculation Agent”) in respect of the Notes unless another entity is so specified as calculation agent in the applicable Final Terms. The expression Calculation Agent shall, in relation to the relevant Notes, include such other specified calculation agent.

Words and expressions defined in the Trust Indenture or the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in the Conditions unless the context otherwise requires or unless otherwise stated.

1 Form, Denomination and Title

The Notes are in registered form only, in the currency in which payment in respect of the Notes is to be made (the “Specified Currency”) and in the denomination per Note specified to be applicable to the Notes (the “Specified Denomination”) all as specified in the applicable Final Terms and, in the case of definitive Notes, serially numbered.

This Note is a Deposit Note or a Subordinated Note, as indicated in the applicable Final Terms.

This Note may be a Note bearing interest on a fixed rate basis (“Fixed Rate Note”), a Note bearing interest on a floating rate basis (“Floating Rate Note”), a Note issued on a non-interest bearing basis (“Zero Coupon Note”) or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

This Note may be a Note redeemable in instalments (“Instalment Note”), a Note to be issued on a partly paid basis (“Partly Paid Note”), a Note in respect of which principal is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (a “Dual Currency Redemption Note”) or a Note in respect of which interest is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (“Dual Currency Interest Note”) or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Final Terms.

Subject as set out below, title to the Notes will pass upon registration of transfers in the register for the Notes maintained by the Registrar in accordance with the provisions of the Agency Agreement and, in the case of Subordinated Notes, the Trust Indenture. Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the Issuer, the Guarantor, the Agent, the Replacement Agent (as defined in the Agency Agreement), the Trustee, the Registrar, any Transfer Agent and any Paying Agent may deem and treat the registered holder of any Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes.

For so long as The Canadian Depository for Securities Limited (“CDS”), or its nominee, is the registered holder of any Notes in global form (“Global Notes”), CDS or such nominee, as the case may be, will be considered the absolute owner or holder of the Notes represented by such registered Global Note for all purposes and members of, or participants in, CDS (the “Participants”) as well as any other person on

whose behalf the Participants may act will have no rights under a registered Global Note. Owners of beneficial interests in a registered Global Note will not be considered to be the owners or holders of any Notes.

References to CDS shall be, whenever the context so permits, deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent.

2 Deposit Notes: Deposit Note Guarantee and Status

The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums expressed to be payable by the Issuer under the Deposit Notes. Its obligations in that respect are contained in the Deposit Note Guarantee.

The Deposit Notes are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and equally with all deposit liabilities of the Issuer (except as otherwise prescribed by law) and other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding. The applicable Final Terms will indicate whether or not a particular Series of Deposit Notes are insured under the provisions of the Canada Deposit Insurance Corporation Act.

The obligations of the Guarantor under the Deposit Note Guarantee rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Guarantor from time to time outstanding.

3 Subordinated Notes: Subordinated Guarantee and Status

- (a) The Guarantor has unconditionally and irrevocably guaranteed, on a subordinated basis, the due payment of all sums expressed to be payable by the Issuer under the Subordinated Notes. Its obligations in that respect are contained in the Trust Indenture.

The Subordinated Notes constitute direct, unsecured and subordinated obligations of the Issuer constituting subordinated indebtedness for the purpose of the Bank Act (Canada) and will therefore rank subordinate to all deposit liabilities of the Issuer. The Subordinated Notes will not be deposits insured under the Canada Deposit Insurance Corporation Act. The Subordinated Notes rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured and subordinated indebtedness of the Issuer as defined below, save for such indebtedness that has been accorded by law preferential rights.

If the Issuer becomes insolvent, the Bank Act (Canada) provides that priorities among payments of its deposit liabilities and payments of all of its other liabilities (including payments in respect of the Subordinated Notes) are to be determined in accordance with the laws governing priorities and, where applicable, by the terms of the indebtedness and liabilities. The Trust Indenture provides that, if the Issuer becomes insolvent or is wound-up, subordinated indebtedness issued and outstanding under the Trust Indenture will rank at least equally and rateably with all other subordinated indebtedness and subordinate in right of payment to the prior payment in full of the Issuer's indebtedness then outstanding, other than subordinated indebtedness of the Issuer that by its terms is subordinate to subordinated indebtedness issued and outstanding under the Trust Indenture. Further, the Trust Indenture provides that, in the event the Issuer becomes insolvent or is wound-up, no amount shall be eligible for setting-off or shall be payable to any or all the persons entitled to be paid amounts due in respect of subordinated indebtedness issued and outstanding under the Trust Indenture until all other indebtedness of the Issuer which is admissible in any such dissolution, bankruptcy or moratorium (other than subordinated indebtedness issued and outstanding under the Trust Indenture) has been paid or discharged in full.

For these purposes, “indebtedness of the Issuer” at any time means:

- (i) the deposit liabilities of the Issuer at such time; and
- (ii) all other liabilities and obligations of the Issuer to third parties (other than fines or penalties which pursuant to the Bank Act (Canada) are a last charge on the assets of a bank in the case of insolvency of such bank and obligations to shareholders of the Issuer, as such) which would entitle such third parties to participate in a distribution of the Issuer’s assets in the event of the insolvency or winding-up of the Issuer.

For these purposes, “subordinated indebtedness of the Issuer” at any time means:

- (i) the liability of the Issuer in respect of the principal of and premium, if any, and interest on the Subordinated Notes;
 - (ii) any indebtedness of the Issuer which ranks equally with and not prior to the Subordinated Notes in right of payment in the event of the insolvency or winding-up of the Issuer and which, pursuant to the terms of the instrument evidencing or creating the same, is expressed to be subordinate in right of payment to all indebtedness of the Issuer to which the Subordinated Notes are subordinate in right of payment to at least the same extent as the Subordinated Notes are subordinate thereto under the provisions of Article 11 of the Trust Indenture; and
 - (iii) any indebtedness of the Issuer which ranks subordinate to and not equally with or prior to the Subordinated Notes in right of payment in the event of the insolvency or winding-up of the Issuer and which, pursuant to the terms of the instrument evidencing or creating the same, is expressed to be subordinate in right of payment to all indebtedness of the Issuer to which the Subordinated Notes are subordinate in right of payment to at least the same extent as the Subordinated Notes are subordinate thereto under the provisions of Article 11 of the Trust Indenture.
- (b) The Subordinated Guarantee constitutes a direct, unsecured and subordinated obligation of the Guarantor and ranks at least *pari passu* with all other present and future unsecured and subordinated obligations of the Guarantor, save for those that have been accorded by law preferential rights.

In the event of the dissolution (*ontbinding*) of the Guarantor or if the Guarantor is declared bankrupt (*failliet verklaard*) or if a moratorium (*surséance van betaling*) or emergency regulation (*noodregeling*) resulting from the application of emergency measures as referred to in Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) is declared in respect of the Guarantor, then and in any such event the claims of the persons entitled to be paid amounts due in respect of the Subordinated Guarantee shall be subordinated to all other claims in respect of any other indebtedness of the Guarantor except for other Guarantor Subordinated Indebtedness (as defined below), to the extent that, in any such event, no amount shall be eligible for setting-off or shall be payable to any or all the persons entitled to be paid amounts due in respect of the Subordinated Guarantee in respect of the obligations of the Guarantor thereunder until all other indebtedness of the Guarantor which is admissible in any such dissolution, bankruptcy, moratorium or emergency regulation (other than Guarantor Subordinated Indebtedness) has been paid or discharged in full.

“Guarantor Subordinated Indebtedness” means any indebtedness of the Guarantor, including any guarantee by the Guarantor, under which the right of payment of the person(s) entitled thereto is, or is expressed to be, or is required by any present or future agreement of the Guarantor to be, subordinated to the rights of all unsubordinated creditors of the Guarantor in the event of the dissolution of the Guarantor or if the Guarantor is declared bankrupt or if a moratorium or emergency regulation

resulting from the application of emergency measures as referred to in Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act is declared in respect of the Guarantor.

4 Interest

(a) *Interest on Fixed Rate Notes*

Each Fixed Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest so specified payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

As used in the Conditions, “Fixed Interest Period” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall (subject to the following sentence) be calculated by applying the Rate of Interest to each Specified Denomination, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then if interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the Specified Denomination, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 4(a):

- (1) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (i) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “Accrual Period”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination

Period and (y) the number of Determination Dates that would occur in one calendar year;

- (2) if “30/360” is specified in the applicable Final Terms, the number of days in the relevant Accrual Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Accrual Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Accrual Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Accrual Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Accrual Period falls;

“D₁” is the first calendar day, expressed as a number, of the Accrual Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Accrual Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (3) if “Actual/Actual (Canadian Compound Method)” is specified in the applicable Final Terms, the number of days in the Accrual Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months unless (i) the last day of the Accrual Period is the 31st day of a month but the first day of the Accrual Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (ii) the last day of the Accrual Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month, except that when calculating interest for a period that is shorter than a full Interest Period, the day count convention is Actual/365 (Fixed); and
- (4) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Accrual Period divided by 365.

In the Conditions:

“Determination Period” means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“sub-unit” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) *Interest on Floating Rate Notes*

(i) Interest Payment Dates

Each Floating Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an “Interest Payment Date”) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an “Interest Payment Date”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 4(b)(i)(B) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention (Adjusted), such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Modified Following Business Day Convention (Unadjusted), (i) for the purpose of calculating the amount of interest payable under the Notes, such Interest Payment Date shall not be adjusted and (ii) for any other purpose, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (5) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, “Business Day” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Toronto and any Additional Business Centre specified in the applicable Final Terms; and
- (B) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (and any Additional Business Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars, Auckland and Wellington) or (2) in relation to interest payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the “TARGET System”) is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of the Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (iii), “ISDA Rate” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as amended and updated as at the Issue Date of the first Tranche of the Notes) as published by the International Swaps and Derivatives Association, Inc. (the “ISDA Definitions”) under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is the period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate (“LIBOR”) or on the Euro-zone inter-bank offered rate (“EURIBOR”) for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (iii), “Floating Rate”, “Calculation Agent”, “Floating Rate Option”, “Designated Maturity” and “Reset Date” have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or

- (B) the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR, or Toronto time, in the case of CAD-BA-CDOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR, EURIBOR or CAD-BA-CDOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

(v) Minimum and/or Maximum Rate of Interest

If the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(vi) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the “Interest Amount”) payable on the Floating Rate Notes in respect of each Specified Denomination for the relevant Interest Period. Each Interest Amount or any other amount of interest payable in respect of any Note for any period shall (subject to the following sentence) be calculated by applying the Rate of Interest to the Specified Denomination, multiplying such sum by the applicable Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then each Interest Amount or any other amount of interest payable in respect of any Note for any period shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the Specified Denomination,

and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest on any Floating Rate Note for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period, the “Calculation Period”) in accordance with this Condition 4(b):

- (A) if “Actual/Actual” or “Actual/Actual (ISDA)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30.

(vii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and notice thereof to be published in accordance with Condition 12 as soon as possible after their determination but in no event later than the fourth Toronto Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and to the Noteholders in accordance with Condition 12. For the purposes of this Condition 4(b)(vii), the expression “Toronto Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in Toronto.

(viii) Certificates to be Final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this paragraph (b), whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor, the Agent or, if applicable, the Calculation Agent, as the case may be, the other Paying Agents, the Trustee and all Noteholders and (in the absence as aforesaid) no liability to the Issuer, the Guarantor or the Noteholders, shall attach to the Agent or, if applicable, the Calculation Agent, the Issuer, the Guarantor or that other agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Interest on Dual Currency Interest Notes*

The rate or amount of interest payable shall be determined in the manner specified in the applicable Final Terms.

(d) *Interest on Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(e) *Accrual of Interest*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given in accordance with Condition 12 or individually.

(f) Interest Rates Positive

Unless specified otherwise in the applicable Final Terms, the rate of interest payable in respect of the Notes shall never be less than zero. If the formula or other method for determining a rate of interest applicable to the Notes would result in a negative figure, the applicable rate of interest will be deemed to be zero.

5 Payments*(a) Method of Payment*

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, shall be Melbourne and if New Zealand dollars, Wellington); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment.

(b) Presentation of Notes

The holder of a global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of CDS as the beneficial holder of a particular nominal amount of Notes represented by such global Note must look solely to CDS for his share of each payment so made by the Issuer to, or to the order of, the holder of such global Note. No person other than the holder of such global Note shall have any claim against the Issuer in respect of any payments due on that global Note.

All amounts payable to CDS or its nominee as registered holder of a registered global Note in respect of Notes denominated in a Specified Currency other than Canadian dollars or U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of one or more of the Transfer Agents on behalf of CDS or its nominee for payment in such Specified Currency or conversion into Canadian dollars or U.S. dollars in accordance with the provisions of the Agency Agreement.

Subject as set out below, payments of principal in respect of Notes (whether in definitive or global form) will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due only, endorsement) of such Notes at the specified office of the Registrar or at the specified office of any Paying Agent. Payments of interest due on a Note and payments of instalments (if any) of principal on a Note, other than the final instalment, will be made to the person in whose name such Note is registered at the close of business on the fifteenth day (whether or not such fifteenth day is a business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) (the "Record Date")) prior to such due date. In the case of payments by cheque, cheques will be mailed to the holder (or the first named of joint holders) at such holder's registered address on the due date. If payment is

required by credit or transfer as referred to in paragraph (a) above, application for such payment must be made by the holder to the Registrar not later than the relevant Record Date.

(c) *Payment Day*

Unless otherwise specified in the applicable Final Terms in relation to a Tranche of Notes, if the date for payment of any amount in respect of any Note is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes (unless otherwise specified in the applicable Final Terms), “Payment Day” means any day which (subject to Condition 8) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) Toronto; and
 - (C) any Additional Financial Centre specified in the applicable Final Terms; and
- (ii) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, Toronto, Amsterdam or any Additional Financial Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars Auckland and Wellington) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open.

Notwithstanding anything else in these Conditions, in the event that an Interest Payment Date is brought forward under Condition 4(b) through the operation of a Business Day Convention in circumstances which were not reasonably foreseeable by the Issuer, the relevant Payment Day shall be the first Payment Day after the Interest Payment Date as so brought forward.

(d) *Interpretation of Principal*

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) the amount at which each Note will be redeemed on the Maturity Date of the Notes (“Final Redemption Amount”);
- (ii) the redemption amount in respect of Notes payable following an Event of Default (“Early Redemption Amount”);
- (iii) the Optional Redemption Amount(s) (if any) of the Notes;
- (iv) in relation to Instalment Notes, the Instalment Amounts;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 6(e)(iii)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

6 Redemption and Purchase

(a) *At Maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' (or such other period of notice as is specified in the applicable Final Terms) notice to the Noteholders in accordance with Condition 12; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(both of which notices shall be irrevocable) redeem all or some only of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date(s).

Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount (if any) or not more than the Maximum Redemption Amount (if any), in each case as specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of CDS, in the case of Redeemed Notes represented by a global Note, not more than 30 days prior to the date fixed for redemption (or such other period of notice as is specified in the applicable Final Terms) (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a notice specifying the nominal amount of Notes drawn and the holder(s) of such Notes will be published in accordance with Condition 12 not less than 15 days (or such other period of notice as is specified in the applicable Final Terms) prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant global Note will be permitted during the period from and including the Selection Date to and including the date fixed for redemption pursuant to this subparagraph (b) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 12 at least 5 days prior to the Selection Date.

(c) *Redemption at the Option of the Noteholders (Noteholder Put)*

If Noteholder Put is specified in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 12 not less than 15 nor more than 30 days' notice or such other period of notice as is specified in the applicable Final Terms (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date at the Optional Redemption Amount specified in, or determined in the manner

specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must, if this Note is in definitive form and held outside CDS, deliver at the specified office of any Paying Agent, any Transfer Agent or, as the case may be, the Registrar at any time during normal business hours of such Paying Agent, Transfer Agent or Registrar falling within the notice period, a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent, any Transfer Agent or the Registrar (a “Put Notice”) and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a Global Note and held through CDS, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period concerned, give notice of such exercise in accordance with the standard procedures of CDS, in a form acceptable to CDS from time to time and, at the same time, present or procure the presentation of the relevant Global Note to the Agent for notation accordingly.

Any Put Notice given by a holder of any Note pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 9.

(d) *Redemption of Subordinated Notes*

Subordinated Notes may only be redeemed early with the prior approval of the Superintendent of Financial Institutions (Canada).

(e) *Early Redemption Amounts*

For the purpose of paragraph (b) above and Condition 9, each Note will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to its nominal amount, at the Final Redemption Amount thereof together with interest (if any) accrued to (but excluding) the date of redemption; or
- (ii) in the case of a Note (other than a Zero Coupon Note or a Note to which paragraph (iv) below applies but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than its nominal amount or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at its nominal amount, together in each case with interest (if any) accrued to (but excluding) the date of redemption; or
- (iii) in the case of a Zero Coupon Note (other than a Zero Coupon Note to which paragraph (iv) below applies), at an amount (the “Amortised Face Amount”) equal to the sum of:
 - (A) the Reference Price; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of Notes to (but excluding)

the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (I) in the case of a Zero Coupon Note payable in Canadian dollars, on the basis of the actual number of days elapsed divided by 365; (II) in the case of a Zero Coupon Note payable in euro on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non-leap year divided by 365); (III) in the case of a Zero Coupon Note payable in a currency other than Canadian dollars or euro, on the basis of a 360-day year consisting of 12 months of 30 days each or (IV) on such other calculation basis as may be specified in the applicable Final Terms; or

- (iv) in the case of a Note for which the applicable Final Terms provide for the Early Redemption Amount to be equal to the Fair Market Value of the Note, the Calculation Agent shall calculate the Early Redemption Amount in its sole discretion, acting reasonably, by determining the fair market value of the Note two Business Days (or such other period as is specified in the applicable Final Terms) prior to (x) the date fixed for redemption or (y) (as the case may be) the date upon which such Note becomes due and payable (unless specified otherwise in the Final Terms, taking into account the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such final instruments or transactions).

(f) *Instalments*

Instalment Notes will be repaid in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(g) *Partly Paid Notes*

If the Notes are Partly Paid Notes, they will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Final Terms.

(h) *Purchases*

The Issuer, the Guarantor or any of their respective subsidiaries may at any time purchase Notes at any price in the open market or otherwise. Such Notes may be held, re-issued, resold or, at the option of the Issuer or the Guarantor (as the case may be), surrendered to any Paying Agent for cancellation.

(i) *Cancellation*

All Notes which are redeemed will forthwith be cancelled. All Notes so cancelled and the Notes purchased and cancelled pursuant to paragraph (h) above shall be forwarded to the Agent and cannot be re-issued or resold.

(j) *Late Payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b) or (c) above or upon its becoming due and repayable as provided in Condition 9 is improperly withheld or refused, the amount due and payable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iii) above (if such Condition is stated to be applicable to the Note in the applicable Final Terms) as though the references therein to

the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 12.

(k) *Redemption – Other*

The Issuer may at any time, on giving not less than 15 nor more than 30 days' notice to the Noteholders in accordance with Condition 12, redeem all but not some only of the Notes for the time being outstanding at their Early Redemption Amount if, prior to the date of such notice, 90 per cent. or more in nominal amount of the Notes hitherto issued have been redeemed.

In addition, the Issuer may (i) at any time, on giving not less than 15 nor more than 30 days' notice (or such other period of notice as specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12, redeem the Notes for the time being outstanding on such other terms as may be specified in the applicable Final Terms and (ii) issue Notes which may be redeemed in other circumstances specified in the applicable Final Terms.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall never be less than zero. If the formula or other method for determining the Final Redemption Amount or the Early Redemption Amount (as the case may be) applicable to Notes would result in a negative figure, the Final Redemption Amount or the Early Redemption Amount (as the case may be) will be deemed to be zero.

7 Taxation

Neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation or surrender for payment or enforcement of any Note or the Deposit Note Guarantee or the Subordinated Guarantee and all payments made by the Issuer and the Guarantor shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

8 Prescription

Claims against the Issuer and/or the Guarantor for payment in respect of the Notes will become void unless made within a period of two years after the date on which such payment first becomes due.

9 Events of Default

Events of Default relating to Deposit Notes

If any one or more of the following events (each an "Event of Default") shall have occurred and be continuing:

- (i) default is made for more than 30 days in the payment of interest or principal in respect of the Deposit Notes; or
- (ii) the Issuer or the Guarantor fails to perform or observe any of its other obligations under the Deposit Notes and such failure has continued for the period of 60 days next following the service on the Issuer and the Guarantor of notice requiring the same to be remedied; or
- (iii) the Issuer shall become insolvent or bankrupt or subject to the provisions of the Winding Up and Restructuring Act (Canada), or go into liquidation either voluntarily or under an order of a court of competent jurisdiction, or otherwise acknowledge its insolvency (provided that a resolution or order for winding up the Issuer, with a view to its consolidation, amalgamation or merger with another Canadian chartered bank or the transfer of its assets as an entirety to such other bank shall not constitute an Event of Default if such other bank shall, as a part of such consolidation, amalgamation, merger or transfer, and, within 90 days from the passing of the resolution or the date of the order for the winding up or liquidation of the Issuer, assume all obligations contracted by the Issuer in connection with the Deposit Notes); or
- (iv) the Guarantor is declared bankrupt, the Guarantor is granted a moratorium or a declaration in respect of the Guarantor is made to apply the emergency regulation under Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act; or
- (v) an order is made or an effective resolution is passed for the winding up or liquidation of the Guarantor unless this is done in connection with a merger, consolidation or other form of combination with another company, the terms of which merger, consolidation or combination (A) have the effect of the emerging or such other surviving company assuming all obligations contracted for by the Guarantor in connection with the Deposit Note Guarantee or (B) have previously been approved by an Extraordinary Resolution of the Noteholders; or
- (vi) the Deposit Note Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect,

then any holder of a Deposit Note may, by written notice to the Issuer and the Guarantor at the specified office of the Agent, effective upon the date of receipt thereof by the Agent, declare the Deposit Note held by the Noteholder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount (as described in Condition 6(e)), without presentment, demand, protest or other notice of any kind, provided that such right to declare Notes due and payable shall terminate if the situation giving rise to it has been cured before the relevant notice has become effective.

Event of Default Relating to Subordinated Notes

If the Issuer shall become and continue to be insolvent or bankrupt or subject to the provisions of the Winding Up and Restructuring Act (Canada), or go into and remain in liquidation either voluntarily or under an order of a court of competent jurisdiction, or otherwise acknowledge its insolvency (provided that a resolution or order for winding up the Issuer, with a view to its consolidation, amalgamation or merger with another Canadian chartered bank or the transfer of its assets as an entirety to such other bank shall not constitute an Event of Default if such other bank shall, as a part of such consolidation, amalgamation, merger or transfer, and, within 90 days from the passing of the resolution or the date of the order for the winding up or liquidation of the Issuer or within such further period of time as may be allowed by the Trustee, assume all obligations contracted by the Issuer in connection with the Subordinated Notes), then the Trustee or holders of Subordinated Notes holding not less than 25% in principal amount of the outstanding Subordinated Notes of that Series may declare all the Subordinated Notes of that Series to be due and payable immediately, by a notice in writing to the Issuer (and to the Trustee if given by Noteholders), effective upon the date of receipt

by the Issuer, at the Early Redemption Amount (as described in Condition 6(e)), together with accrued interest (if any) to the date of repayment, without presentment, demand, protest or other notice of any kind, whereupon the Early Redemption Amount shall become immediately due and payable.

10 Transfer and Exchange of Notes and replacement of Notes

Notes of each Tranche sold outside the United States in reliance on Regulation S under the United States Securities Act of 1933, as amended (the “Securities Act”) will be represented by a permanent global Note in registered form, without interest coupons (the “Reg. S Global Note”). Notes which are represented by a Global Note will be exchangeable and transferable only in accordance with the rules and operating procedures for the time being of CDS (the “Applicable Procedures”).

Interests in the Reg. S Global Note in fully registered and certificated form will be issued to beneficial owners of Notes only if: (i) required by applicable law; (ii) CDS’s book-entry only system ceases to exist; (iii) the Issuer or CDS advises that CDS is no longer willing or able to properly discharge its responsibilities as depository with respect to the Notes and the Issuer is unable to locate a qualified successor; (iv) the Issuer, at its option, decides to terminate its present arrangements with CDS; or (v) if an event of default has occurred with regard to the Notes and has not been cured or waived. Upon the occurrence of any of the events described in the preceding sentence, the Issuer will cause the appropriate Notes in definitive form to be delivered.

Upon the terms and subject to the conditions set forth in the Agency Agreement and, if applicable the Trust Indenture, a Note in definitive form may be transferred in whole or in part (in the nominal amounts set out in the applicable Final Terms) by the holder or holders surrendering the Note for registration of the transfer of the Note (or the relevant part of the Note) at the specified office of the Registrar or any Transfer Agent (who will, as soon as practicable, forward such surrendered Note to the Registrar and will give to the Registrar all relevant details to enable it to process the transfer), with the form of transfer thereon duly executed by, or accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Registrar duly executed by, the holder or holders thereof or its or their attorney or attorneys duly authorised in writing and upon the Registrar, after due and careful enquiry, being satisfied with the documents of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer and the Registrar may prescribe. Subject as provided above, the Registrar will, within three business days of receipt by it (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver at its specified office to the transferee or (at the risk of the transferee) send by mail to such address as the transferee may request a new Note in definitive form of a like aggregate nominal amount to the Note (or the relevant part of the Note) transferred. In the case of the transfer of part only of a Note in definitive form, a new Note in definitive form in respect of the balance of the Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

In the event of a partial redemption of Notes under Condition 6(b) the Issuer shall not be required:

- (a) to register the transfer of Notes (or parts of Notes) during the period beginning on the sixty-fifth day before the date of the partial redemption and ending on the day on which notice is given specifying the nominal amount of the Notes called (in whole or in part) for redemption (both inclusive); or
- (b) to register the transfer of any Note, or part of a Note, called for partial redemption.

The costs and expenses of effecting any exchange or registration of transfer pursuant to the foregoing provisions (except for the expenses of delivery by other than regular mail (if any) and, if the Issuer shall so

require, for the payment of a sum sufficient to cover any tax or other governmental charge or insurance charges that may be imposed in relation thereto which will be borne by the Noteholder) will be borne by the Issuer.

If any Note (including a global Note) is mutilated, defaced, stolen, destroyed or lost it may be replaced at the specified office of Registrar in Toronto, on payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes must be surrendered before replacements will be issued.

11 Agent and Paying Agents, Transfer Agents and Registrar

The names of the initial Agent and the other initial Paying Agents, the initial Registrar and the initial Transfer Agents and their initial specified offices are set out below.

The Issuer and the Guarantor are entitled to vary or terminate the appointment of the Agent, the Registrar, any Paying Agent or any Transfer Agent and/or appoint additional or other Paying Agents or Transfer Agents and/or approve any change in the specified office through which the Agent, the Registrar, any Paying Agent or any Transfer Agent acts, provided that:

- (i) so long as the Notes are admitted to trading or listed on any stock exchange or admitted to trading or listed by any other relevant authority, there will at all times be a Paying Agent and a Transfer Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange;
- (ii) there will at all times be an Agent;
- (iii) there will at all times be a Paying Agent with a specified office situated outside The Netherlands;
- (iv) there will at all times be a Transfer Agent having a specified office in a place approved by the Agent;
- (v) so long as any of the Global Notes are held through CDS or its nominee, there will at all times be a Transfer Agent with a specified office in Toronto; and
- (vi) there will at all times be a Registrar with a specified office in Toronto and in such place as may be required by the rules and regulations of any relevant stock exchange.

Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 12.

12 Notices

All notices to holders of Notes will be valid if mailed to their registered addresses appearing on the register. Any such notice shall be deemed to have been given on the fourth day after the day on which it is mailed.

Notices to be given by any holder of the Notes shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any holder of a Note to the Agent and/or Registrar via CDS in such manner as the Agent and/or Registrar and CDS may approve for this purpose.

13 Meetings of Subordinated Noteholders, Modification and Waiver

The Trust Indenture and the rights of the holders of Subordinated Notes may, in certain circumstances, be modified. For that purpose, among others, the Trust Indenture contains provisions making Extraordinary Resolutions binding upon all holders of Subordinated Notes. “Extraordinary Resolution” is defined, in effect, as a resolution passed by the affirmative vote of the holders of not less than 66 2/3% of the principal amount of Subordinated Notes represented and voted at a meeting duly called and held in accordance with the Trust Indenture or as a resolution contained in one or more instruments in writing signed by the holders of not less than 66 2/3% of the principal amount of the then outstanding Subordinated Notes. The Trust Indenture provides that the quorum for meetings of holders of Subordinated Notes at which an Extraordinary Resolution will be considered will be holders representing at least 50% in principal amount of the then outstanding Subordinated Notes; provided however that, if a quorum is not present at the meeting, then, in certain circumstances, the meeting may be adjourned and at the adjourned meeting the holders of Subordinated Notes present at the meeting shall constitute a quorum. The Trustee may agree without authorisation from the holders of Subordinated Notes to modifications and alterations of the Trust Indenture, including the Subordinated Guarantee, and such Subordinated Notes, if, in the opinion of the Trustee, such modifications and alterations do not adversely affect the rights of the holders of the affected Subordinated Notes in any material respect. Certain modifications and alterations to the Trust Indenture and the Subordinated Notes are subject to the approval of the Superintendent of Financial Institutions (Canada). If any matter to be considered by an ordinary resolution of Subordinated Noteholders or by an Extraordinary Resolution affects the rights of the holders of any series of Subordinated Notes in a manner or to an extent substantially different from the manner in which or the extent to which the rights of the holders of any other series of Subordinated Notes are affected, then such resolution shall not be passed unless it receives the affirmative votes of the holders of not less than a majority (in the case of an ordinary resolution) or 66 2/3% (in the case of an Extraordinary Resolution) of the votes given by the holders of each series of Subordinated Notes especially affected, and if such resolution is in writing it shall not be passed unless it is signed by the holders of such applicable percentage of the Subordinated Notes of each series especially affected.

The Agent, the Issuer and the Guarantor may agree, without the consent of the Noteholders, to:

- (i) any modification of the Agency Agreement which is not materially prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Deposit Notes, the Deposit Note Guarantee or the Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor (as the case may be) is incorporated.

17 FX and Benchmark Notes

(a) *FX Notes*

The following provisions of this Condition 17(a) shall apply to the Notes if the FX Provisions are specified to be applicable in the applicable Final Terms.

(i) FX Market Disruption Event

If the Issuer determines that an FX Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of any amount which is to be determined by reference to the Primary FX Rate on such Scheduled Valuation Date or on such other date (for the purposes of this Condition 17(a), the “Relevant FX Amount”) shall be postponed until the next Business Day on which there is no FX Market Disruption Event.

If, however, an FX Market Disruption Event is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount is to be determined

by reference to the Primary FX Rate, then the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant FX Amount. However, if the Fallback FX Rate is not available on such Business Day, or if no Fallback FX Rate is specified in the applicable Final Terms, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market price.

(ii) **Unscheduled Holiday**

If the Issuer determines that an Unscheduled Holiday has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of the Relevant FX Amount shall be postponed until the next Business Day on which no Unscheduled Holiday occurs, provided that no such postponement shall occur for a period longer than 30 calendar days (or such other period as is specified in the applicable Final Terms) following such Scheduled Valuation Date or such other date.

If, however, an Unscheduled Holiday is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount which is to be determined by reference to the Primary FX Rate, then the Primary FX Rate (if available) or the Fallback FX Rate (if the Primary FX Rate is not available and a Fallback FX Rate is specified in the applicable Final Terms) on the first calendar day following the expiry of that period shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if a Fallback FX Rate is specified in the applicable Final Terms) the Fallback FX Rate is available on such calendar day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) **Cumulative Events**

Notwithstanding anything herein to the contrary, in no event shall the period during which either (x) a calculation is postponed due to an Unscheduled Holiday or (y) a calculation is postponed due to an FX Market Disruption Event (or any combination of (x) and (y)) exceed the Maximum Period of Postponement. Accordingly, if, upon the lapse of the Maximum Period of Postponement, an Unscheduled Holiday or FX Market Disruption Event shall have occurred or be continuing, then the Primary FX Rate or (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day (including any day which would have been a Business Day but for the occurrence of an Unscheduled Holiday) following the expiry of the Maximum Period of Postponement shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if the Primary FX Rate is not available on that Business Day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iv) **Relevant FX Rate Inappropriate**

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary FX Rate or Fallback FX Rate used to determine the Relevant FX Amount in

accordance with Condition 17(a)(i), (ii) or (iii) above is inappropriate, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(v) Payment

The Relevant FX Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which it is determined by the Calculation Agent in accordance with Condition 17(a)(i), (ii), (iii) or (iv) above. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 17(a).

(b) *Benchmark Notes*

- (i) The following provisions of this Condition 17(b) shall apply to the Notes if the Benchmark Provisions are specified to be applicable in the applicable Final Terms.

(x) if the Relevant Benchmark Amount Postponement Provisions are specified to be applicable in the Final Terms, the calculation of any amount which is to be determined by reference to the Primary Benchmark on such Scheduled Valuation Date (for the purposes of this Condition 17(b), the “Relevant Benchmark Amount”) shall be postponed to the next Business Day on which there is no Benchmark Market Disruption Event, unless on each of the eight Business Days following such Scheduled Valuation Date or such other date (or such other period as may be specified in the applicable Final Terms) a Benchmark Market Disruption Event occurs. In that case, the Fallback Benchmark (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant Benchmark Amount. However, if the Fallback Benchmark is not available on such Business Day, or if no Fallback Benchmark is specified in the applicable Final Terms, the Relevant Benchmark Amount shall be determined by the Calculation Agent as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice; and

(y) if the Relevant Benchmark Amount Postponement Provisions are not specified to be applicable in the Final Terms, the Relevant Benchmark Amount shall be determined as soon as reasonably possible by the Calculation Agent in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

- (ii) Relevant Benchmark Inappropriate

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary Benchmark or Fallback Benchmark used to determine the Relevant Benchmark Amount in accordance with Condition 17(b)(i) above is inappropriate, the Calculation Agent shall determine the Relevant Benchmark Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

- (iii) Payment

The Relevant Benchmark Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which such amount is determined. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment in accordance with this Condition 17(b).

(c) *FX Convertibility Event and FX Transferability Event*

The following provisions of this Condition 17(c) shall apply to the Notes if the FX Convertibility Event Provisions and/or FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms.

Payment of any such amount by the Issuer shall be held for the benefit of the Noteholder. payment of any such amount by the Issuer shall discharge the Issuer of its remaining obligations under the Notes in respect of such payment in the Relevant Currency. Should any account be opened by the Issuer for the Noteholder, such account will be opened on the normal terms and conditions of the relevant institution, and in the event any interest accrues on the amounts held in such account, such interest will be for the benefit of the Noteholder.

Any costs incurred by the Issuer in connection with the opening or maintenance of such account will be borne by the Noteholder, and the Issuer reserves the right to use the funds in such account to pay for such costs. The amount payable by the Issuer to the Noteholder in respect of the Notes shall be reduced by the amount of any such costs incurred by the Issuer. Such right of set-off is without prejudice to any additional right to claim such costs. In the event that the costs incurred by the Issuer in connection with the opening and/or maintenance of such account exceed the amount payable by the Issuer to the Noteholder in respect of the Notes or the amount held in such account for the Noteholder, the Issuer reserves the right to forego opening or to close such account.

- (ii) If the Issuer determines, in its sole discretion, that any payment on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms), then such payment shall be postponed until the next Payment Day on which such payment can, in the sole discretion of the Issuer, reasonable be made. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 17(c).

If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms) for a period of five years (or such other period as may be specified in the applicable Final Terms) from the date on which payment was originally due to be made but for the FX Convertibility Event or the FX Transferability Event, as the case may be, then the Issuer shall be entitled to all amounts in any account opened by it pursuant to Condition 17(c)(i) above, including accrued interest, if any, and no additional amounts shall be payable to the relevant Noteholder.

(d) *Tax Event*

If the Tax Event Provisions are specified to be applicable in the applicable Final Terms, all payments made under the Notes will be subject to the deductions of any taxes, fees or costs that may be incurred or arise as a result of any Tax Event in relation to the Notes and any transactions associated with them. 1 Form, Denomination and Title

The Notes are in bearer form (“Bearer Notes”) or in registered form (“Registered Notes”), in the currency in which payment in respect of the Notes is to be made (the “Specified Currency”) and in the denomination per Note specified to be applicable to the Notes (the “Specified Denomination”), all as specified in the applicable Final Terms and, in the case of definitive Notes, serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Note bearing interest on a fixed rate basis (“Fixed Rate Note”), a Note bearing interest on a floating rate basis (“Floating Rate Note”), a Note issued on a non-interest bearing basis (“Zero

Coupon Note”) or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

This Note may be a Note redeemable in instalments (“Instalment Note”), a Note to be issued on a partly paid basis (“Partly Paid Note”), a Note in respect of which principal is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (a “Dual Currency Redemption Note”) or a Note in respect of which interest is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (“Dual Currency Interest Note”) or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Final Terms.

Definitive Bearer Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in the Conditions are not applicable.

Subject as set out below, title to the Bearer Notes, Receipts and Coupons will pass by delivery and title to the Registered Notes will pass upon registration of transfers in accordance with the provisions of the Agency Agreement. For Notes held by Euroclear Netherlands deliveries will be made in accordance with the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*). Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the Issuer, the Guarantor, the Agent, the Replacement Agent (as defined in the Agency Agreement), the Registrar, any Transfer Agent and any Paying Agent may deem and treat the bearer of any Bearer Note, Receipt or Coupon and the registered holder of any Registered Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a global Bearer Note held on behalf of Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, *société anonyme* (“Clearstream, Luxembourg”), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor, the Replacement Agent, any Transfer Agent, the Registrar, the Agent and any Paying Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant global Note shall be treated by the Issuer, the Guarantor, the Replacement Agent, any Transfer Agent, the Registrar, the Agent and any Paying Agent as the holder of such Notes in accordance with and subject to the terms of the relevant global Note (and the expressions “Noteholder” and “holder of Notes” and related expressions shall be construed accordingly and such expressions shall include those persons having a credit balance in the collective depots in respect of Notes held by Euroclear Netherlands or one of its participants). Notes which are represented by a global Note held by a common depository or common safekeeper for Euroclear and/or Clearstream, Luxembourg will be transferable only in accordance with the rules and procedures for the time being of Euroclear or of Clearstream, Luxembourg, as the case may be. Notes which are represented by a global Note held by Euroclear Netherlands will be delivered in accordance with the Dutch Securities Giro Transfer Act.

For so long as The Depository Trust Company (“DTC”) or its nominee is the registered holder of any Registered Global Notes, DTC or such nominee, as the case may be, will be considered the absolute owner or holder of the Registered Notes represented by such registered global Note for all purposes and members of, or participants in, DTC (the “Agent Members”) as well as any other person on whose behalf the Agent Members may act will have no rights under a registered global Note. Owners of beneficial interests in a registered global Note will not be considered to be the owners or holders of any Registered Notes.

References to Euroclear, Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent but shall not include Euroclear Netherlands.

If the Notes are represented by a permanent global note in bearer form without coupons (the “Permanent Bearer Global Note”) deposited in custody with Euroclear Netherlands, they will be subject to, and rights in respect of them will be exercised in accordance with, the Dutch Securities Giro Transfer Act. Rights in respect of the Notes represented by the Permanent Bearer Global Note take the form of co-ownership rights (*aandelen*) in the collective depots (*verzameldepots* as referred to in the Dutch Securities Giro Transfer Act) of the Notes with participants of Euroclear Netherlands (*aangesloten instellingen* according to the Dutch Securities Giro Transfer Act) (“Participants”). The co-ownership rights with respect to the Notes will be credited to the account of the Noteholder with such Participant. A holder of co-ownership rights in respect of the Notes will be referred to hereinafter as a “Noteholder” or a “holder of a Note”.

2 Guarantee and Status

The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums expressed to be payable by the Issuer under the Notes, Receipts and Coupons. Its obligations in that respect are contained in the Deed of Guarantee.

The Notes and the relative Receipts and Coupons are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

The payment obligations of the Guarantor under the Deed of Guarantee rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Guarantor from time to time outstanding. The Notes do not constitute deposits or deposit-type liabilities of the Guarantor.

3 Interest

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest so specified payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the Conditions, “Fixed Interest Period” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall (subject to the following sentence) be calculated by applying the Rate of Interest to each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded

upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then if interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 3(a):

- (i) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “Accrual Period”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
 - (ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (ii) if “30/360” is specified in the applicable Final Terms, the number of days in the relevant Accrual Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Accrual Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Accrual Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Accrual Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Accrual Period falls;

“D₁” is the first calendar day, expressed as a number, of the Accrual Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Accrual Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30.

In the Conditions:

“Determination Period” means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“sub-unit” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) *Interest on Floating Rate Notes*

(i) *Interest Payment Dates*

Each Floating Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an “Interest Payment Date”) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an “Interest Payment Date”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 3(b)(i)(B), the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply mutatis mutandis or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in

the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or

- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention (Adjusted), such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Modified Following Business Day Convention (Unadjusted), (i) for the purpose of calculating the amount of interest payable under the Notes, such Interest Payment Date shall not be adjusted and (ii) for any other purpose, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (5) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the Conditions, “Business Day” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Amsterdam, New York City and any Additional Business Centre specified in the applicable Final Terms; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than Amsterdam, New York City or any Additional Business Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars, Auckland and Wellington) or (2) in relation to interest payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the “TARGET System”) is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of the Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (iii), “ISDA Rate” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as amended and updated as at the Issue Date of the first Tranche of the Notes) as published by the International Swaps and Derivatives Association, Inc. (the “ISDA Definitions”) under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is the period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate (“LIBOR”) or on the Euro-zone inter-bank offered rate (“EURIBOR”) for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (iii), “Floating Rate”, “Calculation Agent”, “Floating Rate Option”, “Designated Maturity” and “Reset Date” have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

(v) Minimum and/or Maximum Rate of Interest

If the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(vi) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the “Interest Amount”) payable on the Floating Rate Notes in respect of each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms) for the relevant Interest Period. Each Interest Amount or any other amount of interest payable in respect of any Note for any period shall (subject to the following sentence) be calculated by applying the Rate of Interest to the Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then each Interest Amount or any other amount of interest payable in respect of any Note for any period shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest on any Floating Rate Note for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period, the “Calculation Period”) in accordance with this Condition 3(b):

- (A) if “Actual/Actual” or “Actual/Actual (ISDA)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (F) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D₂ will be 30; and

- (G) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(vii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and notice thereof to be published in accordance with Condition 12 as soon as possible after their determination but in no event later than the fourth London Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and to the Noteholders in accordance with Condition 12. For the purposes of Condition 3(b) (vii), the expression “London Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(viii) Certificates to be Final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this paragraph (b), whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor, the Agent or, if applicable, the Calculation Agent, as the case may be, the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Guarantor, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent or, if applicable, the Calculation Agent, the Issuer or that other agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Interest on Dual Currency Interest Notes*

The rate or amount of interest payable shall be determined in the manner specified in the applicable Final Terms.

(d) Interest on Partly Paid Notes

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(e) Accrual of Interest

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given in accordance with Condition 12 or individually.

(f) Interest Rates Positive

Unless specified otherwise in the applicable Final Terms, the rate of interest payable in respect of the Notes shall never be less than zero. If the formula or other method for determining a rate of interest applicable to the Notes would result in a negative figure, the applicable rate of interest will be deemed to be zero.

4 Payments

(a) Method of Payment

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained and specified by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, shall be Melbourne and if New Zealand dollars, Wellington); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment.

(b) Presentation of Notes, Receipts and Coupons

Other than in the case of definitive Bearer Notes in CF-form, payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against surrender of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against surrender of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the State and District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of principal in respect of any definitive Bearer Notes in CF-form will be made in the manner provided in paragraph (a) above only against surrender of definitive Notes together with the Coupon sheet attached. Payments of interest in respect of any definitive Bearer Notes in CF-form will be made in conformity with the agreement concluded between the Issuer and Algemeen Obligatiekantoor van het Centrum voor Fondsenadministratie B.V. in Amsterdam (the “Obligatiekantoor”), under which agreement the Issuer has accepted the rules and regulations of the Obligatiekantoor.

Payments of instalments of principal in respect of definitive Bearer Notes (if any), other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt. Payment of the final instalment will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined below) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 7) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter. Upon any such Fixed Rate Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

As used herein, the “Relevant Date” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 12.

Upon the date on which any Floating Rate Note, Dual Currency Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “Long Maturity Note” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

Payments of principal and interest (if any) in respect of Notes represented by any global Bearer Note will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant global Bearer Note (in the case of a global Bearer Note not in New Global Note form, against presentation or surrender, as the case may be, of such global Bearer Note at the specified office of any Paying Agent outside the United States, and in the case of a global Bearer Note in New Global Note form, by payment to or to the order of the common safekeeper for such global Bearer Note). A record of each payment made against presentation or surrender of any such global Bearer Note not in New Global Note form, distinguishing between any payment of principal and any payment of interest, will be made on such global Bearer Note by such Paying Agent and such record shall be *prima facie* evidence that the payment in question has been made. If a global Bearer Note is in New Global Note form, the Issuer shall procure that details of each payment of principal and interest (if any) made in respect of Notes represented by the New Global Note shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the global Bearer Note will be reduced accordingly. Each payment so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge.

Where a global Bearer Note is a New Global Note, the Issuer shall procure that any exchange, payment, cancellation, exercise of any option or any right under the Notes, as the case may be, shall be entered in the records of the relevant clearing systems and upon any such entry being made, the nominal amount of the Notes represented by such global Bearer Note shall be adjusted accordingly.

The holder of a global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the beneficial holder of a particular nominal amount of Notes represented by such global Note must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such global Note. No person other than the holder of such global Note shall have any claim against the Issuer in respect of any payments due on that global Note.

In the case of Notes held by Euroclear Netherlands, payment of interest or principal or any other payments on or in respect of the Notes to the Noteholders will be effected through Participants of Euroclear Netherlands. The Issuer shall deposit or cause to be deposited the funds intended for payment on the Notes in an account of Euroclear Netherlands. The Issuer will by such deposit be discharged of its obligations towards the Noteholders. No person other than the holder of the global Note shall have any claim against the Issuer in respect of any payments due on that global Note. Euroclear Netherlands will be discharged of its obligation to pay by paying the relevant funds to the Euroclear Netherlands Participants which according to Euroclear Netherlands' record hold a share in the *girodepot* with respect to such Notes, the relevant payment to be made in proportion to the share in such *girodepot* held by each of such Euroclear Netherlands Participants. Euroclear Netherlands shall not be obliged to make any payment in excess of funds it actually received as funds free of charges of any kind whatsoever.

All amounts payable to DTC or its nominee as registered holder of a registered global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of one or more of the Transfer Agents on behalf of DTC or its nominee for payment in such Specified Currency or conversion into U.S. dollars in accordance with the provisions of the Agency Agreement.

Notwithstanding the foregoing, U.S. dollar payments of principal and interest in respect of Bearer Notes will be made at the specified office of a Paying Agent in the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)) if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Subject as set out below, payments of principal in respect of Registered Notes (whether in definitive or global form) will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due only, endorsement) of such Notes at the specified office of the Registrar or at the specified office of any Paying Agent. Payments of interest due on a Registered Note and payments of instalments (if any) of principal on a Registered Note, other than the final instalment, will be made to the person in whose name such Note is registered at the close of business on the fifteenth day (whether or not such fifteenth day is a business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) (the “Record Date”)) prior to such due date. In the case of payments by cheque, cheques will be mailed to the holder (or the first named of joint holders) at such holder’s registered address on the due date. If payment is required by credit or transfer as referred to in paragraph (a) above, application for such payment must be made by the holder to the Registrar not later than the relevant Record Date.

(c) *Payment Day*

Unless otherwise specified in the applicable Final Terms in relation to a Tranche of Notes, if the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes (unless otherwise specified in the applicable Final Terms), “Payment Day” means any day which (subject to Condition 7) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) London;
 - (C) Amsterdam;
 - (D) New York City; and
 - (E) any Additional Financial Centre specified in the applicable Final Terms;

- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, London, Amsterdam, New York or any Additional Financial Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars Auckland and Wellington) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open; and
- (iii) in the case of any payment in respect of a Restricted Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and, in respect of which an accountholder of DTC (with an interest in such Restricted Global Note) has elected to receive any part of such payment in U.S. dollars, not a day on which banking institutions are authorised or required by law or regulation to be closed in New York City.

Notwithstanding anything else in these Conditions, in the event that an Interest Payment Date is brought forward under Condition 3(b) through the operation of a Business Day Convention in circumstances which were not reasonably foreseeable by the Issuer, the relevant Payment Day shall be the first Payment Day after the Interest Payment Date as so brought forward.

(d) *Interpretation of Principal*

Any reference in the Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) the amount at which each Note will be redeemed on the Maturity Date of the Notes (“Final Redemption Amount”);
- (ii) the redemption amount in respect of Notes payable on redemption for taxation reasons or following an Event of Default (“Early Redemption Amount”);
- (iii) the Optional Redemption Amount(s) (if any) of the Notes;
- (iv) in relation to Instalment Notes, the Instalment Amounts;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 5(e)(iii)); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

5 Redemption and Purchase

(a) *At Maturity*

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) *Redemption for Tax Reasons*

If the Issuer or, if the Deed of Guarantee were called, the Guarantor on the occasion of the next payment due in respect of the Notes or the Deed of Guarantee would be required to withhold or account for tax in respect of the Notes, then the Issuer shall forthwith give notice of such circumstance to Noteholders. In

such event, the Issuer may, but shall not be obliged to, on giving not more than 30 nor less than 15 days' notice to the Noteholders (or such other period of notice as is specified in the applicable Final Terms), and upon expiry of such notice, redeem all but not some of the Notes at their Early Redemption Amount.

Notwithstanding the foregoing, if any of the taxes referred to above arises (i) by reason of any Noteholder's connection with any particular jurisdiction otherwise than by reason only of the holding of any Note or receiving or being entitled to principal or interest in respect thereof; or (ii) by reason of the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax, then to the extent it is able to do so, the Issuer shall deduct such taxes from the amounts payable to such Noteholder and all other Noteholders shall receive the due amounts payable to them.

(c) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' notice (or such other period of notice as is specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(both of which notices shall be irrevocable) redeem all or some only of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date(s).

Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount (if any) or not more than the Maximum Redemption Amount (if any), in each case as specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and/or Euroclear Netherlands and/or, as the case may be, DTC, in the case of Redeemed Notes represented by a global Note, not more than 30 days prior to the date fixed for redemption (or such other period as is specified in the applicable Final Terms) (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 12 not less than 15 days (or such other period as is specified in the applicable Final Terms) prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant global Note will be permitted during the period from and including the Selection Date to and including the date fixed for redemption pursuant to this subparagraph (c) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 12 at least 5 days prior to the Selection Date.

(d) Redemption at the Option of the Noteholders (Noteholder Put)

If Noteholder Put is specified in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 12 not less than 15 nor more than 30 days' notice (or such other period of notice as is specified in the applicable Final Terms) (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, deliver at the specified office of any Paying Agent, any Transfer Agent or, as the case may be, the Registrar at any time during normal business hours of such Paying Agent, Transfer Agent or Registrar falling within the notice period, a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent, any Transfer Agent or the Registrar (a "Put Notice") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 5 accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a global Bearer Note or is in definitive form and held through Euroclear, Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period concerned, give notice of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary for them or, if applicable, Euroclear Netherlands to the Agent by electronic means), in a form acceptable to Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands from time to time and, at the same time, present or procure the presentation of the relevant Global Bearer Note to the Agent for notation accordingly.

Any Put Notice given by a holder of any Note pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 8.

(e) Early Redemption Amounts

For the purpose of paragraph (b) above and Condition 8, each Note will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to its nominal amount, at the Final Redemption Amount thereof, together with interest (if any) accrued to (but excluding) the date of redemption; or
- (ii) in the case of a Note (other than a Zero Coupon Note or a Note to which paragraph (iv) below applies, but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than its nominal amount or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or

manner is so specified in the applicable Final Terms, at its nominal amount, together in each case with interest (if any) accrued to (but excluding) the date of redemption; or

- (iii) in the case of a Zero Coupon Note (other than a Zero Coupon Note to which paragraph (iv) below applies), at an amount (the “Amortised Face Amount”) equal to the sum of:
 - (A) the Reference Price; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (A) in the case of a Zero Coupon Note other than a Zero Coupon Note payable in euro, on the basis of a 360-day year consisting of 12 months of 30 days each or (B) in the case of a Zero Coupon Note payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non-leap year divided by 365) or (in either case) on such other calculation basis as may be specified in the applicable Final Terms; or

- (iv) in the case of a Note for which the applicable Final Terms provide for the Early Redemption Amount to be equal to the Fair Market Value of the Note, the Calculation Agent shall calculate the Early Redemption Amount in its sole discretion, acting reasonably, by determining the fair market value of the Note two Business Days (or such other period as is specified in the applicable Final Terms) prior to (x) the date fixed for redemption or (y) (as the case may be) the date upon which such Note becomes due and payable (unless specified otherwise in the Final Terms, taking into account the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions).

(f) *Instalments*

Instalment Notes will be repaid in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(g) *Partly Paid Notes*

If the Notes are Partly Paid Notes, they will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition and the applicable Final Terms.

(h) *Purchases*

The Issuer, the Guarantor or any of their subsidiaries may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, re-issued, resold or, at the option of the Issuer or the Guarantor (as the case may be), surrendered to any Paying Agent for cancellation.

(i) *Cancellation*

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so

cancelled and the Notes purchased and cancelled pursuant to paragraph (h) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be re-issued or resold.

(j) *Late Payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b), (c) or (d) above or upon its becoming due and repayable as provided in Condition 8 is improperly withheld or refused, the amount due and payable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iii) above (if such Condition is stated to be applicable to the Note in the applicable Final Terms) as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 12.

(k) *Redemption – Other*

The Issuer may at any time, on giving not less than 15 nor more than 30 days' notice to the Noteholders in accordance with Condition 12, redeem all but not some only of the Notes for the time being outstanding at their Early Redemption Amount if, prior to the date of such notice, 90 per cent. or more in nominal amount of the Notes hitherto issued have been redeemed.

In addition, the Issuer may (i) at any time, on giving not less than 15 nor more than 30 days' notice (or such other period of notice as specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12, redeem the Notes for the time being outstanding on such other terms as may be specified in the applicable Final Terms and (ii) issue Notes which may be redeemed in other circumstances specified in the applicable Final Terms.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall be rounded to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall never be less than zero. If the formula or other method for determining the Final Redemption Amount or the Early Redemption Amount (as the case may be) applicable to the Notes would result in a negative figure, the Final Redemption Amount or the Early Redemption Amount (as the case may be) will be deemed to be zero.

6 Taxation

Neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation or surrender for payment or enforcement of any Note or the Deed of Guarantee and all payments made by the Issuer and the Guarantor shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

7 Prescription

Claims against the Issuer and/or the Guarantor for payments in respect of the Notes, Receipts and Coupons will become void unless made within a period of five years after the date on which such payment first becomes due.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 7 or Condition 4(b) or any Talon which would be void pursuant to Condition 4(b).

8 Events of Default relating to Notes

If any one or more of the following events (each an “Event of Default”) shall have occurred and be continuing:

- (i) default is made for more than 30 days in the payment of interest or principal in respect of the Notes; or
- (ii) the Issuer or the Guarantor fails to perform or observe any of its other obligations under the Notes and such failure has continued for the period of 60 days next following the service on the Issuer and the Guarantor of notice requiring the same to be remedied; or
- (iii) the Issuer: (A) is dissolved; (B) is unable, or admits in writing that it is unable to pay its debts; (C) makes a general assignment for the benefit of its creditors; (D) is subject to any insolvency or bankruptcy proceeding, or a petition is presented for its winding-up or liquidation, where such proceeding or petition: (1) results in insolvency, bankruptcy, winding-up or liquidation or (2) is not dismissed or stayed within 30 days of its commencement; (E) has a resolution passed for its winding-up or liquidation; (F) seeks or becomes subject to the appointment of a trustee or similar official for all or substantially all its assets; (G) has a secured party take possession, for at least 30 days, of all or substantially all its assets or has an attachment or other legal process levied on or against all or substantially all its assets; (H) causes or is subject to any event with an analogous effect to any of (A) through (G) above; or (I) takes any action in furtherance of, or indication its acquiescence in, any of the foregoing; or
- (iv) the Guarantor is declared bankrupt (*failliet verklaard*), the Guarantor is granted a moratorium (*surseance van betaling*) or a declaration in respect of the Guarantor is made to apply the emergency regulation (*noodregeling*) under Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*); or
- (v) an order is made or an effective resolution is passed for the winding up or liquidation of the Guarantor unless this is done in connection with a merger, consolidation or other form of combination with another company, the terms of which merger, consolidation or combination (A) have the effect of the emerging or such other surviving company assuming all obligations contracted for by the Guarantor in connection with the Deed of Guarantee or (B) have previously been approved by an Extraordinary Resolution of the Noteholders; or
- (vi) the Deed of Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect,

then any Noteholder may, by written notice to the Issuer and the Guarantor at the specified office of the Agent, effective upon the date of receipt thereof by the Agent, declare the Note held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount (as described in Condition 5(e)), without presentment, demand, protest or other notice of

any kind, provided that such right to declare Notes due and payable shall terminate if the situation giving rise to it has been cured before the relevant notice has become effective.

9 Transfer and Exchange of Registered Notes and replacement of Notes and Coupons

Registered Notes of each Tranche sold outside the United States in reliance on Regulation S under the United States Securities Act of 1933, as amended (the “Securities Act”) will initially be represented by one or more temporary global Notes (each a “Reg. S Temporary Global Note”), which will be registered in the name of the nominee of, and deposited with a depository or common depository for, Euroclear and/or Clearstream, Luxembourg. Subject to the provisions of the applicable final terms, on or after the date that is the first date following the expiration of the Distribution Compliance Period, beneficial interests in each Reg. S Temporary Global Note will be exchangeable for beneficial interests in a permanent global Note in registered form, without interest coupons (the “Reg. S Global Note”).

Registered Notes of each Tranche sold inside the United States to qualified institutional buyers (“QIBs”) (within the meaning of Rule 144A under the Securities Act (“Rule 144A”)) in reliance on Rule 144A or to other U.S. persons in transactions exempt from the registration requirements of the Securities Act will be represented by a permanent restricted global Note in registered form, without interest coupons (the “Restricted Global Note” and, together with the “Reg. S Global Note”, the “Registered Global Notes”). Registered Notes which are represented by a Registered Global Note will be exchangeable and transferable only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream, Luxembourg, as the case may be (the “Applicable Procedures”).

Owners of beneficial interests in the Reg. S Global Note may transfer such interests, or may exchange such interests for either beneficial interests in the Restricted Global Note or Registered Notes in definitive form, and owners of beneficial interests in the Restricted Global Note may transfer such interests, or may exchange such interests for either beneficial interests in the Reg. S Global Note or Registered Notes in definitive form, in each case subject as provided below, to the provisions of the relative Registered Global Note and to the Applicable Procedures. In addition, Registered Notes in definitive form issued in exchange for beneficial interests in the Reg. S Global Note may be exchanged for beneficial interests in the Restricted Global Note, subject as provided below and to the Applicable Procedures. Registered Notes in definitive form may also be transferred as provided below.

In the case of Registered Notes in definitive form issued in exchange for interests in the Restricted Global Note, such Registered Notes in definitive form shall bear the legend set forth on the Restricted Global Note (the “Legend”). Upon the transfer, exchange or replacement of Registered Notes bearing the Legend, or upon specific request for removal of the Legend, the Issuer shall deliver only Registered Notes that bear such Legend or shall refuse to remove such Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

Interests in the Reg. S Global Note and the Restricted Global Note will be exchangeable for Registered Notes in definitive form if (i) Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, notifies the Issuer that it is unwilling or unable to continue as depository for such registered global Note or (ii) if applicable, DTC ceases to be a “Clearing Agency” registered under the Securities Exchange Act 1934 or either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces its intention permanently to cease business, and a successor depository or alternative clearing system satisfactory to the Issuer and the Agent is not available, or (iii) an Event of Default (as defined in Condition 8) has occurred and is continuing with respect to such Notes, or (iv) a written request for one or more Registered Notes in definitive form is made by a

holder of a beneficial interest in a registered global Note; provided that in the case of (iv) such written notice or request, as the case may be, is submitted to the Registrar by the beneficial owner not later than 60 days prior to the requested date of such exchange and the Applicable Procedures are followed. Upon the occurrence of any of the events described in the preceding sentence, the Issuer will cause the appropriate Registered Notes in definitive form to be delivered.

If a holder of a beneficial interest in the Reg. S Global Note deposited with the custodian in the United States wishes at any time to exchange its interest in such Reg. S Global Note for an interest in the Restricted Global Note, or to transfer its interest in such Reg. S Global Note to a person who wishes to take delivery thereof in the form of a Registered Note in definitive form, such holder may, subject to the rules and procedures of the Registrar in the United States, exchange or cause the exchange, or transfer or cause the transfer of such interest for an equivalent beneficial interest in the Restricted Global Note upon compliance with the transfer requirements of the Registrar in the United States and certification to the effect that (i) the exchange or transfer of such interest has been made in compliance with the transfer restrictions applicable to the Registered Notes under U.S. law and pursuant to and in accordance with Regulation S, where applicable, or (ii) such exchange or transfer has been made to a person which the transferor reasonably believes to be a QIB and is obtaining such beneficial interest in a transaction meeting the requirements of Rule 144A, in the case of the exchange of an interest in the Reg. S Global Note for an interest in the Restricted Global Note.

Transfers between participants in DTC will be effected in the ordinary way in accordance with the Applicable Procedures and will be settled in same-day funds. Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with the Applicable Procedures.

Transfers by the owner of a beneficial interest in the Restricted Global Note to a transferee who takes delivery of such interest through the Reg. S Global Note will be made only upon receipt by the Registrar of a written certification from the transferor to the effect that such transfer is being made in accordance with Regulation S or, if available, that the interest in the Note being transferred is not a “restricted security” within the meaning of Rule 144 under the Securities Act. Investors holding a beneficial interest in a Restricted Global Note who propose any such transfer must notify the Registrar and, subject to compliance with the provisions of the Agency Agreement, the Registrar shall cause the transferor interest in the Restricted Global Note to be reduced in an amount equal to the aggregate nominal amount of Notes being transferred and shall take such other action as appropriate to register the transfer of the Notes to or for the account of the purchaser. The Issuer shall not permit any such transfers unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel that such transfer is in compliance with the Securities Act; provided however, that the restriction in this sentence shall not apply to any transfers of an interest in a Note pursuant to Regulation S or of an interest in a Note which does not constitute a restricted security, within the meaning of Rule 144 under the Securities Act.

Upon the terms and subject to the conditions set forth in the Agency Agreement, a Registered Note in definitive form may be transferred in whole or in part (in the nominal amounts set out in the applicable Final Terms) by the holder or holders surrendering the Registered Note for registration of the transfer of the Registered Note (or the relevant part of the Registered Note) at the specified office of the Registrar or any Transfer Agent (who will, as soon as practicable, forward such surrendered Registered Note to the Registrar and will give to the Registrar all relevant details to enable it to process the transfer), with the form of transfer thereon duly executed by, or accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Registrar duly executed by, the holder or holders thereof or its or their attorney or attorneys duly authorised in writing and upon the Registrar, after due and careful enquiry, being satisfied with the documents of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer and the Registrar may prescribe, including any restrictions imposed by the Issuer on transfers of Registered Notes originally sold to a U.S. person. In addition, if the Registered Note in definitive form being

exchanged or transferred contains a Legend, additional certificates, to the effect that such exchange or transfer is in compliance with the restrictions contained in such Legend, may be required. Subject as provided above, the Registrar will, within three business days of receipt by it (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver at its specified office to the transferee or (at the risk of the transferee) send by mail to such address as the transferee may request a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

Exchanges or transfers by a holder of a Registered Note in definitive form to a transferee who takes delivery of such Note through a Registered Global Note will be made no later than 60 days after the receipt by the Registrar of the Registered Note in definitive form to be so exchanged or transferred and only in accordance with the Applicable Procedures, and, if applicable, upon receipt by the Registrar of a written certification from the transferor.

In the event of a partial redemption of Notes under Condition 5(c) the Issuer shall not be required:

- (a) to register the transfer of Registered Notes (or parts of Registered Notes) during the period beginning on the sixty-fifth day before the date of the partial redemption and ending on the day on which notice is given specifying the serial numbers of Notes called (in whole or in part) for redemption (both inclusive); or
- (b) to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

The costs and expenses of effecting any exchange or registration of transfer pursuant to the foregoing provisions (except for the expenses of delivery by other than regular mail (if any) and, if the Issuer shall so require, for the payment of a sum sufficient to cover any tax or other governmental charge or insurance charges that may be imposed in relation thereto which will be borne by the Noteholder) will be borne by the Issuer.

If any Note (including a global Note) or Coupon is mutilated, defaced, stolen, destroyed or lost it may be replaced at the specified office of the Paying Agent in Luxembourg, in the case of Bearer Notes, Receipts or Coupons, or the Registrar in New York City, in the case of Registered Notes, on payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

10 Agent and Paying Agents, Transfer Agents and Registrar

The names of the initial Agent and the other initial Paying Agents, the initial Registrar and the initial Transfer Agents and their initial specified offices are set out below.

The Issuer and the Guarantor are entitled to vary or terminate the appointment of the Agent, the Registrar, any Paying Agent or any Transfer Agent and/or appoint additional or other Paying Agents or Transfer Agents and/or approve any change in the specified office through which the Agent, the Registrar, any Paying Agent or any Transfer Agent acts, provided that:

- (i) so long as the Notes are admitted to trading or listed on any stock exchange or admitted to trading or listed by any other relevant authority, there will at all times be a Paying Agent and a

- (vi) there will at all times be a Transfer Agent having a specified office in a place approved by the Agent;

- (viii) there will at all times be a Registrar with a specified office in New York City and in such place as may be required by the rules and regulations of any relevant stock exchange.

In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the penultimate paragraph of Condition 4(b). Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 12.

11 Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 7. Each Talon shall, for the purposes of these Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

12 Notices

All notices regarding the Bearer Notes shall be published (i) in at least one daily newspaper of wide circulation in The Netherlands, (ii) in a leading English language daily newspaper of general circulation in London and (iii) if and for so long as the Bearer Notes are admitted to trading on the market of the Luxembourg Stock Exchange appearing on the list of regulated markets issued by the European Commission and the rules of such exchange so require, in a daily newspaper of general circulation in Luxembourg or on the website of the Luxembourg Stock Exchange (www.bourse.lu). It is expected that such publication will be made in *Het Financieele Dagblad* in The Netherlands, in the *Financial Times* in London and either in *Luxemburger Wort* in Luxembourg or on the website of the Luxembourg Stock Exchange (www.bourse.lu). Any such notice will be deemed to have been given on the date of the first publication in all the newspapers and/or on the website in which such publication is required to be made.

All notices to holders of Registered Notes will be valid if mailed to their registered addresses appearing on the register and published and, for so long as the Notes are admitted to trading on the market of the Luxembourg Stock Exchange appearing on the list of regulated markets issued by the European Commission and the rules of such exchange so require, either in *Luxemburger Wort* in Luxembourg or on www.bourse.lu. Any such notice shall be deemed to have been given on the fourth day after the day on which it is mailed.

Until such time as any definitive Notes are issued, there may, so long as the global Note(s) is or are held in its or their entirety on behalf of Euroclear, Clearstream, Luxembourg, Euroclear Netherlands and/or DTC, be substituted for such publication in any newspaper or website the delivery of the relevant notice to Euroclear, Clearstream, Luxembourg, Euroclear Netherlands and/or DTC (as the case may be) for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed or admitted to trading on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or such other relevant authority). Any such notice delivered on or prior to 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on such business day. A notice delivered after 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on the next following business day in such city.

Notices to be given by any holder of the Notes shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any holder of a Note to the Agent and/or Registrar via Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, in such manner as the Agent and/or Registrar and Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, may approve for this purpose.

13 Meetings of Noteholders, Modification and Waiver

The Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or certain provisions of the Agency Agreement. Such a meeting may be convened by the Issuer, the Guarantor or Noteholders holding not less than five per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, Receipts or Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereof, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes, Receipts or Coupons), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than 75 per cent., or at any adjourned such meeting not less than a clear majority, in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Receiptholders and Couponholders.

The Agent, the Issuer and the Guarantor may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to:

- (i) any modification (except as mentioned above) of the Agency Agreement which is not materially prejudicial to the interests of the Noteholders; or

- (ii) any modification of the Notes, the Receipts, the Coupons, the Agency Agreement or the Deed of Guarantee which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor (as the case may be) is incorporated.

Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 12 as soon as practicable thereafter.

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

14 Further Issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders, Receiptholders or Couponholders to create and issue further notes having the same terms and conditions as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

15 Substitution of the Issuer

- (a) The Issuer may, without any further consent of the Noteholders or Couponholders being required, when no payment of principal or interest on any of the Notes is in default, be replaced and substituted by any directly or indirectly wholly owned subsidiary of the Guarantor (the “Substituted Debtor”) as principal debtor in respect of the Notes and the relative Receipts and Coupons provided that:
 - (i) such documents shall be executed by the Substituted Debtor, the Issuer and the Guarantor as may be necessary to give full effect to the substitution (together the “Documents”) and (without limiting the generality of the foregoing) pursuant to which the Substituted Debtor shall undertake in favour of each Noteholder and Couponholder to be bound by the Conditions of the Notes and the provisions of the Agency Agreement as fully as if the Substituted Debtor had been named in the Notes and the relative Receipts and Coupons and the Agency Agreement as the principal debtor in respect of the Notes and the relative Receipts and Coupons in place of the Issuer and pursuant to which the Guarantor shall guarantee, which guarantee shall be unconditional and irrevocable, (the “Substitution Guarantee”) in favour of each Noteholder and each holder of the relative Receipts and Coupons the payment of all sums payable in respect of the Notes and the relative Receipts and Coupons;
 - (ii) the Documents shall contain a covenant by the Substituted Debtor and the Guarantor to indemnify and hold harmless each Noteholder and Couponholder against all liabilities, costs, charges and expenses (provided that insofar as the liabilities, costs, charges and expenses are taxes or duties, the same arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective) which may be incurred by or levied against such holder as a result of any substitution pursuant to this Condition and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, such liabilities, costs, charges and expenses shall include any and all taxes or duties which are imposed on any such Noteholder or Couponholder

by any political sub-division or taxing authority of any country in which such Noteholder or Couponholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);

- (iii) the Documents shall contain a warranty and representation by the Substituted Debtor, the Issuer and the Guarantor (a) that each of the Substituted Debtor, the Issuer and the Guarantor has obtained all necessary governmental and regulatory approvals and consents for such substitution and the performance of its obligations under the Documents, and that all such approvals and consents are in full force and effect and (b) that the obligations assumed by each of the Substituted Debtor, the Issuer and the Guarantor under the Documents are all valid and binding in accordance with their respective terms and enforceable by each Noteholder;
 - (iv) each stock exchange which has Notes listed or admitted to trading thereon shall have confirmed that following the proposed substitution of the Substituted Debtor such Notes would continue to be listed or admitted to trading (as the case may be) on such stock exchange;
 - (v) the Substituted Debtor shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from a leading firm of local lawyers acting for the Substituted Debtor to the effect that the Documents constitute legal, valid and binding obligations of the Substituted Debtor, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent;
 - (vi) the Issuer and the Guarantor shall have delivered to the Agent or procured the delivery to the Agent of legal opinions from the internal legal adviser(s) to the Issuer and the Guarantor to the effect that the Documents (including the Substitution Guarantee) constitute legal, valid and binding obligations of the Issuer and the Guarantor, such opinions to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent;
 - (vii) the Issuer and the Guarantor shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from a leading firm of English lawyers to the effect that the Documents (including the Substitution Guarantee) constitute legal, valid and binding obligations of the Substituted Debtor, the Issuer and the Guarantor under English law, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent; and
 - (viii) the Substituted Debtor (if not incorporated in England) shall have appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Notes, the relative Receipts or Coupons and the Documents.
- (b) In connection with any substitution effected pursuant to this Condition, the Issuer, the Substituted Debtor and the Guarantor need not have any regard to the consequences of any such substitution for individual Noteholders or Couponholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Noteholder or Couponholder, except as provided in Condition 15(a)(ii), shall be entitled to claim from the Issuer, any Substituted Debtor or the Guarantor under the Notes and the relative Receipts and Coupons any indemnification or payment in respect of any tax or other consequences arising from such substitution.

- (c) Upon the execution of the Documents as referred to in paragraph (i) above, and subject to the notification as referred to in paragraph (e) below having been given, the Substituted Debtor shall be deemed to be named in the Notes and the relative Receipts and Coupons as the principal debtor in place of the Issuer and the Notes and the relative Receipts and Coupons shall thereupon be deemed to be amended to give effect to the substitution. The execution of the Documents shall operate to release the Issuer as issuer from all of its obligations as principal debtor in respect of the Notes and the relative Receipts and Coupons save that any claims under the Notes and the relative Receipts and Coupons prior to release shall enure for the benefit of Noteholders and Couponholders.
- (d) The Documents shall be deposited with and held by the Agent for so long as any Notes or Coupons remain outstanding and for so long as any claim made against the Substituted Debtor by any Noteholder or Couponholder in relation to the Notes or the relative Receipts and Coupons or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor, the Issuer and the Guarantor shall acknowledge in the Documents the right of every Noteholder and Couponholder to the production of the Documents for the enforcement of any of the Notes or the relative Receipts and Coupons or the Documents.
- (e) Not later than 15 business days after the execution of the Documents, the Substituted Debtor shall give notice thereof to the Noteholders in accordance with Condition 12.

16 Governing Law and Jurisdiction

The Notes, the Receipts, the Coupons, the Talons, and any non-contractual obligations arising out of or in connection with them, and the Deed of Guarantee are governed by, and shall be construed in accordance with, English law.

The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons (“Proceedings”) may be brought in such courts. The Issuer and the Guarantor irrevocably submit to the jurisdiction of the courts of England and waive any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

Each of the Issuer and the Guarantor irrevocably appoints the General Manager for the time being of the Guarantor’s London Branch, currently at 60 London Wall, London EC2M 5TQ as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the Issuer or the Guarantor, as the case may be). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer and the Guarantor irrevocably agree to appoint a substitute process agent and shall immediately notify Noteholders of such appointment in accordance with Condition 12. Nothing shall affect the right to serve process in any manner permitted by law.

17 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes, the Receipts, the Coupons, the Talons or the Deed of Guarantee under the Contracts (Rights of Third Parties) Act 1999.

18 Determinations by the Calculation Agent, the Issuer and/or the Guarantor

For the purposes of the Notes, any determinations, calculations or other decisions made by the Calculation Agent, the Issuer and/or the Guarantor under or pursuant to the terms of the Notes shall be made in its/their sole and absolute discretion. All such determinations, calculations or other decisions of the Calculation Agent, the Issuer and/or the Guarantor shall (save in the case of manifest error) be final, conclusive and binding on all parties, and none of the Calculation Agent, the Issuer nor the Guarantor shall have any liability to any person therefore.

19 FX and Benchmark Notes

(a) *FX Notes*

The following provisions of this Condition 19(a) shall apply to the Notes if the FX Provisions are specified to be applicable in the applicable Final Terms.

(i) FX Market Disruption Event

If the Issuer determines that an FX Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of any amount which is to be determined by reference to the Primary FX Rate on such Scheduled Valuation Date or on such other date (for the purposes of this Condition 19(a), the “Relevant FX Amount”) shall be postponed until the next Business Day on which there is no FX Market Disruption Event.

If, however, an FX Market Disruption Event is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount is to be determined by reference to the Primary FX Rate, then the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant FX Amount. However, if the Fallback FX Rate is not available on such Business Day, or if no Fallback FX Rate is specified in the applicable Final Terms, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) Unscheduled Holiday

If the Issuer determines that an Unscheduled Holiday has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of the Relevant FX Amount shall be postponed until the next Business Day on which no Unscheduled Holiday occurs, provided that no such postponement shall occur for a period longer than 30 calendar days (or such other period as is specified in the applicable Final Terms) following such Scheduled Valuation Date or such other date.

If, however, an Unscheduled Holiday is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount which is to be determined by reference to the Primary FX Rate, then the Primary FX Rate (if available) or the Fallback FX Rate (if the Primary FX Rate is not available and a Fallback FX Rate is specified in the applicable Final Terms) on the first calendar day following the expiry of that period shall be

used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if a Fallback FX Rate is specified in the applicable Final Terms) the Fallback FX Rate is available on such calendar day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) Cumulative Events

Notwithstanding anything herein to the contrary, in no event shall the period during which either (x) a calculation is postponed due to an Unscheduled Holiday or (y) a calculation is postponed due to an FX Market Disruption Event (or any combination of (x) and (y)) exceed the Maximum Period of Postponement. Accordingly, if, upon the lapse of the Maximum Period of Postponement, an Unscheduled Holiday or FX Market Disruption Event shall have occurred or be continuing, then the Primary FX Rate or (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day (including any day which would have been a Business Day but for the occurrence of an Unscheduled Holiday) following the expiry of the Maximum Period of Postponement shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) is available on that Business Day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iv) Relevant FX Rate Inappropriate

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary FX Rate or Fallback FX Rate used to determine the Relevant FX Amount in accordance with Condition 19(a)(i), (ii) or (iii) above is inappropriate, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(v) Payment

The Relevant FX Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which it is determined by the Calculation Agent in accordance with Condition 19(a)(i), (ii), (iii) or (iv) above. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 19(a).

(b) *Benchmark Notes*

(i) The following provisions of this Condition 19(b) shall apply to the Notes if the Benchmark Provisions are specified to be applicable in the applicable Final Terms.

If the Issuer determines that a Benchmark Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary Benchmark, then:

(x) if the Relevant Benchmark Amount Postponement Provisions are specified to be applicable in the Final Terms, the calculation of any amount which is to be determined by

reference to the Primary Benchmark on such Scheduled Valuation Date (for the purposes of this Condition 19(b), the “Relevant Benchmark Amount”) shall be postponed to the next Business Day on which there is no Benchmark Market Disruption Event, unless on each of the eight Business Days following such Scheduled Valuation Date or such other date (or such other period as may be specified in the applicable Final Terms) a Benchmark Market Disruption Event occurs. In that case, the Fallback Benchmark (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant Benchmark Amount. However, if the Fallback Benchmark is not available on such Business Day, or if no Fallback Benchmark is specified in the applicable Final Terms, the Relevant Benchmark Amount shall be determined by the Calculation Agent as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice; and

(y) if the Relevant Benchmark Amount Postponement Provisions are not specified to be applicable in the Final Terms, the Relevant Benchmark Amount shall be determined as soon as reasonably possible by the Calculation Agent in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) Relevant Benchmark Inappropriate

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary Benchmark or Fallback Benchmark used to determine the Relevant Benchmark Amount in accordance with Condition 19(b)(i) above is inappropriate, the Calculation Agent shall determine the Relevant Benchmark Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) Payment

The Relevant Benchmark Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which such amount is determined. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment in accordance with this Condition 19(b).

(c) *FX Convertibility Event and FX Transferability Event*

The following provisions of this Condition 19(c) shall apply to the Notes if the FX Convertibility Event Provisions and/or FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms.

- (i) If (x) the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Convertibility Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction or (y) the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Transferability Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction, then in either such case the Issuer shall use reasonable endeavours to pay such amount in the Relevant Currency to the Noteholder’s Relevant Currency account or, in the absence of such account or

in the case of the Noteholder's failure to notify the Issuer of the details of such account in a timely manner, to any other account as the Issuer may determine (including, for the avoidance of doubt, an account which is or may be subject to limitations on conversion and/or repatriation) in which account any such amount shall be held for the benefit of the Noteholder. Payment of any such amount by the Issuer shall discharge the Issuer of its remaining obligations under the Notes in respect of such payment in the Relevant Currency. Should any account be opened by the Issuer for the Noteholder, such account will be opened on the normal terms and conditions of the relevant institution, and in the event any interest accrues on the amounts held in such account, such interest will be for the benefit of the Noteholder.

Any costs incurred by the Issuer in connection with the opening or maintenance of such account will be borne by the Noteholder, and the Issuer reserves the right to use the funds in such account to pay for such costs. The amount payable by the Issuer to the Noteholder in respect of the Notes shall be reduced by the amount of any such costs incurred by the Issuer. Such right of set-off is without prejudice to any additional right to claim such costs. In the event that the costs incurred by the Issuer in connection with the opening and/or maintenance of such account exceed the amount payable by the Issuer to the Noteholder in respect of the Notes or the amount held in such account for the Noteholder, the Issuer reserves the right to forego opening or to close such account.

- (ii) If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms), then such payment shall be postponed until the next Payment Day on which such payment can, in the sole discretion of the Issuer, reasonably be made. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 19(c).

If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms) for a period of five years (or such other period as may be specified in the applicable Final Terms) from the date on which payment was originally due to be made but for the FX Convertibility Event or the FX Transferability Event, as the case may be, then the Issuer shall be entitled to all amounts in any account opened by it pursuant to Condition 19(c)(i) above, including accrued interest, if any, and no additional amounts shall be payable to the relevant Noteholder.

(d) *Tax Event*

If the Tax Event Provisions are specified to be applicable in the applicable Final Terms, all payments made under the Notes will be subject to the deductions of any taxes, fees or costs that may be incurred or arise as a result of any Tax Event in relation to the Notes and any transactions associated with them. The determination of the amount of any such taxes, fees or costs shall be made by the Issuer in its sole discretion.

Copies of the Agency Agreement, the Deed of Guarantee and the Final Terms applicable to this Note may be obtained from and are available for inspection at the specified offices of each of the Agent and the other Paying Agents and from the Issuer save that Final Terms relating to a Note for which a prospectus is not required to be published in accordance with Directive 2003/71/EC (the “Prospectus Directive”) will only be available for inspection by a Noteholder upon such Noteholder producing evidence as to identity satisfactory to the relevant Paying Agent or the Issuer (as the case may be). Written or oral requests for such documents from the Issuer should be directed to it c/o ING Financial Holdings Corporation, 1325 Avenue of the Americas, New York, NY 10019, United States (Tel.: +1 (646) 424-6080). The Guarantor shall undertake the duties of calculation agent (the “Calculation Agent”) in respect of the Notes unless another entity is so specified as calculation agent in the applicable Final Terms. The expression Calculation Agent shall, in relation to the relevant Notes, include such other specified calculation agent.

Words and expressions defined in the Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in the General Conditions unless the context otherwise requires or unless otherwise stated.

1 Form, Denomination and Title

The Notes are in bearer form (“Bearer Notes”) or in registered form (“Registered Notes”), in the currency in which payment in respect of the Notes is to be made (the “Specified Currency”) and in the denomination per Note specified to be applicable to the Notes (the “Specified Denomination”), all as specified in the applicable Final Terms and, in the case of definitive Notes, serially numbered. Notes of one Specified Denomination may not be exchanged for Notes of another Specified Denomination.

This Note may be a Note bearing interest on a fixed rate basis (“Fixed Rate Note”), a Note bearing interest on a floating rate basis (“Floating Rate Note”), a Note issued on a non-interest bearing basis (“Zero

Coupon Note”) or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms.

This Note may be a Note redeemable in instalments (“Instalment Note”), a Note to be issued on a partly paid basis (“Partly Paid Note”), a Note in respect of which principal is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (a “Dual Currency Redemption Note”) or a Note in respect of which interest is or may be payable in one or more Specified Currencies other than the Specified Currency in which it is denominated (“Dual Currency Interest Note”) or a combination of any of the foregoing, depending upon the Redemption/Payment Basis shown in the applicable Final Terms.

Definitive Bearer Notes are issued with Coupons attached, unless they are Zero Coupon Notes in which case references to Coupons and Couponholders in the General Conditions are not applicable.

Subject as set out below, title to the Bearer Notes, Receipts and Coupons will pass by delivery and title to the Registered Notes will pass upon registration of transfers in accordance with the provisions of the Agency Agreement. For Notes held by Euroclear Netherlands deliveries will be made in accordance with the Dutch Securities Giro Transfer Act (*Wet giraal effectenverkeer*). Except as ordered by a court of competent jurisdiction or as required by law or applicable regulations, the Issuer, the Guarantor, the Agent, the Replacement Agent (as defined in the Agency Agreement), the Registrar, any Transfer Agent and any Paying Agent may deem and treat the bearer of any Bearer Note, Receipt or Coupon and the registered holder of any Registered Note as the absolute owner thereof (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) for all purposes but, in the case of any global Note, without prejudice to the provisions set out in the next succeeding paragraph.

For so long as any of the Notes is represented by a global Bearer Note held on behalf of Euroclear Bank S.A./N.V. (“Euroclear”) and/or Clearstream Banking, *société anonyme* (“Clearstream, Luxembourg”), each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as the holder of a particular nominal amount of such Notes (in which regard any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the nominal amount of Notes standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer, the Guarantor, the Replacement Agent, any Transfer Agent, the Registrar, the Agent and any Paying Agent as the holder of such nominal amount of such Notes for all purposes other than with respect to the payment of principal or interest on the Notes, for which purpose the bearer of the relevant global Note shall be treated by the Issuer, the Guarantor, the Replacement Agent, any Transfer Agent, the Registrar, the Agent and any Paying Agent as the holder of such Notes in accordance with and subject to the terms of the relevant global Note (and the expressions “Noteholder” and “holder of Notes” and related expressions shall be construed accordingly and such expressions shall include those persons having a credit balance in the collective depots in respect of Notes held by Euroclear Netherlands or one of its participants). Notes which are represented by a global Note held by a common depository or common safekeeper for Euroclear and/or Clearstream, Luxembourg will be transferable only in accordance with the rules and procedures for the time being of Euroclear or of Clearstream, Luxembourg, as the case may be. Notes which are represented by a global Note held by Euroclear Netherlands will be delivered in accordance with the Dutch Securities Giro Transfer Act.

For so long as The Depository Trust Company (“DTC”) or its nominee is the registered holder of any Registered Global Notes, DTC or such nominee, as the case may be, will be considered the absolute owner or holder of the Registered Notes represented by such registered global Note for all purposes and members of, or participants in, DTC (the “Agent Members”) as well as any other person on whose behalf the Agent Members may act will have no rights under a registered global Note. Owners of beneficial interests in a registered global Note will not be considered to be the owners or holders of any Registered Notes.

References to Euroclear, Clearstream, Luxembourg and/or DTC shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Agent but shall not include Euroclear Netherlands.

If the Notes are represented by a permanent global note in bearer form without coupons (the “Permanent Bearer Global Note”) deposited in custody with Euroclear Netherlands, they will be subject to, and rights in respect of them will be exercised in accordance with, the Dutch Securities Giro Transfer Act. Rights in respect of the Notes represented by the Permanent Bearer Global Note take the form of co-ownership rights (*aandelen*) in the collective depots (*verzameldepots* as referred to in the Dutch Securities Giro Transfer Act) of the Notes with participants of Euroclear Netherlands (*aangesloten instellingen* according to the Dutch Securities Giro Transfer Act) (“Participants”). The co-ownership rights with respect to the Notes will be credited to the account of the Noteholder with such Participant. A holder of co-ownership rights in respect of the Notes will be referred to hereinafter as a “Noteholder” or a “holder of a Note”.

2 Guarantee and Status

The Guarantor has unconditionally and irrevocably guaranteed the due payment of all sums expressed to be payable by the Issuer under the Notes, Receipts and Coupons. Its obligations in that respect are contained in the Deed of Guarantee.

The Notes and the relative Receipts and Coupons are direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

The payment obligations of the Guarantor under the Deed of Guarantee rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Guarantor from time to time outstanding. The Notes do not constitute deposits or deposit-type liabilities of the Guarantor.

3 Interest

(a) Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate(s) of Interest so specified payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date.

Except as provided in the applicable Final Terms, the amount of interest payable on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount. Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

As used in the General Conditions, “Fixed Interest Period” means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

If interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall (subject to the following sentence) be calculated by applying the Rate of Interest to each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded

upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then if interest is required to be calculated for a period other than a Fixed Interest Period, such interest shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest in accordance with this Condition 3(a) of the General Conditions:

- (i) if “Actual/Actual (ICMA)” is specified in the applicable Final Terms:
 - (a) in the case of Notes where the number of days in the relevant period from (and including) the most recent Interest Payment Date (or, if none, the Interest Commencement Date) to (but excluding) the relevant payment date (the “Accrual Period”) is equal to or shorter than the Determination Period during which the Accrual Period ends, the number of days in such Accrual Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; or
 - (b) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (i) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year; and
 - (ii) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates that would occur in one calendar year; and
- (ii) if “30/360” is specified in the applicable Final Terms, the number of days in the relevant Accrual Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Accrual Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Accrual Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Accrual Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Accrual Period falls;

“D₁” is the first calendar day, expressed as a number, of the Accrual Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Accrual Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30.

In the General Conditions:

“Determination Period” means each period from (and including) a Determination Date to but excluding the next Determination Date (including, where either the Interest Commencement Date or the final Interest Payment Date is not a Determination Date, the period commencing on the first Determination Date prior to, and ending on the first Determination Date falling after, such date); and

“sub-unit” means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means one cent.

(b) *Interest on Floating Rate Notes*

(i) *Interest Payment Dates*

Each Floating Rate Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date and such interest will be payable in arrear on either:

- (A) the Specified Interest Payment Date(s) (each an “Interest Payment Date”) in each year specified in the applicable Final Terms; or
- (B) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date (each an “Interest Payment Date”) which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Such interest will be payable in respect of each Interest Period (which expression shall, in the General Conditions, mean the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date).

If a Business Day Convention is specified in the applicable Final Terms and (x) if there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) if any Interest Payment Date would otherwise fall on a day which is not a Business Day, then, if the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 3(b)(i)(B) of the General Conditions, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) below shall apply mutatis mutandis or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business

Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or

- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention (Adjusted), such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Modified Following Business Day Convention (Unadjusted), (i) for the purpose of calculating the amount of interest payable under the Notes, such Interest Payment Date shall not be adjusted and (ii) for any other purpose, such Interest Payment Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date shall be brought forward to the immediately preceding Business Day; or
- (5) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day.

In the General Conditions, “Business Day” means a day which is both:

- (A) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in Amsterdam, New York City and any Additional Business Centre specified in the applicable Final Terms; and
- (B) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than Amsterdam, New York City or any Additional Business Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars, Auckland and Wellington) or (2) in relation to interest payable in euro, a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System (the “TARGET System”) is open.

(ii) Rate of Interest

The Rate of Interest payable from time to time in respect of the Floating Rate Notes will be determined in the manner specified in the applicable Final Terms.

(iii) ISDA Determination

Where ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be the relevant ISDA Rate plus or minus (as indicated in the applicable Final Terms) the Margin (if any). For the purposes of this sub-paragraph (iii), “ISDA Rate” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Agent under an interest rate swap transaction if the Agent were acting as Calculation Agent for that swap transaction under the terms of an agreement incorporating the 2006 ISDA Definitions (as amended and updated as

at the Issue Date of the first Tranche of the Notes) as published by the International Swaps and Derivatives Association, Inc. (the “ISDA Definitions”) under which:

- (A) the Floating Rate Option is as specified in the applicable Final Terms;
- (B) the Designated Maturity is the period specified in the applicable Final Terms; and
- (C) the relevant Reset Date is either (i) if the applicable Floating Rate Option is based on the London inter-bank offered rate (“LIBOR”) or on the Euro-zone inter-bank offered rate (“EURIBOR”) for a currency, the first day of that Interest Period or (ii) in any other case, as specified in the applicable Final Terms.

For the purposes of this sub-paragraph (iii), “Floating Rate”, “Calculation Agent”, “Floating Rate Option”, “Designated Maturity” and “Reset Date” have the meanings given to those terms in the ISDA Definitions.

(iv) Screen Rate Determination for Floating Rate Notes

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will, subject as provided below, be either:

- (A) the offered quotation (if there is only one quotation on the Relevant Screen Page); or
- (B) the arithmetic mean (rounded if necessary to the fourth decimal place, with 0.00005 being rounded upwards) of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at 11.00 a.m. (London time, in the case of LIBOR, or Brussels time, in the case of EURIBOR) on the Interest Determination Date in question plus or minus (as indicated in the applicable Final Terms) the Margin (if any), all as determined by the Agent. If five or more such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Agent for the purpose of determining the arithmetic mean (rounded as provided above) of such offered quotations.

The Agency Agreement contains provisions for determining the Rate of Interest in the event that the Relevant Screen Page is not available or if, in the case of (A) above, no such quotation appears or, in the case of (B) above, fewer than three such offered quotations appear, in each case as at the time specified in the preceding paragraph.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the applicable Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the applicable Final Terms.

(v) Minimum and/or Maximum Rate of Interest

If the applicable Final Terms specify a Minimum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance with the provisions of paragraphs (ii), (iii) and (iv) above is less than such Minimum Rate of Interest, the Rate of Interest for such Interest Period shall be such Minimum Rate of Interest.

If the applicable Final Terms specify a Maximum Rate of Interest for any Interest Period, then, in the event that the Rate of Interest in respect of such Interest Period determined in accordance

with the provisions of paragraphs (ii), (iii) and (iv) above is greater than such Maximum Rate of Interest, the Rate of Interest for such Interest Period shall be such Maximum Rate of Interest.

(vi) Determination of Rate of Interest and Calculation of Interest Amounts

The Agent, in the case of Floating Rate Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period.

The Agent will calculate the amount of interest (the “Interest Amount”) payable on the Floating Rate Notes in respect of each Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms) for the relevant Interest Period. Each Interest Amount or any other amount of interest payable in respect of any Note for any period shall (subject to the following sentence) be calculated by applying the Rate of Interest to the Specified Denomination (or the Calculation Amount if one is specified to be applicable in the applicable Final Terms), multiplying such sum by the applicable Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. If, however, the applicable Final Terms specify that Aggregate Nominal Amount Determination is applicable, then each Interest Amount or any other amount of interest payable in respect of any Note for any period shall be calculated by applying the Rate of Interest to the outstanding aggregate nominal amount of the relevant series of Notes, multiplying such sum by the applicable Day Count Fraction, dividing the resultant figure by the number of such Notes, and rounding the resultant figure(s) down to the nearest sub-unit of the relevant Specified Currency.

“Day Count Fraction” means, in respect of the calculation of an amount of interest on any Floating Rate Note for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period, the “Calculation Period”) in accordance with this Condition 3(b) of the General Conditions:

- (A) if “Actual/Actual” or “Actual/Actual (ISDA)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (i) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (ii) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (B) if “Actual/365 (Fixed)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365;
- (C) if “Actual/365 (Sterling)” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 365 or, in the case of an Interest Payment Date falling in a leap year, 366;
- (D) if “Actual/360” is specified in the applicable Final Terms, the actual number of days in the Calculation Period divided by 360;
- (E) if “30/360”, “360/360” or “Bond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (F) if “30E/360” or “Eurobond Basis” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D₂ will be 30; and

- (G) if “30E/360 (ISDA)” is specified in the applicable Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless (i) that day is the last day of February or (ii) such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless (i) that day is the last day of February but not the Maturity Date or (ii) such number would be 31, in which case D₂ will be 30.

(vii) Notification of Rate of Interest and Interest Amount

The Agent will cause the Rate of Interest and each Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and notice thereof to be published in accordance with Condition 12 of the General Conditions as soon as possible after their determination but in no event later than the fourth London Business Day (as defined below) thereafter. Each Interest Amount and Interest Payment Date so notified may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period. Any such amendment will be promptly notified to each stock exchange on which the relevant Floating Rate Notes are for the time being admitted to trading or listed and to the Noteholders in accordance with Condition 12 of the General Conditions. For the purposes of Condition 3(b) (vii) of the General Conditions, the expression “London Business Day” means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for general business in London.

(viii) Certificates to be Final

All certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this paragraph (b), whether by the Agent or, if applicable, the Calculation Agent, shall (in the absence of wilful default, bad faith or manifest error) be binding on the Issuer, the Guarantor, the Agent or, if applicable, the Calculation Agent, as the case may be, the other Paying Agents and all Noteholders, Receiptholders and Couponholders and (in the absence as aforesaid) no liability to the Issuer, the Guarantor, the Noteholders, the Receiptholders or the Couponholders shall attach to the Agent or, if applicable, the Calculation Agent, the Issuer or that other agent in

connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(c) *Interest on Dual Currency Interest Notes*

The rate or amount of interest payable shall be determined in the manner specified in the applicable Final Terms.

(d) *Interest on Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(e) *Accrual of Interest*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date for its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (1) the date on which all amounts due in respect of such Note have been paid; and
- (2) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given in accordance with Condition 12 of the General Conditions or individually.

(f) *Interest Rates Positive*

Unless specified otherwise in the applicable Final Terms, the rate of interest payable in respect of the Notes shall never be less than zero. If the formula or other method for determining a rate of interest applicable to the Notes would result in a negative figure, the applicable rate of interest will be deemed to be zero.

4 Payments

(a) *Method of Payment*

Subject as provided below:

- (i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained and specified by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the principal financial centre of the country of such Specified Currency (which, if the Specified Currency is Australian dollars, shall be Melbourne and if New Zealand dollars, Wellington); and
- (ii) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment.

(b) *Presentation of Notes, Receipts and Coupons*

Other than in the case of definitive Bearer Notes in CF-form, payments of principal in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in paragraph (a) above only against surrender of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against surrender of Coupons, in each case at the specified office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the State and District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

Payments of principal in respect of any definitive Bearer Notes in CF-form will be made in the manner provided in paragraph (a) above only against surrender of definitive Notes together with the Coupon sheet attached. Payments of interest in respect of any definitive Bearer Notes in CF-form will be made in conformity with the agreement concluded between the Issuer and Algemeen Obligatiekantoor van het Centrum voor Fondsenadministratie B.V. in Amsterdam (the “Obligatiekantoor”), under which agreement the Issuer has accepted the rules and regulations of the Obligatiekantoor.

Payments of instalments of principal in respect of definitive Bearer Notes (if any), other than the final instalment, will (subject as provided below) be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Receipt. Payment of the final instalment will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of the relevant Bearer Note. Each Receipt must be presented for payment of the relevant instalment together with the definitive Bearer Note to which it appertains. Receipts presented without the definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer. Upon the date on which any definitive Bearer Note becomes due and repayable, unmatured Receipts (if any) relating thereto (whether or not attached) shall become void and no payment shall be made in respect thereof.

Fixed Rate Notes in definitive bearer form (other than Dual Currency Notes or Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date (as defined below) in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 7 of the General Conditions) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter. Upon any such Fixed Rate Note becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

As used herein, the “Relevant Date” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 12 of the General Conditions.

Upon the date on which any Floating Rate Note, Dual Currency Note or Long Maturity Note in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating

thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “Long Maturity Note” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose nominal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the nominal amount of such Note.

If the due date for redemption of any definitive Bearer Note is not an Interest Payment Date, interest (if any) accrued in respect of such Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date shall be payable only against surrender of the relevant definitive Bearer Note.

Payments of principal and interest (if any) in respect of Notes represented by any global Bearer Note will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant global Bearer Note (in the case of a global Bearer Note not in New Global Note form, against presentation or surrender, as the case may be, of such global Bearer Note at the specified office of any Paying Agent outside the United States, and in the case of a global Bearer Note in New Global Note form, by payment to or to the order of the common safekeeper for such global Bearer Note). A record of each payment made against presentation or surrender of any such global Bearer Note not in New Global Note form, distinguishing between any payment of principal and any payment of interest, will be made on such global Bearer Note by such Paying Agent and such record shall be *prima facie* evidence that the payment in question has been made. If a global Bearer Note is in New Global Note form, the Issuer shall procure that details of each payment of principal and interest (if any) made in respect of Notes represented by the New Global Note shall be entered *pro rata* in the records of the relevant clearing system and the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the global Bearer Note will be reduced accordingly. Each payment so made will discharge the Issuer’s obligations in respect thereof. Any failure to make the entries in the records of the relevant clearing system shall not affect such discharge.

Where a global Bearer Note is a New Global Note, the Issuer shall procure that any exchange, payment, cancellation, exercise of any option or any right under the Notes, as the case may be, shall be entered in the records of the relevant clearing systems and upon any such entry being made, the nominal amount of the Notes represented by such global Bearer Note shall be adjusted accordingly.

The holder of a global Note shall be the only person entitled to receive payments in respect of Notes represented by such global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or DTC as the beneficial holder of a particular nominal amount of Notes represented by such global Note must look solely to Euroclear, Clearstream, Luxembourg or DTC, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the holder of such global Note. No person other than the holder of such global Note shall have any claim against the Issuer in respect of any payments due on that global Note.

In the case of Notes held by Euroclear Netherlands, payment of interest or principal or any other payments on or in respect of the Notes to the Noteholders will be effected through Participants of Euroclear Netherlands. The Issuer shall deposit or cause to be deposited the funds intended for payment on the Notes in an account of Euroclear Netherlands. The Issuer will by such deposit be discharged of its obligations towards the Noteholders. No person other than the holder of the global Note shall have any claim against the Issuer in respect of any payments due on that global Note. Euroclear Netherlands will be discharged of its obligation to pay by paying the relevant funds to the

Euroclear Netherlands Participants which according to Euroclear Netherlands' record hold a share in the *girodepot* with respect to such Notes, the relevant payment to be made in proportion to the share in such *girodepot* held by each of such Euroclear Netherlands Participants. Euroclear Netherlands shall not be obliged to make any payment in excess of funds it actually received as funds free of charges of any kind whatsoever.

All amounts payable to DTC or its nominee as registered holder of a registered global Note in respect of Notes denominated in a Specified Currency other than U.S. dollars shall be paid by transfer by the Registrar to an account in the relevant Specified Currency of one or more of the Transfer Agents on behalf of DTC or its nominee for payment in such Specified Currency or conversion into U.S. dollars in accordance with the provisions of the Agency Agreement.

Notwithstanding the foregoing, U.S. dollar payments of principal and interest in respect of Bearer Notes will be made at the specified office of a Paying Agent in the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)) if:

- (i) the Issuer has appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such specified offices outside the United States of the full amount of principal and interest on the Notes in the manner provided above when due;
- (ii) payment of the full amount of such principal and interest at all such specified offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

Subject as set out below, payments of principal in respect of Registered Notes (whether in definitive or global form) will be made in the manner provided in paragraph (a) above against presentation and surrender (or, in the case of part payment of any sum due only, endorsement) of such Notes at the specified office of the Registrar or at the specified office of any Paying Agent. Payments of interest due on a Registered Note and payments of instalments (if any) of principal on a Registered Note, other than the final instalment, will be made to the person in whose name such Note is registered at the close of business on the fifteenth day (whether or not such fifteenth day is a business day (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) (the "Record Date")) prior to such due date. In the case of payments by cheque, cheques will be mailed to the holder (or the first named of joint holders) at such holder's registered address on the due date. If payment is required by credit or transfer as referred to in paragraph (a) above, application for such payment must be made by the holder to the Registrar not later than the relevant Record Date.

(c) *Payment Day*

Unless otherwise specified in the applicable Final Terms in relation to a Tranche of Notes, if the date for payment of any amount in respect of any Note, Receipt or Coupon is not a Payment Day, the holder thereof shall not be entitled to payment until the next following Payment Day in the relevant place and shall not be entitled to further interest or other payment in respect of such delay. For these purposes (unless otherwise specified in the applicable Final Terms), "Payment Day" means any day which (subject to Condition 7 of the General Conditions) is:

- (i) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in:
 - (A) the relevant place of presentation;
 - (B) London;
 - (C) Amsterdam;
 - (D) New York City; and
 - (E) any Additional Financial Centre specified in the applicable Final Terms;
- (ii) either (1) in relation to any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than the place of presentation, London, Amsterdam, New York City or any Additional Financial Centre and which if the Specified Currency is Australian dollars shall be Sydney and if New Zealand dollars Auckland and Wellington) or (2) in relation to any sum payable in euro, a day on which the TARGET System is open; and
- (iii) in the case of any payment in respect of a Restricted Global Note denominated in a Specified Currency other than U.S. dollars and registered in the name of DTC or its nominee and, in respect of which an accountholder of DTC (with an interest in such Restricted Global Note) has elected to receive any part of such payment in U.S. dollars, not a day on which banking institutions are authorised or required by law or regulation to be closed in New York City.

Notwithstanding anything else in these General Conditions, in the event that an Interest Payment Date is brought forward under Condition 3(b) of the General Conditions through the operation of a Business Day Convention in circumstances which were not reasonably foreseeable by the Issuer, the relevant Payment Day shall be the first Payment Day after the Interest Payment Date as so brought forward.

(d) *Interpretation of Principal*

Any reference in the General Conditions to principal in respect of the Notes shall be deemed to include, as applicable:

- (i) the amount at which each Note will be redeemed on the Maturity Date of the Notes (“Final Redemption Amount”);
- (ii) the redemption amount in respect of Notes payable on redemption for taxation reasons or following an Event of Default (“Early Redemption Amount”);
- (iii) the Optional Redemption Amount(s) (if any) of the Notes;
- (iv) in relation to Instalment Notes, the Instalment Amounts;
- (v) in relation to Zero Coupon Notes, the Amortised Face Amount (as defined in Condition 5(e)(iii) of the General Conditions); and
- (vi) any premium and any other amounts (other than interest) which may be payable by the Issuer under or in respect of the Notes.

5 Redemption and Purchase

(a) At Maturity

Unless previously redeemed or purchased and cancelled as specified below, each Note (including each Dual Currency Redemption Note) will be redeemed by the Issuer at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency on the Maturity Date.

(b) *Redemption for Tax Reasons*

If the Issuer or, if the Deed of Guarantee were called, the Guarantor on the occasion of the next payment due in respect of the Notes or the Deed of Guarantee would be required to withhold or account for tax in respect of the Notes, then the Issuer shall forthwith give notice of such circumstance to Noteholders. In such event, the Issuer may, but shall not be obliged to, on giving not more than 30 nor less than 15 days' notice to the Noteholders (or such other period of notice as is specified in the applicable Final Terms), and upon expiry of such notice, redeem all but not some of the Notes at their Early Redemption Amount.

Notwithstanding the foregoing, if any of the taxes referred to above arises (i) by reason of any Noteholder's connection with any particular jurisdiction otherwise than by reason only of the holding of any Note or receiving or being entitled to principal or interest in respect thereof; or (ii) by reason of the failure by the relevant Noteholder to comply with any applicable procedures required to establish non-residence or other similar claim for exemption from such tax, then to the extent it is able to do so, the Issuer shall deduct such taxes from the amounts payable to such Noteholder and all other Noteholders shall receive the due amounts payable to them.

(c) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (i) not less than 15 nor more than 30 days' notice (or such other period of notice as is specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12 of the General Conditions; and
- (ii) not less than 15 days before the giving of the notice referred to in (i), notice to the Agent,

(both of which notices shall be irrevocable) redeem all or some only of the Notes then outstanding on the Optional Redemption Date(s) and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date(s).

Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount (if any) or not more than the Maximum Redemption Amount (if any), in each case as specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("Redeemed Notes") will be selected individually by lot, in the case of Redeemed Notes represented by definitive Notes, and in accordance with the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in nominal amount, at their discretion) and/or Euroclear Netherlands and/or, as the case may be, DTC, in the case of Redeemed Notes represented by a global Note, not more than 30 days prior to the date fixed for redemption (or such other period as is specified in the applicable Final Terms) (such date of selection being hereinafter called the "Selection Date"). In the case of Redeemed Notes represented by definitive Notes, a list of the serial numbers of such Redeemed Notes will be published

in accordance with Condition 12 of the General Conditions not less than 15 days (or such other period as is specified in the applicable Final Terms) prior to the date fixed for redemption. The aggregate nominal amount of Redeemed Notes represented by definitive Notes shall bear the same proportion to the aggregate nominal amount of all Redeemed Notes as the aggregate nominal amount of definitive Notes outstanding bears to the aggregate nominal amount of the Notes outstanding, in each case on the Selection Date, provided that such first mentioned nominal amount shall, if necessary, be rounded downwards to the nearest integral multiple of the Specified Denomination, and the aggregate nominal amount of Redeemed Notes represented by a global Note shall be equal to the balance of the Redeemed Notes. No exchange of the relevant global Note will be permitted during the period from and including the Selection Date to and including the date fixed for redemption pursuant to this subparagraph (c) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 12 of the General Conditions at least 5 days prior to the Selection Date.

(d) *Redemption at the Option of the Noteholders (Noteholder Put)*

If Noteholder Put is specified in the applicable Final Terms, upon the holder of any Note giving to the Issuer in accordance with Condition 12 of the General Conditions not less than 15 nor more than 30 days' notice (or such other period of notice as is specified in the applicable Final Terms) (which notice shall be irrevocable), the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, in whole (but not in part), such Note on the Optional Redemption Date at the Optional Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

To exercise the right to require redemption of this Note the holder of this Note must, if this Note is in definitive form and held outside Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, deliver at the specified office of any Paying Agent, any Transfer Agent or, as the case may be, the Registrar at any time during normal business hours of such Paying Agent, Transfer Agent or Registrar falling within the notice period, a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent, any Transfer Agent or the Registrar (a "Put Notice") and in which the holder must specify a bank account (or, if payment is required to be made by cheque, an address) to which payment is to be made under this Condition 5 of the General Conditions accompanied by this Note or evidence satisfactory to the Paying Agent concerned that this Note will, following delivery of the Put Notice, be held to its order or under its control. If this Note is represented by a global Bearer Note or is in definitive form and held through Euroclear, Clearstream, Luxembourg or, if applicable, Euroclear Netherlands, to exercise the right to require redemption of this Note the holder of this Note must, within the notice period concerned, give notice of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands (which may include notice being given on his instruction by Euroclear or Clearstream, Luxembourg or any common depositary for them or, if applicable, Euroclear Netherlands to the Agent by electronic means), in a form acceptable to Euroclear and Clearstream, Luxembourg or, if applicable, Euroclear Netherlands from time to time and, at the same time, present or procure the presentation of the relevant Global Bearer Note to the Agent for notation accordingly.

Any Put Notice given by a holder of any Note pursuant to this paragraph shall be irrevocable except where prior to the due date of redemption an Event of Default shall have occurred and be continuing in which event such holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph and instead to declare such Note forthwith due and payable pursuant to Condition 8 of the General Conditions.

(e) Early Redemption Amounts

For the purpose of paragraph (b) above and Condition 8 of the General Conditions, each Note will be redeemed at the Early Redemption Amount calculated as follows:

- (i) in the case of a Note with a Final Redemption Amount equal to its nominal amount, at the Final Redemption Amount thereof, together with interest (if any) accrued to (but excluding) the date of redemption; or
- (ii) in the case of a Note (other than a Zero Coupon Note or a Note to which paragraph (iv) below applies, but including an Instalment Note and a Partly Paid Note) with a Final Redemption Amount which is or may be less or greater than its nominal amount or which is payable in a Specified Currency other than that in which the Notes are denominated, at the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is so specified in the applicable Final Terms, at its nominal amount, together in each case with interest (if any) accrued to (but excluding) the date of redemption; or
- (iii) in the case of a Zero Coupon Note (other than a Zero Coupon Note to which paragraph (iv) below applies), at an amount (the “Amortised Face Amount”) equal to the sum of:
 - (A) the Reference Price; and
 - (B) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date of the first Tranche of Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and payable.

Where such calculation is to be made for a period which is not a whole number of years, it shall be made (A) in the case of a Zero Coupon Note other than a Zero Coupon Note payable in euro, on the basis of a 360-day year consisting of 12 months of 30 days each or (B) in the case of a Zero Coupon Note payable in euro, on the basis of the actual number of days elapsed divided by 365 (or, if any of the days elapsed falls in a leap year, the sum of (x) the number of those days falling in a leap year divided by 366 and (y) the number of those days falling in a non-leap year divided by 365) or (in either case) on such other calculation basis as may be specified in the applicable Final Terms; or

- (iv) in the case of a Note for which the applicable Final Terms provide for the Early Redemption Amount to be equal to the Fair Market Value of the Note, the Calculation Agent shall calculate the Early Redemption Amount in its sole discretion, acting reasonably, by determining the fair market value of the Note two Business Days (or such other period as is specified in the applicable Final Terms) prior to (x) the date fixed for redemption or (y) (as the case may be) the date upon which such Note becomes due and payable (unless specified otherwise in the Final Terms, taking into account the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions).

(f) Instalments

Instalment Notes will be repaid in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (e) above.

(g) *Partly Paid Notes*

If the Notes are Partly Paid Notes, they will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this General Condition and the applicable Final Terms.

(h) *Purchases*

The Issuer, the Guarantor or any of their subsidiaries may at any time purchase Notes (provided that, in the case of definitive Notes, all unmatured Receipts, Coupons and Talons appertaining thereto are purchased therewith) at any price in the open market or otherwise. Such Notes may be held, re-issued, resold or, at the option of the Issuer or the Guarantor (as the case may be), surrendered to any Paying Agent for cancellation.

(i) *Cancellation*

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Receipts, Coupons and Talons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to paragraph (h) above (together with all unmatured Receipts, Coupons and Talons cancelled therewith) shall be forwarded to the Agent and cannot be re-issued or resold.

(j) *Late Payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraph (a), (b), (c) or (d) above or upon its becoming due and repayable as provided in Condition 8 of the General Conditions is improperly withheld or refused, the amount due and payable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (e)(iii) above (if such General Condition is stated to be applicable to the Note in the applicable Final Terms) as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (i) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (ii) five days after the date on which the full amount of the moneys payable has been received by the Agent and notice to that effect has been given to the Noteholders in accordance with Condition 12 of the General Conditions.

(k) *Redemption – Other*

The Issuer may at any time, on giving not less than 15 nor more than 30 days' notice to the Noteholders in accordance with Condition 12 of the General Conditions, redeem all but not some only of the Notes for the time being outstanding at their Early Redemption Amount if, prior to the date of such notice, 90 per cent. or more in nominal amount of the Notes hitherto issued have been redeemed.

In addition, the Issuer may (i) at any time, on giving not less than 15 nor more than 30 days' notice (or such other period of notice as specified in the applicable Final Terms) to the Noteholders in accordance with Condition 12 of the General Conditions, redeem the Notes for the time being outstanding on such other terms as may be specified in the applicable Final Terms and (ii) issue Notes which may be redeemed in other circumstances specified in the applicable Final Terms.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall be rounded to the

nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Unless specified otherwise in the applicable Final Terms, the Final Redemption Amount or the Early Redemption Amount (as the case may be) payable in respect of the Notes shall never be less than zero. If the formula or other method for determining the Final Redemption Amount or the Early Redemption Amount (as the case may be) applicable to the Notes would result in a negative figure, the Final Redemption Amount or the Early Redemption Amount (as the case may be) will be deemed to be zero.

6 Taxation

Neither the Issuer nor the Guarantor shall be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation or surrender for payment or enforcement of any Note or the Deed of Guarantee and all payments made by the Issuer and the Guarantor shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

7 Prescription

Claims against the Issuer and/or the Guarantor for payments in respect of the Notes, Receipts and Coupons will become void unless made within a period of five years after the date on which such payment first becomes due.

There shall not be included in any Coupon sheet issued on exchange of a Talon any Coupon the claim for payment in respect of which would be void pursuant to this Condition 7 of the General Conditions or Condition 4(b) of the General Conditions or any Talon which would be void pursuant to Condition 4(b) of the General Conditions.

8 Events of Default relating to Notes

If any one or more of the following events (each an “Event of Default”) shall have occurred and be continuing:

- (i) default is made for more than 30 days in the payment of interest or principal in respect of the Notes; or
- (ii) the Issuer or the Guarantor fails to perform or observe any of its other obligations under the Notes and such failure has continued for the period of 60 days next following the service on the Issuer and the Guarantor of notice requiring the same to be remedied; or
- (iii) the Issuer is declared bankrupt (*failliet verklaard*) or granted a moratorium (*surseance van betaling*); or
- (iv) the Guarantor is declared bankrupt, the Guarantor is granted a moratorium or a declaration in respect of the Guarantor is made to apply the emergency regulation (*noodregeling*) under Chapter 3, Section 3.5.5.1 of the Dutch Financial Supervision Act (*Wet op het financieel toezicht*); or
- (v) an order is made or an effective resolution is passed for the winding up or liquidation of the Issuer or the Guarantor unless this is done in connection with a merger, consolidation or other form of combination with another company, the terms of which merger, consolidation or combination (A) have the effect of the emerging or such other surviving company assuming all

obligations contracted for by the Guarantor in connection with the Deed of Guarantee or (B) have previously been approved by an Extraordinary Resolution of the Noteholders; or

(vi) the Deed of Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect,

then any Noteholder may, by written notice to the Issuer and the Guarantor at the specified office of the Agent, effective upon the date of receipt thereof by the Agent, declare the Note held by the holder to be forthwith due and payable whereupon the same shall become forthwith due and payable at the Early Redemption Amount (as described in Condition 5(e) of the General Conditions), without presentment, demand, protest or other notice of any kind, provided that such right to declare Notes due and payable shall terminate if the situation giving rise to it has been cured before the relevant notice has become effective.

9 Transfer and Exchange of Registered Notes and replacement of Notes and Coupons

Registered Notes of each Tranche sold outside the United States in reliance on Regulation S under the United States Securities Act of 1933, as amended (the “Securities Act”) will initially be represented by one or more temporary global Notes (each a “Reg. S Temporary Global Note”), which will be registered in the name of the nominee of, and deposited with a depository or common depository for, Euroclear and/or Clearstream, Luxembourg. Subject to the provisions of the applicable final terms, on or after the date that is the first date following the expiration of the Distribution Compliance Period, beneficial interests in each Reg. S Temporary Global Note will be exchangeable for beneficial interests in a permanent global Note in registered form, without interest coupons (the “Reg. S Global Note”).

Registered Notes of each Tranche sold inside the United States to qualified institutional buyers (“QIBs”) (within the meaning of Rule 144A under the Securities Act (“Rule 144A”)) in reliance on Rule 144A or to other U.S. persons in transactions exempt from the registration requirements of the Securities Act will be represented by a permanent restricted global Note in registered form, without interest coupons (the “Restricted Global Note” and, together with the “Reg. S Global Note”, the “Registered Global Notes”). Registered Notes which are represented by a Registered Global Note will be exchangeable and transferable only in accordance with the rules and operating procedures for the time being of DTC, Euroclear or Clearstream, Luxembourg, as the case may be (the “Applicable Procedures”).

Owners of beneficial interests in the Reg. S Global Note may transfer such interests, or may exchange such interests for either beneficial interests in the Restricted Global Note or Registered Notes in definitive form, and owners of beneficial interests in the Restricted Global Note may transfer such interests, or may exchange such interests for either beneficial interests in the Reg. S Global Note or Registered Notes in definitive form, in each case subject as provided below, to the provisions of the relative Registered Global Note and to the Applicable Procedures. In addition, Registered Notes in definitive form issued in exchange for beneficial interests in the Reg. S Global Note may be exchanged for beneficial interests in the Restricted Global Note, subject as provided below and to the Applicable Procedures. Registered Notes in definitive form may also be transferred as provided below.

In the case of Registered Notes in definitive form issued in exchange for interests in the Restricted Global Note, such Registered Notes in definitive form shall bear the legend set forth on the Restricted Global Note (the “Legend”). Upon the transfer, exchange or replacement of Registered Notes bearing the Legend, or upon specific request for removal of the Legend, the Issuer shall deliver only Registered Notes that bear such Legend or shall refuse to remove such Legend, as the case may be, unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel, that neither the Legend nor the restrictions on transfer set forth therein are required to ensure compliance with the provisions of the Securities Act.

Interests in the Reg. S Global Note and the Restricted Global Note will be exchangeable for Registered Notes in definitive form if (i) Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, notifies the Issuer that it is unwilling or unable to continue as depositary for such registered global Note or (ii) if applicable, DTC ceases to be a “Clearing Agency” registered under the Securities Exchange Act 1934 or either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces its intention permanently to cease business, and a successor depositary or alternative clearing system satisfactory to the Issuer and the Agent is not available, or (iii) an Event of Default (as defined in Condition 8 of the General Conditions) has occurred and is continuing with respect to such Notes, or (iv) a written request for one or more Registered Notes in definitive form is made by a holder of a beneficial interest in a registered global Note; provided that in the case of (iv) such written notice or request, as the case may be, is submitted to the Registrar by the beneficial owner not later than 60 days prior to the requested date of such exchange and the Applicable Procedures are followed. Upon the occurrence of any of the events described in the preceding sentence, the Issuer will cause the appropriate Registered Notes in definitive form to be delivered.

If a holder of a beneficial interest in the Reg. S Global Note deposited with the custodian in the United States wishes at any time to exchange its interest in such Reg. S Global Note for an interest in the Restricted Global Note, or to transfer its interest in such Reg. S Global Note to a person who wishes to take delivery thereof in the form of a Registered Note in definitive form, such holder may, subject to the rules and procedures of the Registrar in the United States, exchange or cause the exchange, or transfer or cause the transfer of such interest for an equivalent beneficial interest in the Restricted Global Note upon compliance with the transfer requirements of the Registrar in the United States and certification to the effect that (i) the exchange or transfer of such interest has been made in compliance with the transfer restrictions applicable to the Registered Notes under U.S. law and pursuant to and in accordance with Regulation S, where applicable, or (ii) such exchange or transfer has been made to a person which the transferor reasonably believes to be a QIB and is obtaining such beneficial interest in a transaction meeting the requirements of Rule 144A, in the case of the exchange of an interest in the Reg. S Global Note for an interest in the Restricted Global Note.

Transfers between participants in DTC will be effected in the ordinary way in accordance with the Applicable Procedures and will be settled in same-day funds. Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in the ordinary way in accordance with the Applicable Procedures.

Transfers by the owner of a beneficial interest in the Restricted Global Note to a transferee who takes delivery of such interest through the Reg. S Global Note will be made only upon receipt by the Registrar of a written certification from the transferor to the effect that such transfer is being made in accordance with Regulation S or, if available, that the interest in the Note being transferred is not a “restricted security” within the meaning of Rule 144 under the Securities Act. Investors holding a beneficial interest in a Restricted Global Note who propose any such transfer must notify the Registrar and, subject to compliance with the provisions of the Agency Agreement, the Registrar shall cause the transferor interest in the Restricted Global Note to be reduced in an amount equal to the aggregate nominal amount of Notes being transferred and shall take such other action as appropriate to register the transfer of the Notes to or for the account of the purchaser. The Issuer shall not permit any such transfers unless there is delivered to the Issuer such satisfactory evidence as may reasonably be required by the Issuer, which may include an opinion of U.S. counsel that such transfer is in compliance with the Securities Act; provided however, that the restriction in this sentence shall not apply to any transfers of an interest in a Note pursuant to Regulation S or of an interest in a Note which does not constitute a restricted security, within the meaning of Rule 144 under the Securities Act.

Upon the terms and subject to the conditions set forth in the Agency Agreement, a Registered Note in definitive form may be transferred in whole or in part (in the nominal amounts set out in the applicable Final Terms) by the holder or holders surrendering the Registered Note for registration of the transfer of the

Registered Note (or the relevant part of the Registered Note) at the specified office of the Registrar or any Transfer Agent (who will, as soon as practicable, forward such surrendered Registered Note to the Registrar and will give to the Registrar all relevant details to enable it to process the transfer), with the form of transfer thereon duly executed by, or accompanied by a written instrument of transfer in form satisfactory to the Issuer and the Registrar duly executed by, the holder or holders thereof or its or their attorney or attorneys duly authorised in writing and upon the Registrar, after due and careful enquiry, being satisfied with the documents of title and the identity of the person making the request and subject to such reasonable regulations as the Issuer and the Registrar may prescribe, including any restrictions imposed by the Issuer on transfers of Registered Notes originally sold to a U.S. person. In addition, if the Registered Note in definitive form being exchanged or transferred contains a Legend, additional certificates, to the effect that such exchange or transfer is in compliance with the restrictions contained in such Legend, may be required. Subject as provided above, the Registrar will, within three business days of receipt by it (being for this purpose a day on which banks are open for business in the city where the specified office of the Registrar is located) of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver at its specified office to the transferee or (at the risk of the transferee) send by mail to such address as the transferee may request a new Registered Note in definitive form of a like aggregate nominal amount to the Registered Note (or the relevant part of the Registered Note) transferred. In the case of the transfer of part only of a Registered Note in definitive form, a new Registered Note in definitive form in respect of the balance of the Registered Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

Exchanges or transfers by a holder of a Registered Note in definitive form to a transferee who takes delivery of such Note through a Registered Global Note will be made no later than 60 days after the receipt by the Registrar of the Registered Note in definitive form to be so exchanged or transferred and only in accordance with the Applicable Procedures, and, if applicable, upon receipt by the Registrar of a written certification from the transferor.

In the event of a partial redemption of Notes under Condition 5(c) of the General Conditions the Issuer shall not be required:

- (a) to register the transfer of Registered Notes (or parts of Registered Notes) during the period beginning on the sixty-fifth day before the date of the partial redemption and ending on the day on which notice is given specifying the serial numbers of Notes called (in whole or in part) for redemption (both inclusive); or
- (b) to register the transfer of any Registered Note, or part of a Registered Note, called for partial redemption.

The costs and expenses of effecting any exchange or registration of transfer pursuant to the foregoing provisions (except for the expenses of delivery by other than regular mail (if any) and, if the Issuer shall so require, for the payment of a sum sufficient to cover any tax or other governmental charge or insurance charges that may be imposed in relation thereto which will be borne by the Noteholder) will be borne by the Issuer.

If any Note (including a global Note) or Coupon is mutilated, defaced, stolen, destroyed or lost it may be replaced at the specified office of the Paying Agent in Luxembourg, in the case of Bearer Notes, Receipts or Coupons, or the Registrar in New York City, in the case of Registered Notes, on payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

10 Agent and Paying Agents, Transfer Agents and Registrar

The names of the initial Agent and the other initial Paying Agents, the initial Registrar and the initial Transfer Agents and their initial specified offices are set out below.

The Issuer and the Guarantor are entitled to vary or terminate the appointment of the Agent, the Registrar, any Paying Agent or any Transfer Agent and/or appoint additional or other Paying Agents or Transfer Agents and/or approve any change in the specified office through which the Agent, the Registrar, any Paying Agent or any Transfer Agent acts, provided that:

- (i) so long as the Notes are admitted to trading or listed on any stock exchange or admitted to trading or listed by any other relevant authority, there will at all times be a Paying Agent and a Transfer Agent with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange;
- (ii) there will at all times be a Paying Agent with a specified office in a city in continental Europe;
- (iii) there will at all times be an Agent;
- (iv) there will at all times be a Paying Agent with a specified office situated outside The Netherlands;
- (v) there will at all times be a Paying Agent with a specified office in a European Union member state that will not be obliged to withhold or deduct tax pursuant to any law implementing European Council Directive 2003/48/EC or any other European Union Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000;
- (vi) there will at all times be a Transfer Agent having a specified office in a place approved by the Agent;
- (vii) so long as any of the Registered Global Notes are held through DTC or its nominee, there will at all times be a Transfer Agent with a specified office in New York City; and
- (viii) there will at all times be a Registrar with a specified office in New York City and in such place as may be required by the rules and regulations of any relevant stock exchange.

In addition, the Issuer and the Guarantor shall forthwith appoint a Paying Agent having a specified office in New York City in the circumstances described in the penultimate paragraph of Condition 4(b) of the General Conditions. Any variation, termination, appointment or change shall only take effect (other than in the case of insolvency, when it shall be of immediate effect) after not less than 30 or more than 45 days' prior notice thereof shall have been given to the Noteholders in accordance with Condition 12 of the General Conditions.

11 Exchange of Talons

On and after the Interest Payment Date on which the final Coupon comprised in any Coupon sheet matures, the Talon (if any) forming part of such Coupon sheet may be surrendered at the specified office of the Agent or any other Paying Agent in exchange for a further Coupon sheet including (if such further Coupon sheet does not include Coupons to (and including) the final date for the payment of interest due in respect of the Note to which it appertains) a further Talon, subject to the provisions of Condition 7 of the General Conditions. Each Talon shall, for the purposes of these General Conditions, be deemed to mature on the Interest Payment Date on which the final Coupon comprised in the relative Coupon sheet matures.

12 Notices

All notices regarding the Bearer Notes shall be published (i) in at least one daily newspaper of wide circulation in The Netherlands, (ii) in a leading English language daily newspaper of general circulation in London and (iii) if and for so long as the Bearer Notes are admitted to trading on the market of the Luxembourg Stock Exchange appearing on the list of regulated markets issued by the European Commission and the rules of such exchange so require, in a daily newspaper of general circulation in Luxembourg or on the website of the Luxembourg Stock Exchange (www.bourse.lu). It is expected that such publication will be made in *Het Financieele Dagblad* in The Netherlands, in the *Financial Times* in London and either in *Luxemburger Wort* in Luxembourg or on the website of the Luxembourg Stock Exchange (www.bourse.lu). Any such notice will be deemed to have been given on the date of the first publication in all the newspapers and/or on the website in which such publication is required to be made.

All notices to holders of Registered Notes will be valid if mailed to their registered addresses appearing on the register and published, for so long as the Notes are admitted to trading on the market of the Luxembourg Stock Exchange appearing on the list of regulated markets issued by the European Commission and the rules of such exchange so require, either in *Luxemburger Wort* in Luxembourg or on www.bourse.lu. Any such notice shall be deemed to have been given on the fourth day after the day on which it is mailed.

Until such time as any definitive Notes are issued, there may, so long as the global Note(s) is or are held in its or their entirety on behalf of Euroclear, Clearstream, Luxembourg, Euroclear Netherlands and/or DTC, be substituted for such publication in any newspaper or website the delivery of the relevant notice to Euroclear, Clearstream, Luxembourg, Euroclear Netherlands and/or DTC (as the case may be) for communication by them to the holders of the Notes and, in addition, for so long as any Notes are listed or admitted to trading on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or such other relevant authority). Any such notice delivered on or prior to 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on such business day. A notice delivered after 4.00 p.m. (local time) on a business day in the city in which it is delivered will be deemed to have been given to the holders of the Notes on the next following business day in such city.

Notices to be given by any holder of the Notes shall be in writing and given by lodging the same, together with the relative Note or Notes, with the Agent. Whilst any of the Notes are represented by a global Note, such notice may be given by any holder of a Note to the Agent and/or Registrar via Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, in such manner as the Agent and/or Registrar and Euroclear and/or Clearstream, Luxembourg or DTC, as the case may be, may approve for this purpose.

13 Meetings of Noteholders, Modification and Waiver

The Agency Agreement contains provisions for convening meetings of the Noteholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Notes, the Receipts, the Coupons or certain provisions of the Agency Agreement. Such a meeting may be convened by the Issuer, the Guarantor or Noteholders holding not less than five per cent. in nominal amount of the Notes for the time being remaining outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons holding or representing not less than 50 per cent. in nominal amount of the Notes for the time being outstanding, or at any adjourned meeting one or more persons being or representing Noteholders whatever the nominal amount of the Notes so held or represented, except that at any meeting the business of which includes the modification of certain provisions of the Notes, Receipts or Coupons (including modifying the date of maturity of the Notes or any date for payment of interest thereof,

reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes, Receipts or Coupons), the necessary quorum for passing an Extraordinary Resolution will be one or more persons holding or representing not less than 75 per cent., or at any adjourned such meeting not less than a clear majority, in nominal amount of the Notes for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all the Noteholders, whether or not they are present at the meeting, and on all Receiptholders and Couponholders.

The Agent, the Issuer and the Guarantor may agree, without the consent of the Noteholders, Receiptholders or Couponholders, to:

- (i) any modification (except as mentioned above) of the Agency Agreement which is not materially prejudicial to the interests of the Noteholders; or
- (ii) any modification of the Notes, the Receipts, the Coupons, the Agency Agreement or the Deed of Guarantee which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law of the jurisdiction in which the Issuer or the Guarantor (as the case may be) is incorporated.

Any such modification shall be binding on the Noteholders, the Receiptholders and the Couponholders and any such modification shall be notified to the Noteholders in accordance with Condition 12 of the General Conditions as soon as practicable thereafter.

The Agency Agreement provides that a resolution in writing signed by or on behalf of the holders of not less than 90 per cent. in nominal amount of the Notes outstanding shall for all purposes be as valid and effective as an Extraordinary Resolution passed at a meeting of Noteholders duly convened and held. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

14 Further Issues

The Issuer shall be at liberty from time to time without the consent of the Noteholders, Receiptholders or Couponholders to create and issue further notes having the same terms and conditions as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

15 Substitution of the Issuer

- (a) The Issuer may, without any further consent of the Noteholders or Couponholders being required, when no payment of principal of or interest on any of the Notes is in default, be replaced and substituted by any directly or indirectly wholly owned subsidiary of the Guarantor (the “Substituted Debtor”) as principal debtor in respect of the Notes and the relative Receipts and Coupons provided that:
 - (i) such documents shall be executed by the Substituted Debtor, the Issuer and the Guarantor as may be necessary to give full effect to the substitution (together the “Documents”) and (without limiting the generality of the foregoing) pursuant to which the Substituted Debtor shall undertake in favour of each Noteholder and Couponholder to be bound by the General Conditions of the Notes and the provisions of the Agency Agreement as fully as if the Substituted Debtor had been named in the Notes and the relative Receipts and Coupons and the Agency Agreement as the principal debtor in respect of the Notes and the relative Receipts and Coupons in place of the Issuer and pursuant to which the Guarantor shall guarantee, which guarantee shall be unconditional and irrevocable, (the “Substitution Guarantee”) in favour of

each Noteholder and each holder of the relative Receipts and Coupons the payment of all sums payable in respect of the Notes and the relative Receipts and Coupons;

- (ii) the Documents shall contain a covenant by the Substituted Debtor and the Guarantor to indemnify and hold harmless each Noteholder and Couponholder against all liabilities, costs, charges and expenses (provided that insofar as the liabilities, costs, charges and expenses are taxes or duties, the same arise by reason of a law or regulation having legal effect or being in reasonable contemplation thereof on the date such substitution becomes effective) which may be incurred by or levied against such holder as a result of any substitution pursuant to this General Condition and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, such liabilities, costs, charges and expenses shall include any and all taxes or duties which are imposed on any such Noteholder or Couponholder by any political sub-division or taxing authority of any country in which such Noteholder or Couponholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);
- (iii) the Documents shall contain a warranty and representation by the Substituted Debtor, the Issuer and the Guarantor (a) that each of the Substituted Debtor, the Issuer and the Guarantor has obtained all necessary governmental and regulatory approvals and consents for such substitution and the performance of its obligations under the Documents, and that all such approvals and consents are in full force and effect and (b) that the obligations assumed by each of the Substituted Debtor, the Issuer and the Guarantor under the Documents are all valid and binding in accordance with their respective terms and enforceable by each Noteholder;
- (iv) each stock exchange which has Notes listed or admitted to trading thereon shall have confirmed that following the proposed substitution of the Substituted Debtor such Notes would continue to be listed or admitted to trading (as the case may be) on such stock exchange;
- (v) the Substituted Debtor shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from a leading firm of local lawyers acting for the Substituted Debtor to the effect that the Documents constitute legal, valid and binding obligations of the Substituted Debtor, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent;
- (vi) the Issuer and the Guarantor shall have delivered to the Agent or procured the delivery to the Agent of legal opinions from the internal legal adviser(s) to the Issuer and the Guarantor to the effect that the Documents (including the Substitution Guarantee) constitute legal, valid and binding obligations of the Issuer and the Guarantor, such opinions to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent;
- (vii) the Issuer and the Guarantor shall have delivered to the Agent or procured the delivery to the Agent of a legal opinion from a leading firm of English lawyers to the effect that the Documents (including the Substitution Guarantee) constitute legal, valid and binding obligations of the Substituted Debtor, the Issuer and the Guarantor under English law, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Debtor for the Issuer and to be available for inspection by Noteholders and Couponholders at the specified office of the Agent; and
- (viii) the Substituted Debtor (if not incorporated in England) shall have appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or

proceedings arising out of or in connection with the Notes, the relative Receipts or Coupons and the Documents.

- (b) In connection with any substitution effected pursuant to this General Condition, the Issuer, the Substituted Debtor and the Guarantor need not have any regard to the consequences of any such substitution for individual Noteholders or Couponholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Noteholder or Couponholder, except as provided in Condition 15(a)(ii) of the General Conditions, shall be entitled to claim from the Issuer, any Substituted Debtor or the Guarantor under the Notes and the relative Receipts and Coupons any indemnification or payment in respect of any tax or other consequences arising from such substitution.
- (c) Upon the execution of the Documents as referred to in paragraph (i) above, and subject to the notification as referred to in paragraph (e) below having been given, the Substituted Debtor shall be deemed to be named in the Notes and the relative Receipts and Coupons as the principal debtor in place of the Issuer and the Notes and the relative Receipts and Coupons shall thereupon be deemed to be amended to give effect to the substitution. The execution of the Documents shall operate to release the Issuer as issuer from all of its obligations as principal debtor in respect of the Notes and the relative Receipts and Coupons save that any claims under the Notes and the relative Receipts and Coupons prior to release shall enure for the benefit of Noteholders and Couponholders.
- (d) The Documents shall be deposited with and held by the Agent for so long as any Notes or Coupons remain outstanding and for so long as any claim made against the Substituted Debtor by any Noteholder or Couponholder in relation to the Notes or the relative Receipts and Coupons or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor, the Issuer and the Guarantor shall acknowledge in the Documents the right of every Noteholder and Couponholder to the production of the Documents for the enforcement of any of the Notes or the relative Receipts and Coupons or the Documents.
- (e) Not later than 15 business days after the execution of the Documents, the Substituted Debtor shall give notice thereof to the Noteholders in accordance with Condition 12 of the General Conditions.

16 Governing Law and Jurisdiction

The Notes, the Receipts, the Coupons, the Talons, and any non-contractual obligations arising out of or in connection with them, and the Deed of Guarantee are governed by, and shall be construed in accordance with, English law.

The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Notes, Receipts, Coupons or Talons and accordingly any legal action or proceedings arising out of or in connection with any Notes, Receipts, Coupons or Talons ("Proceedings") may be brought in such courts. The Issuer and the Guarantor irrevocably submit to the jurisdiction of the courts of England and waive any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. These submissions are made for the benefit of each of the holders of the Notes, Receipts, Coupons and Talons and shall not affect the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

Each of the Issuer and the Guarantor irrevocably appoints the General Manager for the time being of the Guarantor's London Branch, currently at 60 London Wall, London EC2M 5TQ as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the

Issuer or the Guarantor, as the case may be). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer and the Guarantor irrevocably agree to appoint a substitute process agent and shall immediately notify Noteholders of such appointment in accordance with Condition 12 of the General Conditions. Nothing shall affect the right to serve process in any manner permitted by law.

17 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Notes, the Receipts, the Coupons, the Talons or the Deed of Guarantee under the Contracts (Rights of Third Parties) Act 1999.

18 Determinations by the Calculation Agent, the Issuer and/or the Guarantor

For the purposes of the Notes, any determinations, calculations or other decisions made by the Calculation Agent, the Issuer and/or the Guarantor under or pursuant to the terms of the Notes shall be made in its/their sole and absolute discretion. All such determinations, calculations or other decisions of the Calculation Agent, the Issuer and/or the Guarantor shall (save in the case of manifest error) be final, conclusive and binding on all parties, and none of the Calculation Agent, the Issuer nor the Guarantor shall have any liability to any person therefore.

19 FX and Benchmark Notes

(a) FX Notes

The following provisions of this Condition 19(a) of the General Conditions shall apply to the Notes if the FX Provisions are specified to be applicable in the applicable Final Terms.

(i) FX Market Disruption Event

If the Issuer determines that an FX Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary FX Rate, the calculation of any amount which is to be determined by reference to the Primary FX Rate on such Scheduled Valuation Date or on such other date (for the purposes of this Condition 19(a) of the General Conditions, the “Relevant FX Amount”) shall be postponed until the next Business Day on which there is no FX Market Disruption Event.

If, however, an FX Market Disruption Event is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount is to be determined by reference to the Primary FX Rate, then the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant FX Amount. However, if the Fallback FX Rate is not available on such Business Day, or if no Fallback FX Rate is specified in the applicable Final Terms, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(ii) Unscheduled Holiday

If the Issuer determines that an Unscheduled Holiday has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by

reference to the Primary FX Rate, the calculation of the Relevant FX Amount shall be postponed until the next Business Day on which no Unscheduled Holiday occurs, provided that no such postponement shall occur for a period longer than 30 calendar days (or such other period as is specified in the applicable Final Terms) following such Scheduled Valuation Date or such other date.

If, however, an Unscheduled Holiday is in existence on the day that is 30 calendar days (or such other period as is specified in the applicable Final Terms) following the relevant Scheduled Valuation Date or the other relevant date on which any amount which is to be determined by reference to the Primary FX Rate, then the Primary FX Rate (if available) or the Fallback FX Rate (if the Primary FX Rate is not available and a Fallback FX Rate is specified in the applicable Final Terms) on the first calendar day following the expiry of that period shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if a Fallback FX Rate is specified in the applicable Final Terms) the Fallback FX Rate is available on such calendar day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iii) Cumulative Events

Notwithstanding anything herein to the contrary, in no event shall the period during which either (x) a calculation is postponed due to an Unscheduled Holiday or (y) a calculation is postponed due to an FX Market Disruption Event (or any combination of (x) and (y)) exceed the Maximum Period of Postponement. Accordingly, if, upon the lapse of the Maximum Period of Postponement, an Unscheduled Holiday or FX Market Disruption Event shall have occurred or be continuing, then the Primary FX Rate or (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) on the first Business Day (including any day which would have been a Business Day but for the occurrence of an Unscheduled Holiday) following the expiry of the Maximum Period of Postponement shall be used by the Calculation Agent to determine the Relevant FX Amount. However, if neither the Primary FX Rate nor (if the Primary FX Rate is not available) the Fallback FX Rate (if one is specified in the applicable Final Terms) is available on that Business Day, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(iv) Relevant FX Rate Inappropriate

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary FX Rate or Fallback FX Rate used to determine the Relevant FX Amount in accordance with Condition 19(a)(i), (ii) or (iii) of the General Conditions above is inappropriate, the Calculation Agent shall determine the Relevant FX Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

(v) Payment

The Relevant FX Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which it is determined by the Calculation Agent in accordance with Condition 19(a)(i), (ii), (iii) or (iv) of the General Conditions above. For the avoidance of doubt, no additional amounts shall be

payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 19(a) of the General Conditions.

(b) *Benchmark Notes*

- (i) The following provisions of this Condition 19(b) of the General Conditions shall apply to the Notes if the Benchmark Provisions are specified to be applicable in the applicable Final Terms.

If the Issuer determines that a Benchmark Market Disruption Event has occurred or is continuing on a Scheduled Valuation Date or on any other date on which any amount is to be determined by reference to the Primary Benchmark, then:

(x) if the Relevant Benchmark Amount Postponement Provisions are specified to be applicable in the Final Terms, the calculation of any amount which is to be determined by reference to the Primary Benchmark on such Scheduled Valuation Date (for the purposes of this Condition 19(b) of the General Conditions, the “Relevant Benchmark Amount”) shall be postponed to the next Business Day on which there is no Benchmark Market Disruption Event, unless on each of the eight Business Days following such Scheduled Valuation Date or such other date (or such other period as may be specified in the applicable Final Terms) a Benchmark Market Disruption Event occurs. In that case, the Fallback Benchmark (if one is specified in the applicable Final Terms) on the first Business Day following the expiry of that period shall be used to determine the Relevant Benchmark Amount. However, if the Fallback Benchmark is not available on such Business Day, or if no Fallback Benchmark is specified in the applicable Final Terms, the Relevant Benchmark Amount shall be determined by the Calculation Agent as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice; and

(y) if the Relevant Benchmark Amount Postponement Provisions are not specified to be applicable in the Final Terms, the Relevant Benchmark Amount shall be determined as soon as reasonably possible by the Calculation Agent in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

- (ii) *Relevant Benchmark Inappropriate*

If, in the determination of the Calculation Agent (acting in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice), the Primary Benchmark or Fallback Benchmark used to determine the Relevant Benchmark Amount in accordance with Condition 19(b)(i) of the General Conditions above is inappropriate, the Calculation Agent shall determine the Relevant Benchmark Amount as soon as reasonably possible in its sole discretion in good faith and in a commercially reasonable manner, having regard to any relevant market practice.

- (iii) *Payment*

The Relevant Benchmark Amount will be payable two Business Days (or such other number of Business Days as is specified in the applicable Final Terms) following the day on which such amount is determined. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment in accordance with this Condition 19(b) of the General Conditions.

(c) *FX Convertibility Event and FX Transferability Event*

The following provisions of this Condition 19(c) of the General Conditions shall apply to the Notes if the FX Convertibility Event Provisions and/or FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms.

- (i) If (x) the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Convertibility Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction or (y) the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms and the Issuer determines that an FX Transferability Event has occurred or is continuing on any date on which the Issuer is required to make any payment in the Relevant Currency in respect of the Notes by the transfer and/or exchange of the Relevant Currency outside or within the Relevant Jurisdiction, then in either such case the Issuer shall use reasonable endeavours to pay such amount in the Relevant Currency to the Noteholder's Relevant Currency account or, in the absence of such account or in the case of the Noteholder's failure to notify the Issuer of the details of such account in a timely manner, to any other account as the Issuer may determine (including, for the avoidance of doubt, an account which is or may be subject to limitations on conversion and/or repatriation) in which account any such amount shall be held for the benefit of the Noteholder. Payment of any such amount by the Issuer shall discharge the Issuer of its remaining obligations under the Notes in respect of such payment in the Relevant Currency. Should any account be opened by the Issuer for the Noteholder, such account will be opened on the normal terms and conditions of the relevant institution, and in the event any interest accrues on the amounts held in such account, such interest will be for the benefit of the Noteholder.

Any costs incurred by the Issuer in connection with the opening or maintenance of such account will be borne by the Noteholder, and the Issuer reserves the right to use the funds in such account to pay for such costs. The amount payable by the Issuer to the Noteholder in respect of the Notes shall be reduced by the amount of any such costs incurred by the Issuer. Such right of set-off is without prejudice to any additional right to claim such costs. In the event that the costs incurred by the Issuer in connection with the opening and/or maintenance of such account exceed the amount payable by the Issuer to the Noteholder in respect of the Notes or the amount held in such account for the Noteholder, the Issuer reserves the right to forego opening or to close such account.

- (ii) If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms), then such payment shall be postponed until the next Payment Day on which such payment can, in the sole discretion of the Issuer, reasonably be made. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this Condition 19(c) of the General Conditions.

If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following an FX Convertibility Event (if the FX Convertibility Event Provisions are specified to be applicable in the applicable Final Terms) or FX Transferability Event (if the FX Transferability Event Provisions are specified to be applicable in the applicable Final Terms) for a period of five years (or such other period as may be

specified in the applicable Final Terms) from the date on which payment was originally due to be made but for the FX Convertibility Event or the FX Transferability Event, as the case may be, then the Issuer shall be entitled to all amounts in any account opened by it pursuant to Condition 19(c)(i) of the General Conditions above, including accrued interest, if any, and no additional amounts shall be payable to the relevant Noteholder.

(d) *Tax Event*

If the Tax Event Provisions are specified to be applicable in the applicable Final Terms, all payments made under the Notes will be subject to the deductions of any taxes, fees or costs that may be incurred or arise as a result of any Tax Event in relation to the Notes and any transactions associated with them. The determination of the amount of any such taxes, fees or costs shall be made by the Issuer in its sole discretion.

3 Disrupted Days

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(l) as follows:

“(l) Disrupted Days

If the Calculation Agent determines that the Strike Date, the Expiration Date, any Averaging Date, any Automatic Early Redemption Valuation Date or any Observation Date, as the case may be, in respect of the Shares is a Disrupted Day, then the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the determination by the Calculation Agent of the occurrence of a Disrupted Day, would have been the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, is a Disrupted Day. In that case:

- (a) that eighth Scheduled Trading Day shall be deemed to be the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, in respect of the Shares, notwithstanding the fact that such day is a Disrupted Day;
- (b) the Calculation Agent shall determine the price of one Share as its good faith estimate of the price of one Share that would have prevailed, but for the occurrence of a Disrupted Day, at the Valuation Time on that eighth Scheduled Trading Day; and/or
- (c) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Automatic Early Redemption Amount, the Initial Share Price, the Final Share Price, the Strike Price and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

Notwithstanding the provisions of any other Condition, if the Calculation Agent determines that a Disrupted Day has occurred on the Expiration Date and/or on any Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, payment of the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable) and/or any amount of interest (if the payment of interest is share-linked), as the case may be, shall be postponed to the later of (i) the Maturity Date, the Automatic Early Redemption Date and/or the relevant Interest Payment Date and (ii) the date that is three Business Days (or such other period as specified in the Final Terms) following the postponed Expiration Date, Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, as the case may be. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment of the Final Redemption Amount, the Automatic Early Redemption Amount and/or any amount of interest in accordance with this Condition 5(l) of the General Conditions.

The Issuer shall give notice to the holders of the Notes, in accordance with Condition 12 of the General Conditions, of the occurrence of a Disrupted Day if it results in the postponement of any payment in respect of the Notes and/or any adjustment to any term of the Notes pursuant to this Condition 6(n).”

4 Adjustments

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(m) as follows:

“(m) Adjustments, Consequences of Certain Events and Currency

(i) Adjustments

If the Calculation Agent determines that a Potential Adjustment Event has occurred or that there has been an adjustment to the settlement terms of listed contracts on the Shares traded on a Related Exchange, the Calculation Agent will determine whether such Potential Adjustment Event or adjustment has a diluting or concentrative effect on the theoretical value of the Shares and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount and/or the Strike Price and/or any of the terms and conditions of the Notes (including the amount of interest payable, if any) as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividend, stock loan rate or liquidity) and (b) determine the effective date(s) of the adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on the Shares traded on that options exchange.

(ii) Consequences of a Merger Event

If the Calculation Agent determines that a Merger Event has occurred, the Issuer may:

- (a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Merger Date less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 12 of the General Conditions; and/or
- (b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Merger Event (provided that no adjustments will be made to solely account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event by an options exchange to options on the Shares traded on such options exchange and determine the effective date of that adjustment; and/or
- (c) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable), and their issuer (if any) to be the “Shares” and the “Share Issuer”, respectively, and if the Calculation Agent determines to be appropriate, the Issuer will adjust any relevant terms of the Notes as it may determine.

The Issuer shall give notice of such redemption, adjustment or deemed change to Noteholders in accordance with Condition 12 of the General Conditions.

(iii) Consequences of a Tender Offer

If the Calculation Agent determines that a Tender Offer has occurred, then on or after the relevant Tender Offer Date the Issuer may:

- (a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Tender Offer Date less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 12 of the General Conditions; and/or
- (b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Shares or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the Shares traded on such options exchange and determine the effective date of that adjustment.

The Issuer shall give notice of such redemption or adjustment to Noteholders in accordance with Condition 12 of the General Conditions.

(iv) Nationalisation, Insolvency or De-listing

If in respect of the Shares or the Share Issuer the Calculation Agent determines that there has been a Nationalisation, an Insolvency or a De-listing, the Issuer may (i) request the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Final Redemption Amount and/or the Strike Price and/or any of the other terms and conditions of the Notes (including the amount of interest payable, if any) to account for the Nationalisation, Insolvency or Delisting, as the case may be, and determine the effective date of that adjustment or (ii) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Nationalisation, Insolvency or De-listing less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement. Notice of any redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(v) Change of Exchange

If the Exchange is changed, the Issuer may make such consequential modifications to the Strike Price, Final Redemption Amount, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(vi) Price Correction

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange within three Business Days (or such other period specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(vii) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency or the currency in which any of the Shares are quoted, listed and/or dealt in on the Exchange (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, Strike Price (if applicable) and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, Strike Price (if applicable) and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.

(viii) Additional Disruption Events

If the Calculation Agent determines that an Additional Disruption Event has occurred, the Issuer may (i) make any adjustment or adjustments to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate (including, without limitation, to the Final Redemption Amount, Automatic Early Redemption Amount, the Initial Share Price, the Final Share Price, the Strike Price and the amount of interest payable, if any) and/or (ii) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Additional Disruption Event less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement. Notice of any determination made pursuant to this paragraph and of any adjustment and/or redemption of the Notes shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(ix) Change in currency

If, at any time after the Issue Date, there is any change in the currency in which the Shares are quoted, listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Notes as the Calculation Agent determines appropriate to preserve the economic terms of the Notes. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Notes.”

5 Delivery of Share Amount

For the purposes of the Notes, if “Share Delivery” is specified as being applicable in the Final Terms, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(n) as follows:

“(n) *Delivery of Share Amounts:*

(i) Delivery of Share Amounts

If the Notes are to be redeemed by the delivery of the Share Amounts, the Issuer shall, on the Share Delivery Date, deliver or procure the delivery of the Share Amount in respect of each Note to such account in such clearing system as may be specified by the relevant Noteholder, at the risk and expense of the relevant Noteholder. If a Noteholder does not provide the Issuer

with sufficient instructions in a timely manner to enable the Issuer to effect any required delivery of Shares, the due date for such delivery shall be postponed accordingly. The Issuer shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used herein, “delivery” in relation to any Share Amount means the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Share Amount and “deliver” shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of such Share Amount once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for the lawfulness of the acquisition of the Shares comprising the Share Amount or any interest therein by any Noteholder or any other person.

In respect of each Share comprising the Share Amount, the Issuer shall not be under any obligation to register or procure the registration of the Noteholder or any other person as the registered shareholder in any register of members of the Share Issuer.

Noteholders should note that the actual date on which they become holders of the Shares comprising their Share Amount will depend, among other factors, on the procedures of the relevant clearing systems and any share registrar and the effect of any Settlement Disruption Events.

The Issuer shall not at any time be obliged to account to a Noteholder for any amount or entitlement that it receives by way of a dividend or other distribution in respect of any of the Shares. Dividends and distributions in respect of the Shares which constitute a Potential Adjustment Event may however result in an adjustment being made pursuant to Condition 5(m) of General Conditions.

Neither the Issuer nor any other person shall (a) be under any obligation to deliver (or procure any other person to deliver) to the Noteholders or any other person any letter, certificate, notice, circular or any other document received by that person in its capacity as the holder of the Shares, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to the Shares or (c) be under any liability to the Noteholders or any subsequent beneficial owners of the Shares in respect of any loss or damage which any Noteholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being registered at any time as the legal owner of the Shares.

(ii) Settlement Disruption

If the Issuer determines that delivery of any Share Amount in respect of any Note by the Issuer in accordance with the terms and conditions of the Notes is not practicable or permitted by reason of a Settlement Disruption Event subsisting, then the Share Delivery Date in respect of such Share Amount shall be postponed to the first following Delivery Day in respect of which no such Settlement Disruption Event is subsisting and notice thereof shall be given in accordance with Condition 12 of the General Conditions, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering or procuring the delivery of such Share Amount using such other commercially reasonable manner as it may select and in such event the Share Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of such Share Amount in such other commercially reasonable manner. No Noteholder shall be entitled to any payment whether of interest or

otherwise on such Note in the event of any delay in the delivery of the Share Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Shares comprising the Share Amount, the Share Delivery Date for the Shares comprising such Share Amount which are not affected by the Settlement Disruption Event will be the originally designated Share Delivery Date.

For so long as delivery of the Share Amount in respect of any Note is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 12 of the General Conditions. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Noteholders in accordance with Condition 12 General Conditions.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 12 of the General Conditions if a Settlement Disruption Event has occurred.

(iii) **Aggregate Share Amount**

The aggregate Share Amount to which a Noteholder may be entitled will be determined on the basis of the separate (for the avoidance of doubt, not aggregate) number of Notes held by the relevant Noteholder. The Issuer shall not be obliged to deliver fractions of a Share but shall be obliged to account for the Fractional Cash Amount of any such fractions to the relevant Noteholder on the Share Delivery Date and each such Share Amount to be delivered shall be rounded down to the next integral number of Shares.”

6 Automatic Early Redemption

For the purposes of the Notes, if “Automatic Early Redemption” is specified as being applicable in the Final Terms, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(o) as follows:

“(o) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date or during any Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or (in the case of the occurrence of an Automatic Early Redemption Event during an Observation Period) on the date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount.”

7 Prescription

For the avoidance of doubt, Condition 7 of the General Conditions shall apply to the Notes and claims for delivery of any Share Amount in respect of the Notes shall become void upon the expiry of five years from the Share Delivery Date.

3 Disrupted Days

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(l) as follows:

“(l) Disrupted Days

If the Calculation Agent determines that the Strike Date, the Expiration Date, any Averaging Date, any Automatic Early Redemption Valuation Date or any Observation Date, as the case may be, is a Disrupted Day in respect of a Share, then the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, in respect of that Share shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day in respect of that Share, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the determination by the Calculation Agent of the occurrence of a Disrupted Day, would have been the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date for such Share, as the case may be, is a Disrupted Day. In that case:

- (a) that eighth Scheduled Trading Day shall be deemed to be the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, for such Share notwithstanding the fact that such day is a Disrupted Day;
- (b) the Calculation Agent shall determine the price of one such Share as its good faith estimate of the price of one such Share that would have prevailed, but for the occurrence of a Disrupted Day, at the Valuation Time on that eighth Scheduled Trading Day ; and/or
- (c) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Automatic Early Redemption Amount, the Initial Share Price, the Final Share Price, the Strike Price and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

Notwithstanding the provisions of any other Condition, if the Calculation Agent determines that a Disrupted Day has occurred on the Expiration Date and/or on any Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, payment of the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable) and/or any amount of interest (if the payment of interest is share-linked), as the case may be, shall be postponed to the later of (i) the Maturity Date, the Automatic Early Redemption Date and/or the relevant Interest Payment Date and (ii) the date that is three

Business Days (or such other period as specified in the Final Terms) following the postponed Expiration Date, Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, as the case may be. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment of the Final Redemption Amount, the Automatic Early Redemption Amount and/or any amount of interest in accordance with this Condition 5(l) of the General Conditions.

The Issuer shall give notice to the holders of the Notes, in accordance with Condition 12 of the General Conditions, of the occurrence of a Disrupted Day if it results in the postponement of any payment in respect of the Notes and/or any adjustment to any term of the Notes pursuant to this Condition 6(n)."

4 Adjustments

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(m) as follows:

“(m) Adjustments, Consequences of Certain Events and Currency

(i) Adjustments

If the Calculation Agent determines that a Potential Adjustment Event has occurred in respect of one or more of the Shares in the Basket or that there has been an adjustment to the settlement terms of listed contracts on one or more of the Shares in the Basket traded on a Related Exchange, the Calculation Agent will determine whether such Potential Adjustment Event or adjustment has a diluting or concentrative effect on the theoretical value of the relevant Shares and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount and/or the Strike Price and/or any of the terms and conditions of the Notes (including the amount of interest payable, if any) as the Calculation Agent determines appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividend, stock loan rate or liquidity) and (b) determine the effective date(s) of the adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on the relevant Shares traded on that options exchange.

(ii) Consequences of a Merger Event

If the Calculation Agent determines that a Merger Event has occurred in respect of one or more of the Shares in the Basket, the Issuer may:

- (a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Merger Date less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 12 of the General Conditions; and/or
- (b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Merger Event (provided that no adjustments will be made to solely account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the relevant Shares or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event

by an options exchange to options on the relevant Shares traded on such options exchange and determine the effective date of that adjustment; and/or

- (c) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable), and their issuer (if any) to be the relevant “Shares” and the relevant “Share Issuer”, respectively, and if the Calculation Agent determines to be appropriate, the Issuer will adjust any relevant terms of the Notes as it may determine.

The Issuer shall give notice of such redemption, adjustment or deemed change to Noteholders in accordance with Condition 12 of the General Conditions.

(iii) Consequences of a Tender Offer

If the Calculation Agent determines that a Tender Offer has occurred in respect of one or more of the Shares in the Basket, then on or after the relevant Tender Offer Date the Issuer may:

- (a) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the Tender Offer Date less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement, on such date as the Issuer may notify to Noteholders in accordance with Condition 12 of the General Conditions; and/or
- (b) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate to account for the economic effect on the Notes of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Shares or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the relevant Shares traded on such options exchange and determine the effective date of that adjustment.

The Issuer shall give notice of such redemption or adjustment to Noteholders in accordance with Condition 12 of the General Conditions.

(iv) Nationalisation, Insolvency or De-listing

If in respect of one or more of the Shares in the Basket or a Share Issuer the Calculation Agent determines that there has been a Nationalisation, an Insolvency or a De-listing, the Issuer may (i) request the Calculation Agent to determine the appropriate adjustment, if any, to be made to any one or more of the Final Redemption Amount and/or the Strike Price and/or any of the other terms and conditions of the Notes (including the amount of interest payable, if any) to account for the Nationalisation, Insolvency or De-listing, as the case may be, and determine the effective date of that adjustment or (ii) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Nationalisation, Insolvency or De-listing less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any Hedging Arrangement. Notice of any redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(v) Change of Exchange

If an Exchange is changed, the Issuer may make such consequential modifications to the Strike Price, Final Redemption Amount, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(vi) Price Correction

In the event that any price or level published on an Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the relevant Exchange within three Business Days (or such other period as may be specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(vii) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency or the currency in which any of the Shares are quoted, listed and/or dealt in on the Exchange (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, Strike Price (if applicable) and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, Strike Price (if applicable) and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.

(viii) Additional Disruption Events

If the Calculation Agent determines that an Additional Disruption Event has occurred in respect of one or more of the Shares in the Basket, the Issuer may (i) make any adjustment or adjustments to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent determines appropriate (including, without limitation, to the Final Redemption Amount, Automatic Early Redemption Amount, the Initial Share Price, the Final Share Price, the Strike Price and the amount of interest payable, if any) and/or (ii) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Additional Disruption Event less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such Hedging Arrangement. Notice of any determination made pursuant to this paragraph and of any adjustment and/or redemption of the Notes shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(ix) Change in currencies

If, at any time after the Issue Date, there is any change in the currency in which the Shares are quoted, listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Notes as the Calculation Agent determines appropriate to preserve the economic terms of the Notes. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot

rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Notes.

5 Delivery of Share Amount

For the purposes of the Notes, if “Share Delivery” is specified as being applicable in the Final Terms, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(n) as follows:

“(n) Delivery of Share Amounts:

(i) Delivery of Share Amounts

If the Notes are to be redeemed by the delivery of the Share Amounts, the Issuer shall, on the Share Delivery Date, deliver or procure the delivery of the Share Amount in respect of each Note to such account in such clearing system as may be specified by the relevant Noteholder, at the risk and expense of the relevant Noteholder. If a Noteholder does not provide the Issuer with sufficient instructions in a timely manner to enable the Issuer to effect any required delivery of Shares, the due date for such delivery shall be postponed accordingly. The Issuer shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used herein, “delivery” in relation to any Share Amount means the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Share Amount and “deliver” shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of such Share Amount once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for the lawfulness of the acquisition of the Shares comprising the Share Amount or any interest therein by any Noteholder or any other person.

In respect of each Share comprising the Share Amount, the Issuer shall not be under any obligation to register or procure the registration of the Noteholder or any other person as the registered shareholder in any register of members of the relevant Share Issuer.

Noteholders should note that the actual date on which they become holders of the Shares comprising their Share Amount will depend, among other factors, on the procedures of the relevant clearing systems and any share registrar and the effect of any Settlement Disruption Events.

The Issuer shall not at any time be obliged to account to a Noteholder for any amount or entitlement that it receives by way of a dividend or other distribution in respect of any of the Shares. Dividends and distributions in respect of the Shares which constitute a Potential Adjustment Event may however result in an adjustment being made pursuant to Condition 5(m) of the General Conditions.

Neither the Issuer nor any other person shall (a) be under any obligation to deliver (or procure any other person to deliver) to the Noteholders or any other person any letter, certificate, notice, circular or any other document received by that person in its capacity as the holder of the Shares, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to the Shares or (c) be under any liability to the Noteholders or any subsequent beneficial owners of the Shares in respect of any loss or damage which any Noteholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being registered at any time as the legal owner of the Shares.

(ii) Settlement Disruption

If the Issuer determines that delivery of any Share Amount (or part thereof) in respect of any Note by the Issuer in accordance with the terms and conditions of the Notes is not practicable or permitted by reason of a Settlement Disruption Event subsisting, then the Share Delivery Date in respect of such Share Amount (or part thereof) shall be postponed to the first following Delivery Day in respect of which no such Settlement Disruption Event is subsisting and notice thereof shall be given in accordance with Condition 12 of the General Conditions, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by delivering or procuring the delivery of such Share Amount (or part thereof) using such other commercially reasonable manner as it may select and in such event the Share Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of such Share Amount (or part thereof) in such other commercially reasonable manner. No Noteholder shall be entitled to any payment whether of interest or otherwise on such Note in the event of any delay in the delivery of the Share Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Shares comprising the Share Amount, the Share Delivery Date for the Shares comprising such Share Amount which are not affected by the Settlement Disruption Event will be the originally designated Share Delivery Date.

For so long as delivery of the Share Amount (or part thereof) in respect of any Note is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 12 of the General Conditions. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Noteholders in accordance with Condition 12 of the General Conditions.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 12 of the General Conditions if a Settlement Disruption Event has occurred.

(iii) Aggregate Share Amount

The aggregate Share Amount to which a Noteholder may be entitled will be determined on the basis of the separate (for the avoidance of doubt, not aggregate) number of Notes held by the relevant Noteholder. The Issuer shall not be obliged to deliver fractions of a Share but shall be obliged to account for the Fractional Cash Amount of any such fractions to the relevant Noteholder on the Share Delivery Date and each such Share Amount to be delivered shall be rounded down to the next integral number of Shares.”

6 Automatic Early Redemption

For the purposes of the Notes, if “Automatic Early Redemption” is specified as being applicable in the Final Terms, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(o) as follows:

“(o) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date or during any Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or (in the case of the occurrence of an Automatic Early Redemption Event during an Observation Period) on the date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount.”

7 Prescription

For the avoidance of doubt, Condition 7 of the General Conditions shall apply to the Notes and claims for delivery of any Share Amount in respect of the Notes shall become void upon the expiry of five years from the Share Delivery Date.

For the purpose of determining whether a Market Disruption Event exists at any time in respect of a security included in the Index at any time, then the relevant percentage contribution of that security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that security and (y) the overall level of the Index, in each case immediately before the occurrence of such Market Disruption Event, as determined by the Calculation Agent.

3 Disrupted Days

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(l) as follows:

“(l) Disrupted Days

If the Calculation Agent determines that the Strike Date, the Expiration Date, any Averaging Date, any Automatic Early Redemption Valuation Date or any Observation Date, as the case may be, in respect of the Index is a Disrupted Day, then the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the determination by the Calculation Agent of the occurrence of a Disrupted Day, would have been the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, is a Disrupted Day. In that case:

- (a) that eighth Scheduled Trading Day shall be deemed to be the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, in respect of the Index, notwithstanding the fact that such day is a Disrupted Day; and
- (b) the Calculation Agent shall determine the level of the Index on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange-traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of a relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day); and/or
- (c) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Automatic Early Redemption Amount, any Index Level, the Strike Price and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

Notwithstanding the provisions of any other Condition, if the Calculation Agent determines that a Disrupted Day has occurred on the Expiration Date and/or any Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, payment of the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable) and/or any amount of interest (if the payment of interest is index-linked), as the case may be, shall be postponed to the later of (i) the Maturity Date, the Automatic Early Redemption Date and/or the relevant Interest Payment Date and (ii) the date that is three Business Days (or such other period specified in the Final Terms) following the postponed Expiration Date, Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, as the case may be. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment of the Final Redemption Amount, the Automatic Early Redemption Amount and/or any amount of interest in accordance with this Condition 5(l) of the General Conditions.

The Issuer shall give notice to the holders of the Notes, in accordance with Condition 12 of the General Conditions, of the occurrence of a Disrupted Day if it results in the postponement of any payment in respect of the Notes and/or any adjustment to any term of the Notes pursuant to this Condition 6(n)."

4 Adjustments, Consequences of Certain Events and Currency

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(m) as follows:

“(m) Adjustments, Early Redemption and Currency

(i) Adjustments and Early Redemption

If the Calculation Agent determines that an Additional Disruption Event, Index Modification, Index Cancellation or Index Disruption has occurred or any other event or events occur which the Calculation Agent determines necessitate(s) an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable), the Strike Price, any Index Level and/or any other relevant term of the Notes (including the amount of interest payable, if any) (each such other event, a **“Relevant Event”**), the Issuer, at its discretion, may

(a) make any adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable), the Strike Price, any Index Level and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

(b) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the occurrence of such Additional Disruption Event, Index Modification, Index Cancellation, Index Disruption or Relevant Event, as applicable, less, unless specified otherwise in the Final Terms, the cost to the Issuer (or any of its affiliates) of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer (or any of its affiliates) in respect of any such Hedging Arrangement.

Notice of any determination pursuant to this Condition 6(o)(i), any such adjustment and/or redemption of the Notes hereunder shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(ii) Change of Exchange

If the or an Exchange is changed, the Issuer may make such consequential modifications to any of the Strike Price, Final Redemption Amount, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(iii) Price Correction

In the event that any price or level published on the relevant Exchange(s) or by the Index Sponsor and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the relevant Exchange(s) or Index Sponsor(s) within three Business Days (or such other period specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(iv) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency (whether relating to its convertibility into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, Strike Price and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, Strike Price and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.”

5 Automatic Early Redemption

For the purposes of the Notes, if “Automatic Early Redemption” is specified as being applicable in the Final Terms, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(n) as follows:

“(n) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date or during any Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or (in the case of the occurrence of an Automatic Early Redemption Event during an Observation Period) on the date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount.”

6 Index Disclaimer

The Notes are not sponsored, endorsed, sold or promoted by the Index or the Index Sponsor and the Index Sponsor has made no representation whatsoever, whether express or implied, either as to the results to be obtained from the use of the Index and/or the levels at which the Index stands at any particular time on any

3 Disrupted Days

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(l) as follows:

“(l) *Disrupted Days*

If the Calculation Agent determines that the Strike Date, the Expiration Date, any Averaging Date, any Automatic Early Redemption Valuation Date or any Observation Date, as the case may be, is a Disrupted Day in respect of an Index, then the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, for such Index shall be the first succeeding Scheduled Trading Day in respect of such Index that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the determination by the Calculation Agent of the occurrence of a Disrupted Day, would have been the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, is a Disrupted Day for such Index. In that case:

- (a) that eighth Scheduled Trading Day shall be deemed to be the Strike Date, the Expiration Date, such Averaging Date, such Automatic Early Redemption Valuation Date or such Observation Date, as the case may be, for such Index, notwithstanding the fact that such day is a Disrupted Day; and

- (b) the Calculation Agent shall determine the level of the Index of such Index on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating such Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the relevant Index (or, if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred in respect of a relevant security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant security as of the Valuation Time on that eighth Scheduled Trading Day) [; and/or
- (c) the Issuer may make any adjustment or adjustments to the Final Redemption Amount, Automatic Early Redemption Amount, any Index Level, the Strike Price and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary.

Notwithstanding the provisions of any other Condition, if the Calculation Agent determines that a Disrupted Day has occurred in respect of an Index on the Expiration Date and/or any Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, payment of the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable) and/or amount of interest (if the payment of interest is index-linked), as the case may be, shall be postponed to the later of (i) the Maturity Date, the Automatic Early Redemption Date and/or the relevant Interest Payment Date and (ii) the date that is three Business Days (or such other period specified in the Final Terms) following the postponed Expiration Date, Observation Date, Automatic Early Redemption Valuation Date or Averaging Date, as the case may be, in respect of the Indices. For the avoidance of doubt, no additional amounts shall be payable in respect of the postponement of any payment of the Final Redemption Amount, the Automatic Early Redemption Amount and/or any amount of interest in accordance with this Condition 5(l) of the General Conditions.

The Issuer shall give notice to the holders of the Notes, in accordance with Condition 12 of the General Conditions, of the occurrence of a Disrupted Day if it results in the postponement of any payment in respect of the Notes and/or any adjustment to any term of, the Notes pursuant to this Condition 6(n)."

4 Adjustments, Consequences of Certain Events and Currency

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(m) as follows:

“(m) Adjustments, Early Redemption and Currency

- (i) Adjustments and Early Redemption

If the Calculation Agent determines that, in respect of any Index, an Additional Disruption Event, an Index Modification, Index Cancellation or Index Disruption has occurred or any other event or events occur which the Calculation Agent determines necessitate(s) an adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable), the Strike Price, any Index Level and/or any other relevant term of the Notes (including the amount of interest payable, if any) (each such other event, a **“Relevant Event”**), the Issuer, at its discretion, may

- (a) make any adjustment or adjustments to the Final Redemption Amount, the Automatic Early Redemption Amount (if such amount is payable), the Strike Price, any Index Level and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. and/or

(b) redeem each Note at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the occurrence of such Additional Disruption Event, Index Modification, Index Cancellation, Index Disruption or Relevant Event, as applicable, less, unless specified otherwise in the Final Terms, the cost to the Issuer (or any of its affiliates) of amending or liquidating any Hedging Arrangement, together with any costs, expenses, fees or taxes incurred by the Issuer (or any of its affiliates) in respect of any such Hedging Arrangement.

Notice of any determination pursuant to this Condition 6(o)(i), any such adjustment and/or any redemption of the Notes hereunder shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(ii) Change of Exchange

If an Exchange is changed, the Issuer may make such consequential modifications to the Strike Price, Final Redemption Amount, Valuation Time and such other terms and conditions of the Notes (including the amount of interest payable, if any) as it may deem necessary.

(iii) Price Correction

In the event that any price or level published on any relevant Exchange or by any relevant Index Sponsor in respect of an Index and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the relevant Exchange or the relevant Index Sponsor within three Business Days (or such other period as specified in the Final Terms) after the original publication, the Calculation Agent will determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction.

(iv) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency (whether relating to its convertibility into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, Strike Price and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer and the amount of interest payable, if any), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, Strike Price and/or any other relevant term of the Notes (including the amount of interest payable, if any) as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.”

5 Automatic Early Redemption

For the purposes of the Notes, if “Automatic Early Redemption” is specified as being applicable in the Final Terms, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(n) as follows:

“(n) Automatic Early Redemption:

Unless previously redeemed or purchased and cancelled, if on any Automatic Early Redemption Valuation Date or during any Observation Period the Automatic Early Redemption Event occurs, then the Notes will be automatically redeemed in whole, but not in part, on the Automatic Early Redemption Date immediately following such Automatic Early Redemption Valuation Date or (in the case of the occurrence of an Automatic Early Redemption Event during an Observation Period) on the

date that is five Business Days (or such other period as is specified in the applicable Final Terms) following the occurrence of such Automatic Early Redemption Event, and in any such case the Final Redemption Amount payable by the Issuer on such date upon redemption of each Note shall be an amount equal to the relevant Automatic Early Redemption Amount.”

The terms and conditions applicable to Credit Linked Notes issued by ING Americas Issuance B.V. and guaranteed by ING Bank N.V. shall comprise the Terms and Conditions of the Medium Term Notes issued by ING Americas Issuance B.V. and guaranteed by ING Bank N.V. set out in Chapter 17, Part 1 (the “General Conditions”) and the additional Terms and Conditions set out below (the “Credit Linked Conditions”), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Credit Linked Conditions, the Credit Linked Conditions set out below shall prevail. The applicable Final Terms shall specify whether the Notes are Single Name Credit Linked Notes, First-to-Default Credit Linked Notes, *Nth*-to-Default Credit Linked Notes, Linear Basket Notes or any other type of Credit Linked Notes. In the event of any inconsistency between (i) the General Conditions and/or the Credit Linked Conditions and (ii) the applicable Final Terms, the applicable Final Terms shall prevail.

1 Redemption upon the Occurrence of a Termination Event

- (a) If the Calculation Agent determines a Credit Event has occurred on any day during the Observation Period and the Conditions to Settlement are satisfied on or prior the Conditions to Settlement End Date then:
 - (i) subject to Condition 8 of these Credit Linked Conditions, interest shall cease to accrue on the Notes with effect from (A) the Interest Period Date immediately preceding the Event Determination Date or, if no Interest Period Date has occurred, the Interest Commencement Date, or (B) if “Alternative Interest Cessation Date” is stated as applying in the applicable Final Terms, the date specified in the relevant Credit Event Notice, provided that in each case if the Credit Event is a Multiple Exercise Credit Event and/or the Notes are Linear Basket Notes, interest shall cease to accrue only on the relevant Applicable Proportion of the Specified Denomination of each Note; and
 - (ii) if the Calculation Agent determines that the related Event Determination Date has not been reversed on or prior to the earlier to occur of the relevant Auction Final Price Determination Date, Valuation Date, Physical Settlement Date (or, if earlier, Delivery Date) or the Scheduled Observation End Date, as applicable, subject to Conditions 5, 7 and 8 of these Credit Linked Conditions, the Issuer’s obligation to redeem each Note at its Final Redemption Amount on the Final Payment Date shall cease and be replaced by an obligation to redeem each Note in whole (or, if the Credit Event is a Multiple Exercise Restructuring Credit Event and/or the Notes are Linear Basket Notes, in part) as follows:
 - (I) if “Cash Settlement” is specified as the Settlement Basis in the applicable Final Terms (or if Cash Settlement is specified as the Fallback Settlement Basis and Condition 4 of these Credit Linked Conditions requires that the Issuer redeems the Notes in accordance with Condition 2 of these Credit Linked Conditions), by payment on the relevant Cash Settlement Date of the Cash Settlement Amounts in accordance with Condition 2 of these Credit Linked Conditions;
 - (II) if “Physical Settlement” is specified as the Settlement Basis in the applicable Final Terms (or if Physical Settlement is specified as the Fallback Settlement Basis and Condition 4 of these Credit Linked Conditions requires that the Issuer redeems the Notes in accordance with Condition 3 of these Credit Linked Conditions), by Delivery of the Deliverable Obligation

Entitlements by the relevant Physical Settlement Date in accordance with Condition 3 of these Credit Linked Conditions;

- (III) If “Auction Settlement” is specified as the Settlement Basis in the applicable Final Terms, by payment on the relevant Auction Cash Settlement Date of the Auction Cash Settlement Amounts in accordance with Condition 4 of these Credit Linked Conditions;
- (IV) if “Cash or Physical Settlement” is specified as the Settlement Basis in the applicable Final Terms, as set out in sub-paragraph (I) or (II) at the option of the Issuer in its sole and absolute discretion and notified to Noteholders; or
- (V) if “Cash or Physical Settlement or Auction Settlement” is specified as the Settlement Basis in the applicable Final Terms, as set out in sub-paragraph (I), (II) or (III) above at the option of the Issuer in its sole and absolute discretion and notified to Noteholders,

in each case subject to Condition 5 of these Credit Linked Conditions and provided that any such payment or delivery shall be subject to the FX Convertibility Event and FX Transferability Event provisions of these Credit Linked Conditions.

Upon discharge by the Issuer of its payment or delivery obligations on the Cash Settlement Date or Auction Cash Settlement Date (or, if the relevant Cash Settlement Amount or the Auction Cash Settlement Amount is zero, upon the occurrence of the Cash Settlement Date or Auction Cash Settlement Date, as applicable) or by the Physical Settlement Date, as the case may be, pursuant to Condition 2, 3 or 4 of these Credit Linked Conditions, as applicable, or as otherwise provided herein, the Issuer’s obligations in respect of the Notes shall be discharged in full.

- (b) If the Calculation Agent determines that a Termination Event (other than a Credit Event) has occurred at any time during the Observation Period, then the Issuer may redeem each Note on such date as it determines at (i) its fair market value as at three Business Days prior to the date of redemption (as determined by the Calculation Agent) taking into account the Termination Event less, unless specified otherwise in the Final Terms, any Hedge Unwind Costs or (ii) unless otherwise specified in the applicable Final Terms, its pro rata share of the Spread Event Amount if the related Termination Event is a Spread Event plus interest accrued but unpaid (if any) on such Note. Interest shall cease to accrue on the Notes with effect from (A) the Interest Period Date immediately preceding the occurrence of a Termination Event or, if no Interest Period Date has occurred, the Interest Commencement Date, or (B) if “Alternative Interest Cessation Date” is stated as applying in the applicable Final Terms, the date specified in the relevant notice of redemption given by the Issuer pursuant to this Condition 1(b) of these Credit Linked Conditions. - (i) if the Credit Event is not a Multiple Exercise Restructuring Credit Event and the Notes are not Linear Basket Notes, each Note in whole; or
 - (ii) if the Credit Event is not a Multiple Exercise Restructuring Credit Event and the Note is a Linear Basket Note, a portion of the principal amount of each Note equal to the Applicable Proportion determined by reference to the Related Nominal Amount of the Reference Entity in respect of which the Credit Event occurred; or

- (ii) deducted by the Issuer from any cash amount which may be payable to such Noteholder under these Credit Linked Conditions to the extent that any such cash amount is equal to or greater than Noteholders pro rata share of the applicable Delivery Expenses and Hedge Unwind Costs.

If there is not a cash amount owing from the Issuer under such Note to a Noteholder sufficient to cover the Delivery Expenses and, if applicable, its *pro rata* share of the Hedge Unwind Costs, the Issuer may convert such amount of Deliverable Obligations comprised in the relevant Noteholder's Deliverable Obligation Entitlement into cash sufficient to cover the Delivery Expenses and, if applicable, a *pro rata* share of the Hedge Unwind Costs, in respect of such Note from which the Issuer shall deduct such amounts. Each Note will then be redeemed by delivery of the remaining Deliverable Obligation(s) comprising the Deliverable Obligation Entitlement in respect of such Note and, if applicable, payment of a cash amount in respect of any Fractional Entitlement arising, together with any other amounts to which such Noteholder is entitled upon redemption of such Note.

- (n) The Issuer shall not be under any obligation to register or procure the registration of any Noteholder or any other person as the registered holder of any of the Deliverable Obligation(s) comprised in any Deliverable Obligation Entitlement in the register of members or holders of debt securities of any company whose securities form part of any Deliverable Obligation Entitlement. The Issuer shall not be obliged to account to any Noteholder for any entitlement received or receivable in respect of any of the Deliverable Obligation(s) comprised in any Deliverable Obligation Entitlement if the date on which such are first traded ex such entitlement is on or prior to the date of Delivery. The Issuer shall determine, in its sole and absolute discretion, the date on which such assets are so first traded ex any such entitlement.

4 Auction Settlement

- (a) Subject to Conditions 5 and 8 of these Credit Linked Conditions, where "Auction Settlement" is the applicable Settlement Basis specified in the applicable Final Terms (or if "Cash or Physical or Auction Settlement" in the applicable Final Terms and Auction Settlement is elected by the Issuer) then on the Auction Cash Settlement Date, the Issuer shall, subject as aforesaid, redeem:
 - (i) if the Credit Event is not a Multiple Exercise Restructuring Credit Event and/or the Notes are not Linear Basket Notes, each Note in whole; or
 - (ii) if the Credit Event is not a Multiple Exercise Restructuring Credit Event and the Notes are Linear Basket Notes, a portion of the principal amount of each Note equal to the Applicable Proportion determined by reference to the Related Nominal Amount of the Reference Entity in respect of which the Credit Event occurred; or
 - (iii) if the Credit Event is a Multiple Exercise Restructuring Credit Event, a portion of the principal amount of each Note equal to the Applicable Proportion determined by reference to the Exercise Amount specified in the Credit Event Notice relating to the relevant Credit Event.
- (b) On any redemption of a Note pursuant to Condition 4(a) of these Credit Linked Conditions, subject to Conditions 5 and 8 of these Credit Linked Conditions, the Issuer shall pay to each Noteholder, an amount equal to the Auction Cash Settlement Amount in respect of each such Note on the Auction Cash Settlement Date. The Auction Cash Settlement Amount in respect of each Note shall be the amount determined by the Calculation Agent to be the greater of:
 - (i) zero; and
 - (ii) an amount equal to:

- (A) the Auction Final Price; multiplied by
- (B) an amount equal to the Applicable Proportion multiplied by the outstanding principal amount of such Note,

provided that if the applicable Final Terms specify that “Hedge Unwind Adjustment” shall apply, then the Auction Cash Settlement Amount in respect of each Note shall be adjusted upwards or downwards to reflect that Note’s pro rata share of the Hedge Unwind Costs. For the avoidance of doubt, in no event shall the Auction Cash Settlement Amount be less than zero. Payment by the Issuer of the Auction Cash Settlement Amount shall fully and effectively discharge the Issuer’s obligation to redeem the Applicable Proportion of the relevant Note.

- (c) Without prejudice to the foregoing, but without duplication of settlement, if the Calculation Agent determines:
 - (i) except where the Issuer delivers a Notice to Exercise Movement Option to the Calculation Agent on or prior to the Movement Option Cut-off Date, that with respect to a Credit Event no Applicable Auction is being, or will be, held; or
 - (ii) with respect to a Credit Event and any relevant Applicable Request, Applicable Resolution and/or Applicable Auction, that (A) an Auction Cancellation Date has occurred, (B) a No Auction Announcement Date has occurred (and, in circumstances where such No Auction Announcement Date occurs pursuant to sub-paragraph (b) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option), (C) ISDA has publicly announced that a relevant Credit Derivatives Determinations Committee has Resolved, following a relevant Credit Event Resolution Request Date, not to determine the matters described in the definitions of Credit Event Resolution Request Date, (D) an Event Determination Date was determined pursuant to sub-paragraph (a) of the definition of Event Determination Date and no relevant Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Event Determination Date, or (E) an Event Determination Date was determined pursuant to sub-paragraph (b)(ii)(B) of the definition of Event Determination Date,

then the Issuer shall, subject to the occurrence of a Credit Event on any day during the Observation Period and satisfaction of the Conditions to Settlement on or prior to the Conditions to Settlement End Date, notwithstanding that Auction Settlement is specified as applicable in the relevant Final Terms, redeem each Note in accordance with Condition 2 of these Credit Linked Conditions (if Cash Settlement is specified in the applicable terms as the Fallback Settlement Basis) or in accordance with Condition 3 of these Credit Linked Conditions (if Physical Settlement is specified in the applicable terms as the Fallback Settlement Basis).

- (d) If “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” or “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified in the applicable Final Terms and the Calculation Agent determines in respect of a Restructuring Credit Event that a No Auction Announcement Date has occurred pursuant to sub-paragraph (b) of the definition of No Auction Announcement Date, the Issuer may elect in its sole and absolute discretion to deliver a Notice to Exercise Movement Option to the Calculation Agent at any time on or prior to the Movement Option Cut-off Date. If a Notice to Exercise Movement Option is so delivered, then provided the related Event Determination Date is not reversed on or prior to the relevant Auction Cash Settlement Date, the Notes shall be redeemed on the Auction Cash Settlement Date at their Auction Cash Settlement Amount, for which purposes the Auction Cash Settlement Date and the Auction Cash Settlement Amount shall be determined by reference to the relevant Parallel Auction identified by the Issuer in the Notice to Exercise Movement Option. If a Notice to Exercise Movement Option is

delivered by the Issuer, all references in these Credit Linked Conditions to “Applicable Auction”, “Applicable Auction Settlement Terms”, “Auction Cancellation Date”, “Auction Final Price Determination Date” and “Auction Settlement Date” shall be deemed to be references to the “Parallel Auction”, “Parallel Auction Settlement Terms”, “Parallel Auction Cancellation Date”, “Parallel Auction Final Price Determination Date” and “Parallel Auction Settlement Date” and the terms of these Credit Linked Conditions shall be construed accordingly.

5 Redemption Suspension

If, following the determination of an Event Determination Date in accordance with sub-paragraph (a) of the definition of Event Determination Date but prior to the relevant Final Payment Date, Cash Settlement Date, the relevant Physical Settlement Date, a Delivery Date or, to the extent applicable, a Valuation Date, as applicable, the Issuer determines that a Suspension Event has occurred, the timing requirements relating to notices of physical settlement and the timing requirements of Conditions 1, 2 and 3 of these Credit Linked Conditions, as applicable, or any other provision of these Credit Linked Conditions and the Notes that pertains to redemption and settlement, shall toll and remain suspended until the Suspension Event Cessation Date. During such suspension period, the Issuer is not obliged to take any action in connection with the redemption and settlement of the Notes. The relevant timing requirements and redemption and settlement provisions, as applicable, that have previously tolled or been suspended shall resume on the Business Day following the relevant Suspension Event Cessation Date with the benefit of the full day notwithstanding when the tolling or suspension began in accordance with this Condition 5. Without prejudice to any amounts payable pursuant to Condition 8 of these Credit Linked Conditions, no additional amounts shall be payable by the Issuer in connection with any such suspension.

6 Interest Payment Postponement

- (a) If, an Applicable Request in respect of a Credit Event is made on or prior to any Interest Payment Date or the Scheduled Observation End Date in respect of which an Applicable Resolution has not been published, the payment of interest (if any) scheduled to be paid to Noteholders on or about such Interest Payment Date or the Scheduled Observation End Date, will be suspended. If in connection with such Applicable Request either (i) an Applicable DC Credit Event Announcement is made but the Calculation Agent determines that the Event Determination Date relating thereto is a date falling after such Interest Payment Date or the Scheduled Observation End Date, or (ii) an Applicable DC No Credit Event Announcement is made, payment of the suspended interest will be made two Business Days after the date the Event Determination Date is so determined or the date of Applicable DC No Credit Event Announcement, as applicable. If in connection with such Applicable Request, an Applicable DC Credit Event Announcement is made and the Calculation Agent determines that the Event Determination Date relating thereto is a date falling on or prior to such Interest Payment Date or the Scheduled Observation End Date, no payment of the suspended interest will be made pursuant to Condition 1(a) of these Credit Linked Conditions.
- (b) No additional amount in respect of interest and no adjustment shall be made to the amount of any interest in connection with the delay or postponement of any payment of interest pursuant to sub-paragraph (a) above. For the avoidance of doubt, no interest shall accrue on any Note after the Scheduled Observation End Date (unless Condition 3(e) of the General Conditions applies and upon due presentation of a Note for redemption payment of principal is improperly withheld or refused by the Issuer). The Issuer shall endeavour to give notice to the Noteholders in accordance with the

General Conditions as soon as reasonably practicable should any payment of interest be suspended and/or postponed pursuant to this Condition 6 of the Credit Linked Conditions.

7 Final Payment Date Postponement

- (a) Unless otherwise specified in the applicable Final Terms, if, on the Scheduled Observation End Date, the Issuer determines that:
 - (i) Repudiation/Moratorium is listed as a Credit Event in the applicable Final Terms, a Potential Repudiation/Moratorium has occurred with respect to one or more of the Obligations, the Repudiation/Moratorium Extension Condition has been satisfied and the related Repudiation/Moratorium Evaluation Date has not occurred; and/or
 - (ii) Failure to Pay is listed as a Credit Event in the applicable Final Terms and a Potential Failure to Pay has occurred with respect to one or more of the Obligations; and/or
 - (iii) an Applicable Request has been made on or prior to such date in respect of which an Applicable Resolution has not been published; and

in each case, the Conditions to Settlement in respect of the above have not been satisfied as at the Scheduled Observation End Date (each such event a “**Final Payment Date Postponement Event**”), the Issuer shall endeavour to give notice to the Noteholders in accordance with Condition 12 of the General Conditions as soon as reasonably practicable that redemption of the Notes and the Final Payment Date will be postponed pursuant to the foregoing.

- (b) The payments of any accrued but unpaid interest scheduled to be paid on the Final Payment Date and/or the redemption of the Notes at maturity will not be paid and shall be postponed pursuant to the foregoing. No additional amount in respect of interest shall be payable in connection with the postponement of the redemption of the Notes and the postponement of the Final Payment Date. No interest shall accrue on any Note after the Scheduled Observation End Date (unless Condition 3(e) of the General Conditions applies and upon due presentation of a Note for redemption payment of principal is improperly withheld or refused by the Issuer).
- (c) In such circumstances:
 - (i) with respect to a Potential Repudiation/Moratorium:
 - (A) if an Event Determination Date occurs on or prior to the last day of the Notice Delivery Period and is not reversed pursuant to Condition 8 of these Credit Linked Conditions, each Note shall be redeemed pursuant to Condition 2, 3 or 4 of these Credit Linked Conditions, as applicable; or
 - (B) if the Repudiation/Moratorium Extension Condition is satisfied and an Event Determination Date does not occur on or prior to the final day of the Notice Delivery Period and no other Final Payment Date Postponement Event(s) are outstanding, each Note shall be redeemed at its Final Redemption Amount on the second Business Day following the last day of the Notice Delivery Period;
 - (ii) with respect to a Potential Failure to Pay:
 - (A) if an Event Determination Date occurs on or prior to the last day of the Notice Delivery Period and is not reversed pursuant to Condition 8 of these Credit Linked Conditions, each Note shall

- be redeemed pursuant to Condition 2, 3 or 4 of these Credit Linked Conditions, as applicable; or
- (B) if Grace Period Extension is specified as applicable in the applicable Final Terms and an Event Determination Date does not occur on or prior to the last day of the Notice Delivery Period and no other Final Payment Date Postponement Event(s) are outstanding, each Note shall be redeemed at its Final Redemption Amount on the second Business Day following the last day of the Notice Delivery Period; and
- (iii) with respect to an Applicable Request:
- (A) if the Conditions to Settlement are satisfied on or prior to the Conditions to Settlement End Date and the related Event Determination Date is not reversed pursuant to Condition 8 of these Credit Linked Conditions, each Note shall be redeemed pursuant to Condition 2, 3 or 4 of these Credit Linked Conditions, as applicable; or
 - (B) if the Conditions to Settlement are not satisfied on or prior to the Conditions to Settlement End Date or the related Event Determination Date is reversed pursuant to Condition 8 of these Credit Linked Conditions, and the Conditions to Settlement have not been satisfied in respect of any other Final Payment Date Postponement Event(s), each Note shall be redeemed at its Final Redemption Amount on the second Business Day following the Conditions to Settlement End Date.
- (d) For the purposes of this Condition 7 of the Credit Linked Conditions, a Final Payment Postponement Event will be deemed to be outstanding on any date, if the relevant period specified in Condition 7(c)(i), (ii) or (iii) above in respect of such Final Payment Postponement Event as the period in which the Conditions to Settlement may occur or in which an Event Determination Date may be reversed has not expired.

8 Reversals and Adjustments to Event Determination Dates

- (a) Notwithstanding anything to the contrary in these Credit Linked Conditions, no Event Determination Date will occur, and any Event Determination Date previously determined with respect to an event shall be deemed not to have occurred, if, or to the extent that the Calculation Agent determines that, prior to the relevant Auction Final Price Determination Date in respect of an Applicable Auction, a related Valuation Date, any relevant Physical Settlement Date (or, if earlier a Delivery Date), or any other relevant date relating to the redemption of the Notes, as applicable, an Applicable DC No Credit Event Announcement occurs with respect to the relevant Reference Entity or Obligation thereof.
- (b) If, following the occurrence of a Credit Event and satisfaction of the Conditions to Settlement in respect of a Reference Entity, the related Event Determination is deemed to have occurred on a date that is earlier than the date originally determined to be the Event Determination Date for the purposes of the Note as a result of the application of the definition of Event Determination Date and/or any Applicable Request or Applicable Resolution then:
 - (i) if the Notes are redeemed pursuant to Condition 2 or 4 of these Credit Linked Conditions, an amount equal to the relevant EDD Adjustment Amount (if any) shall be deducted to the fullest extent possible from the relevant Cash Settlement Amount or Auction Cash Settlement Amount, as applicable; or
 - (ii) if the Notes are redeemed pursuant to Condition 3 of these Credit Linked Conditions, the EDD Adjustment Amount (if any) shall be deemed to be a Delivery Expense for the purposes of Condition 3(m) of these Credit Linked Conditions.

- (c) Without prejudice to Condition 4(c) of these Credit Linked Conditions, if an Applicable DC No Credit Event Announcement occurs following the determination of an Event Determination Date but prior to the related Auction Final Price Determination Date in respect of an Applicable Auction, a related Valuation Date, any related Physical Settlement Date (or, Delivery Date if earlier), or any other relevant date relating to the redemption of the Notes, as applicable, then the Event Determination Date originally determined for the purposes of the Notes shall be deemed not to have occurred (an “**Event Determination Date Reversal**”). The occurrence of an Event Determination Date Reversal shall not prejudice the occurrence or determination of any subsequent Event Determination Date(s) in relation to the relevant Reference Entity (if applicable). Notwithstanding Condition 1(a) of these Credit Linked Conditions, if an Event Determination Date Reversal occurs, each Note shall recommence to accrue interest (in accordance with the General Conditions) from the Interest Payment Date (the “**Interest Recommencement Date**”) immediately following the relevant Applicable DC No Credit Event Announcement, and an amount equal to the Additional EDD Interest Amount shall be payable on such Interest Recommencement Date. For the avoidance of doubt, in no circumstances shall interest accrue on any Note on or after the Scheduled Observation End Date.

9 Succession Event

- (a) With respect to any Reference Entity (other than a Sovereign Reference Entity), the Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the relevant Succession Event), and with effect from the legally effective date of the Succession Event, whether the relevant thresholds set forth in the definition of “Successor” have been met, or which entity qualifies under paragraph (a)(vi) of the definition of “Successor”, as applicable, provided that the Calculation Agent will not make such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in the definitions of “Successor”, in sub-paragraph (a) of the definition of “Succession Event Resolution Request Date” and sub-paragraph (b)(i) of the definition of “Succession Event Resolution Request Date”, are satisfied in accordance with the Rules (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event for purposes of the certain credit derivative transactions has occurred, and in each case the Calculation Agent determines that such resolution is an Applicable Resolution. In calculating the percentages used to determine whether the relevant thresholds set forth in the definition of “Successor” have been met, or which entity qualifies under sub-paragraph (a)(vi) of such definition, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such Relevant Obligation listed in the Best Available Information and shall notify the Issuer of such calculation. A copy of the notice of any determination of a Successor shall be given to Noteholders in accordance with Condition 12 of the General Conditions.
- (b) With respect to any Sovereign Reference Entity, the Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the date of the occurrence of the relevant Succession Event), and with effect from the date of the occurrence of the Succession Event, each Sovereign and/or entity, if any, that qualifies under sub-paragraph (b) of the definition of “Successor”; provided that the Calculation Agent will not make such determination if, at such time, either (i) ISDA has publicly

announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in sub-paragraph (b) of the definition of “Successor” and sub-paragraphs (a) and (b)(i) of the definition of “Succession Event Resolution Request Date” are satisfied in accordance with the Rules (until such time, if any, as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (ii) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred and the Calculation Agent determines that such Resolution is an Applicable Resolution. A copy of the notice of any determination of a Successor shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

- (c) Where the Notes are Single Name Credit Linked Notes:
 - (i) Where a Succession Event has occurred and more than one Successor has been identified in accordance with these Credit Linked Conditions, each such Successor will be deemed to be a Reference Entity for purposes of the Notes and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amounts or any other relevant calculation amounts equally in relation to each Successor.
 - (ii) If one or more of the Successors to the Reference Entity have not assumed the Reference Obligation (if any) specified in the applicable Final Terms, the Calculation Agent may select a Substitute Reference Obligation in accordance with the definition of “Substitute Reference Obligation”.
 - (iii) Where a Credit Event occurs in respect of a Reference Entity after such a Succession Event, the provisions of the relevant Credit Linked Conditions shall be deemed to apply to the aggregate principal amount of the Notes represented by that Reference Entity only (the “**Partial Principal Amount**”) and all the provisions shall be construed accordingly. Each Note shall thereafter be redeemed in part (such redeemed part being equal to the relevant proportion of the Partial Principal Amount).
 - (iv) The Notes shall be deemed to be redeemed pro rata in an amount equal to the Partial Principal Amount only. The Notes in an amount equal to the Aggregate Nominal Amount less the Partial Principal Amount shall remain outstanding (the “**Remaining Amount**”) and interest (if applicable) shall accrue on the Remaining Amount as provided for in the General Conditions and the applicable Final Terms (adjusted in such manner as the Calculation Agent determines to be appropriate).
 - (v) The provisions of these Credit Linked Conditions shall apply to any subsequent Credit Event Notices delivered in respect of any of the other Reference Entities that are identified as a result of the Succession Event.
 - (vi) The applicable Final Terms may be amended and restated at such time to reflect the effect of a Succession Event without the consent of the Noteholders and the Noteholders are deemed to agree to this provision by the purchase of the Notes.
- (d) Where the Notes are First-to-Default Credit Linked Notes, N^{th} -to-Default Credit Linked Notes or Linear Basket Notes:
 - (i) Where a Succession Event has occurred in respect of a Reference Entity (each such Reference Entity and any Reference Entity previously the subject of a Succession Event, a “Succession Event Reference Entity” and the Reference Entities unaffected by such Succession Event or any previous Succession Event, the “Non-Succession Event Reference Entities”) and more than one Successor has been identified by the Calculation Agent, each such Successor will be deemed to

be a Reference Entity for the purposes of the Notes (in such respect, each a “Successor Reference Entity”) and, to the extent applicable, the Calculation Agent shall apportion any outstanding principal amounts, Related Nominal Amounts or any other relevant calculation amounts, as applicable, equally in relation to each Successor Reference Entity.

- (ii) Following the occurrence of a Succession Event, satisfaction of the Conditions to Settlement following a Credit Event with respect to any of the Non-Succession Event Reference Entities will cause the Notes to be redeemed in full in accordance with the provisions of these Credit Linked Conditions; provided that, in the case of N^{th} -to-Default Credit Linked Notes, satisfaction of the Conditions to Settlement following a Credit Event with respect to any of the Non-Succession Event Reference Entities will only cause the Notes to be redeemed in full as aforesaid where such Non-Succession Event Reference Entity is the N^{th} Reference Entity with respect to which the Conditions to Settlement have been satisfied.
- (iii) Where a Credit Event occurs in respect of a Successor Reference Entity, the relevant provisions of these Credit Linked Conditions shall be deemed to apply to the principal amount of the Notes or Related Nominal Amount, as applicable, represented by the relevant Successor Reference Entity only (the “**Partial Principal Amount**”); provided that, in the case of N^{th} -to-Default Credit Linked Notes, such Successor Reference Entity is the N^{th} Reference Entity with respect to which the Conditions to Settlement have been satisfied, and all the provisions shall be construed accordingly. Subject as aforesaid, the Notes shall thereafter be redeemed in a proportion equal to the relevant proportion which the Partial Principal Amount forms of the Aggregate Nominal Amount of the Notes as of the Issue Date.
- (iv) Without prejudice to Condition 1(a) of these Credit Linked Conditions, following a partial redemption of the Notes pursuant to sub-paragraph (iii) above, interest shall accrue on the remaining outstanding principal amount of the Notes immediately following the partial redemption as provided for in the General Conditions and these Credit Linked Conditions (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate).
- (v) The provisions of these Credit Linked Conditions shall apply to any subsequent Credit Event Notices delivered in respect of any other Successor Reference Entities formed as a result of one or more Succession Events and/or any of the Non-Succession Event Reference Entities. For the avoidance of doubt, the provisions of this Condition 9(d) of these Credit Linked Conditions shall apply to each Succession Event.
- (vi) Where the effect of the foregoing provisions would be to specify a Reference Entity more than once with respect to the Notes, that Reference Entity shall be deemed to be specified only once.
- (vii) Save as otherwise provided in the applicable Final Terms, where any Reference Entity (the “**Surviving Reference Entity**”) (other than a Reference Entity that is subject to a Succession Event) would be a Successor to any other Reference Entity (the “**Legacy Reference Entity**”) pursuant to a Succession Event through the application of the foregoing provisions, (I) if Fixed Number of Reference Entities is not specified as applicable in the applicable Final Terms, such Surviving Reference Entity shall be deemed a Successor to the Legacy Reference Entity or, (II) if Fixed Number of Reference Entities is specified as applicable in the applicable Final Terms, such Surviving Reference Entity shall be deemed a Successor to the Legacy Reference Entity save that the principal amount of the Notes represented by such Reference Entity or Related Nominal Amount of such Reference Entity, as applicable, shall be equal to the principal amount of the Notes represented by the Surviving Reference Entity only or the Related Nominal

Amount of such Surviving Reference Entity, as applicable, and the Calculation Agent shall select an additional entity to constitute a Reference Entity in respect of the principal amount of the Notes represented by the Legacy Reference Entity in respect of the related Nominal Amount relating to such Legacy Reference Entity (such entity an “**Additional Reference Entity**”) such that the number of Reference Entities prior to the Succession Event is equal to the number of Reference Entities following the Succession Event. The Additional Reference Entity shall be of the same Transaction Type (as defined in the 2005 Matrix Supplement) with a comparable credit rating as the Legacy Reference Entity, as determined by the Calculation Agent in its sole and absolute discretion. Any such Additional Reference Entity will be deemed to be a Reference Entity for the purposes of the Notes and all references in these Credit Linked Conditions to a “Reference Entity” or “Reference Entities” shall be construed accordingly.

- (viii) If one or more Additional Reference Entities are selected, the Calculation Agent may select a Substitute Reference Obligation in respect of each such Additional Reference Entity in accordance with the definition of “Substitute Reference Obligation”.
- (ix) Save as otherwise provided in the applicable Final Terms, in the event that (x) the Issuer becomes a Successor to any Reference Entity as a result of the application of the foregoing provisions, (y) the Issuer and any Reference Entity become Affiliates or (z) the Issuer or a Reference Entity consolidates or amalgamates with, or merges into, or transfers all or substantially all its assets to, a Reference Entity or the Issuer (as applicable), then the Issuer shall forthwith give notice of such circumstance to Noteholders. In such event, the Issuer may, but shall not be obliged to, on giving not more than 30 nor less than 15 days’ notice to Noteholders (the “Seller Merger Notice”), redeem all but not some of the Notes at the Early Redemption Amount specified in the Seller Merger Notice.
- (x) The applicable Final Terms may be amended and restated at such time to reflect the effect of a Succession Event without the consent of the Noteholders and the Noteholders are deemed to agree to this provision by the purchase of the Notes.

10 Restructuring Credit Event

- (a) If (i) Restructuring is specified in the applicable Final Terms as being an applicable Credit Event; (ii) either “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” or “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified in the applicable Final Terms and (iii) a Restructuring Credit Event occurs, then (unless otherwise specified in the applicable Final Terms), the Issuer may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth the amount of the Aggregate Nominal Amount of the Notes or, if the Notes are Linear Basket Notes, of the Related Nominal Amount in respect of the relevant Reference Entity, as applicable, to which the Credit Event Notice relates (the “**Exercise Amount**”). If the relevant Credit Event Notice does not specify an Exercise Amount, then the Aggregate Nominal Amount of the Notes outstanding immediately prior to the delivery of such Credit Event Notice or, if the Notes are Linear Basket Notes, the Related Nominal Amount outstanding in respect of the relevant Reference Entity immediately prior to the delivery of such Credit Event Notice will be deemed to have been specified as the Exercise Amount. Accordingly, notwithstanding anything to the contrary in these Credit Linked Conditions, where a Restructuring has occurred and the Issuer has delivered a Credit Event Notice for an Exercise Amount that is less than the Aggregate Nominal Amount of the Notes outstanding or the Related Nominal Amount outstanding in respect of the relevant Reference Entity, in each case as at the date immediately prior to the delivery

of such Credit Event Notice, as applicable, the provisions of these Credit Linked Conditions shall be deemed to apply to a principal amount of the Notes equal to the Exercise Amount only and all the provisions shall be construed accordingly. Each such Note shall be redeemed in part (such redeemed part being equal to the relevant proportion of the Exercise Amount).

- (b) The Notes shall be deemed to be redeemed pro rata in an amount equal to the Exercise Amount only. The Notes in an amount equal to the Aggregate Nominal Amount or the relevant Related Nominal Amount, as applicable, less the Exercise Amount shall remain outstanding (the “**Outstanding Amount**”) and interest (if applicable) shall accrue on the Outstanding Amount as provided for in the General Conditions, these Credit Linked Conditions and the applicable Final Terms (adjusted in such manner as the Calculation Agent determines to be appropriate).
- (c) In respect of any subsequent Credit Event Notices delivered:
 - (i) the Exercise Amount in connection with a Credit Event Notice describing a Credit Event other than a Restructuring Credit Event must be equal to the outstanding principal amount of the Notes or the Related Nominal Amount outstanding in respect of the relevant Reference Entity, as applicable, at such time (and not a portion thereof); and
 - (ii) the Exercise Amount in connection with a Credit Event Notice describing a Restructuring Credit Event must be an amount that is at least 1,000,000 units of the currency (or, if Japanese Yen, 100,000,000 units) in which the Notes are denominated or any integral multiple thereof or the entire outstanding principal amount of the Notes or the Related Nominal Amount outstanding in respect of the relevant Reference Entity, as applicable, at such time.
- (d) For the avoidance of doubt, (i) in the case of a First-to-Default Credit Linked Note, once a Restructuring Credit Event has occurred in respect of a Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Reference Entity that was the subject of the first occurring Restructuring Credit Event; (ii) in the case of an N^{th} -to-Default Credit Linked Note, if a Restructuring Credit Event has occurred in respect of the N^{th} Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the N^{th} Reference Entity; and (iii) in the case of a Linear Basket Note, the fact that a Restructuring Credit Event has occurred in respect of a Reference Entity shall not preclude delivery of a Credit Event Notice in respect of any other Reference Entity.
- (e) If “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” is specified in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may only be (i) included in a Deliverable Obligation Entitlement and (ii) specified in the relevant Notice of Deliverable Obligation(s), Notice of Physical Settlement or specified in any NODO Amendment Notice or NOPS Amendment Notice, as applicable, if such Deliverable Obligation (A) is a Fully Transferable Obligation and (B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date.
- (f) If “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified in the applicable Final Terms and Restructuring is the only Credit Event specified in a Credit Event Notice, then a Deliverable Obligation may only be (i) included in a Deliverable Obligation Entitlement and (ii) specified in the relevant Notice of Deliverable Obligation(s), Notice of Physical Settlement or specified in any NODO Amendment Notice or NOPS Amendment Notice, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date.

- (g) If the provisions of this Condition 10 of these Credit Linked Conditions apply in respect of the Notes, on redemption of part of each such Note, the relevant Note or, if the Notes are represented by a Global Note, such Global Note shall be endorsed to reflect such partial redemption.
- (h) For the avoidance of doubt, if Restructuring is specified in the applicable Final Terms as being an applicable Credit Event and neither “Restructuring Maturity Limitation and Fully Transferable Obligation Applicable” nor “Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable” is specified in the applicable Final Terms, the Issuer may not deliver multiple Credit Event Notices with respect to a Restructuring Credit Event. If a Restructuring Credit Event occurs, the Issuer may only deliver a single Credit Event Notice in respect of such Reference Entity and, subject to satisfaction of the Conditions to Settlement and the other provisions of these Credit Linked Conditions, each Note shall be redeemed in full (or, if the Notes are Linear Basket Notes, in part) pursuant to and in accordance with Condition 1(a) of these Credit Linked Conditions.

11 Adjustment Event

If the applicable Final Terms specify that Adjustment Event(s) shall apply, then following the occurrence of an Adjustment Event at any time during the Observation Period, the Final Redemption Amount and/or the Fixed Coupon Amounts or Interest Amounts and/or any other amount(s) otherwise payable in respect of the Notes shall be reduced by any loss suffered, or costs or expenses incurred, by the Issuer in connection with the Notes as a result of the occurrence of such Adjustment Event, as determined by the Calculation Agent, so as to put the Issuer in the same position in which it would have been but for the occurrence of such Adjustment Event. The Issuer shall endeavour to give notice to the Noteholders in accordance with the General Conditions as soon as reasonably practicable following the occurrence of an Adjustment Event (an “**Adjustment Notice**”). The Adjustment Notice shall specify the relevant adjustments to the Final Redemption Amount and/or the Fixed Coupon Amounts or Interest Amounts and/or any other Amount(s) required as a result of such Adjustment Event.

12 The Calculation Agent

The Calculation Agent shall be responsible for:

- (a) determining whether an Event Determination Date has occurred;
- (b) determining whether any Auction, Request, DC Resolution and/or Credit Derivatives Auction Settlement Terms constitute an Applicable Auction, Applicable Request, Applicable Resolution or an Applicable Credit Derivatives Auction Settlement Terms, as applicable;
- (c) determining the identity of any Successor to the Reference Entity;
- (d) determining whether an event specified in sub-paragraph (i) of the definition of “Substitute Reference Obligation” has occurred;
- (e) identifying and determining a Substitute Reference Obligation;

13 Modifications to the General Conditions

For the purposes of Credit Linked Notes:

- (a) all references to the “Maturity Date” in the General Conditions shall be construed as references to the “Final Payment Date” as defined in these Credit Linked Conditions, except for the reference to “Maturity Date” in the first paragraph under Condition 3(a) of the General Conditions;
- (b) if Interest Period Dates are specified in the applicable Final Terms, then, notwithstanding Condition 3(a) of the General Conditions, “Fixed Interest Period” and “Interest Period” shall mean the period from (and including) an Interest Period Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Period Date. In such circumstances, interest shall accrue on the Notes at the Rate of Interest during the relevant Fixed Interest Period or Interest Period (as the case may be) and shall be payable on the Interest Payment Date or Specified Interest Payment Date (as the case may be) immediately following such Fixed Interest Period or Interest Period (as the case may be);
- (c) references to “Interest Payment Date” in the definition of “Day Count Fraction” in Condition 3 of the General Conditions shall be construed as references to “Interest Period Date” as defined in these Credit Linked Conditions; and

14 FX Convertibility Event and FX Transferability Event

If (x) FX Convertibility Event is specified to be applicable in the applicable Final Terms and a FX Convertibility Event has occurred or is continuing, as determined by the Calculation Agent, on any date on which the Issuer is required to make any payment in respect of the Notes by the exchange of the Relevant Currency and/or the Specified Currency outside or within the Relevant Jurisdiction or (y) FX Transferability Event is specified to be applicable in the applicable Final Terms and a FX Transferability Event has occurred or is continuing, as determined by the Calculation Agent, on any date on which the Issuer is required to make

any payment in respect of the Notes by the transfer of the Relevant Currency and/or the Specified Currency outside or within the Relevant Jurisdiction, then in either case the Issuer shall use reasonable endeavours (i) to pay such amount in the Relevant Currency to such Noteholder's Relevant Currency account or (ii) in the absence of such account or in the case of such Noteholder's failure to notify the Issuer of the details of such account in a timely manner, to any other account as the Issuer may determine (including, for the avoidance of doubt, an account which is or may be subject to limitations on conversion and/or repatriation) in which account any such amount shall be held for the benefit of such Noteholder. Payment of any such amount by the Issuer shall discharge the Issuer of its remaining obligations under the Notes in respect of such payment in the Relevant Currency. Should any account be opened by the Issuer for the Noteholder according to (ii) above, such account will be opened and maintained on the normal terms and conditions of the relevant institution, and in the event any interest accrues on the amount held in such account, such interest will be for the benefit of the relevant Noteholder. Any costs incurred by the Issuer in connection with the opening or maintenance of such account will be borne by the Noteholder, and the Issuer reserves the right to use the funds in such account to pay for such costs. The amount payable by the Issuer to the Noteholder in respect of the Notes shall be reduced by the amount of any such costs incurred by the Issuer. Such right of set-off is without prejudice to any additional right to claim such costs. In the event that the costs incurred by the Issuer in connection with the opening and/or maintenance of such account exceed the amount payable by the Issuer to the Noteholder in respect of the Notes or the amount held in such account for the Noteholder, the Issuer reserves the right to forego opening or to close such account.

If the Issuer determines, in its sole discretion, that any payment due on the Notes cannot, or cannot reasonably, be made following a FX Convertibility Event (if FX Convertibility Event is specified to be applicable in the applicable Final Terms) or a FX Transferability Event (if FX Transferability Event is specified to be applicable in the applicable Final Terms), then such payment shall be postponed until the next Payment Day on which such payment can, in the sole discretion of the Issuer, reasonably be made. For the avoidance of doubt, no additional amounts shall be payable by the Issuer in respect of the postponement of any payment in accordance with this provision.

Notwithstanding the above, if, following a FX Convertibility Event or a FX Transferability Event, as the case may be, the Issuer is unable to convert the Relevant Currency into the Permitted Currency in accordance with these Credit Linked Conditions for a period of five years (or such other period as may be specified in the applicable Final Terms) from the date on which payment was originally due to be made but for the FX Convertibility Event or the FX Transferability Event, as the case may be, then the Issuer shall be entitled to all amounts in such account, including accrued interest, if any, and no additional amounts shall be payable to the relevant Noteholder.

“(l) Delay in Publication

If the Calculation Agent determines that a Delayed Index Level Event has occurred with respect to any Determination Date, then the Index Level with respect to any Reference Month which is to be utilised in any calculation or determination to be made by the Calculation Agent and/or the Issuer with respect to such Determination Date (the “Substitute Index Level”) shall be determined by the Calculation Agent (subject to Condition 5(n)(ii) of the General Conditions) as follows:

- (i) if Related Bond is specified as applicable in the relevant Final Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the Related Bond; or

- (iv) in accordance with any formula specified in the relevant Final Terms.

The Issuer shall promptly give notice to the holders of the Notes in accordance with Condition 12 of the General Conditions of any Substitute Index Level.”

4 Successor Index

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(m) as follows:

“(m) Successor Index

If the Calculation Agent determines that the level of an Index is not calculated and announced by the Index Sponsor for two consecutive months and/or the Index Sponsor announces that it will not longer continue to publish or announce the Index and/or the Index Sponsor cancels the Index then the Calculation Agent shall determine a successor index (a “**Successor Index**”) (in lieu of any previously applicable Index) for the purposes of the Notes as follows:

- (i) if the Index Sponsor announces that it will no longer publish or announce the Index but that it will be superseded by a replacement Index specified by the Index Sponsor, and the Calculation Agent determines that such replacement Index is calculated using the same or a substantially similar formula or method of calculation as used in the calculation of the Index, such replacement index shall be designated a “Successor Index”;
- (ii) if (i) above does not apply and if Related Bond is specified as applicable in the Final Terms, the successor index (if any) designated pursuant to the terms and conditions of the Related Bond and such successor index shall be designated a “Successor Index”; or

For the avoidance of doubt, the Calculation Agent shall determine the date on which the Successor Index shall be deemed to replace the Index for the purposes of the Notes. Notice of the determination of a Successor Index, the effective date of the Successor Index or the occurrence of an Index Cancellation will be given to holders of the Notes by the Issuer in accordance with Condition 12 of the General Conditions.”

5 Adjustments

For the purposes of the Notes, Condition 5 of the General Conditions shall be amended by the addition of a new Condition 5(n) as follows:

(i) Successor Index

If a Successor Index is determined in accordance with Condition 5(m) of the General Conditions, the Issuer may make any adjustment or adjustments (without limitation) to the final Redemption Amount, interest payable under the Notes (if any) and/or any other relevant term of the Notes as the Calculation Agent deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.

(ii) Substitute Index Level

If the Calculation Agent determines a Substitute Index Level in accordance with Condition 5(l) of the General Conditions, the Issuer may make any adjustment or adjustments (without limitation) to (I) the Substitute Index Level determined in accordance with Condition 5(l) of the General Conditions and/or (II) the Final Redemption Amount, interest payable under the Notes (if any) and/or any other relevant term of the Notes, in each case, as the Calculation Agent deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.

(iii) Index Level Adjustment Correction

(I) The first publication or announcement of the Index Level (disregarding estimates) by the Index Sponsor for any Reference Month shall be final and conclusive and, subject to Condition 5(n)(iii)(II) of the General Conditions, later revisions to the level for such Reference Month will not be used in any calculations, save that in respect of the EUR-All Items-Revised Consumer Price Index, the ESPNational- Revised Consumer Price Index (CPI) and the ESP-Harmonised-Revised Consumer Price Index HCPI, revisions to the Index Level which are published or announced up to and including the day that is two Business Days prior to any relevant Determination Date will be valid and the revised Index Level for the relevant Reference Month will be deemed to be the final and conclusive Index Level for such Reference Month. The Issuer shall give notice to the holders of the Notes of any valid revision in accordance with Condition 12 of the General Conditions.

(II) If, within thirty days of publication or at any time prior to a Determination Date in respect of which an Index Level will be used in any calculation or determination in respect of such Determination Date, the Calculation Agent determines that the Index Sponsor has corrected the Index Level to correct an error which the Calculation Agent determines is material, the Issuer may make any adjustment to the Final Redemption Amount, interest payable under the Notes (if any) and/or any other relevant term of the Notes as the Calculation Agent deems appropriate as a result of such correction and/or determine the amount (if any) that is payable as a result of that correction. The Issuer shall give notice to the holders of the Notes of any such adjustment and/or amount in accordance with Condition 12 of the General Conditions.

(III) If a Relevant Level is published or announced at any time after the Cut-Off Date in respect of a Determination Date in respect of which a Substitute Index Level was determined, the Calculation Agent may either (A) determine that such Relevant Level shall not be used in any calculation or determination under the Notes and that the Substitute Index Level shall be deemed to be the definitive Index Level for the relevant Reference Month, or (B) request the Issuer to make any adjustment to the Final Redemption Amount, interest payable under the Notes (if any) and/or any other relevant term of the Notes as it deems appropriate as a result of the announcement or publication of the Relevant Level and/or determine the amount (if any) that is payable as a result of such publication or announcement. The Issuer shall give notice to the holders of the Notes of any determination in respect of (A) or (B), together with any adjustment or amount in respect thereof, in accordance with Condition 12 of the General Conditions.

(iv) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency (whether relating to its convertibility into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, Strike Price and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, Strike Price and/or any other relevant term of the Notes as the Calculation Agent deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 12 of the General Conditions.

(v) Rebasing

If the Calculation Agent determines that the Index has been or will be rebased at any time, the Index as so rebased (the “**Rebased Index**”) will be used for purposes of determining the Index Level from the date of such rebasing; provided, however, that the Issuer may make (A) if Related Bond is specified as applicable in the relevant Final Terms, any adjustments as are made pursuant to the terms and conditions of the Related Bond, if any, to the past levels of the Rebased Index so that the Rebased Index levels prior to the date of rebasing reflect the same rate of inflation as before the rebasing, and/or (B) if Related Bond is specified as not applicable in the relevant Final Terms or a Related Bond Redemption Event has occurred, the Calculation Agent may make such adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Index before it was rebased, and in each case the Issuer may make any adjustment(s) to the Final Redemption Amount, interest payable under the Notes (if any) and/or any other term of the Notes as the Calculation Agent may deem necessary. If the Calculation Agent determines that neither (A) nor (B) above would produce a commercially reasonable result, the Issuer may redeem each Note on a date notified by the Issuer to Noteholders in accordance with Condition 12 of the General Conditions at its fair market value as determined by the Calculation Agent (unless otherwise provided in the relevant Final Terms) as at the date of redemption taking into account the rebasing, less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions. Notice of any adjustment, redemption of the Notes or determination pursuant to this paragraph shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(vi) Index Modification

- (I) If, on or prior to the Cut-Off Date in respect of any Determination Date, the Calculation Agent determines that an Index Modification has occurred the Issuer may (A) if Related Bond is specified as applicable in the relevant Final Terms, make any adjustments to the Index, any Index Level and/or any other relevant term of the Notes (including, without limitation, the Final Redemption Amount and/or interest payable under the Notes (if any)), consistent with any adjustments made to the Related Bond as the Calculation Agent deems necessary, or (B) if Related Bond is specified as not applicable in the Final Terms or a Related Bond Redemption Event has occurred, make only those adjustments to the Index, any Index Level and/or any other term of the Notes (including, without limitation, the Final Redemption Amount and/or interest payable under the Notes (if any)), as the Calculation Agent deems necessary for the modified Index to continue as the Index and to account for the economic effect of the Index Modification.
- (II) If the Calculation Agent determines that an Index Modification has occurred at any time after the Cut-Off Date in respect of any Determination Date, the Issuer may determine either to ignore such Index Modification for the purposes of any calculation or determination made by the Calculation Agent with respect to such Determination Date, in which case the relevant Index Modification will be deemed to have occurred with respect to the immediately succeeding Determination Date such that the provisions of (I) above will apply, or, notwithstanding that the Index Modification has occurred following the Cut-Off Date, to make any adjustments as the Calculation Agent deems fit in accordance with (I) above.

(vii) Change in Law

If the Calculation Agent determines that a Change in Law has occurred, the Issuer may redeem each Note on the date notified by the Issuer to Noteholders in accordance with Condition 12 of the General Conditions at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Change in Law, less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions. Notice of any redemption of the Notes shall be given to Noteholders in accordance with Condition 12 of the General Conditions.

(viii) Index Cancellation

If the Calculation Agent determines that an Index Cancellation has occurred, the Issuer may redeem each Note on the date notified by the Issuer to Noteholders in accordance with Condition 12 of the General Conditions at its fair market value (as determined by the Calculation Agent) as at the date of redemption taking into account the Index Cancellation, less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any financial instruments or transactions entered into by the Issuer in connection with the Note, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any such financial instruments or transactions. Notice of any redemption of the Notes pursuant to this paragraph shall be given to Noteholders in accordance with Condition 12 of the General Conditions.”

(A) Type

The Sprinter Certificates are Index Sprinter Certificates, Share Sprinter Certificates, Currency Sprinter Certificates, Commodity Sprinter Certificates, Fund Sprinter Certificates or Government Bond Sprinter Certificates. Certain terms which will, unless otherwise varied in the applicable Final Terms, apply to Index Sprinter Certificates, Share Sprinter Certificates, Commodity Sprinter Certificates, Currency Sprinter Certificates, Fund Sprinter Certificates and Government Bond Sprinter Certificates are set out in parts 2(A) to 2(F) of the Terms and Conditions of the Sprinter Certificates of this Chapter 22 as applicable.

(B) Title to Sprinter Certificates

Title to the Sprinter Certificates shall pass by book-entry in accordance with the Securities Giro Act and the Regulations. Rights in respect of the Sprinter Certificates shall belong to a community to be subdivided into as many equal denominations (in the Regulations referred to as *coupures*) as there are Sprinter Certificates in the relevant series.

(C) Transfers of Sprinter Certificates

Transfer and delivery of denominations shall take place solely between or through the intermediary of admitted institutions (“Admitted Institutions”, as defined in the Regulations as *aangesloten instellingen*) of Euroclear Netherlands. A holder of a co-ownership right in respect of the community of denominations is referred to as a “Certificateholder” or “holder of Certificates”.

(D) Payments in respect of Sprinter Certificates

All payments in respect of the Sprinter Certificates shall be made in accordance with the Regulations. In particular, payment of principal or any other payments on or in respect of the Sprinter Certificates to the Certificateholders will be effected through Admitted Institutions (*aangesloten*) of Euroclear Netherlands. The Issuer shall deposit or cause to be deposited the funds intended for payment on the Sprinter Certificates to an account of Euroclear Netherlands. The Issuer will by such deposit be discharged of its obligations towards the Certificateholders. Euroclear Netherlands will be discharged of its obligation to pay by paying the relevant funds to the Admitted Institutions which according to Euroclear Netherlands’ record hold a share in the *girodepot* (as referred to in the Securities Giro Act) with respect to such Sprinter Certificates, the relevant payment to be made in proportion with the share in such *girodepot* held by each of such Admitted Institutions in accordance with the relevant provisions of the Rules for Book-Entry Deposits. Euroclear Netherlands shall not be obliged to make any payment in excess of funds it actually received as funds free of charges of any kind whatsoever.

Transfers of Sprinter Certificates may not be effected after (i) the exercise of such Sprinter Certificates pursuant to General Sprinter Condition 4, (ii) the date upon which the Issuer gives notice to the Certificateholders of the occurrence of a Stop Loss Event; or (iii) the date upon which the Issuer gives notice to the Certificateholders of its intention to terminate the Sprinter Certificates as a result of an Issuer Call.

Any reference herein to Euroclear Netherlands shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Principal Certificate Agent from time to time and notified to the Certificateholders in accordance with General Sprinter Condition 8.

(E) Delivery of Sprinter Certificates

Delivery of any Sprinter Certificates shall be effected by delivery against payment.

2 Status of the Sprinter Certificates

The Sprinter Certificates constitute direct, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* among themselves and (save for certain debts required to be preferred by law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

3 Exercise and Termination; Cash Settlement*(A) Exercise*

Provided no Stop Loss Event has occurred, and notwithstanding notice of an Issuer Call, the Sprinter Certificates are exercisable on any Exercise Date by delivery of a Notice prior to the Exercise Time on an Exercise Date.

(B) Stop Loss Event

Following a Stop Loss Event, the Sprinter Certificates will terminate automatically. A Stop Loss Event will override an Issuer Call and/or due Exercise if the Stop Loss Event occurs prior to or on an Issuer Call Date or Valuation Date as the case may be.

(C) Issuer Call

The Issuer may terminate, subject to a valid Exercise or a Stop Loss Event, the Sprinter Certificates, in whole but not in part, on any Business Day by giving Certificateholders at least the Issuer Call Notice Period notice of its intention to terminate the Sprinter Certificates, such notice to be given at any time from (and including) the Issuer Call Commencement Date. Any such notice shall be given in accordance with General Sprinter Condition 8, and shall specify the Issuer Call Date and Settlement Date.

(D) Cash Settlement

Each Sprinter Certificate entitles its holder, upon due Exercise, termination pursuant to an Issuer Call or following a Stop Loss Event, to receive from the Issuer on the Settlement Date either:

- (i) the Exercise Cash Settlement Amount, following a valid Exercise;
- (ii) the Issuer Call Cash Settlement Amount, following a valid Issuer Call; or
- (iii) the Stop Loss Cash Settlement Amount, following a Stop Loss Event.

Each of the Exercise Cash Settlement Amount, the Issuer Call Cash Settlement Amount and the Stop Loss Cash Settlement Amount is hereinafter referred to as a “Cash Settlement Amount”.

The Cash Settlement Amount will be subject to deduction of Expenses.

The Issuer shall on the Settlement Date pay or cause to be paid the Cash Settlement Amount (if any) for each Sprinter Certificate to the Certificateholder’s account for value on the Settlement Date less any Expenses.

(E) General

The Calculation Agent shall give notice to the holders of the Sprinter Certificates, in accordance with General Sprinter Condition 8, of the occurrence of a Disrupted Day if it results in the postponement of any payment or delivery in respect of the Sprinter Certificates.

4 Exercise Procedure*(A) Notice*

Sprinter Certificates may only be exercised by the delivery, or the sending by tested telex (confirmed in writing), of a duly completed notice (a “Notice”) in the form set out in the Certificate Agreement (copies of which form may be obtained from Euroclear Netherlands and the Certificate Agents during normal office hours) to Euroclear Netherlands with a copy to the Principal Certificate Agent in accordance with the provisions set out in General Sprinter Condition 3 and this General Sprinter Condition.

The Notice shall (among other things):

- (i) specify the series number of the Sprinter Certificates and the number of Sprinter Certificates being exercised;
- (ii) specify the number of the Certificateholder’s account at Euroclear Netherlands to be debited with the Sprinter Certificates being exercised;
- (iii) irrevocably instruct Euroclear Netherlands to debit on or before the Settlement Date the Certificateholder’s account with the Sprinter Certificates being exercised;

- (v) include an undertaking to pay all taxes, duties and/or expenses, including any applicable depository charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising in connection with the exercise of such Sprinter Certificates and an authority to Euroclear Netherlands to deduct an amount in respect thereof from any Cash Settlement Amount due to such Certificateholder and/or to debit a specified account of the Certificateholder at Euroclear Netherlands in respect thereof and to pay such Expenses; and
- (vi) authorise the production of such certification in any applicable administrative or legal proceedings,

all as provided in the Certificate Agreement.

(B) Verification of the Certificateholder

Upon receipt of a Notice, Euroclear Netherlands shall verify that the person exercising the Sprinter Certificates is the holder thereof according to the books of Euroclear Netherlands. Subject thereto, Euroclear Netherlands will confirm to the Principal Certificate Agent the series number and number of Sprinter Certificates being exercised and the account details, if applicable, for the payment of the Cash Settlement Amount. Upon receipt of such confirmation, the Principal Certificate Agent will inform the Issuer thereof. Euroclear Netherlands will on or before the Settlement Date debit the account of the relevant Certificateholder with the Sprinter Certificates being exercised. Upon exercise of less than all

the Sprinter Certificates, a depositary or common depositary for the relevant clearing system(s) will, on the instructions of, and on behalf of, the Principal Certificate Agent, note such exercise and the number of Sprinter Certificates so constituted shall be reduced by the cancellation *pro tanto* of the Sprinter Certificates so exercised.

(C) *Determinations*

Any determination as to whether a Notice is duly completed and in proper form shall be made by Euroclear Netherlands in consultation with the Principal Certificate Agent, and shall be conclusive and binding on the Issuer, the Certificate Agents and the relevant Certificateholder.

Subject as set out below, any Notice so determined to be incomplete or not in proper form, or which is not copied to the Principal Certificate Agent immediately after being delivered or sent to Euroclear Netherlands as provided in paragraph (A) above, shall be null and void.

If such Notice is subsequently corrected to the satisfaction of Euroclear Netherlands in consultation with the Principal Certificate Agent, it shall be deemed to be a new Notice submitted at the time such correction was delivered to or Euroclear Netherlands and the Principal Certificate Agent.

Any Sprinter Certificate with respect to which the Notice has not been duly completed and delivered in the manner set out above by the cut-off time specified in General Sprinter Condition 3(A) shall become void.

Neither the Issuer nor the Certificate Agents shall be liable to any person with respect to any action taken or omitted to be taken by them in connection with any determination as to whether a Notice is complete or in proper form or the notification of such determination to a Certificateholder.

(D) *Delivery of a Notice*

Delivery of a Notice shall constitute an irrevocable election by the relevant Certificateholder to exercise the Sprinter Certificates specified. After the delivery of such Notice, such exercising Certificateholder may not transfer such Sprinter Certificates.

(E) *Exercise Risk*

Exercise of the Sprinter Certificates is subject to all applicable laws, regulations and practices in force on the relevant exercise date and none of the Issuer or any Certificate Agent shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer or the Certificate Agents shall under any circumstances be liable for any acts or defaults of Euroclear Netherlands in relation to the performance of its duties in relation to the Sprinter Certificates.

(F) *Minimum and Maximum Number of Sprinter Certificates Exercisable*

The number of Sprinter Certificates exercisable by any Certificateholder on the Exercise Date, as determined by the Issuer, must not be less than one. Any Notice which purports to exercise Sprinter Certificates in breach of this provision shall be void and of no effect. There is no maximum subscription amount unless otherwise stated in the relevant Final Terms.

5 Illegality

If the Issuer determines that the performance of its obligations under the Sprinter Certificates or any Hedging Arrangement made to hedge its obligations thereunder has become illegal or otherwise prohibited in

whole or in part for any reason, the Issuer may cancel the Sprinter Certificates by giving notice to Certificateholders in accordance with General Sprinter Condition 8.

Should any one or more of the provisions contained in these General Sprinter Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels the Sprinter Certificates then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Certificateholder in respect of each Sprinter Certificate held by such holder, which amount shall be the fair market value of a Sprinter Certificate notwithstanding such illegality or prohibition less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangements, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any Hedging Arrangements all as determined by the Calculation Agent. Payment will be made in such manner as shall be notified to the Certificateholders in accordance with General Sprinter Condition 8.

6 Purchases

The Issuer may, but is not obliged to, at any time purchase Sprinter Certificates at any price in the open market or by tender or private treaty. Any Sprinter Certificates so purchased may be held or resold or surrendered for cancellation.

7 Agents, Determinations and Modifications

(A) Certificate Agents

The specified offices of the Certificate Agents are as set out at the end of these General Sprinter Conditions.

The Issuer reserves the right at any time to vary or terminate the appointment of any Certificate Agent and to appoint further or additional Certificate Agents, provided that no termination of appointment of the Principal Certificate Agent shall become effective until a replacement Principal Certificate Agent shall have been appointed and provided that, so long as any of the Sprinter Certificates are listed or admitted to trading on a stock exchange, there shall be a Certificate Agent having a specified office in each location (if any) required by the rules and regulations of the relevant stock exchange. Notice of any termination of appointment and of any changes in the specified office of any Certificate Agent will be given to Certificateholders in accordance with General Sprinter Condition 8. In acting under the Certificate Agreement, each Certificate Agent acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Certificateholders and any determinations and calculations made in respect of the Sprinter Certificates by any Certificate Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer and the Certificateholders.

(B) Calculation Agent/Issuer

In relation to each issue of Sprinter Certificates, the Calculation Agent (whether it be the Issuer or another entity) acts solely as agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Certificateholders. For the purposes of the Sprinter Certificates, any determinations, calculations or other decisions made by the Calculation Agent and/or the Issuer under or pursuant to the terms of the Sprinter Certificates shall be made in its/their sole and absolute discretion. All such determinations, calculations or other decisions of the Calculation Agent and/or the Issuer shall (save in the case of manifest error) be final, conclusive and binding on all parties, and neither the Calculation Agent nor the Issuer shall have any liability to any person therefor.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

(C) Modifications

The Issuer may modify these General Sprinter Conditions and/or the Certificate Agreement without the consent of the Certificateholders in any manner which the Issuer may deem necessary or desirable provided that such modification is not materially prejudicial to the interests of the Certificateholders or such modification is of a formal, minor or technical nature or to correct a manifest error or to cure, correct or supplement any defective provision contained herein and/or therein. Notice of any such modification will be given to the Certificateholders in accordance with General Sprinter Condition 8 but failure to give, or non-receipt of, such notice will not affect the validity of any such modification.

8 Notices

All notices to Certificateholders shall be valid if delivered to Euroclear Netherlands for communication by them to the holders of the Sprinter Certificates and, in addition, for so long as any Sprinter Certificates are listed or admitted to trading on a stock exchange and the rules of that stock exchange (or any other relevant authority) so require, such notice will be published in the manner required by the rules of that stock exchange (or other relevant authority). Notice shall be deemed to have been given to the holders of the Sprinter Certificates on the first day after the day on which the said notice was given to Euroclear Netherlands.

9 Expenses and Taxation

- (A) A holder of Sprinter Certificates must pay all Expenses relating to such Sprinter Certificates as provided above.
- (B) The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any Sprinter Certificate and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

10 Further Issues

The Issuer shall be at liberty from time to time without the consent of Certificateholders to create and issue further Sprinter Certificates so as to be consolidated with and form a single series with the outstanding Sprinter Certificates.

11 Substitution of the Issuer

- (A) The Issuer may, without any further consent of the Certificateholders being required, when no payment or delivery obligation on any of the Sprinter Certificates is in default, be replaced and substituted by any directly or indirectly wholly owned subsidiary of the Issuer (the “Substituted Obligor”) as principal obligor in respect of the Sprinter Certificates provided that:
 - (i) such documents shall be executed by the Substituted Obligor and the Issuer as may be necessary to give full effect to the substitution (together the “Documents”) and (without limiting the generality of the foregoing) pursuant to which the Substituted Obligor shall undertake in favour of each Certificateholder to be bound by the General Sprinter Conditions of the Sprinter Certificates and the provisions of the Certificate Agreement as fully as if the Substituted Obligor had been named in the Sprinter Certificates and the Certificate Agreement

as the principal obligor in respect of the Sprinter Certificates in place of the Issuer and pursuant to which the Issuer shall guarantee, which guarantee shall be unconditional and irrevocable, (the “Guarantee”) in favour of each Certificateholder the performance by the Substituted Obligor of all obligations under the Sprinter Certificates;

- (ii) the Documents shall contain a covenant by the Substituted Obligor and the Issuer to indemnify and hold harmless each Certificateholder against all liabilities, costs, charges and expenses (provided that insofar as the liabilities, costs, charges and expenses are taxes or duties, the same arise by reason of a law or regulation having legal effect or being in reasonable contemplation on the date such substitution becomes effective) which may be incurred by or levied against such holder as a result of any substitution pursuant to this General Sprinter Condition and which would not have been so incurred or levied had such substitution not been made (and, without limiting the foregoing, such liabilities, costs, charges and expenses shall include any and all taxes or duties which are imposed on any such Certificateholder by any political subdivision or taxing authority of any country in which such Certificateholder resides or is subject to any such tax or duty and which would not have been so imposed had such substitution not been made);
- (iii) the Documents shall contain a warranty and representation by the Substituted Obligor and the Issuer (a) that each of the Substituted Obligor and the Issuer has obtained all necessary governmental and regulatory approvals and consents for such substitution and the performance of its obligations under the Documents, and that all such approvals and consents are in full force and effect and (b) that the obligations assumed by each of the Substituted Obligor and the Issuer under the Documents are all valid and binding in accordance with their respective terms and enforceable by each Certificateholder;
- (iv) each stock exchange which has Sprinter Certificates listed or admitted to trading thereon shall have confirmed that following the proposed substitution of the Substituted Obligor such Sprinter Certificates would continue to be listed or admitted to trading (as the case may be) on such stock exchange;
- (v) the Substituted Obligor shall have delivered to the Principal Certificate Agent or procured the delivery to the Principal Certificate Agent of a legal opinion from a leading firm of local lawyers acting for the Substituted Obligor to the effect that the Documents constitute legal, valid and binding obligations of the Substituted Obligor, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Obligor for the Issuer and to be available for inspection by Certificateholders at the specified office of the Principal Certificate Agent;
- (vi) the Issuer shall have delivered to the Principal Certificate Agent or procured the delivery to the Principal Certificate Agent of a legal opinion from the internal legal adviser to the Issuer to the effect that the Documents (including the Guarantee) constitute legal, valid and binding obligations of the Issuer, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Obligor for the Issuer and to be available for inspection by Certificateholders at the specified office of the Principal Certificate Agent;
- (vii) the Issuer shall have delivered to the Principal Certificate Agent or procured the delivery to the Principal Certificate Agent of a legal opinion from a leading firm of English lawyers to the effect that the Documents (including the Guarantee) constitute legal, valid and binding obligations of the Substituted Obligor and the Issuer under English law, such opinion to be dated not more than three days prior to the date of substitution of the Substituted Obligor for the

Issuer and to be available for inspection by Certificateholders at the specified office of the Principal Certificate Agent; and

- (viii) the Substituted Obligor (if not incorporated in England) shall have appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the Certificates or the Documents.
- (B) In connection with any substitution effected pursuant to this General Sprinter Condition, neither the Issuer nor the Substituted Obligor need have any regard to the consequences of any such substitution for individual Certificateholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Certificateholder, except as provided in General Sprinter Condition 11(A)(ii), shall be entitled to claim from the Issuer or any Substituted Obligor under the Certificates any indemnification or payment in respect of any tax or other consequences arising from such substitution.
- (C) Upon the execution of the Documents as referred to in paragraph (A) above, and subject to the notification as referred to in paragraph (E) below having been given, the Substituted Obligor shall be deemed to be named in the Sprinter Certificates as the principal obligor in place of the Issuer and the Sprinter Certificates shall thereupon be deemed to be amended to give effect to the substitution. The execution of the Documents shall operate to release the Issuer as issuer from all of its obligations as principal obligor in respect of the Sprinter Certificates save that any claims under the Sprinter Certificates prior to release shall enure for the benefit of Certificateholders.
- (D) The Documents shall be deposited with and held by the Principal Certificate Agent for so long as any Sprinter Certificates remain outstanding and for so long as any claim made against the Substituted Obligor by any Certificateholder in relation to the Sprinter Certificates or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Obligor and the Issuer shall acknowledge in the Documents the right of every Certificateholder to the production of the Documents for the enforcement of any of the Sprinter Certificates or the Documents.
- (E) Not later than 15 business days after the execution of the Documents, the Substituted Obligor shall give notice thereof to the Certificateholders in accordance with General Sprinter Condition 8.

12 Contracts (Rights of Third Parties) Act 1999

The Sprinter Certificates do not confer on a third party any right under the Contracts (Rights of Third Parties) Act 1999 (the “Act”) to enforce any term of the Sprinter Certificates but this does not affect any right or remedy of a third party which exists or is available apart from the Act.

13 Governing Law and Jurisdiction

The Sprinter Certificates and the Certificate Agreement, and any non-contractual obligations arising out of or in connection with them, are governed by, and shall be construed in accordance with, English law.

The Courts of England are to have jurisdiction to settle any disputes that may arise out of or in connection with any Sprinter Certificates or the Certificate Agreement and accordingly any legal action or proceedings arising out of or in connection with any Sprinter Certificates or the Certificate Agreement (“Proceedings”) may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of the courts of England and waives any objection to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of each of the holders of the Sprinter Certificates and shall not affect the right of any of them to take Proceedings

in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

The Issuer irrevocably appoints the General Manager for the time being of its London Branch, currently at 60 London Wall, London EC2M 5TQ as its agent in England to receive, for it and on its behalf, service of process in any Proceedings in England. Such service shall be deemed completed on delivery to such process agent (whether or not it is forwarded to and received by the Issuer). If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent and shall immediately notify Certificateholders of such appointment in accordance with General Sprinter Condition 8. Nothing shall affect the right to serve process in any manner permitted by law.

The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on the Share traded on that options exchange.

(C) *Consequences of a Merger Event*

If the Calculation Agent determines that a Merger Event has occurred in respect of the Share, the Issuer may:

- (i) cancel the Sprinter Certificates by giving notice to Certificateholders in accordance with General Sprinter Condition 8. If the Sprinter Certificates are so cancelled the Issuer will pay an amount to each Certificateholder in respect of each Sprinter Certificate held by it which amount shall be the fair market value of a Sprinter Certificate taking into account the Merger Event less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangements, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any Hedging Arrangements all as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Certificateholders in accordance with General Sprinter Condition 8;
- (ii) make such adjustment to the exercise, settlement, payment or any other term or condition of the Sprinter Certificates as the Calculation Agent determines appropriate to account for the economic effect on the Sprinter Certificates of such Merger Event (provided that no adjustments will be made solely to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Share or to the Sprinter Certificates), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event by

an options exchange to options on the Share traded on such options exchange and determine the effective date of that adjustment; and/or

- (iii) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable), and their issuer (if any) to be the relevant “Shares” and the relevant “Share Issuer”, respectively, and if the Calculation Agent determines to be appropriate, the Issuer will adjust any relevant terms and conditions of the Certificates as it may determine.

The Issuer shall give notice of such cancellation, adjustment or deemed change to Certificateholders in accordance with General Sprinter Condition 8.

If the Calculation Agent determines that a Tender Offer has occurred in respect of the Share, then on or after the relevant Tender Offer Date the Issuer may:

- (i) cancel the Sprinter Certificates by giving notice to Certificateholders in accordance with General Sprinter Condition 8. If the Sprinter Certificates are so cancelled the Issuer will pay an amount to each Certificateholder in respect of each Sprinter Certificate held by it which amount shall be the fair market value of a Sprinter Certificate taking into account the Tender Offer less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangements, together with any costs, expenses, fees or taxes incurred by the Issuer in respect of any Hedging Arrangements all as determined by the Calculation Agent. Payments will be made in such manner as shall be notified to the Certificateholders in accordance with General Sprinter Condition 8; or
- (ii) make such adjustment to the exercise, settlement, payment or any other term or condition of the Sprinter Certificates as the Calculation Agent determines appropriate to account for the economic effect on the Sprinter Certificates of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Shares or to the Sprinter Certificates), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the Share traded on such options exchange and determine the effective date of that adjustment.

The Calculation Agent shall give notice of such cancellation or adjustment to Certificateholders in accordance with General Sprinter Condition 8.

4 Nationalisation, Insolvency or De-listing

If in respect of the Share or a Share Issuer the Calculation Agent determines that there has been a Nationalisation, an Insolvency or a De-listing, the Issuer may (i) request the Calculation Agent to determine the appropriate adjustment, if any, to be made to any of the terms and conditions of the Sprinter Certificates to account for the Nationalisation, Insolvency or Delisting, as the case may be, and determine the effective date of that adjustment or (ii) cancel the Sprinter Certificates. If the Sprinter Certificates are so cancelled the Issuer will pay an amount to each Certificateholder in respect of each Sprinter Certificate held by it which amount shall be the fair market value of a Sprinter Certificate taking into account the Nationalisation, Insolvency or De-listing (as the case may be), less, unless specified otherwise in the Final Terms, the cost to the Issuer of amending or liquidating any Hedging Arrangements, together with any costs, expenses, fees or taxes incurred

by the Issuer in respect of any Hedging Arrangements all as determined by the Calculation Agent. In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Sprinter Certificates is subsequently corrected and the correction is published by the Exchange within three Business Days (or such other period as may be specified in the Final Terms) after the original publication, the Calculation Agent has the right, but not the obligation, to determine the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer may adjust the terms and conditions of the Sprinter Certificates to account for such correction.

7 Currency

If the Calculation Agent determines that any event occurs affecting a currency (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to any terms and conditions of the Sprinter Certificates (including the date on which any amount is payable by the Issuer), the Issuer may make such adjustment or adjustments to the terms and conditions of the Sprinter Certificates as it deems necessary. The Issuer shall give notice to the Certificateholders of any such adjustment in accordance with General Sprinter Condition 8.

8 Change in currencies

If, at any time after the Issue Date of the Sprinter Certificates, there is any change in the currency in which the Share is quoted, listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Sprinter Certificates as the Calculation Agent determines appropriate to preserve the economic terms of the Sprinter Certificates. The Calculation Agent will make any conversion necessary for purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the Valuation Time. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Sprinter Certificates.

CHAPTER 24: PARTICIPATION NOTES ISSUED BY ING BANK N.V.

PART 1: TERMS AND CONDITIONS OF PARTICIPATION NOTES

The terms and conditions applicable to participation Notes issued by the Global Issuer shall comprise the Terms and Conditions of the Medium Term Notes issued by the Global Issuer set out in Chapter 2, Part 1 (the “General Conditions”) and the additional Terms and Conditions set out below (the “Participation Conditions”), in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the General Conditions and the Participation Conditions, the Participation Conditions set out below shall prevail. In the event of any inconsistency between (i) the General Conditions and/or the Participation Conditions and (ii) the Final Terms, the Final Terms shall prevail.

1 Final Redemption

Subject to any applicable automatic redemption and/or early redemption and/or put options and/or call options set forth in the Final Terms not having occurred prior to any applicable date specified therein, on the Maturity Date (subject to the provisions of Conditions 6(n) and 6(o) of the General Conditions) the Issuer shall (i) pay the Final Redemption Amount or (if “Reference Unit Delivery” is specified as being applicable in the Final Terms, then in the circumstances described in the Final Terms) (ii) deliver the Reference Unit Amount(s) (subject to and in accordance with Condition 6(p) of the General Conditions), all as further specified in the Final Terms.

2 Distribution Payment Amount

(a) Distribution Payment Amount

The Issuer shall pay to each Noteholder in respect of each Note an amount equal to the dividend or cash distribution received by the Issuer (or which would be so received if it held the relevant Reference Units) in respect of the Number of Reference Units per Note, and in each case minus any applicable taxes (including Contingent Taxes), levies, charges, imposts, duties, assessments or fees of any nature thereon, whether imposed or levied by or on behalf of a Reference Jurisdiction, the Issuer’s jurisdiction of incorporation, or any taxing authority in any other jurisdiction, converted into the Specified Currency at the Relevant Exchange Rate prevailing on the date of receipt (the “**Distribution Payment Amount**”).

(b) Distribution Payment Date

The Issuer shall pay the Distribution Payment Amount in accordance with Condition 5 (*Payments*) of the General Conditions as if such amount were an amount of interest on the third Business Day following receipt by the Issuer of the relevant dividend or cash distribution (or which would be so received if it held the relevant Reference Units) from the Reference Issuer (the “**Distribution Payment Date**”).

3 Distribution Event

If any Distribution Event occurs while there are any Notes outstanding, the Issuer shall (subject to compliance with all applicable laws and regulations), on the Distribution Issue Date, issue to each Noteholder in respect of each Note then held by such Noteholder such additional number of Notes (the “**Number of Distributed Notes**”) equal to: (a) the Number of Distributed Shares; divided by (b) the Number of Reference Units Per Note.

If, with respect to a Distribution Issue Date, the Number of Distributed Notes is not an integral number, then the Number of Distributed Notes shall, in the sole and absolute discretion of the Calculation Agent, be rounded down to the nearest integral number or, if none, zero (the number by which the Number of Distributed Notes is so rounded down being the “**Reduced Number of Distributed Notes**”). In such circumstances, in lieu of issuing such Reduced Number of Distributed Notes, the Issuer shall pay to each Noteholder (with respect to each Note then held by such Noteholder) an amount (the “**Adjustment Rounding Amount**”) equal to the fair market value (determined by the Calculation Agent in its sole and absolute discretion) of such Reduced Number of Distributed Notes.

Each such issue of Notes (and, if applicable, payment of an Adjustment Rounding Amount) on a Distribution Issue Date shall be effected so as to ensure that the Number of Reference Units per Note remains unchanged as a result of the occurrence of the relevant Distribution Event and therefore no Noteholder shall have to pay any subscription proceeds in connection with any such issue of Notes in accordance with this Condition 3.

The Issuer shall notify the Noteholders of the occurrence of Distribution Issue Date in accordance with Condition 13 of the General Conditions.

4 Mandatory Redemption Event

If a Mandatory Redemption Event occurs, the Issuer shall redeem all (but not some) of the Notes at their Early Redemption Amount on such date as the Issuer may notify the Noteholders in accordance with Condition 13 of the General Conditions.

5 Early Redemption Amount

If Condition 5 of the Participation Conditions is specified as applying in the applicable Final Terms:

- (i) In respect of Notes linked to either GDRs or Shares, the “**Early Redemption Amount**” per Note shall be an amount in the Specified Currency as determined by the Issuer in accordance with the following formula (subject to a minimum of zero):

$$\frac{\text{Number of Reference Units per Note} \times \text{Early Redemption Reference Price} \times (1 - (\text{Commission} + \text{Regulatory Change Cost}))}{\text{Relevant Exchange Rate}}$$

in each case less the *pro rata* proportion of any taxes (including Contingent Taxes) or stamp duty, levies, charges, imposts, duties, assessments or fees of any nature incurred (or which would be incurred) on the sale or transfer of the Aggregate Number of Reference Units and/or unwinding of the Hedging Arrangements relating thereto and rounded down to the smallest unit of the Specified Currency, subject to Conditions 8 and 9 of the Participation Conditions below, all as determined by the Calculation Agent in its sole and absolute discretion.

- (ii) If on the Early Redemption Fixing Date the Reference Units have been converted into Combined Reference Units, the “**Early Redemption Amount**” per Note shall be an amount in the Specified Currency as determined by the Issuer in accordance with the following formula (subject to a minimum of zero):

$$\frac{1}{\text{Outstanding Number of Securities}} \times \left[\left(\frac{\text{Early Redemption Shares} \times (\text{Early Redemption Reference Price} - \text{Conversion Costs}) \times (1 - \text{Share Commission})}{\text{Relevant Exchange Rate}} \right) + \left(\frac{\text{Early Redemption GDRs} \times (\text{Early Redemption Reference Price} - \text{Conversion Costs}) \times (1 - \text{GDR Commission})}{\text{Relevant Exchange Rate}} \right) \right]$$

less the *pro rata* proportion of any taxes (including Contingent Taxes), stamp duty, levies, charges, imposts, duties, assessments or fees of any nature or other expenses incurred (or would be incurred) on the sale or transfer of the Early Redemption Shares and Early Redemption GDRs and/or the unwinding of the Hedging Arrangements relating thereto and rounded down to the smallest unit of the Specified Currency, subject to Conditions 8 and 9 of the Participation Conditions below, all as determined by the Calculation Agent in its sole and absolute discretion.

6 Additional Provisions for Other Jurisdictions

For the purposes of the Notes, Condition 6 of the General Conditions shall be amended by the addition of a new Condition 6(o) as follows:

(i) Adjustments

If the Calculation Agent determines that a Potential Adjustment Event has occurred or that there has been an adjustment to the settlement terms of listed contracts on the Shares traded on a Related Exchange, the Calculation Agent will determine, in its sole and absolute discretion, whether such Potential Adjustment Event or adjustment has a diluting or concentrative effect on the theoretical value of the Shares and/or the GDRs (as applicable) and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the Final Redemption Amount, Early Redemption Amount and/or the Strike Price and/or any of the terms and conditions of the Notes as the Calculation Agent determines, in its sole and absolute discretion, appropriate to account for that diluting or concentrative effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividend, stock loan rate or liquidity) and (b) determine the effective date(s) of the adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event or adjustment to settlement terms made by an options exchange to options on the Shares and/or GDRs (as applicable) traded on that options exchange.

(ii) Consequences of a Merger Event

If the Calculation Agent determines that a Merger Event has occurred, the Issuer may,:

- (b) (i) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent, in its sole and absolute discretion, determines appropriate to account for the economic effect on the Notes of such Merger Event (provided that no adjustments will be made to solely account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Shares or the GDRs or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event by an options exchange to options on the Shares and/or GDRs traded on such options exchange and determine the effective date of that adjustment and (ii) determine the effective date of that adjustment; and/or
- (c) save in respect of a Reverse Merger, on or after the relevant Merger Date, deem the New Shares and/or the amount of Other Consideration, if applicable (as subsequently modified in accordance with any relevant terms and including the proceeds of any redemption, if applicable), and their issuer (if any) to be the “Shares” and the “Reference Issuer”, respectively, and if the Calculation Agent, in its sole and absolute discretion, determines to be appropriate, the Issuer will adjust any relevant terms of the Notes as it may determine.

- (b) (i) make such adjustment to the exercise, settlement, payment or any other term or condition of the Notes as the Calculation Agent, in its sole and absolute discretion, determines appropriate to account for the economic effect on the Notes of such Tender Offer (provided that no adjustments will be made to account solely for changes in volatility or liquidity relevant to the Shares and/or GDRs or to the Notes), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Tender Offer by an options exchange to options on the Shares traded on such options exchange and determine the effective date of that adjustment and (ii) determine the effective date of that adjustment.

The Issuer shall give notice of such redemption or adjustment to Noteholders in accordance with Condition 13 of the General Conditions.

(iv) Nationalisation, Insolvency or De-listing

In the event that any price or level published on the Exchange and which is utilised for any calculation or determination made under the Notes is subsequently corrected and the correction is published by the Exchange within three Business Days (or such other period specified in the Final Terms) after the original publication, the Calculation Agent will determine, in its sole and absolute discretion, the amount (if any) that is payable following that correction, and, to the extent necessary, the Issuer will adjust the terms and conditions of the Notes to account for such correction, provided that no such adjustment shall take place after the Expiration Date.

(vii) Currency

If the Calculation Agent determines that any event occurs affecting the Specified Currency or the currency in which any of the Reference Units are quoted, listed and/or dealt in on the Exchange (whether relating to the convertibility of any such currency into other currencies or otherwise) which the Calculation Agent determines necessitates an adjustment or adjustments to the Final Redemption Amount, Strike Price (if applicable) and/or any other relevant term of the Notes (including the date on which any amount is payable by the Issuer), the Issuer may make such adjustment or adjustments to the Final Redemption Amount, Strike Price (if applicable) and/or any other relevant term of the Notes as it deems necessary. The Issuer shall give notice to the holders of the Notes of any such adjustment in accordance with Condition 13 of the General Conditions.

Notice of any determination made pursuant to this paragraph and of any adjustment and/or redemption of the Notes shall be given to Noteholders in accordance with Condition 13 of the General Conditions.

(ix) Change in currency

If, at any time after the Issue Date, there is any change in the currency in which the Reference Units are quoted, listed and/or dealt on the Exchange, then the Issuer will adjust such of the terms and conditions of the Notes as the Calculation Agent determines appropriate to preserve the economic terms of the Notes. The Calculation Agent, in its sole and absolute discretion, will make any conversion necessary for purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent in its sole and absolute discretion prevailing as of the Valuation Time. No adjustments under this section will affect the currency denomination of any payment obligation arising out of the Notes.”

10 Delivery of Reference Unit Amount

For the purposes of the Notes, if “Reference Unit Delivery” is specified as being applicable in the Final Terms, Condition 6 of the General Conditions shall be amended by the addition of a new Condition 6(p) as follows:

“(p) Delivery of Reference Unit Amounts:

(i) Delivery of Reference Unit Amounts

If the Notes are to be redeemed by the delivery of the Reference Unit Amounts, the Issuer shall, on the Reference Unit Delivery Date, deliver or procure the delivery of the Reference Unit Amount in respect of each Note to such account in such clearing system as may be specified by the relevant Noteholder, at the risk and expense of the relevant Noteholder. If a Noteholder does not provide the Issuer with sufficient instructions in a timely manner to enable the Issuer to effect any required delivery of Reference Units, the due date for such delivery shall be postponed accordingly. The Issuer shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used herein, “delivery” in relation to any Reference Unit Amount means the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Reference Unit Amount and “deliver” shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of such Reference Unit Amount once such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for the lawfulness of the acquisition of the Reference Units comprising the Reference Unit Amount or any interest therein by any Noteholder or any other person.

In respect of each Reference Unit comprising the Reference Unit Amount, the Issuer shall not be under any obligation to register or procure the registration of the Noteholder or any other person as the registered shareholder in any register of members of the Reference Issuer.

Noteholders should note that the actual date on which they become holders of the Reference Units comprising their Reference Unit Amount will depend, among other factors, on the procedures of the relevant clearing systems and any share registrar and the effect of any Settlement Disruption Events.

Dividends and distributions in respect of the Shares which constitute a Potential Adjustment Event may result in an adjustment being made pursuant to Condition 6(o) of General Conditions. Neither the Issuer nor any other person shall (a) be under any obligation to deliver (or procure any other person to deliver) to the Noteholders or any other person any letter, certificate, notice, circular or any other document received by that person in its capacity as the holder of the Reference Units, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to the Reference Units or (c) be under any liability to the Noteholders or any subsequent beneficial owners of the Reference Units in respect of any loss or damage which any Noteholder or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being registered at any time as the legal owner of the Reference Units.

(ii) Settlement Disruption

If the Issuer determines that delivery of any Reference Unit Amount in respect of any Note by the Issuer in accordance with the terms and conditions of the Notes is not practicable or permitted by reason of a Settlement Disruption Event subsisting, then the Reference Unit

Delivery Date in respect of such Reference Unit Amount shall be postponed to the first following Delivery Day in respect of which no such Settlement Disruption Event is subsisting and notice thereof shall be given in accordance with Condition 13 of the General Conditions, provided that the Issuer may elect in its sole and absolute discretion to satisfy its obligations in respect of the relevant Note by delivering or procuring the delivery of such Reference Unit Amount using such other commercially reasonable manner as it may select and in such event the Reference Unit Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of such Reference Unit Amount in such other commercially reasonable manner. No Noteholder shall be entitled to any payment whether of interest or otherwise on such Note in the event of any delay in the delivery of the Reference Unit Amount pursuant to this paragraph and no liability in respect thereof shall attach to the Issuer.

Where a Settlement Disruption Event affects some but not all of the Reference Units comprising the Reference Unit Amount, the Reference Unit Delivery Date for the Reference Units comprising such Reference Unit Amount which are not affected by the Settlement Disruption Event will be the originally designated Reference Unit Delivery Date.

For so long as delivery of the Reference Unit Amount in respect of any Note is not practicable or permitted by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole and absolute discretion to satisfy its obligations in respect of each Note by payment to the relevant Noteholder of the Disruption Cash Settlement Price on the third Business Day following the date that notice of such election is given to the Noteholders in accordance with Condition 13 of the General Conditions. Payment of the Disruption Cash Settlement Price will be made in such manner as shall be notified to the Noteholders in accordance with Condition 13 General Conditions.

The Issuer shall give notice as soon as practicable to the Noteholders in accordance with Condition 13 of the General Conditions if a Settlement Disruption Event has occurred.

(iii) Aggregate Reference Unit Amount

The aggregate Reference Unit Amount to which a Noteholder may be entitled will be determined on the basis of the separate (for the avoidance of doubt, not aggregate) number of Notes held by the relevant Noteholder.
